"We know that flu immunization is the No. 1 weapon in our armory for protection against influenza," Wells said. "Even partial protection remains the most important step to prevent flu. And the likelihood of complications will be markedly reduced, even though it is not the best" vaccine.

"It's still highly recommended, yes -- get the vaccine," she said.

A hard sell

MLive.com conducted an investigation of other vaccination rates in Michigan and found that the state has among the highest rate of waivers for required childhood vaccines, which experts say is putting the public at risk for outbreaks of some vaccine-preventable illnesses. **Read the entire series here.**

Trying to convince people to get a flu shot, which is not required for school attendance, underscores the challenges in fighting influenza, one of the nation's most pervasive contagious diseases.

Michigan's **current flu outbreak** may end up being the worst in recent years, with patients right now crowding doctors' offices and hospital intensive care units. As of Jan. 20, one Michigan child has already died, and hospitals are breaking out regional response plans and toughened visiting rules, not sure it won't get worse.

Numbers from the Centers for Disease Control suggest that seasonal influenza remains the most deadly of vaccine-preventable illnesses, responsible for thousands of deaths a year nationwide.

"I think it definitely is a big deal" to do everything possible to try to prevent the spread of the flu, said Dr. Richard Van Enk, director of infection control at Bronson Methodist Hospital in Kalamazoo. "The economic costs of influenza are huge in the U.S. and that alone would be a good reason to immunize."

So why don't people get the flu shot?

Michigan's lackluster 46 percent rate of flu shot vaccination is below the national average, and far, far below vaccination rates for childhood illness such as measles, mumps and rubella, which has a national use rate of 95 percent.

One reason is that the flu vaccine is a new and different shot every year, not a one-shot-for-lifetime-protection like many other vaccines.

Influenza immunity, whether from a shot or from having the flu, does not extend from one season to the next.

Convincing people to get a shot every year can be a problem, doctors say.

"The annual thing produces a challenge," Van Enk said.

"We need our patients to have an encounter with a medical provider of some type annually to get immunized. For many people it means they need to have another encounter, that is outside their normal routine visits, and it takes time to do that," he said. "It's helped to have immunizations available at pharmacies, but it is still an extra encounter."

Another problem is that people may not take flu as seriously as other diseases, perhaps with good reason if they are young and healthy.

While flu can be deadly to the very young, the elderly and those with underlying medical conditions, in most years it does not cause lasting harm to most people.

"Other vaccine-preventable illness can cause brain damage, or damage to different organs, that you can have for the rest of your life. Flu doesn't do that," Van Enk said, "so that creates a different kind of approach when you are trying to motivate people to be vaccinated. "

Shot's effectiveness

Some don't bother with the shot because they don't believe the shot works.

Since CDC began conducting annual flu vaccine effectiveness studies in 2004-05, overall estimates for each season have ranged from 10 percent to 60 percent effectiveness in preventing medical visits associated with seasonal influenza illness.

Every February the CDC and the World Health Organization look at influenza strains circulating around the world at that time and then make recommendations about the formulation of the next flu vaccine.

But of the three or four strains they select, one or more could be subtly different by the time vaccine is produced.

"A virus can change very subtlety," Wells said. "Those subtle differences could be enough to mean that by the time the vaccine is produced, it is no longer a perfect match."

That happened this year with H3N2, one of the dominant flu strains appearing this year, Wells said.

But "the other strains, the H1N1 and B strains, are pretty good matches (with the vaccine), so vaccinated people will likely still be protected from other strains," Wells said.

Plus, she said, the vaccine will provide "moderate protection" from H3N2, "a very important consideration, especially for those who suffer from other medical conditions" that make them vulnerable to illness.

Even if individuals aren't worried about themselves, Wells said, they should consider a flu shot to protect the people around them.

She used that argument in urging her brothers to get a flu shot before visiting their parents.

"My parents are vaccinated but no vaccine is 100 percent effective," Wells said, and making sure she and her brothers are vaccinated helps reduce the risk.

"By making sure myself and my brothers are immunized we can cut down on transmission and protect our loved ones," she said.

Prevention

Given the shortcomings of the vaccine itself in some years, including this one, it actually becomes more important that those who can do get the vaccine, health officials said.

"The goal in public health is to see the maximum number possible vaccinated," Wells said, to help prevent the spread of the disease.

Nationally, public health authorities aspire to a vaccination rate of 70 percent for those in the general population, and 90 for those with underlying medical conditions.

"We are clearly not being effective now because influenza transmits so easily throughout our community each flu season," Wells said.

"Children die needlessly each year, young healthy adults are ending up in the hospital with flu every flu season," she said.

There are important non-pharmaceutical recommendations, too, health authorities said.

"Washing your hands and covering your mouth worked in 1918 even before they knew what the virus was," Wells said.

So did quarantines and social isolation.

"If you are feeling sick, it is good not to go visit elderly relatives, especially if you have little children in your household," she said "Studies showing what grandma always told us works to limit person-to-person spread.

Is it likely there will ever be a single vaccine for all influenza types, and one that will last from year to year as the strains drift?

"That would be the holy Grail of vaccines," Wells said, "one we would not have to be updating each year. We are not there yet, but we are feeling more optimistic given advances in science of immunology.

Given those advances, will vaccination someday stamp out influenza, as has been the case with small pox?

Not likely, Van Enk said.

"If you hoped influenza will go away I'm going to tell you it will never happen," he said.

"There's a simple reason for that: The vaccine preventable diseases that can be eradicated are those in which humans are the only reservoir. That's not true for influenza," he said.

Birds and pigs get influenza too, and the virus is widely distributed in nature.

"There will always be influenza, we cannot possibly eliminate it from all reservoirs," VanEnk said. "That means there will always a need to immunize, to protect ourselves from it."

This is a good year to ponder the public health outlook, weigh options, consider advice, and be aggressive about avoiding the flu.

"In every way that we measure influenza seasons, this is a heavier year than average," Van Enk said. "Presentation of influenza-like illnesses, Emergency Department visits, prescriptions for anti-virals, admissions to ICU, deaths — there are many, many ways but by the end of the season we will see that this season is worse than the average season we have had in last 10 years."

"The flu season can last until May, so it's too early to say with certainty what kind of year it's going to be overall, or whether or not the season has peaked yet, " the state health department spokesperson Jennifer Smith said, "but we do know it's not too late to get vaccinated."

MEDIA MONITORING REPORT

10/01/2015

Issues:

- Several Flint area media outlets are reporting that the Michigan Legislative Black Caucus is asking Gov. Rick Snyder to declare a "state of emergency" to open federal assistance for Flint's water issues. *No local state of emergency has been declared by Genesee County.*

Summary:

- Almost a week after news broke that more Flint kids have been lead poisoned, two weeks after state data confirmed that lead levels in Flint's water had spiked, *more than a year after residents first noticed something was hinky* with the water coming out of their taps, Gov. Rick Snyder has publicly acknowledged that Flint's water supply "appears" to have problems.
- The consequences of using the Flint River for the city's drinking water weren't "fully understood," *Gov. Rick Snyder said Wednesday as he again pledged to take action later this week in response to* significant levels of lead.
- Water is on the minds of every voter in the upcoming mayoral election in Flint.
- Fewer and fewer people are paying their water bills in Flint.
- *Flint hasn't been using any corrosion-control method since it switched from Detroit's water system in* April 2014. Corrosion-control treatment helps keep lead out of drinking water. Since the switch, more kids are showing up with elevated levels of lead in their blood.
- The Michigan Legislative Black Caucus is putting pressure on **Gov. Rick Snyder** to issue a state of *emergency for the city of* **Flint's water problems**.
- A long-time Flint tavern is offering free drinks, both alcoholic and non-alcoholic, for water donations.
- Donations have started to pour in -- some from across the state -- after the Flint School District requested bottled water for students **because of a local lead advisory**.
- *If you have concerns about what may be in your city water, City of Flint officials want you to know* you can get your water tested for free.
- Governors up and down the East Coast are warning residents to prepare for drenching storms as flooding killed one person Thursday in South Carolina.
- *Disaster assistance would benefit from oversight through regular federal evaluation so Congress* should consider creating an independent, external oversee of the American Red Cross, according to a new report by the Government Accountability Office (GAO).

- The Department of Homeland Security is demanding the return of a $32.4 FEMA grant awarded to a Houston hospital to repair damages from Hurricane Ike in 2008 after a new audit revealed most of the grant money had been misused.
- Weather across the state: Cool with highs in the 60s, rain possible this weekend.
- *TV/Radio Reports: Flint water issues.*

Analysis:

- Flint water issues continue to escalate. Members of the Michigan Legislative Black Caucus are asking for the Governor to declare a "state of emergency" for assistance.
- Social media chatter is mobilizing under the #flintwater and #waterworries hashtags on Twitter.
- We will continue to closely monitor the situation.

FLINT WATER

Kaffer: Snyder finally says lead in Flint water may be a problem

Detroit Free Press, Sept. 30, 2015

Almost a week after news broke that more Flint kids have been lead poisoned, two weeks after state data confirmed that lead levels in Flint's water had spiked, more than a year after residents first noticed something was hinky with the water coming out of their taps, Gov. Rick Snyder has publicly acknowledged that Flint's water supply "appears" to have problems.

Publicly, because despite his office's repeated efforts to downplay the severity of the situation, an anonymous water-filter distribution to Flint residents shepherded by Snyder's office earlier this month, suggests that privately, the governor may have understood that something was amiss in this impoverished town.

It's a welcome, if weak, concession from Snyder.

Gov. Rick Snyder: Consequences of using Flint River water weren't 'fully understood' in 2014

Associated Press, Sept. 30, 2015

FLINT, Michigan — The consequences of using the Flint River for the city's drinking water weren't "fully understood," Gov. Rick Snyder said Wednesday as he again pledged to take action later this week in response to significant levels of lead.

Separately, The Flint Journal reported that Snyder's office worked with a donor last month to arrange 1,500 water filters for Flint, which were distributed free to people by churches. The governor's involvement was never publicized, the newspaper reported, because pastors said they were told to stay quiet.

"If the water was OK, why would the governor work with someone to provide the filters?" the Rev. Alfred Harris told the newspaper. "I think the state working with the private donor is an admission the people needed some help."

City's water woes may play big role in upcoming mayoral election

WNEM-TV 5 (Saginaw), Oct. 1, 2015

FLINT, MI (WNEM) -

No doubt about it. Water is on the minds of every voter in the upcoming mayoral election in Flint.

"Flint's water problem is the number one issue that everyone is talking about," said Flint Mayor Dayne Walling.

Numerous problems with Flint River water have plagued the vehicle city since 2014. Now residents are living with high amounts of lead in their tap water.

Many of those people have pinned the blame on Walling including former emergency manager Darnell Early.

In a statement he said he was only implementing the plan laid out by the mayor and city council and said the decision to switch to Flint River water was made long before he became EFM.

Walling disagrees.

"The decision about the flint river was made by prior emergency managers. It was before the time of Darnell Early, he's accurate on that point. But city council and I were just simply not involved," Walling said.

Walling's opponent, Karen Weaver, paints a much different picture.

"He wants to say that it wasn't his decision to do that," Weaver said. "Well, if it wasn't, he sure never spoke out about it not being his decision. He was the one that said it was fine. He was the one that said we could stay with the flint water. He was the one that said brown water was OK to drink."

Fewer Flint water customers are paying their bills

Michigan Radio, Oct. 1, 2015

Fewer and fewer people are paying their water bills in Flint.

Flint's water bill collections are down by $1.75 million since a judge issued an injunction in August rolling back rates and ordering an end to disconnections.

Judge Archie Hayman ruled that Flint illegally raised rates by 35% in 2011.

In his order, the judge told the city to roll back the rate hike on future bills, stop disconnecting customers who are delinquent on the bills through August 2015, and stop placing liens on property owned by delinquent customers.

The water bills with the new rate schedule went out this month.

Flint mayor to state: Approve plan "as fast as humanly possible" to help keep lead out of water

Stateside with Cynthia Canty (Michigan Radio), Sept. 30, 2015

Flint hasn't been using any corrosion-control method since it switched from Detroit's water system in April 2014. Corrosion-control treatment helps keep lead out of drinking water. Since the switch, more kids are showing up with elevated levels of lead in their blood.

Flint Mayor Dayne Walling says he wants to put corrosion-control treatment back in place, but he needs state approval first. The state says it's going to take a little while to implement.

"One of my requests to (Michigan's) Department of Environmental Quality director is that (approval) be accelerated as fast as humanly possible," Walling said.

"Whatever decisions are coming next, we need that corrosion control in the water treatment process that we have now," he said.

Walling was a guest today on Stateside with Cynthia Canty.

Flint water woes seep into city, state politics

The Detroit News, Sept. 30, 2015

Flint — The questionable quality of the city's drinking water made headlines again this week, but not much of it has been news to Ashley Holt.

For almost a year, the water from her faucet has looked "like urine," smelled "like the sewer" and, if you're brave enough to sip it, hasn't tasted "normal," the 25-year-old Flint resident said. It's why she's limited for months how often her children — ages 5, 6 and 12 — come in contact with it.

But following last week's revelation that Flint children are showing higher amounts of lead in their blood, the situation has escalated for her cash-strapped family.

In a city where 41.5 percent of the population is below the poverty line, a lack of money is the reason Holt was walking instead of driving downtown this week to pick up her children from school. She scrambles to find enough to buy them bottled water.

"The only option I've got is just to not drink the water and stick with pop and juice," Holt said. "(I) go to the store and get a gallon of water a day, if I can afford it at the time."

The hardships experienced by residents here are having public health and political ripple effects that are being felt from city hall to the governor's office. Gov. Rick Snyder said Tuesday he could unveil "more action steps" as early as the end of this week.

Legislative Black Caucus urges state of emergency for Flint water

MLive, Sept. 30, 2015

FLINT, MI — The Michigan Legislative Black Caucus is putting pressure on **Gov. Rick Snyder** to issue a state of emergency for the city of **Flint's water problems**.

The organization announced in a Wednesday, Sept. 30, release that its members are concerned about the residents of Flint and lead exposure from the city's water.

The release cited blood samples from Genesee County children that show **lead levels have increased** since the city severed ties from the Detroit Water and Sewerage Department and began using water from the Flint River last year.

According to the release, state Rep. Sheldon Neeley, D-Flint, is working with local, state and federal officials to find solutions and resources.

"Issuing a health emergency is the most responsible thing to do," said Neeley, first vice chairman of the Legislative Black Caucus. "This is a public health crisis, and our children are most at risk. We urge Gov. Snyder to issue the state of emergency so the city of Flint can get immediate monetary relief."

If Snyder declares a state of emergency, the city could gain access to federal funding, the caucus said.

Flint tavern offering free drinks for water donations

MLive, Sept. 30, 2015

FLINT, MI – A long-time Flint tavern is offering free drinks, both alcoholic and non-alcoholic, for water donations.

A Facebook post from the West Court Street bar reads as follows:

"Let's bring clean water to Flint Schools!

Starting today through Friday (Oct 2) - Bring in a case of water between 4 and 7pm, receive your favorite drink on the house*! All donations will be delivered to Durant Tuuri Mott Elementary School. Thank you for your support!

*Qualifying beverages include beer bottles, draft beer, wine, liquor (single pour) and all non-alcoholic beverages."

Chris Poulos, an owner at the West Court Street bar, said his daughter put up the post after they came up with the idea upon hearing about other donation drives taking place in the city.

"I hope to be able to deliver them 20, 25 cases next week," he said, with the business in the process of making some changes to their filtering system for everyday use.

Water donations start to pour in for Flint schools after lead advisory

MLive, Sept. 30, 2015

FLINT, MI – Donations have started to pour in -- some from across the state – after the Flint School District requested bottled water for students **because of a local lead advisory**.

The city and county have **issued lead advisories** related to the city's drinking water. A recent **study by a Hurley Medical Center doctor** says infants and children are being found with elevated levels of lead in their blood since the city switched to using the Flint River as its water source.

On Monday, Superintendent Bilal Tawwab **asked for the community to donate** bottled water to aid the cash-strapped district, which has stopped using tap water in the buildings.

The Flint School District is in the midst of a $16.4 million deficit and all of its spending is guided through its deficit elimination plan.

On Wednesday, Sept. 30, the district received more than 4,000 bottles of water from the 1st Congregational United Church of Christ in Kalamazoo.

How to get your water tested in Flint

WJRT-TV 12 in Flint, Sept. 30, 2015

FLINT (WJRT) - (09/30/15) - If you have concerns about what may be in your city water, City of Flint officials want you to know you can get your water tested for free.

Mike Glasgow, utilities administrator for the City of Flint Water Plant, tells ABC12 more than 250 people have asked to get their water tested just in the past week.

If you're worried about Flint treating the water, this fact might give you some peace of mind.

"We don't do any of the testing here. We're kind of acting as a middle man just to pay and fill out the all the paperwork for the residents to get this testing done," Glasgow said.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Hurricane Joaquin could add to rainy mess along East Coast

Associated Press, Oct. 1, 2015

RALEIGH, N.C. (AP) - Governors up and down the East Coast are warning residents to prepare for drenching storms as flooding killed one person Thursday in South Carolina.

The rains could cause power outages and close roads in a region already walloped by rain. Hurricane Joaquin's approach could intensify the damage, but rain is forecast across the region regardless of the storm's path.

"Our state has seen the damage that extreme weather can cause time and time again - and I am urging New Yorkers to take precautions for more heavy storms in the coming days," New York Gov. Andrew Cuomo said in a news release Wednesday.

Red Cross Targeted in Federal Oversight Legislation

The Nonprofit Times, Sept. 16, 2015

Disaster assistance would benefit from oversight through regular federal evaluation so Congress should consider creating an independent, external oversee of the American Red Cross, according to a new report by the Government Accountability Office (GAO).

The 57-page report released today was in response to a request by Rep. Bennie Thompson (D-Miss.), ranking member of the House Committee on Homeland Security, to examine the agency's involvement in disaster relief. The Washington, D.C.-based, federally-charted nonprofit has come under fire in recent months after stories by NPR and ProPublica have raised questions regarding its effectiveness in response to disasters such as the 2010 Haiti earthquake and Hurricane Sandy in 2012.

Evaluation of the Red Cross could be performed by a federal agency such as Department of Homeland Security (DHS), by an Inspector General (IG) office such as the DHS IG, or by a private research firm under contract to a federal agency, according to the report's recommendations.

Thompson also has introduced legislation today that would require audits at least once every three years by the Treasury Inspector General for Tax Administration (TIGTA), Homeland Security Inspector general, and USAID Inspector General; annual reports by DHS to Congress about its partnerships with the Red Cross; and the Red Cross to provide information on its website about how to contact the Office of the Ombudsman.

Houston hospital squandered $32.4M FEMA grant meant for rebuilding after hurricane: report

The Washington Times, Oct. 1, 2015

The Department of Homeland Security is demanding the return of a $32.4 FEMA grant awarded to a Houston hospital to repair damages from Hurricane Ike in 2008 after a new audit revealed most of the grant money had been misused.

Officials at Riverside General Hospital could not account for Federal Emergency Management Agency (FEMA) grant funds when it spent $17.6 million of the $32.4 million, according to the report from DHS' Office of Inspector General released Wednesday.

Hospital management used the money to pay for normal operating expenses, legal fees, federal taxes, insurance, gift cards, a new grant management system and fire alarm repairs — all unrelated to the 2008 hurricane damage, the audit said.

"This is an unconscionable misuse of Federal disaster resources. The entire amount of this grant should be recovered to protect these funds from further abuse," Inspector General John Roth wrote in a statemen

MEDIA MONITORING REPORT

10/01/2015

Issues:

- Several Flint area media outlets are reporting that the Michigan Legislative Black Caucus is asking Gov. Rick Snyder to declare a "state of emergency" to open federal assistance for Flint's water issues. No local state of emergency has been declared by Genesee County.

Summary:

- Almost a week after news broke that more Flint kids have been lead poisoned, two weeks after state data confirmed that lead levels in Flint's water had spiked, more than a year after residents first noticed something was hinky with the water coming out of their taps, Gov. Rick Snyder has publicly acknowledged that Flint's water supply "appears" to have problems.
- The consequences of using the Flint River for the city's drinking water weren't "fully understood," Gov. Rick Snyder said Wednesday as he again pledged to take action later this week in response to significant levels of lead.
- Water is on the minds of every voter in the upcoming mayoral election in Flint.
- Fewer and fewer people are paying their water bills in Flint.
- Flint hasn't been using any corrosion-control method since it switched from Detroit's water system in April 2014. Corrosion-control treatment helps keep lead out of drinking water. Since the switch, more kids are showing up with elevated levels of lead in their blood.
- *The Michigan Legislative Black Caucus is putting pressure on* **Gov. Rick Snyder** *to issue a state of emergency for the city of* **Flint's water problems**.
- A long-time Flint tavern is offering free drinks, both alcoholic and non-alcoholic, for water donations.
- Donations have started to pour in – some from across the state – after the Flint School District requested bottled water for students **because of a local lead advisory**.
- *If you have concerns about what may be in your city water, City of Flint officials want you to know* you can get your water tested for free.
- Governors up and down the East Coast are warning residents to prepare for drenching storms as flooding killed one person Thursday in South Carolina.
- Disaster assistance would benefit from oversight through regular federal evaluation so Congress should consider creating an independent, external oversee of the American Red Cross, according to a new report by the Government Accountability Office (GAO).
- The Department of Homeland Security is demanding the return of a $32.4 FEMA grant awarded to a Houston hospital to repair damages from Hurricane Ike in 2008 after a new audit revealed most of the grant money had been misused.
- Weather across the state: Cool with highs in the 60s, rain possible this weekend.
- TV/Radio Reports: Flint water issues.

Analysis:

- Flint water issues continue to escalate. Members of the Michigan Legislative Black Cacus are asking for the Governor to declare a "state of emergency" for assistance.
- Social media chatter is mobilizing under the #flintwater and #waterworries hashtags on Twitter.

- We will continue to closely monitor the situation.

FLINT WATER

Kaffer: Snyder finally says lead in Flint water may be a problem

Detroit Free Press, Sept. 30, 2015

Almost a week after news broke that more Flint kids have been lead poisoned, two weeks after state data confirmed that lead levels in Flint's water had spiked, more than a year after residents first noticed something was hinky with the water coming out of their taps, Gov. Rick Snyder has publicly acknowledged that Flint's water supply "appears" to have problems.

Publicly, because despite his office's repeated efforts to downplay the severity of the situation, an anonymous water-filter distribution to Flint residents shepherded by Snyder's office earlier this month, *suggests that privately, the governor may have understood* that something was amiss in this impoverished town.

It's a welcome, if weak, concession from Snyder.

Gov. Rick Snyder: Consequences of using Flint River water weren't 'fully understood' in 2014

Associated Press, Sept. 30, 2015

FLINT, Michigan — The consequences of using the Flint River for the city's drinking water weren't "fully understood," Gov. Rick Snyder said Wednesday as he again pledged to take action later this week in response to significant levels of lead.

Separately, The Flint Journal reported that Snyder's office worked with a donor last month to arrange 1,500 water filters for Flint, which were distributed free to people by churches. The governor's involvement was never publicized, the newspaper reported, because pastors said they were told to stay quiet.

"If the water was OK, why would the governor work with someone to provide the filters?" the Rev. Alfred Harris told the newspaper. "I think the state working with the private donor is an admission the people needed some help."

City's water woes may play big role in upcoming mayoral election

WNEM-TV 5 (Saginaw), Oct. 1, 2015

FLINT, MI (WNEM) -

No doubt about it. Water is on the minds of every voter in the upcoming mayoral election in Flint.

"Flint's water problem is the number one issue that everyone is talking about," said Flint Mayor Dayne Walling.

Numerous problems with Flint River water have plagued the vehicle city since 2014. Now residents are living with high amounts of lead in their tap water.

Many of those people have pinned the blame on Walling including former emergency manager Darnell Early.

In a statement he said he was only implementing the plan laid out by the mayor and city council and said the decision to switch to Flint River water was made long before he became EFM.

Walling disagrees.

"The decision about the flint river was made by prior emergency managers. It was before the time of Darnell Early, he's accurate on that point. But city council and I were just simply not involved," Walling said.

Walling's opponent, Karen Weaver, paints a much different picture.

"He wants to say that it wasn't his decision to do that," Weaver said. "Well, if it wasn't, he sure never spoke out about it not being his decision. He was the one that said it was fine. He was the one that said we could stay with the flint water. He was the one that said brown water was OK to drink."

Fewer Flint water customers are paying their bills

Michigan Radio, Oct. 1, 2015

Fewer and fewer people are paying their water bills in Flint.

Flint's water bill collections are down by $1.75 million since a judge issued an injunction in August rolling back rates and ordering an end to disconnections.

Judge Archie Hayman ruled that Flint illegally raised rates by 35% in 2011.

In his order, the judge told the city to roll back the rate hike on future bills, stop disconnecting customers who are delinquent on the bills through August 2015, and stop placing liens on property owned by delinquent customers.

The water bills with the new rate schedule went out this month.

Flint mayor to state: Approve plan "as fast as humanly possible" to help keep lead out of water

Stateside with Cynthia Canty (Michigan Radio), Sept. 30, 2015

Flint hasn't been using any corrosion-control method since it switched from Detroit's water system in April 2014. Corrosion-control treatment helps keep lead out of drinking water. Since the switch, more kids are showing up with elevated levels of lead in their blood.

Flint Mayor Dayne Walling says he wants to put corrosion-control treatment back in place, but he needs state approval first. The state says it's going to take a little while to implement.

"One of my requests to (Michigan's) Department of Environmental Quality director is that (approval) be accelerated as fast as humanly possible," Walling said.

"Whatever decisions are coming next, we need that corrosion control in the water treatment process that we have now," he said.

Walling was a guest today on Stateside with Cynthia Canty.

Flint water woes seep into city, state politics

The Detroit News, Sept. 30, 2015

Flint — The questionable quality of the city's drinking water made headlines again this week, but not much of it has been news to Ashley Holt.

For almost a year, the water from her faucet has looked "like urine," smelled "like the sewer" and, if you're brave enough to sip it, hasn't tasted "normal," the 25-year-old Flint resident said. It's why she's limited for months how often her children — ages 5, 6 and 12 — come in contact with it.

But following last week's revelation that Flint children are showing higher amounts of lead in their blood, the situation has escalated for her cash-strapped family.

In a city where 41.5 percent of the population is below the poverty line, a lack of money is the reason Holt was walking instead of driving downtown this week to pick up her children from school. She scrambles to find enough to buy them bottled water.

"The only option I've got is just to not drink the water and stick with pop and juice," Holt said. "(I) go to the store and get a gallon of water a day, if I can afford it at the time."

The hardships experienced by residents here are having public health and political ripple effects that are being felt from city hall to the governor's office. Gov. Rick Snyder said Tuesday he could unveil "more action steps" as early as the end of this week.

Legislative Black Caucus urges state of emergency for Flint water

MLive, Sept. 30, 2015

FLINT, MI — The Michigan Legislative Black Caucus is putting pressure on **Gov. Rick Snyder** to issue a state of emergency for the city of **Flint's water problems**.

The organization announced in a Wednesday, Sept. 30, release that its members are concerned about the residents of Flint and lead exposure from the city's water.

The release cited blood samples from Genesee County children that show **lead levels have increased** since the city severed ties from the Detroit Water and Sewerage Department and began using water from the Flint River last year.

According to the release, state Rep. Sheldon Neeley, D-Flint, is working with local, state and federal officials to find solutions and resources.

"Issuing a health emergency is the most responsible thing to do," said Neeley, first vice chairman of the Legislative Black Caucus. "This is a public health crisis, and our children are most at risk. We urge Gov. Snyder to issue the state of emergency so the city of Flint can get immediate monetary relief."

If Snyder declares a state of emergency, the city could gain access to federal funding, the caucus said.

Flint tavern offering free drinks for water donations

MLive, Sept. 30, 2015

FLINT, MI – A long-time Flint tavern is offering free drinks, both alcoholic and non-alcoholic, for water donations.

A Facebook post from the West Court Street bar reads as follows:

"Let's bring clean water to Flint Schools!

Starting today through Friday (Oct 2) - Bring in a case of water between 4 and 7pm, receive your favorite drink on the house*! All donations will be delivered to Durant Tuuri Mott Elementary School. Thank you for your support!

*Qualifying beverages include beer bottles, draft beer, wine, liquor (single pour) and all non-alcoholic beverages."

Chris Poulos, an owner at the West Court Street bar, said his daughter put up the post after they came up with the idea upon hearing about other donation drives taking place in the city.

"I hope to be able to deliver them 20, 25 cases next week," he said, with the business in the process of making some changes to their filtering system for everyday use.

Water donations start to pour in for Flint schools after lead advisory

MLive, Sept. 30, 2015

FLINT, MI – Donations have started to pour in – some from across the state – after the Flint School District requested bottled water for students **because of a local lead advisory**.

The city and county have **issued lead advisories** related to the city's drinking water. A recent **study by a Hurley Medical Center doctor** says infants and children are being found with elevated levels of lead in their blood since the city switched to using the Flint River as its water source.

On Monday, Superintendent Bilal Tawwab **asked for the community to donate** bottled water to aid the cash-strapped district, which has stopped using tap water in the buildings.

The Flint School District is in the midst of a $16.4 million deficit and all of its spending is guided through its deficit elimination plan.

On Wednesday, Sept. 30, the district received more than 4,000 bottles of water from the 1st Congregational United Church of Christ in Kalamazoo.

How to get your water tested in Flint

WJRT-TV 12 in Flint, Sept. 30, 2015

FLINT (WJRT) - (09/30/15) - If you have concerns about what may be in your city water, City of Flint *officials want you to know you can get your water tested for free.*

Mike Glasgow, utilities administrator for the City of Flint Water Plant, tells ABC12 more than 250 people have asked to get their water tested just in the past week.

If you're worried about Flint treating the water, this fact might give you some peace of mind.

"We don't do any of the testing here. We're kind of acting as a middle man just to pay and fill out the all the paperwork for the residents to get this testing done," Glasgow said.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Hurricane Joaquin could add to rainy mess along East Coast

Associated Press, Oct. 1, 2015

RALEIGH, N.C. (AP) - Governors up and down the East Coast are warning residents to prepare for drenching storms as flooding killed one person Thursday in South Carolina.

The rains could cause power outages and close roads in a region already walloped by rain. Hurricane Joaquin's approach could intensify the damage, but rain is forecast across the region regardless of the storm's path.

"Our state has seen the damage that extreme weather can cause time and time again - and I am urging New Yorkers to take precautions for more heavy storms in the coming days," New York Gov. Andrew Cuomo said in a news release Wednesday.

Red Cross Targeted in Federal Oversight Legislation

The Nonprofit Times, Sept. 16, 2015

Disaster assistance would benefit from oversight through regular federal evaluation so Congress should consider creating an independent, external oversee of the American Red Cross, according to a new report by the Government Accountability Office (GAO).

The 57-page report released today was in response to a request by Rep. Bennie Thompson (D-Miss.), ranking member of the House Committee on Homeland Security, to examine the agency's involvement in disaster relief. The Washington, D.C.-based, federally-charted nonprofit has come under fire in recent months after stories by NPR and ProPublica have raised questions regarding its effectiveness in response to disasters such as the 2010 Haiti earthquake and Hurricane Sandy in 2012.

Evaluation of the Red Cross could be performed by a federal agency such as Department of Homeland Security (DHS), by an Inspector General (IG) office such as the DHS IG, or by a private research firm under contract to a federal agency, according to the report's recommendations.

Thompson also has introduced legislation today that would require audits at least once every three years by the Treasury Inspector General for Tax Administration (TIGTA), Homeland Security Inspector general, and USAID Inspector General; annual reports by DHS to Congress about its partnerships with the Red Cross; and the Red Cross to provide information on its website about how to contact the Office of the Ombudsman.

Houston hospital squandered $32.4M FEMA grant meant for rebuilding after hurricane: report

The Washington Times, Oct. 1, 2015

The Department of Homeland Security is demanding the return of a $32.4 FEMA grant awarded to a Houston hospital to repair damages from Hurricane Ike in 2008 after a new audit revealed most of the grant money had been misused.

Officials at Riverside General Hospital could not account for Federal Emergency Management Agency (FEMA) grant funds when it spent $17.6 million of the $32.4 million, according to the report from DHS' Office of Inspector General released Wednesday.

Hospital management used the money to pay for normal operating expenses, legal fees, federal taxes, insurance, gift cards, a new grant management system and fire alarm repairs — all unrelated to the 2008 hurricane damage, the audit said.

"This is an unconscionable misuse of Federal disaster resources. The entire amount of this grant should be recovered to protect these funds from further abuse," Inspector General John Roth wrote in a statemen

FLINT WATER

Kaffer: Snyder finally says lead in Flint water may be a problem

Detroit Free Press, Sept. 30, 2015

Almost a week after news broke that more Flint kids have been lead poisoned, two weeks after state data confirmed that lead levels in Flint's water had spiked, more than a year after residents first noticed something was hinky with the water coming out of their taps, Gov. Rick Snyder has publicly acknowledged that Flint's water supply "appears" to have problems.

Publicly, because despite his office's repeated efforts to downplay the severity of the situation, an anonymous water-filter distribution to Flint residents shepherded by Snyder's office earlier this month, suggests that privately, the governor may have understood that something was amiss in this impoverished town.

It's a welcome, if weak, concession from Snyder.

Gov. Rick Snyder: Consequences of using Flint River water weren't 'fully understood' in 2014

Associated Press, Sept. 30, 2015

FLINT, Michigan — The consequences of using the Flint River for the city's drinking water weren't "fully understood," Gov. Rick Snyder said Wednesday as he again pledged to take action later this week in response to significant levels of lead.

Separately, The Flint Journal reported that Snyder's office worked with a donor last month to arrange 1,500 water filters for Flint, which were distributed free to people by churches. The governor's involvement was never publicized, the newspaper reported, because pastors said they were told to stay quiet.

"If the water was OK, why would the governor work with someone to provide the filters?" the Rev. Alfred Harris told the newspaper. "I think the state working with the private donor is an admission the people needed some help."

City's water woes may play big role in upcoming mayoral election

WNEM-TV 5 (Saginaw), Oct. 1, 2015

FLINT, MI (WNEM) -

No doubt about it. Water is on the minds of every voter in the upcoming mayoral election in Flint.

"Flint's water problem is the number one issue that everyone is talking about," said Flint Mayor Dayne Walling.

Numerous problems with Flint River water have plagued the vehicle city since 2014. Now residents are living with high amounts of lead in their tap water.

Many of those people have pinned the blame on Walling including former emergency manager Darnell Early.

In a statement he said he was only implementing the plan laid out by the mayor and city council and said the decision to switch to Flint River water was made long before he became EFM.

Walling disagrees.

"The decision about the flint river was made by prior emergency managers. It was before the time of Darnell Early, he's accurate on that point. But city council and I were just simply not involved," Walling said.

Walling's opponent, Karen Weaver, paints a much different picture.

"He wants to say that it wasn't his decision to do that," Weaver said. "Well, if it wasn't, he sure never spoke out about it not being his decision. He was the one that said it was fine. He was the one that said we could stay with the flint water. He was the one that said brown water was OK to drink."

Fewer Flint water customers are paying their bills

Michigan Radio, Oct. 1, 2015

Fewer and fewer people are paying their water bills in Flint.

Flint's water bill collections are down by $1.75 million since a judge issued an injunction in August rolling back rates and ordering an end to disconnections.

Judge Archie Hayman ruled that Flint illegally raised rates by 35% in 2011.

In his order, the judge told the city to roll back the rate hike on future bills, stop disconnecting customers who are delinquent on the bills through August 2015, and stop placing liens on property owned by delinquent customers.

The water bills with the new rate schedule went out this month.

Flint mayor to state: Approve plan "as fast as humanly possible" to help keep lead out of water

Stateside with Cynthia Canty (Michigan Radio), Sept. 30, 2015

Flint hasn't been using any corrosion-control method since it switched from Detroit's water system in April 2014. Corrosion-control treatment helps keep lead out of drinking water. Since the switch, more kids are showing up with elevated levels of lead in their blood.

Flint Mayor Dayne Walling says he wants to put corrosion-control treatment back in place, but he needs state approval first. The state says it's going to take a little while to implement.

"One of my requests to (Michigan's) Department of Environmental Quality director is that (approval) be accelerated as fast as humanly possible," Walling said.

"Whatever decisions are coming next, we need that corrosion control in the water treatment process that we have now," he said.

Walling was a guest today on Stateside with Cynthia Canty.

Flint water woes seep into city, state politics

The Detroit News, Sept. 30, 2015

Flint — The questionable quality of the city's drinking water made headlines again this week, but not much of it has been news to Ashley Holt.

For almost a year, the water from her faucet has looked "like urine," smelled "like the sewer" and, if you're brave enough to sip it, hasn't tasted "normal," the 25-year-old Flint resident said. It's why she's limited for months how often her children — ages 5, 6 and 12 — come in contact with it.

But following last week's revelation that Flint children are showing higher amounts of lead in their blood, the situation has escalated for her cash-strapped family.

In a city where 41.5 percent of the population is below the poverty line, a lack of money is the reason Holt was walking instead of driving downtown this week to pick up her children from school. She scrambles to find enough to buy them bottled water.

"The only option I've got is just to not drink the water and stick with pop and juice," Holt said. "(I) go to the store and get a gallon of water a day, if I can afford it at the time."

The hardships experienced by residents here are having public health and political ripple effects that are being felt from city hall to the governor's office. Gov. Rick Snyder said Tuesday he could unveil "more action steps" as early as the end of this week.

Legislative Black Caucus urges state of emergency for Flint water

MLive, Sept. 30, 2015

FLINT, MI — The Michigan Legislative Black Caucus is putting pressure on **Gov. Rick Snyder** to issue a state of emergency for the city of **Flint's water problems**.

The organization announced in a Wednesday, Sept. 30, release that its members are concerned about the residents of Flint and lead exposure from the city's water.

The release cited blood samples from Genesee County children that show **lead levels have increased** since the city severed ties from the Detroit Water and Sewerage Department and began using water from the Flint River last year.

According to the release, state Rep. Sheldon Neeley, D-Flint, is working with local, state and federal officials to find solutions and resources.

"Issuing a health emergency is the most responsible thing to do," said Neeley, first vice chairman of the Legislative Black Caucus. "This is a public health crisis, and our children are most at risk. We urge Gov. Snyder to issue the state of emergency so the city of Flint can get immediate monetary relief."

If Snyder declares a state of emergency, the city could gain access to federal funding, the caucus said.

Flint tavern offering free drinks for water donations

MLive, Sept. 30, 2015

FLINT, MI -- A long-time Flint tavern is offering free drinks, both alcoholic and non-alcoholic, for water donations.

A Facebook post from the West Court Street bar reads as follows:

"Let's bring clean water to Flint Schools!

Starting today through Friday (Oct 2) - Bring in a case of water between 4 and 7pm, receive your favorite drink on the house*! All donations will be delivered to Durant Tuuri Mott Elementary School. Thank you for your support!

"We don't do any of the testing here. We're kind of acting as a middle man just to pay and fill out the all the paperwork for the residents to get this testing done," Glasgow said.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Hurricane Joaquin could add to rainy mess along East Coast

Associated Press, Oct. 1, 2015

RALEIGH, N.C. (AP) - *Governors up and down the East Coast are warning residents to prepare for* drenching storms as flooding killed one person Thursday in South Carolina.

The rains could cause power outages and close roads in a region already walloped by rain. Hurricane Joaquin's approach could intensify the damage, but rain is forecast across the region regardless of the storm's path.

"Our state has seen the damage that extreme weather can cause time and time again - and I am urging New Yorkers to take precautions for more heavy storms in the coming days," New York Gov. Andrew Cuomo said in a news release Wednesday.

Red Cross Targeted in Federal Oversight Legislation

The Nonprofit Times, Sept. 16, 2015

Disaster assistance would benefit from oversight through regular federal evaluation so Congress should consider creating an independent, external oversee of the American Red Cross, according to a new report by the Government Accountability Office (GAO).

The 57-page report released today was in response to a request by Rep. Bennie Thompson (D-Miss.), ranking member of the House Committee on Homeland Security, to examine the agency's involvement in disaster relief. The Washington, D.C.-based, federally-charted nonprofit has come under fire in recent months after stories by NPR and ProPublica have raised questions regarding its effectiveness in response to disasters such as the 2010 Haiti earthquake and Hurricane Sandy in 2012.

Evaluation of the Red Cross could be performed by a federal agency such as Department of Homeland Security (DHS), by an Inspector General (IG) office such as the DHS IG, or by a private research firm under contract to a federal agency, according to the report's recommendations.

Thompson also has introduced legislation today that would require audits at least once every three years by the Treasury Inspector General for Tax Administration (TIGTA), Homeland Security Inspector general, and USAID Inspector General; annual reports by DHS to Congress about its partnerships with the Red Cross; and the Red Cross to provide information on its website about how to contact the Office of the Ombudsman.

Houston hospital squandered $32.4M FEMA grant meant for rebuilding after hurricane: report

The Washington Times, Oct. 1, 2015

The Department of Homeland Security is demanding the return of a $32.4 FEMA grant awarded to a Houston hospital to repair damages from Hurricane Ike in 2008 after a new audit revealed most of the grant money had been misused.

Officials at Riverside General Hospital could not account for Federal Emergency Management Agency (FEMA) grant funds when it spent $17.6 million of the $32.4 million, according to the report from DHS' Office of Inspector General released Wednesday.

Hospital management used the money to pay for normal operating expenses, legal fees, federal taxes, insurance, gift cards, a new grant management system and fire alarm repairs — all unrelated to the 2008 hurricane damage, the audit said.

"This is an unconscionable misuse of Federal disaster resources. The entire amount of this grant should be recovered to protect these funds from further abuse," Inspector General John Roth wrote in a statemen

OFFICIAL STATEMENT

MICHIGAN STATE POLICE

Genesee County's Request for a Governor's Declaration

DRAFT: January 4, 2015

In response to Genesee County's request for a Governor's disaster declaration, Capt. Chris A Kelenske, Deputy Director of Emergency Management and Homeland Security, issued the following statement:

"The drinking water crisis in the city of Flint is an unacceptable situation for everyone involved. Every day, we expect clean and safe water without worry or concern. Unfortunately, Flint residents cannot trust the water that comes out of their taps.

"To date, federal, state and local government and many private nonprofit organizations have provided money, filters or staff expertise. Through a whole community approach, everyone is collaborating to bring Flint back to a state of normalcy.

"This crisis will require long-term fixes—not temporary solutions. An emergency or disaster declaration—whether state or federal—is meant to restore a community to a level that meets expected health and safety considerations. These declarations only provide short-term relief and not the long-term solutions required to solve this crisis. We must manage expectations.

"The Michigan State Police will examine Genesee County's request for a governor's declaration and work with local, state and federal officials to ensure all possible solutions are examined. Flint residents are first and foremost on our minds, and we will do whatever it takes to ensure their health and safety."

END

Procedure for Processing Governor's Emergency or Disaster Declaration Requests Under 1976 PA 390, as Amended, MCL 30.403

Purpose

Prescribe a standard process for processing local requests for a Governor's declaration of emergency or disaster under the Michigan Emergency Management Act (1976 PA 390, as amended) subsequent to an incident or event that overwhelms local resources and capabilities requiring state assistance. This process can also be initiated as a preparatory step, in anticipation of such local requests being submitted based on preliminary assessments of the type and level of damage and negative impacts incurred by local jurisdictions.

Scope

Activities related to the timely, thorough, consistent, impartial, and efficient receipt, review, analysis, and processing of requests for a Governor's declaration of emergency or disaster under the Michigan Emergency Management Act. This procedure provides a standard "roadmap" for MSP/EMHSD staff to use to address all such requests.

Tools

Refer to the attached timeline and process chart for the major steps involved, including critical "handoffs" that must occur to keep the declaration request process moving forward in an acceptable manner and timeframe. Also attached is a list of standard evaluation criteria that should be considered for each and every request. To be consistent, each request must be reviewed in the same manner using these same tools.

Initiation / Implementation

Responsibility for initiation and implementation of the process prescribed in this procedure ultimately rests with the designated SEOC State Director. Although several MSP/EMHSD staff have responsibilities related to the actual application of the procedure, the State Director is responsible for ensuring that required activities occur in the order and manner prescribed.

Involved Entities (Declaration Request Evaluation Committee)

The following MSP/EMHSD staff (by SEOC or day-to-day title) or state agencies have responsibilities identified in this procedure:

- State Director
- Operations Section Chief
- Planning Section Chief
- Finance / Administration Section Chief
- Public Information Officer
- MSP/EMHSD and/or state agency subject matter experts as deemed necessary
- Executive (Governor's) Office Legal Counsel as deemed necessary

Collectively, these individuals are known as the SEOC "Declaration Request Evaluation Committee." The Committee will be chaired by the State Director as designated by the EMHSD Commander. To the extent practicable, this same committee structure will be followed for the review of all local declaration requests. This will ensure fairness and consistency in the review and decision making process.

Procedure

When local declaration requests are received, the following standard procedure will be applied in each and every instance:

1. Request is received via one of more of the following means:

- Attachment to the Critical Incident Management System (CIMS) as an Incident Report or Jurisdiction Situation Report; may also be attached to an Agency Situation Report as well.
- E mail transmittal to SEOC and/or MSP/EMHSD staff
- Facsimile transmittal to SEOC
- Verbal request via telephone and/or in person

Notes: Although the CIMS Report attachment is the only valid method of transmittal in accordance with the Damage Assessment Handbook (if CIMS is operable at the time), it must be assumed that requests may be sent via other means as a supplement to (or substitute for) a CIMS transmittal. It is the responsibility of the EMHSD Duty Officer and SEOC Operations Chief to notify the EMHSD Commander of the receipt of a local declaration request via CIMS. This requires that the EMHSD Duty Officer and SEOC Operations Chief review all post-incident CIMS reports and duty log entries for possible declaration requests. In addition, any other designated EMHSD staff that become aware of the receipt of a declaration request are also required to notify the EMHSD Captain. Although this may result in redundant reporting, it will also help ensure that local declaration requests do not "slip through the cracks." **(PROCESS HANDOFF #1)**

2. The Planning Section Chief initiates review and analysis of the local declaration request. The Planning Section Chief will work with the MSP/EMHSD District Coordinator for the affected district to notify the requesting local jurisdiction of the need for supporting damage assessment information to initiate declaration request processing.

3. The Planning Section Chief forwards analysis of the local declaration request and supporting damage assessment information to the State Director for review, concurrence, and activation of the Declaration Request Evaluation Committee. **(PROCESS HANDOFF #2)**

Notes: At this juncture, the SEOC Planning Section Chief will begin to prepare draft correspondence related to the request. Refer to Step 7 below.

4. SEOC Incident Commander convenes the Declaration Request Evaluation Committee when deemed appropriate.

Notes: Normally these meetings will occur at the MSP/EMHSD office. The meeting location can be changed by the State Director if situational circumstances do not allow for use of the MSP/EMHSD office. Although it is the responsibility of the State Director to select the date and time for convening of the Committee, this should normally occur by no later than three business days (Monday-Friday, excluding state holidays) after receipt of the initial declaration request AND the required supporting damage assessment information as prescribed in the Damage Assessment Handbook (MSP/EMHSD Publication 901). If the requesting local jurisdiction is prompt and thorough in its collection and submittal of damage assessment information (within 72 hours), the declaration request can be promptly reviewed by the Committee. If the jurisdiction does not submit the required damage assessment information in a prompt and appropriate manner, the review by the Committee will be necessarily delayed.

5. Declaration Request Evaluation Committee evaluates the declaration request using the standard criteria prescribed in Attachment 1 and formulates a recommendation regarding the request. (The recommendation will be based on the consensus of the Committee. If consensus cannot be reached, the Governor's Legal Counsel will make the determination based on his/her perception of the Governor's intentions regarding the declaration.)

Notes: It is incumbent on the Committee to use the same criteria for each and every declaration request to ensure fairness and consistency. The Committee may also review other situationally-

relevant information as deemed appropriate by the State Director to reach a prompt, informed and fair recommendation on the request. The State Director will chair and run the committee meeting unless this authority is delegated to another appropriate staff member. For record keeping purposes, any absent committee members will be noted along with the reason for their absence and this information will be included in the permanent record maintained related to the Committee's deliberations and decision. The State Director is responsible for maintaining the permanent record. (This information is to be kept in hardcopy only and will be maintained by the MSP/EMHSD Division Commander's secretary for an appropriate time frame as prescribed by state records guidelines and protocols.)

6. The State Director conveys the Committee's recommendation to the Governor's Legal Counsel (if not present at the Committee meeting) for a final decision by the Governor. **(PROCESS HANDOFF #3)**

7. The Planning Section Chief finalizes appropriate correspondence based on the Committee's recommendation and the Governor's likely decision. This correspondence is reviewed by the State Director and Public Information Officer to ensure it properly conveys the Committee's recommendation and the Governor's sentiment toward the request. The SEOC Incident Commander and MSP//EMHSD Public Information Officer jointly (and promptly) provide the Planning Section Chief with required edits. **(PROCESS HANDOFF #4)**

Notes: To the extent practicable, this correspondence will be pre-developed to ensure its timely finalization, approval and dissemination. If the declaration is approved or likely to be approved and the jurisdiction requested financial assistance under MCL 30.419 (Section 19 of 1976 PA 390, as amended), the correspondence will consist of a draft letter from the MSP/EMHSD Commander to the requesting jurisdiction indicating that the declaration is approved and specifying the nature and scope of the state assistance to be rendered – including addressing the expectation of Section 19 funding. In addition, a draft emergency or disaster declaration will also be prepared indicating the nature of the incident and extent of damage and impact. If the declaration is not approved or likely to not be approved, the correspondence will consist of a draft letter from the MSP/EMHSD Commander to the requesting jurisdiction indicating that the request is not approved and highlighting direct state assistance that might have already been provided to the jurisdiction to address threats to public health and safety. The letter will also address the jurisdiction's request (if any) for Section 19 funding by indicating that because the declaration was not approved, funding was not approved. In most cases, both sets of correspondence will be pre-developed – prior to the Committee meeting – and then the appropriate set will be customized to reflect the Committee's recommendation and the Governor's likely decision. Copies of previous correspondence can be found on the MSP/EMHSD S drive in the "Disasters" folder, and in recent CIMS incident files.

8. The Governor makes the decision on the declaration request and notifies the State Director through the Governor's Legal Counsel. The State Director conveys the Governor's decision verbally to the requesting jurisdiction (as a courtesy) prior to the dissemination of the official correspondence. **(PROCESS HANDOFF #5)**

9. If the declaration is granted, state assistance is rendered in accordance with the request, the declaration, and incident needs.

10. The Planning Section Chief updates the Governor's declaration lists (cumulative and by local jurisdiction) in the Michigan Hazard Analysis if a declaration is granted. This prompt action ensures that accurate lists are maintained at all times for planning and public information purposes. The GIS Specialist also promptly updates the corresponding GIS map based on the information provided by the Planning Section Chief.

Timeframe

As indicated by the timeline shown in Attachment 2, this evaluation process will normally be completed within 5-7 business days of receipt of the request from a local jurisdiction AND the supporting damage assessment information required to effectively evaluate the request. That 5-7 business day general timeframe may be influenced by several factors, including the timeliness and quality of the supporting damage assessment information and the need for supplemental and/or amended information, the availability of members of the Declaration Request Evaluation Committee (all of whom have SEOC or other incident response roles) and/or the Governor, and the urgency of the assistance needed to protect public health and/or safety. It is the responsibility of the State Director to ensure that a timely decision is made on the declaration request, and to expedite the declaration review and decision making process as required to address urgent needs to protect public health and/or safety.

Logistics Support and Resource Requirements

All resources required to implement this procedure are provided through the MSP/EMHSD and SEOC. The MSP/EMHSD will review this procedure on an annual basis with the Governor's Legal Counsel and update it as required.

Closeout

This procedure is closed out when Steps 1-10 above have been completed.

Attachment 1: Criteria for Evaluating Local Requests for a Governor's Emergency or Disaster Declaration under 1976 PA 390, as amended, MCL 30.403

Request for Declaration

When a request for a Governor's declaration is received, the MSP/EMHSD is responsible for examining the request, conducting necessary background investigations on the situation, and making a recommendation to the Governor's office for approval or denial of the request. The Declaration Request Evaluation Committee will use the following basic criteria as guidelines for making such recommendations:

1. Is the situation widespread or severe enough to warrant a declaration? Special emphasis will be placed on whether or not the requesting jurisdiction is treating the situation like an emergency (as opposed to "business as usual").

2. Does the situation adversely impact public health, safety and welfare? Specific areas to examine include:

   - Emergency vehicle access (e.g., debris issues and/or road or bridge damage, length of required detours, inaccessible areas, etc.)
   - Non-addressed dangers to the public (e.g., hazard trees, downed wires, holes / cracks in roadways, bridges out, debris piles, fire dangers, failing dam, etc.)
   - Public sanitation (e.g., water service, wastewater treatment, trash removal, dead animal removal, etc.)
   - Environmental degradation (e.g., presence of hazardous materials / substances, toxic runoff, mudslides, unstable soils / subsurface areas, air contaminants, excessive sedimentation in waterways, widespread deforestation, etc.)
   - Fiscal impact* (e.g., ability to provide emergency services such as police / fire / EMS)
   - Disruption / curtailment of vital community services (e.g., schools, human services, child care, jails / prisons, public transportation, etc.)

3. What is the impact on the community? Specific areas to examine include:

   - Physical destruction (e.g., home and business damage, public facility / infrastructure damage, artificial drainage system damage, extent / anticipated duration of damage, etc.)
   - Social disruption (e.g., adverse impacts to special needs populations, cancellation of community events, etc.)
   - Economic disruption (e.g., lost business income, unemployment due to incident, lost wages, economic impacts of cancelled community events, etc.)
   - Fiscal impact* (e.g., to jurisdiction budget, required cutbacks in departments / services, reduced ability to collect revenue, etc.)
   - Disruption / curtailment of vital community services (e.g., adverse impacts to special needs populations, reduced quality of life issues, etc.)

---

* A recommendation for a governor's declaration will not be made solely on the basis of financial criteria specified in Public Act 390 (not less than $30,000.00 or 1% of the applicant's affected agencies' annual general fund operating budget, whichever is less). These criteria are only to be used in determining if an award of Section 19 funding is warranted <u>following</u> a Governor's declaration of an Emergency or Disaster.

4. What type of assistance is the jurisdiction requesting? The type of assistance requested determines how this criterion is examined:

   - If the jurisdiction is requesting state assistance in the form of materials, equipment, services, personnel, etc., then it must be determined if local resources have been exhausted; this includes use of local contractors, activation of mutual aid, and use of nearby resources.

   - In addition, the following factors will be considered as appropriate:

     ✓ Past disaster experience, with emphasis on prior disaster hardship (i.e., has the jurisdiction been hit hard before, and especially recently?)
     ✓ Hazard mitigation record, (i.e., was something that should have been mitigated in the past a contributing factor in the current situation?)
     ✓ State's ability to pay (especially pertinent for disasters with multiple requests for financial assistance and/or requests during difficult budget periods); lack of available funding will likely result in denial of requests that may otherwise qualify for assistance
     ✓ Will the declaration set an unwanted precedent (i.e., for new or unusual circumstances not previously addressed under 1976 PA 390, as amended)?

Recommendation

Once the request has been examined carefully against the four criteria prescribed above, a recommendation will be made by the State Director to the Governor for approval or denial of the request, as per Step 6 in the Procedure. Such a recommendation will be promptly conveyed to the Governor's Legal Counsel in the manner preferred / prescribed by the Governor's Office.

Draft Declaration / Governor's Review and Signature

As per Step 7 in the Procedure, the Planning Section Chief will prepare the draft declaration in the manner prescribed by the Governor's Office. Normally, declarations take the form of an Executive Proclamation or Executive Order for the Governor's signature. Procedures for preparing a Governor's declaration are contained in a notebook labeled "Guidelines for Declarations" stored on the SEOC bookshelf. Samples can be found on the MSP/EMHSD S drive in the "Disasters" folder, and in the CIMS reference library and incident files. Typically, the draft declaration is sent electronically to the Governor's Legal Counsel for review and processing by that office. However, in certain circumstances the MSP/EMHSD may be asked to produce the final declaration for the Governor's signature. If that occurs, the following steps will be followed.

- Executive Proclamations must be printed on legal-size Governor's stationary; Executive Orders must be printed on letter-size Governor's stationary
- Three (3) original copies must be printed – one for the Governor's office, one for filing with the Secretary of State, and one for filing in the MSP/EMHSD incident file
- The original declarations must be hand delivered to the Governor's office for review and signature
- If the request includes activation of the National Guard, a separate Executive Order must be prepared indicating this; three copies of this Executive Order must also be produced

State Seal / Registration

After obtaining the Governor's signature, the declaration must be registered at the Department of State, Office of the Great Seal, located in the Michigan Library and Historical Center Building. This office will register the declaration, apply the required gold seal, and mechanically inscribe the Secretary of State's signature on the appropriate line on at the bottom. One copy of the declaration stays with the Office of the Great Seal, one copy must be returned to the Governor's office, and one copy goes in the MSP/EMHSD incident file. (Normally this function is handled by the Governor's Office, but in certain circumstances the MSP/EMHSD may be directed by the Governor's staff to address.)

Attachment 2: Timeline of Activities for Processing Local Requests for a Governor's Emergency or Disaster Declaration under 1976 PA 390, as amended, MCL 30.403

Step 1 ►	Step 2 ►	Step 3 ►	Step 4 ►	Step 5 ►	Step 6 ►	Step 7 ►	Step 8 ►	Step 9 ►	Step 10
[redacted]	Planning Section Chief review / analysis	State Director review / concurrence	State Director convenes Declaration Request Evaluation Committee	Committee evaluates request and formulates recommendation	State Director conveys recommendation to Governor's Legal Counsel for review and final decision by Governor	Planning Section Chief develops correspondence based on Committee's recommendation and likely decision	Governor makes final decision; decision is relayed to State Director; appropriate notification is made to requesting local jurisdiction	If the declaration is granted, state assistance is rendered in accordance with the request and incident needs	Planning Section Chief updates appropriate lists in Michigan Hazard Analysis to reflect the declaration (if granted)
Day 1	Day 1-2	Day 2-3	Day 3	Day 3	Day 3	Day 4	Day 4-5	Day 5-7	Day 5-7
Handoff#1		Handoff#2			Handoff#3	Handoff#4	Handoff#5		
CIMS Administrator notifies Planning Section Chief and other staff of receipt of declaration request in CIMS		Planning Section Chief provides analysis to SEOC Incident Commander			State Director provides recommendation to Governor's Legal Counsel	Chief submits draft correspondence to SEOC Incident Commander and SEOC PIO for editing; required edits are promptly	The State Director notifies requesting jurisdiction of Governor's decision		

Notes: Row 1 represents the 10 steps prescribed in the Procedure. Row 2 represents the major task(s) prescribed in each step. Row 3 represents the approximate timeframe for addressing each step – assuming that all required supporting damage assessment information has been received from the requesting local jurisdiction. Row 4 represents critical process "handoffs" where information and/or tasks are

transferred from one individual to another. (Historically, these are the junctures where the process can linger if key staff is absent and/or the task is not given priority status over other work activities.) Row 5 represents the critical staff involved in the process handoffs.

- The Michigan State Police, Emergency Management and Homeland Security Division requested three FEMA liaisons as a part of the standard emergency management process, as well as due to the uniqueness of Flint water event. These liaisons provide guidance and recommendations during emergencies and disasters. It's not uncommon to make this request.
- At this time, there is no request for a Joint Preliminary Damage Assessment with FEMA or a presidential [redacted] declaration. This is an ongoing process and we are using all possible resources available to help Flint residents during this emergency.

Subject: Summary of Discussions on Flint Local Emergency Declaration

I met with Jackie, Matt, Joel, Tom, and Penny to discuss the City of Flint declaration. Following are key points of our discussion.

- December 14, 2015 - City of Flint declared a State of Emergency citing Public Act 390
- December 15, 2015 – Declaration located on Dave Bondy Blog
- The declaration
  - Cites a "manmade disaster" by caused by switching to the use of Flint River; requests:
  - Requests the Genesee County Board of Commissioners take action
- PA390 requires that Genesee County exhaust resources and declare a Local State of Emergency to request state resources
  - No incident period identified
  - No requests for resources
  - No indication of disaster expenses
- The following concerns were identified
  - FEMA will not consider this as a valid disaster under the Stafford Act.
  - The city must demonstrate "extraordinary financial burden:"
    - Over a consecutive 5-day disaster period
    - Submit accounting of "public" expenses/damages
    - Expend $30,000 OR
    - 1% of affected agencies' general operational budget (whichever is less)
  - Given the circumstances, it is unlikely the current situation will result in any funding under PA 390.
  - If Section 19 funding were awarded, it would provide a maximum of $100,000, which provides minimal relief from current circumstances.
  - The city of Flint would be far better served pursuing funding from HUD/CDBG, the CDC, EPA, or legislative action.

FEMA

September 28, 2015

The Honorable Dan Kildee
United States House of Representatives
227 Cannon House Office Building
Washington, D.C. 20515

Dear Representative Kildee:

This is in response to your letter of September 22, 2015, to Federal Emergency Management Agency (FEMA) Administrator Craig Fugate, as well as the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention and the Environmental Protection Agency. You requested federal assistance to provide safe drinking water to residents of the City of Flint, Michigan, until additional testing confirms that the water is safe. Administrator Fugate requested that I respond to you because Michigan is within FEMA Region V.

As you may be aware, the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, as amended, authorizes FEMA to provide federal assistance to a state after the governor requests that the president issue a disaster declaration and the president approves the request because it has been determined that the severity and magnitude of the incident exceeds local, tribal and state capabilities. If providing safe water to its residents is beyond the city's capability, the city, through Genesee County Emergency Management, should contact the Michigan State Police Division of Emergency Management and Homeland Security. However, in this situation, it may be more expedient and practical to pursue water sources from other local or private sector entities.

If you have questions or would like additional information, please contact me or have a member of your staff contact my Congressional Affairs Specialist, Dan Shulman, at (312) 408-4427.

Sincerely,

Andrew Velasquez III
Regional Administrator

resolution of the local governing body, for a grant from the County. If County requests the use of municipal resources the municipality will provide them and, except as otherwise provided in a Mutual Aid Agreement, the County will absorb the cost. [MCL 30.419]

7. Upon the County receiving a Local State of Emergency Declaration and a request for assistance, the County Board Chair in consultation with the County Emergency Management Coordinator and the MSP-EMHSD Third District Coordinator assess that the incident is beyond the capabilities of the county, the County Board Chair will declare a "State of Disaster" or "State of Emergency" to provide support from the County and request assistance from the State of Michigan and a Governor's Declaration.

8. This request is then sent to the State EMHSD District Coordinator. Affected municipalities may also request this assistance on an individual basis through the county channels addressed above. NOTE: The Chief Executive must declare a "Local State of Emergency" prior to requesting a Governor's Declaration of Emergency or Disaster.

9. The Department of State Police, EMHSD District Coordinator, in conjunction with the local EMHSD, analyzes the incident to determine necessary actions. The State EMHSD makes recommendations and, through channels, this information is reported to the Governor, who may declare a "State of Disaster" or a "State of Emergency". The Governor may take action deemed necessary within the authority granted in Act 390, P.A. 1976, as amended, and other applicable statutes. Appropriate state agencies may be notified and mobilized. Local Emergency Action Guidelines (EAG) may be activated if not activated previously. At this time, local government assigns and makes available for duty employees, property, or equipment for disaster relief purposes if requested by the Governor. The Governor utilizes these resources as is reasonably necessary to cope with the disaster. The District Coordinator coordinates State response and recovery activities at the scene with the EM. The declaration of emergency or disaster remains in effect for *fourteen days* or unless terminated or extended by the executive order or proclamation and approved by the legislature.

10. If the Governor determines that Federal assistance is necessary to supplement the efforts and available resources of State and local governments, he/she may request that the President of the United States declare a major disaster or emergency for the affected area under provisions of the appropriate Federal law.

11. It is important that the executive, legislative, and judicial branches of government continue to function under emergency conditions. In severe disaster situations, continuity of government may be jeopardized. Provisions have been made for emergency authorities and succession of these branches of government. For example, if the Chief Executive Official (Chairperson of

CRS REPORT
Prepared for Members and
Committees of Congress

Summary

The Robert T. Stafford Disaster Relief and Emergency Assistance Act authorizes the President to issue declarations that provide states and localities with a range of federal assistance in response to natural and man-made incidents. Since 1953 the number of declarations issued each year has steadily increased. For example, the average number of major disaster declarations issued from 1960 to 1969 was roughly 19 per year. In contrast, the average number of major disaster declarations issued from 2000 to 2009 was 56 per year. The highest number was declared in 2011, with 99 major disaster declarations.

Declarations are of congressional concern for at least two reasons: (1) congressional oversight of appropriations and the federal budget has led to an awareness of expenditures for disaster assistance, and (2) some are skeptical that declarations are solely made to provide disaster relief. They argue that declarations have become political tools—especially during election years—to gain political favor. Advocates of this position point to incidents which, in their view, could have been handled without federal assistance.

This report describes the declaration process and the types of declarations that can be declared under the Stafford Act: (1) Fire Management Assistance Grants, (2) emergencies, and (3) major disasters.

The discussion is followed by an analysis of each type of declaration that has been issued, and denied from 1953 to 2014. The analysis concludes that

- from 1970 to 2014 the average number of Fire Management Assistance Grants issued was 24 per year. This average grew from 21 per year from 1990-1999 to 55 per year for the period 2000 to 2009;
- emergency declarations have also increased in the past two decades. From 1974 to 2014 there has been an average of 9 emergency declarations issued each year. From 1990 to 1999 there was an average of 6 emergency declarations issued each year, and from 2000 to 2009, there was an average of 15 issued per year;
- most emergency declarations are for hurricanes, followed by snow-related events, droughts, and severe storms;
- from 1953 to 2014 major disaster declarations averaged roughly 35.5 per year. However, the number of declarations being issued each decade has been increasing, particularly in the past two decades. From 1990 to 1999 there was an average of 46 major disasters declared each year, and from 2000 to 2009, there was an average of 56 per year;
- most disaster declarations are for severe storms, flooding, hurricanes, and tornadoes;
- there is a slight increase in the total number of declarations issued in presidential election years from 1974 to 2013, but the number is not significant enough to draw a decisive conclusion regarding their use as a political tool.

The analysis is followed by a discussion concerning the possible causes for the increase in declarations, including federal policy changes, increases in severe weather incidents, population growth, and development.

Some may contend that policies governing declarations should not be changed because they trigger important federal assistance to states and localities. Others may argue that policy mechanisms should be implemented to reduce either the number of declarations being issued each year, or the amount of federal assistance that they provide, or both. These policy mechanisms include

- implementing certain amendments to the Stafford Act;
- changing the per capita threshold formula used to recommend the issuance of a declaration;
- implementing a state capacity indicator to assess whether the state is capable of addressing an incident on its own;
- implementing an expert panel to assess whether an incident warrants a declaration;
- substituting federal loans to states for recovery for grants; and
- adjusting the federal to state cost-share.

The analysis in this report suggests that such changes could reduce federal spending on disaster assistance and shift a portion of the funding back to the states. On the other hand, limiting federal disaster assistance could hamper the ability of states and localities to adequately recover from an incident and create long-term consequences.

This report will be updated as events warrant.

Introduction

When a state is overwhelmed by an emergency or major disaster, the governor may request assistance from the federal government.[1] In general, when a request is submitted, representatives from the Federal Emergency Management Agency (FEMA) meet with the state and compile a Preliminary Damage Report (PDA). FEMA then makes a recommendation to the President whether a declaration should be issued. The President has the authority to make the declaration, or deny the request.[2]

Since first introduced in1953, the number of declarations issued each year has increased significantly. The average number of major disaster declarations issued per year in the 1960s (the first full decade for declarations) was roughly 19. In contrast, from 2000 to 2009 the average number of declarations issued per year was 56. Calendar year 2011 was the busiest year on record with 99 major disaster declarations.[3]

Congressional concern over the rising number of declarations is primarily focused on their associated costs because once declared, the majority of disaster relief costs (at least 75%) are shifted from the state to the federal government. Moreover, federal expenditures on disaster relief are concomitant with declarations because declarations trigger federal disaster relief programs. Thus, the more disasters are declared, the greater the amount the federal government will spend on disaster assistance. The current fiscal environment, including concern over the federal deficit, has heightened congressional interest in the costs of disasters leading to proposals to offset some portion of disaster assistance spending by implementing budgetary mechanisms that might trigger a sequestration.[4]

Critics may argue that thresholds for issuing major disaster declarations are set too low, allowing too many "marginal incidents" to receive a declaration. The increase in declarations has also led to a number of related criticisms and questions concerning the declarations process. For example, are incidents increasing, or is the federal government being more generous in its interpretation of disaster or emergency criteria? Another point of discussion is the relative capacity of state governments to respond to disaster events. Some have also argued that the government's openness in describing factors considered for declarations has led from a discretionary program into a form of entitlement wherein states believe they have met the factors under consideration.[5]

This report provides a historical overview of the three categories of declarations, including the average number of declarations declared and turned down and distribution of the declarations by incident type and state. This report discusses a wide range of factors that might be contributing to

[1] 42 U.S.C. §5170.

[2] Fire Management Assistance Grants—discussed later in this report—do not need presidential approval to be declared.

[5] 44 C.F.R. §206.48. The publication of factors considered (1999) was made at the request of Congress. While providing greater transparency in the declaration process it also created expectations among state and local governments on when a declaration would occur based on selected factors.

the increase in declarations, and provides policy options that might reduce the number of declarations and some of their associated costs.

Brief Overview of Declarations

Prior to 1950, state and local governments in need of federal assistance after a disaster had to wait until Congress met, debated, and then acted upon their request for disaster assistance. The Federal Disaster Relief Act of 1950 (P.L. 81-875, hereinafter the Disaster Relief Act) altered this arrangement and transferred the authority to provide federal disaster assistance from Congress to the President. Under the Disaster Relief Act, the President had the authority to decide whether to provide disaster assistance and which federal agencies would provide that assistance.

The President's decision to provide federal aid for an incident is known as a "declaration."[6] The first disaster declaration was issued by President Eisenhower on May 2, 1953, for damages caused by a tornado in Georgia. Over the years, the Disaster Relief Act has undergone a series of reforms and amendments, but the President's authority to issue declarations has been retained. Today the principal authority governing federal assistance for emergencies and major disasters in the United States is the Robert T. Stafford Relief and Emergency Assistance Act (P.L. 93-288, hereinafter the Stafford Act).[7] Under the Stafford Act, the primary federal agency responsible for coordinating the federal response is FEMA, located within the Department of Homeland Security (DHS).[8]

Declaration Categories and the Declaration Process

The Stafford Act authorizes three types of declarations: (1) Fire Management Assistance Grant Program declarations (FMAG), (2) emergency declarations, and (3) major disaster declarations. While emergency and major disaster declarations must be issued by the President, the FEMA Regional Director, in consultation with FEMA leadership, has the authority to issue FMAG declarations.[9] A detailed description of each type of declaration is provided in the following sections of this report.

The Stafford Act stipulates several procedural actions a governor must take prior to requesting federal disaster assistance. The governor cannot request a declaration unless he or she determines the event has overwhelmed the state's resources to such an extent that federal resources are needed. The gubernatorial request is vital to the declaration process because the President cannot issue either an emergency or a major disaster declaration, nor can the Regional Director issue a FMAG without the request. The only exception to this rule is the authority given to the President to declare an emergency when the President:

[6] For more information on emergency and disaster declarations see CRS Report R43784, *FEMA's Disaster Declaration Process: A Primer*, by Francis X. McCarthy.

[7] 42 U.S.C. §5121 et seq. For further analysis on the Stafford Act see CRS Report RL33053, *Federal Stafford Act Disaster Assistance: Presidential Declarations, Eligible Activities, and Funding*, by Francis X. McCarthy.

[8] FEMA was incorporated into DHS by the Homeland Security Act. DHS Secretary has re-delegated Stafford Act authority to the Administrator of FEMA.

[9] For more information on FMAGs see CRS Report R43738, *Fire Management Assistance Grants: Frequently Asked Questions*, coordinated by Bruce R. Lindsay.

> determines that an emergency exists for which the primary responsibility for response rests with the United States because the emergency involves a subject area for which, under the Constitution or laws of the United States, the United States can exercise *exclusive or preeminent responsibility and authority*"[10]

The denial of a gubernatorial request for federal assistance is referred to as a "turndown."

Analysis of Declaration Data

The following sections of this report analyze declarations by category since 1953. The analysis includes the number of emergency and major disaster declarations that have been approved and turned down by the President. The analysis also includes the number of FMAG declarations issued since 1970 (the first year that the grants were provided); however, turndown data for FMAG declarations were not available. The analysis also includes a breakdown of declarations by incident and state for emergency and major disaster declarations. The presentation of the data is based on graduated levels of assistance beginning with FMAG declarations and ending with major disaster declarations.

Fire Management Assistance Grant Declarations

As mentioned previously, while the President has the sole authority to issue an emergency or major disaster declaration, the decision to issue a FMAG declaration can be rendered either by the President or a FEMA Regional Director.[11] A FMAG declaration authorizes various forms of federal assistance, such as equipment, personnel, and grants to any state or local government for the control, management, and mitigation of any fire on public or private forest land or grassland that might become a major disaster.[12] FMAG declarations do not provide assistance to individuals and households. One distinguishing feature of FMAGs is that they are intended to prevent a fire from becoming a major disaster.[13] An additional unique feature of a FMAG is FEMA's work with a "Principal advisor." This is an

> individual appointed by the Forest Service, United States Department of Agriculture, or Bureau of Land Management, Department of the Interior, who is responsible for providing FEMA with a technical assessment of the fire or fire complex for which a state is requesting a fire management assistance declaration.[14]

As with major disaster and emergency declarations, FEMA has the authority to assess the situation, including the state's efforts, the current state of the fire, and its potential impact. However, before a FMAG can be granted, the state or territory must meet a cost threshold, either for that particular fire or for a cumulative state-wide threshold number if the state is requesting help for numerous fires within the state.

---

[10] P.L. 93-288, 42 U.S.C. §5191(b). Examples of these declarations include the April 19, 1995, bombing of the Alfred P. Murrah Building in Oklahoma City, and the September 11, 2001, attack on the Pentagon.

[13] P.L. 93-288, 42 U.S.C. §5187(a).

[14] 44 C.F.R. §204.3.

FMAG Determinations

The following criteria are used to evaluate wildfires and make a determination whether to issue a FMAG:

- The threat to lives and property including critical facilities, infrastructures, and watershed areas;
- the availability of state and local fire resources;
- high fire danger conditions based on nationally accepted indices such as the National Fire Danger Ratings System; and
- the potential economic impacts of the fire.

In addition, FEMA uses two types of fire cost thresholds to help determine if a state or tribal nation is eligible for fire assistance: (1) individual thresholds for a single fire, and (2) cumulative thresholds for multiple fires. Cumulative thresholds are applied to multiple fires burning simultaneously, or the accumulation of multiple fires in a single fire season. Threshold amounts vary by state (see **Table 1**).

Individual Fire Threshold

The formula for the individual fire threshold is the state population multiplied by 5%, which is then multiplied by $1.39.[15] In general, if that amount exceeds the state's individual fire threshold, the state is eligible for federal assistance.

For example, the state of Colorado's population is 5,029,196. The individual fire threshold formula for the state is: [5,029,196 x 5% x $1.39 = $349,529]. The state of Colorado would meet or exceed the individual fire threshold if it had a wildfire costing $349,529 or more in damages.

Cumulative Thresholds

The formula for the cumulative fire threshold for a given state is one of two amounts—$500,000 *or* the amount of that state's individual fire threshold multiplied by three. Returning to the Colorado example, the sum of three individual fire thresholds equals $1,048,587. Since that amount is larger than $500,000, cumulative fire damages in Colorado must meet or exceed $1,048,587 to be eligible for assistance. In contrast, the individual fire threshold for Alaska is $100,000, but the cumulative threshold is $500,000, not the sum of three individual fire thresholds ($300,000). For some states, such as Nebraska and West Virginia, the state population is high enough that the individual threshold exceeds $100,000. However, the cumulative threshold for these states is $500,000 because that number is still higher than the sum of three individual fire thresholds.

[15] The formula is [(population) x .05 x $1.39]. The dollar amount is periodically adjusted for inflation by FEMA.

Table 1. Selected Examples of Individual and Cumulative Thresholds

FY2014 Individual and Cumulative Thresholds by State

State	Individual Threshold	Cumulative Threshold
Alaska	$100,000	$500,000
California	$2,589,150	$7,767,450
Colorado	$349,529	$1,048,587
Nebraska	$126,931	$500,000
West Virginia	$128,783	$500,000

Source: FEMA, "FY2014 Fire Cost Threshold." http://www.fema.gov/media-library-data/1389875349045-36f0ce0f02eed0357d4fd1511f7056c17/FY14%20Fire%20Cost%20Threshold.pdf.

As shown in **Figure 1**, FMAG declarations began to increase steadily in the late 1990s, reaching a high of 114 in 2011. This surpassed the previous high of 86 FMAGs in 2006. As mentioned previously, FMAGS are designed to prevent fires from becoming major disasters. It could be argued that even though the cost for FMAG declarations may have increased, FMAGs may actually save federal dollars by reducing the need for a major disaster declaration which would decrease spending on Stafford Act programs.

As shown in **Figure 1**, the first FMAG was declared in 1970, and they were rarely issued until the 1990s. The average number of FMAGs declared in the 1970s and the 1980s was about three per year. During the 1990s, there were about 21 FMAG declarations per year (see inset of **Figure 1**). This upward trend continued into the 2000s, with an average of 53 FMAG declarations issued each year.

Texas has received the most FMAGs (235 declarations) followed by California (148), Oklahoma (86), Washington (73) and Colorado (59) (see **Figure 2**). Data on FMAG request denials were not available.

Emergency Declarations

Emergency declarations authorize activities that can help states and communities carry out essential services and activities that might reduce the threat of future damage. Emergency declarations, however, do not provide assistance for repairs and replacement of public infrastructure or nonprofit facilities.[16] Emergency declarations may be declared before an incident occurs to save lives and prevent loss. For example, emergency declarations have been declared prior to a hurricane making landfall to help state and local governments take steps (evacuation assistance, placement of response resources, etc.) that might lessen the storm's impact and prevent a major disaster from occurring.[17]

The Stafford Act broadly defines an emergency as:

> any occasion or instance for which, in the determination of the President, federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.[18]

As shown in **Figure 3**, the number of emergency declarations declared each year has varied tremendously, from many years receiving no declarations, to 2005 which had 68 declarations. 2005 received the highest number of emergency declarations because each state was issued an emergency declaration to assist with Hurricane Katrina evacuees.

The average number of emergency declarations issued from 1974 to 2014 was 9 per year; the average number of declarations from 2000 to 2014 was 15 (see inset of **Figure 3**).

Emergency Declaration Turndowns

Denials of gubernatorial requests for emergency declarations have remained fairly static each decade (see inset of **Figure 3**), averaging 2.8 per year. There is a slight decrease in denials during presidential election years, from an average of 2.8 per year during nonelection years, to an average of 2.0 during election years.[19] Some might argue this is an indication that Presidents are more reluctant to deny a declaration during an election year. In response to this argument, some might say that such conclusions are unwarranted because the number is statistically insignificant. For more discussion on the influence of politics on disaster declarations see section "Possible Presidential Election-Year Influence on Major Disaster and Emergency Declarations."

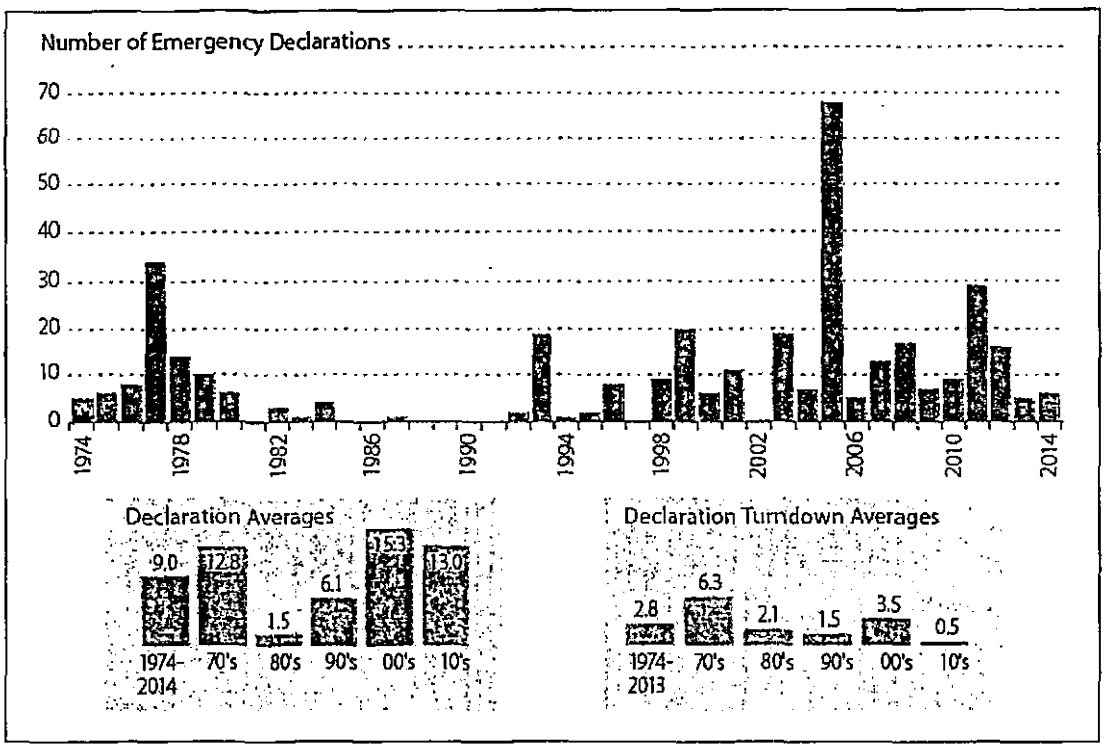
[16] For additional information on the differences between major disaster and emergency declarations, see CRS Report RL33053, *Federal Stafford Act Disaster Assistance: Presidential Declarations, Eligible Activities, and Funding*, by Francis X. McCarthy.

[17] Recent examples of pre-event declarations include emergency declarations prior to Hurricanes Katrina, Rita, Gustav, and Sandy.

[18] P.L. 93-288, 42 U.S.C. §5122(1).

[19] Data not shown. Based on CRS analysis of turndown data provided by FEMA.

Figure 3. Emergency Declarations
1974-2014



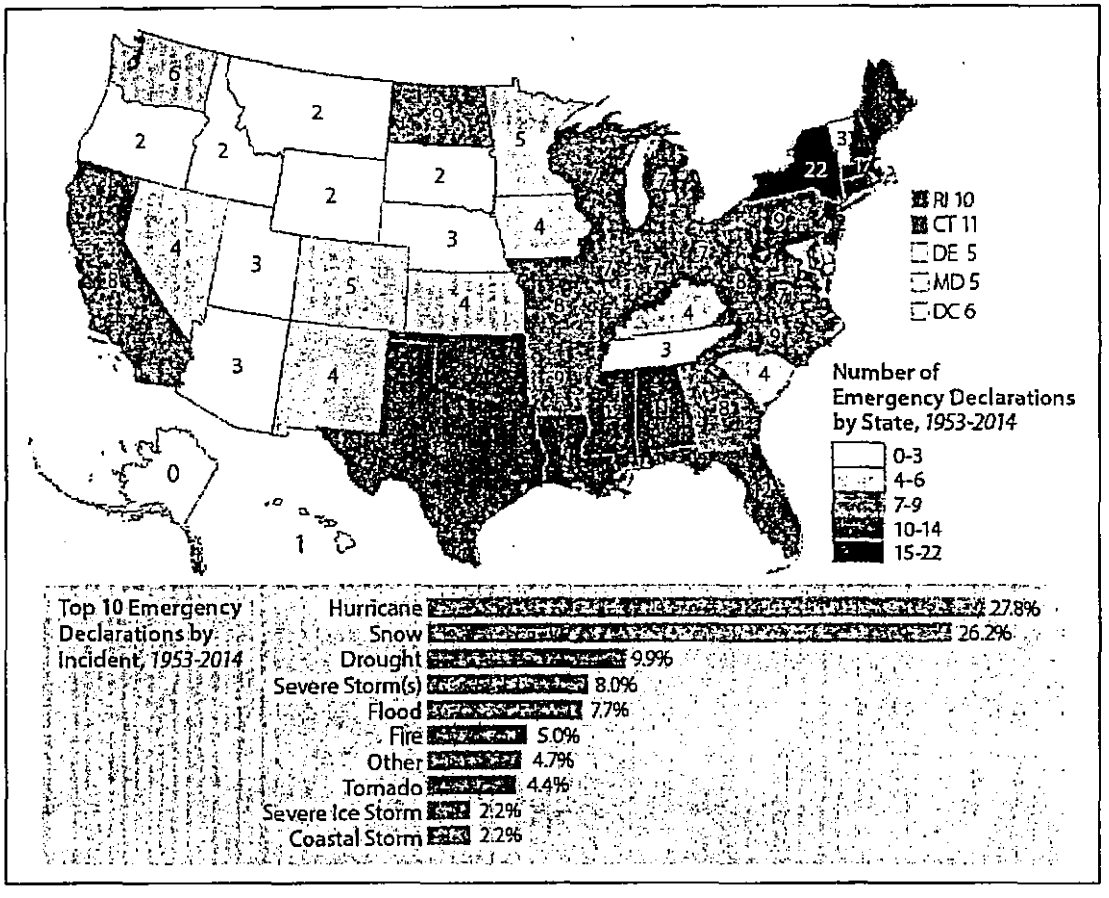
Source: CRS analysis based on data provided by FEMA.

Emergency Declarations by State and Type

As shown in **Figure 4**, New York has received the most emergency declarations (22), followed by Massachusetts (17), Maine, (14), and New Hampshire and Texas (13 each).

Figure 4. Emergency Declarations by State and Type

1974-2014



Source: CRS analysis based on data provided by FEMA.

The majority of incidents declared as emergencies are issued for hurricanes, followed by snow incidents and droughts (see inset of **Figure 4**). As mentioned previously, FEMA does not use specific categories to classify disaster types.

Major Disaster Declarations

The definition for a major disaster is more precise than an emergency declaration, and the range of assistance available to state and local governments; private, nonprofit organizations; and families and individuals is broader. Under a major disaster declaration, state and local governments and certain nonprofit organizations are eligible (if so designated) for assistance for the repair or restoration of public infrastructure, such as roads and buildings. A major disaster declaration may also include additional programs beyond temporary housing such as disaster unemployment assistance and crisis counseling, and other recovery programs, such as community disaster loans.

While emergencies are defined broadly, the Stafford Act defines a major disaster narrowly as

> any natural catastrophe (including any hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought), or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this chapter to supplement the efforts and available resources of states, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.[20]

The average number of major disasters declared per year from 1953 to 2014 is 36. However, beginning in the 1990s there has been an uptick in the number of major disasters declared each year. During the 1990s the average number of declared major disasters is 46, the average number from 2000-2010 is 56, and the average per year from 2010 to 2014 is 67 (see inset of **Figure 5**).

Major Disaster Declaration Turndowns

The President can deny a gubernatorial request for federal disaster assistance (see inset of **Figure 5**). The average number of requests for a major disaster declaration denied by the President since 1953 has varied somewhat, from a low of 6.0 per year from 1953 to 1959 to a high of 18.7 during the 1970s. More recently, the number of presidential denials of requests for major disaster declarations has become more static, averaging 10.8 denials from 2000-2013 (see inset of **Figure 5**).

Major Disaster Declarations by State and Type

The majority of incidents declared as major disasters are issued as a result of a severe storm or flood. FEMA does not use specific categories to classify disaster types (see inset of **Figure 6**). The states that have received the most major disaster declarations are Texas (88), California (80), Oklahoma (75), New York (70), and Florida (67) (see **Figure 6**).

Figure 6. Major Disaster Declarations by State and Type
1953-2014

Tribal Declarations

The Sandy Recovery and Improvement Act (SRIA, P.L. 113-2), among several significant changes to the Stafford Act, included the ability of Native American groups to be treated as states and be eligible to request a major disaster declaration directly from the President. Previously, tribal groups were treated as local governments and any request had to be made by the governor(s) of the affected state(s) where the tribal land, infrastructure and populations had been affected by an incident that could warrant consideration for an emergency or major disaster declaration.

Tribes had sought this authority for various reasons. While tribes and Native Americans have long received assistance under Stafford Act declarations, working through the state government for all assistance has been viewed as an issue of tribal sovereignty. States might at times be reluctant to request on behalf of a tribe when the damage was localized on tribal property. Other challenges to administering disaster relief involved language barriers and the physical isolation of some tribal lands. Also, the tribes wished to have the same ability as states to help manage the response and recovery from a disaster. All of these factors created challenges for emergency management following disaster events in tribal areas.

Under this provision in SRIA (now in the Stafford Act Section 401 and 501), the "Chief Executive of an Indian Tribal Government" is able to submit a request for a declaration by the President. In addition, the "Savings provision" of this section ensures that a tribal government is not prohibited from receiving assistance under a declaration made by the President at the request of the governor, if the President has not made a separate declaration for the tribal government. In effect, a tribal government will retain the ability to be treated as a local government in those situations.[21]

There has only been limited use of this authority over the first several years. FEMA is continuing to develop polices on implementation of the tribal authority. As noted in **Table 2**, the initial declarations have been relatively small in terms of federal resources.

Table 2. Tribal Major Disaster Declarations

2013-Present

Tribe	Declaration Number	Obligations	Date
Eastern Band of Cherokee Indians	4103	$6,866,511	3/1/2013
Karuk Tribe	4142	$638,171	8/29/2013
Navajo Nation	4104	$2,365,991	5/3/2013
Santa Clara Pueblo	4151	$10,422,536	10/24/2013
Santa Clara Pueblo	4147	$1,518,448	9/27/2013
Soboba Band of Luiseño Indians	4206	$0[a]	1/27/2015
Standing Rock Sioux Tribe	4123	$736,386	6/25/2013

Notes: Obligations for major disasters often increase over a period of many years, so any costs reflected above are likely to increase in the future.

a. Declaration was declared close to when data was provided to CRS. As a result, obligations are likely to ultimately result from this declaration, even though they were not reflected in that data.

Possible Explanations for the Increase in Declarations

There are a number of factors that might influence the increase in declarations in recent years, ranging from increases in weather incidents to changes in federal policies. This section reviews some of these factors.

[21] For additional information on the SRIA provisions for tribal governments, see CRS Report R42991, *Analysis of the Sandy Recovery Improvement Act of 2013*, by Jared T. Brown, Francis X. McCarthy, and Edward C. Liu.

Increased Weather-Related Incidents

The rise in disaster declarations could be a function of increased severe weather incidents. For example, according to a report produced by an advisory committee chartered under the Federal Advisory Committee Act, for the U.S. Global Change Research Program's Subcommittee on Global Change Research, there is evidence that there has been an increased frequency and intensity of heavy downpours.[22]

Statistical data from 1955-2014 consisting of tornado, hail, and wind events, derived from the National Oceanic and Atmospheric Administration (NOAA), were compared to emergency and disaster declarations.[23] As illustrated in **Figure 7**, the reporting of weather incidents has also increased since the 1950s. In the 1970s and part of the 1980s, the gap between the number of declarations and severe weather incidents widened, with more declarations than reported weather incidents. In the first part of the 1990s the two tracked fairly closely together, but then another gap occurred, this time with more reported weather incidents than declarations. The disparity in the data continued in the early part of the 2000s, with more parity in the latter half of the decade.

To some, the increased number of reported severe weather incidents is evidence that there is a correspondence between the weather and the issuance of declarations. Others might be skeptical of the data. For example, it may be argued that the trend shown in **Figure 7** could be explained by improvements in weather tracking technology. As this technology becomes more sophisticated, more weather incidents are reported. Furthermore, **Figure 7** does not provide statistical information on flooding—the most frequent type of incident to receive declarations—or other incidents such as snowstorms, hurricanes, and droughts. Some may, therefore, conclude that further studies are needed to establish a link between historical weather patterns and declarations.

Increases in Population and Development

From 1953 to 2014 the population of the United States almost doubled—from 160.2 million to 318.9 million.[24] It could be argued that population growth has increased the density of existing communities and spurred development into areas that were previously uninhabited. These areas may have been previously struck by an incident, but because there were no residents in the area, there may have been little or no need to declare an emergency or disaster. Also, states and communities that welcome growth may not wish to discourage it by considering the potential vulnerability to disaster damage and taking what may be unpopular steps to mitigate against such damage.[25]

> As our population grows, more of the nation's citizens live in areas prone to natural disasters, from floods and tornadoes to earthquakes and hurricanes, and some states have taken action to encourage this development for immediate economic gain (in the form of a larger tax base and other benefits). That means the consequences of such events are exacerbated.[26]

[24] Population estimates can be found at American FactFinder managed by the U.S. Census Bureau, *Annual Estimates of Resident Population*, May 2015, at http://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=PEP_2014_PEPANNRES&src=pt.

[25] This can include upgrading building codes, planning development with an adherence to National Flood Insurance Program (NFIP) mapping, and other steps to decrease the impact of disaster events.

[26] Ronald J. Daniels, Donald F. Kettl, and Howard Kunreuther, *On Risk and Disaster* (Philadelphia: University of (continued...)

In the case of previously existing communities with higher population densities, the number of households and dwellings may have caused the costs of the associated damages to rise beyond the state's capacity to financially recover from the event. This tendency is magnified in coastal development:

> Coastal development also has become a lucrative economic force for private investors. The deluge of people living on and near the coasts is not merely a fad that soon will yield to a preference for inland locations. It is largely a result of population growth combined with the beauty and economic promise of coastal areas. This growing interest in coastal development, combined with a strong economy, in recent years has increased the pressure on landowners to sell or develop.[27]

In addition, the costs of recovering from disasters may have also grown due not only to the growing population but also to increased standards of living and an increasing reliance on interdependent technical systems—both of which are expensive to repair and replace.

Policy Changes and Political Considerations

A number of federal policy changes have occurred since 1953 that may also help to explain why the number of declarations being issued each year has been increasing as well as the federal costs of those declarations. These include changes in (1) federal legislation and (2) various FEMA declaration policies. In addition, some have postulated that the declaration process has become politicized, attributing the increase to political motivations.

Evolution of Federal Disaster Policy

From 1950 through 1980, the federal role in disaster response and recovery gradually expanded, both through executive action and legislation. In the 1950s, the federal approach to disaster assistance was less comprehensive than today. In general, the assistance consisted of initial repairs to infrastructure, modest assistance to help families and individuals, and loans for homeowners and businesses. Later there was an eventual emphasis on mitigation to lessen the effect of future disaster events. Key legislation was passed in each decade, but especially in the 1970s, that addressed distinct problems caused by natural disasters.[28] This was also the time when FEMA was created by President Jimmy Carter under his reorganization plan of 1978.[29] As one observer summarized the myriad of actions taken during this period:

> For almost thirty years the federal government had, at different times, inched toward a policy that gave administrators a superior and determinative role in emergency management. At times during that period federal policy received a hard push from nature, such as the Alaska earthquake or Hurricane Betsy. Periodically, members of Congress or administration

[29] Executive Order 12127, "Federal Emergency Management Agency," 19367, March 31, 1979.

> officials nudged federal policy in a different direction. By 1978, however, experience had shown that coordination of federal and nonfederal action, not dispersion, was the best approach.[30]

From that period a federal/state framework had been created that was, ironically, not really tested during the 1980s. That relatively quiet decade for natural disasters did not have large disaster events to present challenges to the disaster relief programs nor large supplemental expenditure requests for Congress. As a result, disaster policy changes that would later address an increasing number of unique and devastating disaster situations and result in presidential declarations were not challenged or employed until the 1990s.

P.L. 106-390, the Disaster Mitigation Act of 2000 (hereinafter DMA2K) established for the first time a pre-disaster mitigation program to reduce risk regardless of disaster declarations.[31] While the PDM program was funded separately outside of the President's Disaster Relief Fund, DMA2K also permitted increased funding to states under the Hazard Mitigation Grant Program (HMGP), which is funded from the DRF.[32] However, while DMA2K increased potential mitigation spending, it also capped home repair costs at $5,000 per household, which limited disaster spending in that category.[33]

The most recent significant legislation affecting the administration of disaster relief was the Post-Katrina Emergency Reform Act of 2006, P.L. 109-295 (hereinafter PKEMRA). This legislation was developed in response to the problems encountered in the recovery from the Gulf Coast storms of 2005. While the legislation did not alter the declaration process, it did make several changes to Stafford Act authorities that increased the available aid for post-disaster recovery. For example, the $5,000 cap that was enacted in 2000 was repealed. Also, PKEMRA included authority for states to provide case management services for disaster victims as well as assistance for transportation.[34]

In 2013 Congress passed the Sandy Recovery and Improvement Act of 2013, P.L. 113-2, in response to the impact of Hurricane Sandy. This also had significant amendments to the Stafford Act and the administration of disaster relief assistance. In addition to including a tribal declaration policy, the legislation also made major adjustments to the Public Assistance program and other Stafford Act authorities.[35]

Brown and Daniel J. Richardson.

Changes in FEMA Policy

In addition to the factors that might influence the President's decision to issue a declaration, there are agency-level policy changes at FEMA that may play a role in increasing declarations, including changes in how FEMA handles snowstorms, the use of pre-landfall declarations for hurricane response preparations, and the shift to a more transparent declaration process.

Snow Declarations

One example of how an administrative practice can affect the number of major disaster declarations is FEMA's recent adjustment in snow policy, which began in November 2009. Formerly, FEMA provided federal assistance for snow removal costs for a stipulated period—usually two or three days. Most of these events were defined as a snow emergency because of the relatively limited assistance requested and provided. However, since FEMA published new regulations for snow declarations in 2009, the agency is now considering most, but not all, snow-related events as major disasters.[36] As FEMA explained, the intent of the change was to make FEMA's snow policy conform more closely to the Stafford Act:

> FEMA's 1999 Snow Assistance Policy evaluated requests for snow assistance under both the criteria for an "emergency" declaration under 44 CFR 206.35, as well as a request for a "major disaster" declaration under 44 CFR 206.36. However, the Stafford Act, 42 U.S.C. 5122, and FEMA regulations, 44 CFR 206.2(a)(17), expressly include "snowstorm" in the definition of a "major disaster." By comparison, FEMA regulations define "emergencies" as those types of events that *do not* qualify under the definition of a major disaster. In this revised policy, snowstorm events will be considered by FEMA for major disaster declarations under 44 CFR 206.36, consistent with the Stafford Act and FEMA regulations. As discussed below, in response to comments received on the July 2008 proposed policy, this final Snow Assistance Policy does not include the limitation proposed in 2008 that FEMA would only make recommendations for major disaster declarations for snow events.[37]

In FY2010, the change in snow policy meant that 16 previously designated "snow emergencies" were now "snow disasters" (this number included multiple declarations for states affected by the storms of December 2009 and February 2010 in the National Capital Region). Without the snow policy change, the total number of major disasters for FY2010 would have been 65, placing that year in a tie for the fourth-busiest year with FY1998.[38] While it was still a significant year for declarations, the change in snow policy increased the number of major disaster declarations. Similarly, in 2011, there were 16 major disaster declarations that referenced as their cause either severe winter storm or snow storm. Absent those declarations, the record-setting total number of declarations for 2011 drops from 99 to 83.

[36] One recent exception was the emergency declaration on October 31, 2011, for the snow event in Connecticut. This snow emergency was reclassified as a major disaster declaration on November 17, 2011.

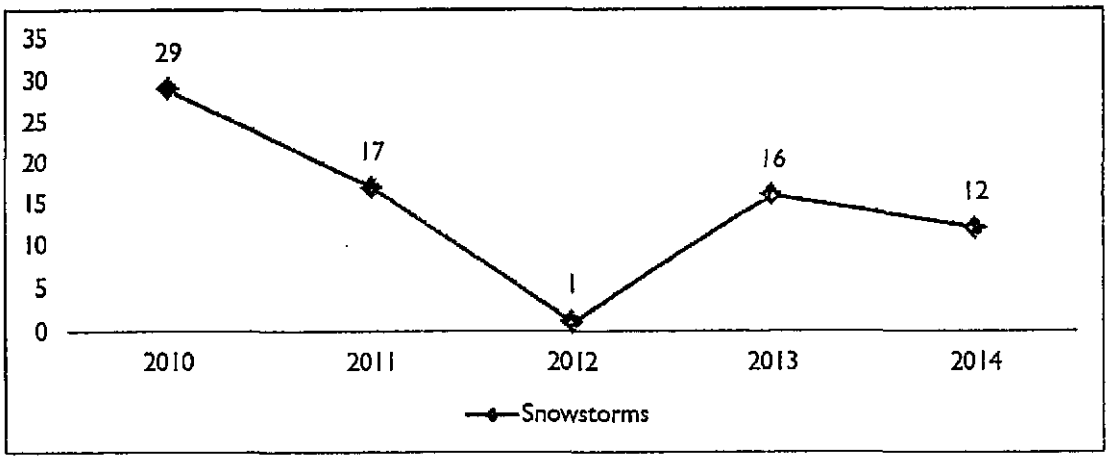
Figure 8. Declarations for Winter Storm Incidents



Source: CRS analysis of FEMA DRF obligation data provided in January of 2015.

Notes: The categorization of major disaster declarations in the dataset does not specify incidents wherein a declaration was issued solely based upon a snowstorm. To identify the declarations that were used for this analysis, incidents were considered to be a "winter storm" if the description included any of the following keywords: winter, snow, blizzard, freeze, or ice. The descriptions provided by FEMA include all of the factors that contributed to the damage, so it is likely that the obligations below include funding for damage that was not caused by snow.

Pre-Landfall Declarations

While traditionally FEMA had taken a "management of consequences" approach to most disasters and waited for a storm's impact before addressing a governor's request, in the late 1990s FEMA began to treat hurricanes differently. Due to the lead time provided by the tracking of hurricanes, FEMA began, in 1999, to issue emergency declarations in advance of hurricanes making landfall. The impetus for this policy was to supplement, and thus strengthen, state evacuation efforts and related work by state and local governments to reduce the impact of the hurricanes.

These types of declarations are now governed by FEMA policy guidance and are frequently employed.[39] For example, during the hurricane season of 2011 there were pre-landfall emergency declarations made in 11 states and territories for Hurricane Irene. Similar emergency declarations were made for the Gulf Coast states prior to the impact of Hurricane Katrina, and the East Coast states for Hurricane Sandy. While federal expenditures may be little different, the number of declarations in these instances is doubled when a state receives both an emergency and major disaster declaration for the same event.[40]

These pre-landfall declarations are made for states "immediately threatened with impact from a major hurricane or typhoon." The guidance suggests these declarations be made for storms projected to a category 3,4, or 5 on the Saffir/Simpson scale. However, as with any declaration,

[39] FEMA Policy FP-010-4, "Pre-Disaster Emergency Declarations Requests," May 18, 2012 (supersedes policy guidance, July 18, 2007).

[40] Spending is likely not increased since, under previous policy, much of the emergency spending may have been captured as eligible within a longer incident period. The benefit of the separate emergency declaration is that it makes federal; assistance available more rapidly and likely contributes to the confidence of state and local governments in carrying out emergency services with an assurance of partial reimbursement.

the President retains discretion to make the decision on whether a declaration is made. This is an example of a change in FEMA policy that has increased the number of declarations over the last dozen years.

Transparency of the Declaration Process

The disaster declaration process begins with a dynamic event and is generally considered to be open and relatively transparent as it proceeds. In addition, the disaster declaration process, though subject to inquiry, argument, hearings, studies and recommendations, has changed very little over time. It remains a process that can be observed and evaluated as it occurs in the area affected by the disaster, and grows opaque as it moves up through layers of FEMA and DHS management to the White House.

That observation reflects the fact that damage assessments are done publicly with federal, state, and local officials working together to determine the amount of eligible damage. Similarly, the governor's letters requesting federal, supplemental help are usually available to the public. In that respect, FEMA provides a template to state emergency management offices so they can anticipate the types of information that should be provided (including legal language regarding state activities, state commitments toward program cost shares, and other necessary information).

With the encouragement of Congress, FEMA has gradually revealed increased portions of the disaster declaration process. The prime example of this greater openness is the set of regulations that details the factors FEMA considers when evaluating a governor's request. These regulations first appeared in the *Federal Register* in September 1999.[41]

Another step in the direction of transparency was the publishing, on FEMA's website, of the preliminary damage assessments (PDAs) that help to inform both the governor's decision on whether to make a request as well as the declaration decision itself. FEMA now makes available for public review all PDAs dating back to 2007.[42]

The move toward greater transparency may have shifted the way in which FEMA makes recommendations to the President as to whether incidents are worthy of federal assistance. Prior to the move for greater transparency, FEMA officials could have private discussions to evaluate a range of factors when determining a state's financial capacity to respond to an incident without federal assistance. These factors could include the state's economic well-being, whether the state had a budget surplus, among others. These factors are often subjective and difficult to quantify, which in turn makes the rationale for certain recommendations more difficult to justify. Some would contend that recommendations that are exclusively based on per capita thresholds make the recommendation process appear more equitable, but in reality just using per capita thresholds to determine whether to provide disaster assistance eliminates important factors that establish state capacity. It could be argued that the move toward transparency eliminated private and frank discussions concerning state capacity that could potentially prevent a state from receiving federal assistance for an incident it could conceivably have handled on its own.

[41] Federal Emergency Management Agency, "Disaster Assistance; Factors Considered When Evaluating a Governor's Request for a Major Disaster Declaration," 64 *Federal Register* 47698, September 1, 1999.

[42] U.S. Department of Homeland Security, Federal Emergency Management Agency, *Preliminary Damage Assessment Reports*, available at http://www.fema.gov/rebuild/recover/pda_reports.shtm.

Finally, as emergency managers have become more knowledgeable of the declaration process and the use of per capita indicators, they may dissuade the governor from making a request when they believe the per capita threshold for their particular incident is too low. Consequently, this may explain, in part, why the number of declaration turndowns has decreased over the years (see inset of **Figure 5**), because it is possible that fewer incidents are being submitted that are likely to be denied.

Possible Presidential Election-Year Influence on Major Disaster and Emergency Declarations

Critics argue that in the past two decades, presidents are more likely to issue a declaration during a presidential election year, and the year prior to an election year.[43] They would also argue that declaration turndowns are influenced by election cycles.

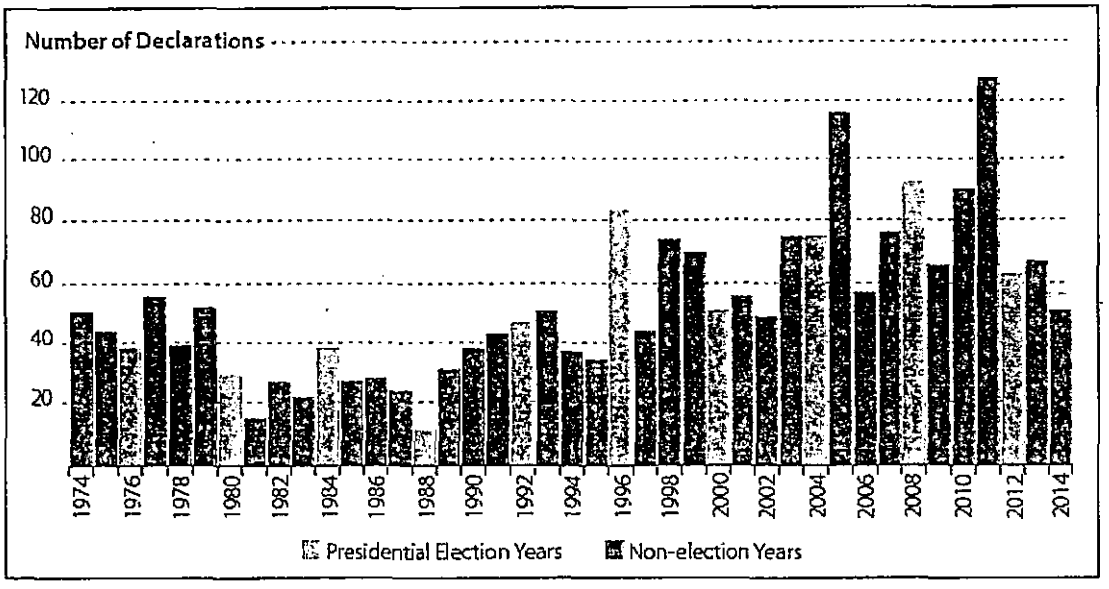
The data indicates that there is a slight increase in the number of major disaster declarations, and a slight decrease in the number of declaration turndowns, during presidential election years. However, there is also a slight decrease in the number of emergency declarations. From 1990 to 2013 the average numbers of major disaster declarations and emergency declarations during a nonelection year were 53 and 12, respectively. The average number of declared major disasters during a presidential election year increased to 59, while the average for emergency declarations fell to 9 per year. In total, there were a combined average of 65 emergency and major disaster declarations in nonelection years, and a combined average of 68 in election years (see **Figure 9**). The number of major disaster declaration turndowns during nonpresidential election years from 1990 to 2013 was 12, and decreased to 11 during election years (data not shown).[44] Turndowns for emergency declarations, on the other hand, averaged 2.2 per year during nonelection years and remained steady at 2.0 during election years (data not shown).

[43] For example, see Jessica Zuckerman, *An Election-Year Trend: Disaster Declarations on the Rise*, The Heritage Foundation, January 4, 2012, available at http://blog.heritage.org/2012/01/04/an-election-year-trend-disaster-declarations-on-the-rise/.

[44] Data on turndowns were only available through the end of FY2013. The publicly-available Disaster Declarations page maintained by FEMA only includes those that were ultimately declared, not all that were requested.

Figure 9. Possible Influence of Elections on Major Disaster and Emergency Declarations

1990 to 2014



Source: CRS analysis based on data provided by FEMA.

The increase in declarations and decrease in turndowns may lead some to conclude that political factors influence declarations decisions during presidential election years. It could be argued that while a President may be motivated to issue a declaration or be reluctant to deny a declaration for political reasons, it is difficult to establish evidence to support this position. As demonstrated in **Figure 9**, the differences in presidential election years and nonelection years are slight. Moreover, methodologically, there are more nonelection years in the sample than election years, which may skew the results since an increase in the sample will usually generate a figure that is more statistically normal. Additionally, there are not enough data points since to draw a conclusion on recent elections.[45] Finally, the slight increase in declarations during election years could be the result of other variables that have been described in this report.

The Debate over Politics and Declarations

Some contend that presidential decisions on whether to issue a declaration are increasingly linked to political considerations. As with the above example, they argue declarations are more likely to be issued around presidential election years in an attempt to garner media coverage and gain approval of voters in a state that has been stricken by an incident.[46] Another, similar argument, is that congressional districts sharing the President's party affiliation are more likely to be issued a disaster declaration. Both of these arguments are difficult to prove and recent studies on this issue have led to differing conclusions. For example, in a 2002 study economists Thomas A. Garrett and Russell S. Sobel postulated:

[45] Thirty data points are needed to establish statistical significance.

[46] For example, see Jessica Zuckerman, *An Election-Year Trend: Disaster Declarations on the Rise*, The Heritage Foundation, January 4, 2012, available at http://blog.heritage.org/2012/01/04/an-election-year-trend-disaster-declarations-on-the-rise/.

> States politically important to the President have a higher rate of disaster declaration by the President, and disaster expenditures are higher in states having congressional representation on FEMA oversight committees. Election year impacts are also found.[47]

Other researchers have been unable to deduce the same bias:

> There was no evidence of a statistically significant relationship between success in acquiring major disaster declarations and any of the remaining partisanship, biased vote-seeking, or overwhelming need predictor variables.[48]

Some may contend that the argument that declaration approvals and denials have increased solely due to political motivations may be making the unwarranted assumption that weather patterns, development, and increases in population have remained static or near static over the past six decades. For example, it could be argued that President Reagan's number of approvals of gubernatorial requests was low and his record of turndowns was high, representing a conservative ideological approach to governing in the disaster realm. However, very few natural disaster events occurred during President Reagan's presidency (see **Figure 7**). Had there been more disasters he may have approved more gubernatorial requests for assistance. In addition, to some the argument that declarations are politically motivated is weakened when one questions what an incumbent President not running for reelection would have to gain by issuing more declarations.

Finally, if major disaster declarations are tied to elections, then one would expect the number of major disaster declarations to have been high for election year 2012. However, there were only 47 major disasters declared in 2012, which was the lowest number for a single year since 2001.

24-Hour News Networks and Personal Video Devices

A related issue that may influence the President's decision to issue a declaration is the rise of 24-hour news networks in the last three decades. As previously mentioned, news coverage and broadcasts of emergencies and major disasters have increased significantly since in the 1980s. The rise in news coverage is attributed, in part, to technological advances in electronics and satellite communications that began in the latter part of the 1980s. These advances eventually gave rise to 24-hour news networks that provide live coverage of emergencies and disasters. The striking images of emergencies and major disasters make the footage of these events highly desirable in media outlets. The miniaturization of cameras and the availability of video via cell phones and other devices have also increased the availability of footage of such events.

The advances in technology over the past 30 years have led to increased media coverage of disasters. During that same time frame some have suggested that Presidents have taken a greater interest in disasters as a meeting point of politics and public policy. For example, it is now customary for a President to visit a major disaster site to demonstrate responsiveness to the incident as well as show empathy and concern toward disaster victims.[49]

[49] Richard T. Sylves, *Disaster Policy and Politics: Emergency Management and Homeland Security* (Washington DC: (continued...)

In addition, the proliferation of media coverage of emergencies and major disasters extends public scrutiny of the handling of the incident beyond just those in the disaster area. Higher levels of scrutiny, whether justified or not, may compel the President to declare an emergency or major disaster to show compassion to the disaster victims and demonstrate responsiveness to the incident. As one observer suggests:

> Some of the increase in presidential disaster declarations may be directly attributable to television news coverage; this is because media coverage of disasters and emergencies *imposes political pressure on the president to demonstrate concern* and offers a unique opportunity to demonstrate assertiveness, compassion, and strong decision-making skills. Public officials tend to use the news media to demonstrate their sympathy for disaster victims and to decry slow emergency response and relief efforts.[50]

Scholars studying disasters have argued that the President's handling of a disaster has consequences. According to professor Richard T. Sylves, a noted expert on emergency and disaster declarations, the perceived mishandling of Hurricane Andrew damaged President George H. W. Bush's image in Florida and may have contributed to his defeat in the 1992 presidential election.[51] It could be argued that if a President fails to issue a declaration he might be perceived as callous or indifferent to the disaster-stricken state. In the cases of "marginal" disasters—disasters that arguably could be handled by the state without federal aid—the greater the intensity of national news coverage of the event, the more the President is arguably compelled to provide federal aid.

Changes in State Policies and Circumstances

In addition to the federal elements that may have played a role in the increases in major disaster declarations, there are a number of state-level factors that have made the states more likely to request a declaration than in years past. These may be the result of various factors including (1) budget shortfalls, (2) a "learning curve" in declarations, and (3) the professionalization of emergency management.

State Budget Gaps

The recession that began at the end of 2007 led many states to experience heightened levels of fiscal stress, primarily because state revenue growth either stagnated, or in some states, declined. Because most states are required to balance their budgets, states have been forced to increase taxes and fees and/or reduce expenditures to address gaps in their budgets. According to a report issued by the National Governors Association and the National Association of State Budget

(...continued)

CQ Press, 2008), p. 219.

[50] Claire Rubin, Ed. *Emergency Management: The American Experience 1900-2010, 2nd Edition,* (CRC Press: Boca Raton, 2012), p. 131. Excerpt: Gary L. Wamsley, et al. *Coping with Catastrophe: Building an Emergency Management System to Meet People's Needs in Natural and Manmade Disasters* (Washington DC: National Academy of Public Administration, 1993).

[51] Richard T. Sylves, *Disaster Policy and Politics: Emergency Management and Homeland Security* (Washington DC: CQ Press, 2008), p. 85.

Officers, state fiscal conditions are improving but many states are still not back to prerecession levels.[52]

It could be argued that the budgetary stress caused by the economic contraction has encouraged states to seek federal funds to help offset state disaster costs. In prior years they may have funded the recovery with their own funds, but now they may be more likely to seek assistance from the federal government. Similarly, in years past, a state may have had sufficient funds for a rainy day fund to pay for unanticipated incidents. However, during periods of budgetary constraints, some states may not have any rainy day funds available to use for disaster assistance.

The Learning Curve of Declarations

When a request for an emergency or major disaster is approved by the President for a certain type of incident, other states may take notice and request assistance for a similar incident. It is conceivable that the state may not have thought to ask for the declaration had it not been previously approved for another state. In this way, "declaration creep" might occur over time as states learn what types of incidents might qualify for a declaration.

The Professionalization of Emergency Management

Since 2001, many states have created state emergency management agencies staffed by professional emergency managers. In addition, many colleges and universities offer degrees in emergency management and homeland security. In a speech at the FEMA Higher Education Conference in 2004, Wayne Blanchard, manager of the Emergency Management Higher Education Project at FEMA's Emergency Management Institute, stated that emergency management programs had grown from 95 to 113 since 2003, with another 97 programs under investigation or development.[53] By 2006, the number of emergency management programs had grown to 120.[54] By 2014, the number of programs in emergency management was 147.[55] The increase in the number of programs may be producing graduates who go on to be emergency managers that are more likely to be knowledgeable with the declaration process. In addition, technological advances enable emergency managers at the state level to gather information necessary to make a disaster declaration request more rapidly than in the past:

> Owing to advances in information technology, state emergency managers at the close of the twentieth century were likely better able to document the disaster loss than they were in the 1970s. State and local governments became more expert in using information technology to document disaster losses and more proficient in proving their need for federal assistance, which gave them a stronger factual basis for requesting a presidential disaster declaration.

> This may have contributed to the trend in declining turndowns of requests for federal assistance.[56]

As a result of this changing environment, state emergency managers may have more confidence in advocating a request for a declaration. Conversely, the state emergency manager may dissuade the governor from requesting a declaration if the emergency manager believes the incident is likely to be turned down.

Potential Methods for Controlling Declarations and Their Cost

If the increase in the number of declarations is a concern perhaps for the federal costs that accompany them (or for other reasons which have been discussed in this report), Congress may choose to address the issue. Addressing the issue may be conceptualized as two approaches: (1) limiting the number of declarations and (2) limiting the amount of spending that can occur after the declaration has been made.

The following section could be used to frame a potential debate on limiting the number of declarations being issued, limiting the assistance provided after a declaration has been declared, or both.

Rationale for Keeping the Declaration Process the Same

To many, providing relief to disaster victims is an essential role of the government. In their view, the concern over costs is understandable given concerns over the national budget. However, they may argue that the increase in the number of declarations being issued is justified because the declarations are tied to increased inclement weather, population growth, and development. Moreover, they say providing assistance to disaster-stricken areas is both acceptable and needed to help a state and region's economy to recover from a storm that it otherwise may not be able to recover from on its own.

A similar argument could be made that the number of declarations should be allowed to increase to meet the needs caused by population growth and development as well as inclement weather activity. However, there could be adjustments to limit the amount of federal assistance that is granted once the declaration has been issued.

Limiting the Number of Declarations Being Issued

Others may argue that the number of declarations being issued should be limited. The following sections review some policy mechanisms that could be employed to decrease the number of declarations that are being issued. The primary method consists of preventing what may be perceived to be marginal incidents from triggering federal assistance. These include changing the

[56] Claire Rubin, Ed. *Emergency Management: The American Experience 1900-2010, 2nd Edition,* (CRC Press: Boca Raton, 2012), p.158.

definitions of emergency and disaster in the Stafford Act, and changing the per capita formula for determining whether a disaster is sufficiently large to warrant federal assistance.

Changing Emergency and Disaster Definitions in the Stafford Act

Some argue that the Stafford Act has enhanced presidential declaration authority because emergencies and major disasters in Sections 102(1) and 102(2) of Stafford Act are ill-defined.[57] Because of the expansive nature of the definitions under the Stafford Act there are not many restrictions on the types of emergencies and disasters for which the President may issue a declaration.[58]

Changing the Per Capita Formula

The DHS Inspector General (IG) issued a report in May 2012 which noted that FEMA had been using a $1 per capita damage amount since 1986 for determining during its preliminary damage assessment process if it would recommend to the President that the event was beyond the capacity of state and local governments to deal with without federal assistance. They also explained that FEMA did not begin adjusting that number for inflation until 1999. The IG pointed out that if the inflation adjustment had been occurring over that 13-year period, from 1986 to 1999, fully 36% fewer disasters would have qualified for a presidential declaration based on that factor.[59]

However, the actual factors considered for a declaration did not become public until 1999. At the behest of Congress, it was in that year that FEMA began to print the factors that were considered in regulation. Until then, that information had been within the "pre-decisional" part of the process in the executive branch. However, in 1999 FEMA began to identify factors considered for both Public and Individual Assistance.[60] That is not to say FEMA was not using the per capita amount in its considerations, only that the process was not widely known or understood as it presently is. As the DHS IG notes, FEMA could have increased the thresholds gradually beginning in 1986. However, adjusting the per capita amount on an annual basis for inflation did not begin until more than a dozen years later. On the other hand, it should also be considered that when FEMA discussed such proposals (e.g., adjusting per capita figures) with Congress in 1986, Congress passed Section 320 of the Stafford Act that stated:

> No geographic area shall be precluded from receiving assistance under this Act solely by virtue of an arithmetic formula or sliding scale based on income or population.[61]

While it can be argued that FEMA should have been increasing the per capita amount to account for inflation in each succeeding year, it can also be argued that Congress's passage of Section 320 was also expressing its will that such measurements of need would not be the sole determinant for a disaster declaration.

[61] 42 U.S.C. §5163.

The Use of State Capacity Indicators

In 2001, the Government Accountability Office (GAO) issued a report on disaster declaration criteria. This report was a comprehensive review of FEMA's declaration criteria factors. GAO recommended that FEMA "develop more objective and specific criteria to assess the capabilities of state and local governments to respond to a disaster" and "consider replacing the per capita measure of state capacity with a more sensitive measure, such as a state's total taxable resources."

The state's Total Taxable Resources (TTR) was developed by the Department of the Treasury. GAO reported that TTR:

> is a better measure of state funding capacity in that it provides a more comprehensive measure of the resources that are potentially subject to state taxation. For example, TTR includes much of the business income that does not become part of the income flow to state residents, undistributed corporate profits, and rents and interest payments made by businesses to out-of-state stock owners. This more comprehensive indicator of state funding capacity is currently used to target federal aid to low-capacity states under the Substance Abuse and Mental Health Service Administration's block grant programs. In the case of FEMA's Public Assistance program, adjustments for TTR in setting the threshold for a disaster declaration would result in a more realistic estimate of a state's ability to respond to a disaster.[62]

It could be argued that the use of TTR would conflict with the prohibition against arithmetic formulas established by Congress. However, just as FEMA's per capita measurement is one of several factors considered and not the "sole" determinant of a declaration, GAO stated that TTR would not violate Section 320 because TTR could also be used with other criteria such as those identified in regulations. Thus, some could contend that TTR could fill a similar role with perhaps more accuracy. It may also help reduce federal costs for disaster assistance by denying assistance to marginal incidents that could be otherwise handled by the state.

Expert Panels

Some policymakers have suggested using expert panels to help the President make major disaster determinations. For example, S. 1630, the Disaster Recovery Act of 2011would have amended the Stafford Act to authorize the President to declare a catastrophic incident if a recommendation was issued by an independent panel of experts. These experts would be comprised of individuals with specialized knowledge in certain subject areas, such as disasters, economics, and public health. The panel would take into account the severity of the incident as well as other factors that might indicate how well the state could respond to and recover from the incident. The panel would then make recommendations to the President whether the circumstances of the incident were worthy of federal assistance based on their assessment.[63]

---

[62] U.S. General Accounting Office, *Disaster Assistance: Improvement Needed in Disaster Declaration Criteria and Eligibility Assurance Procedures*, GAO-01-837, August 31, 2001, pp. 11-12, available at http://www.gao.gov/assets/240/232622.pdf.

[63] For example, in the 112th Congress, Section 109 of S. 1630 proposed the use of an expert panel to designate a new category of declaration known as a "catastrophic" declaration. In this case, the panel would have determined whether the incident met the threshold of being catastrophic. For further analysis on catastrophic declarations see CRS Report R41884, *Considerations for a Catastrophic Declaration: Issues and Analysis*, by Bruce R. Lindsay and Francis X. McCarthy.

Some might argue that the use of an expert panel would make decisions about whether to provide assistance more objective. Others might argue that the use of a panel may slow down the declaration process and impede the provision of important assets and resources. It may be further argued that the panel's recommendation would infringe on the President's authority to issue a declaration. On the other hand, it could also be argued that the President would retain the authority to issue a declaration despite the panel's recommendation.

Emergency Loans

Another potential method to reduce the number of declarations and the costs of federal disaster assistance would be to create incentives to dissuade states from requesting assistance. One method would be converting some, or all, federal assistance provided through emergency declarations into a loan program. For example, emergency declarations could be altered to provide up to a specified amount (for example, $5 billion dollars) in low interest recovery loans.[64] Under this arrangement a state could elect to handle the incident without federal assistance rather than having to reimburse the federal government for recovery loans.

Another, similar, option would be to expand FEMA's Community Disaster Loan (CDL) program. The core purpose of the CDL program is to provide financial assistance to local governments that are having difficulty providing government services because of a loss in tax or other revenue following a disaster. The program assists local governments by offering federal loans to compensate for this temporary or permanent loss in local revenue. In addition to helping with lost revenue, the CDL program could be used to provide loans to help states and localities repair, rebuild, and recover after a major disaster.

Another loan program already in existence is the Small Business Administration (SBA) Disaster Loan Program.[65] SBA offers low-interest, long-term loans for physical and economic damages to businesses to help repair, rebuild, and recover from economic losses after a declared disaster. However, the majority of the agency's approved disaster loans (approximately 80%) are made to individuals and households (renters and property owners) to help repair and replace homes and personal property. Policymakers could consider expanding the SBA Disaster Loan Program by including recovery loans at low interest rates for states and local governments.

Changes to the Stafford Act

The following section discusses some potential changes to the Stafford Act that might limit the number of declarations being issued each year.

Repeal of Section 320

As mentioned previously, Section 320 of the Stafford Act restricts the use of an arithmetic or sliding scale to provide federal assistance. Repealing Section 320 would allow formulas that establish certain thresholds that states would have to meet to qualify for assistance.

[64] Assistance for emergency declarations is capped at $5 billion per incident.

[65] For more information on SBA disaster loans see CRS Report R41309, *The SBA Disaster Loan Program: Overview and Possible Issues for Congress*, by Bruce R. Lindsay.

Section 404

Section 404 of the Stafford Act[66] authorizes the President to contribute up to 75% of the cost of an incident toward mitigation measures that reduce the risk of future damage, loss of life, and suffering. One example of a change that could reduce federal cost is that Section 404 could be amended to make mitigation assistance contingent on state codes being in place prior to an event. For example, states that have met certain mitigation standards could remain eligible for the 75% federal cost share. States that do not meet the standards would be eligible for a smaller share, such as 50% federal cost share. The amendment could incentivize mitigation work on the behalf of the state and possibly help reduce damages to the extent that a request for assistance is not needed, or the cost of the federal share may be lessened. The amendment could be set to take effect in the future (for example, in three years) giving states time to act, or not.

Other Potential Amendments to the Stafford Act

Other amendments to the Stafford Act could either limit the number of declarations being issued, or the amount of assistance provided to the state by the federal government.

- The Stafford Act could be amended so that there could be no administrative adjustment of the cost-share. The cost-share could only be adjusted through congressional action. The amendment could be designed to apply immediately.
- The Stafford Act could be amended so that federal assistance would only be available for states with corollary programs (such as Public Assistance, Individual Assistance, and housing assistance). Establishing these programs at the state level may increase state capacity to handle some incidents without federal assistance. The amendment could be designed to take effect in the future (for example, three years), giving states time to act, or not.
- The Stafford Act could be amended to discontinue all assistance for snow removal unless directed by Congress. The amendment could be designed to take effect in the future (for example, three years) to give states and localities an opportunity to increase snow removal budgets, or not.

Reducing the Amount of Assistance Provided through Declarations

Adjust the State Cost Share

Most discussions regarding state cost-shares in disaster programs and projects involve ways in which the state amount may be reduced and the federal share increased.[67] Some may contend, however, that the opposite approach should be adopted and efforts should be undertaken to reduce disaster costs by shifting the costs to the state and local level. Currently, state and local governments provide 25% of disaster costs on projects and grants to families and individuals with the federal government assuming, at a minimum, 75% of all costs.[68]

[66] 42 U.S.C. §5170c.

[67] For additional discussion on this topic see CRS Report R41101, *FEMA Disaster Cost-Shares: Evolution and Analysis*, by Francis X. McCarthy.

[68] Ibid.

There is no statutory limit on the number of people that can be helped following a disaster.[69] Similarly, when assessing damage to state and local infrastructure there is no cap on the amount of federal funds that can be expended to make the repairs or accomplish a replacement. The only limitation is that the damage must be to eligible facilities and that it is disaster-related damage.

Given that open-ended commitment by the federal government, some may argue that increasing the state share of 25% to a higher percentage would be warranted given the federal government's fiscal condition. Another option would be to make the cost-share arrangement not subject to administrative adjustment.

Disaster Loans

As mentioned previously, the assistance provided for emergency declarations could be provided through the form of loans. Similarly, some or all of the assistance provided to the state after a major disaster could be converted to low-interest or no-interest loans. For example, a state may receive the traditional 75% cost share for an incident but be required to reimburse 25% of that funding to the federal government. Loans for disaster recovery could also be incentivized. For instance, states that undertook certain pre-established preparedness mitigation measures could qualify for a larger federal share or a lower interest rate.

Concluding Observations

Given the variables described in this report that can lead to increased declarations, including trends in severe weather patterns, population growth, and development, the upward trend of declarations will likely continue if declarations policies remain unchanged. Some may contend that the policy mechanisms used to address the increase in declarations should be shaped by its causes. Others may argue that if the causes are due to an increase in severe weather incidents, population growth, or development, then the declaration process should remain unchanged. Alternatively, thresholds for federal assistance could be adjusted to eliminate what are perceived to be marginal incidents and focus federal assistance on large-scale disasters. Another method would be shifting a greater share of the responsibility for providing assistance from the federal government to states and localities.

The approach to reduce declarations might shift somewhat if the increase in declarations and their costs is due primarily to federal policies. If that is the case, it could be argued that methods that constrain the President's discretion to issue declarations, or reforming FEMA policies may be more suitable. If the increase is tied to state policies, then mechanisms such as the use of loans or other incentives could be implemented to help decrease the number of state requests for assistance. Finally, as mentioned throughout this report, a combination of all of the above could be implemented.

At the heart of the declaration phenomenon is the role of the government when a disaster strikes. While it is generally agreed that the government should help disaster victims in time of need, it is unclear whether the fiscal responsibility resides primarily with the federal or the state government. Finding the balance has thus far been elusive, and altering the declaration process

[69] There is however, a limit on how much any one household can receive ($31,400 at the time of this report).

could have important implications for both federal and state officials, as well as disaster victims. Many of the policy options described in this report would shift a greater share of disaster-related costs to states and localities. It remains to be seen if reducing declarations and/or limiting the amount of disaster assistance provided to requesting states would severely disrupt the state's ability to adequately recover from an incident, or if states would be able to adjust to the changes by reallocating available state resources.

Kandel, Analyst in Immigration Policy, Domestic Security and Immigration Section, assisted with demographic information and census data.

The intent of the FY 2015 Emergency Management Performance Grant (EMPG) Program is to provide grant funding to assist state, local, tribal and territorial emergency management agencies in obtaining the resources required to support the National Preparedness Goal's associated Mission Areas and Core Capabilities. The EMPG Program supports to building, sustainment, and delivery of core capabilities essential to achieve the National Preparedness Goal of a secure and resilient nation. The EMPG Program's allowable costs support efforts to build and sustain core capabilities across Prevention, Protection, Mitigation, Response, and Recovery mission areas. The federal government, through the EMPG Program, provides necessary direction, coordination, guidance, and assistance so that a comprehensive emergency preparedness system exists for all hazards.

Examples of EMPG funded activities include:

- Initiating or achieving an all-of-Nation/whole community approach to security and emergency management;
- Strengthening a state or community's emergency management program;
- Updating emergency plans;
- Completing the State Preparedness Report (SPR), including the Threat and Hazard Identification and Risk Assessment (THIRA) process;
- Designing and conducting exercises that engage an all-of-Nation/whole community of stakeholders and validate core capabilities; and
- Conducting training

Based on the Scope of Work provided in the email, unless there are specific correlations to emergency management, emergency preparedness, planning, designing and conducting exercises and trainings that engages the whole community, there would be no conclusive evidence that this would be an allowable project under the EMPG. Finally, based on the Grant Programs Directorate Information Bulletin No. 400, page 6, §200.308 Revision of Budget and Program Plans; this section sets the requirements for when recipients must report deviations from their approved budgets and program plans. This section also sets the requirements for when recipients must request prior approval from FEMA to make changes to their approved budgets. This section also establishes when FEMA may waive the prior approval requirements set forth in this section. Please note that per the terms of this section, FEMA may no longer waive the prior approval requirements for construction projects. You are strongly encouraged to read this section carefully.

Subject: EMPG Project Question

Please let me know if the below would be eligible for EMPG use. I would look for $25,000.

Provide communication consulting services for the Flint Water Advisory Task Force (FWATF)

Consultant will devote such business efforts and time as is reasonably required to fulfill the outlined services below in the "Scope of Work". It is anticipated that the Consultant will devote a minimum of 60 hours per month to this project.

Scope of Work
Assist the FWATF in the following:

1. Development and coordinating of overall strategic messaging
2. Serve as media contact and spokesperson
3. Assist in the writing and distribution of documents such as reports and press releases
4. Attend meetings, conferences and interviews
5. Coordinate media information distribution
6. Media Training as needed
7. Editorial Board meeting coordination
8. Assist with Community Forums
9. Develop and maintain media contact information
10. Press conference preparation and implementation

Other items may be added to the "Scope of Work" if all parties agree.

Thanks,

Capt. Chris A. Kelenske
Deputy State Director/Commander
Emergency Management and Homeland Security Division
Michigan State Police
4000 Collins Road

Flint Water Advisory Task Force

Gov. Rick Snyder created the Flint Water Advisory Task Force to review action regarding water use and testing in Flint and to offer recommendations for future guidelines to protect the health and safety of all state residents. The independent advisory task force is assigned with creating an unbiased report focusing on steps taken in the past and recommendations that could improve practices to ensure all residents have access to safe, clean water.

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness. This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water services lines, negatively affecting the health of children.
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency." As of Dec. 8, 2015, this type of emergency is still in effect.
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- On Oct. 21, 2015, Gov. Rick Snyder today announced the creation of an independent advisory task force charged with reviewing actions regarding water use and testing in Flint and offer recommendations for future guidelines to protect the health and safety of all state residents.
- Other Michigan water-related issues:
    - Gov. Rick Snyder declared a "state of emergency" on April 17, 2014, for Marquette County due to the damage caused by the bitterly cold temperatures and deep frost levels. On May 7, the emergency declaration was amended by the MSP to include Charlevoix, Cheboygan, Chippewa, Delta, Emmet, Gogebic, Luce and Mackinac counties. To date, the state of Michigan has provided more than $7.6 million in assistance to communities through the Michigan Strategic Fund and $1.8 million through the Disaster and Emergency Contingency Fund.
    - On Aug. 2, 2014, the city of Toledo issued a water ban due to high levels of microcystin found in water samples. In Monroe County, the water ban affected more than 30,000 residents in the city of Lunda Pier and Bedford, LaSalle and Erie Townships.

- In February and March 2015, extremely cold temperatures froze water service lines at homes in Muskegon Heights. Some were without water until temperatures warmed into the spring. Although potable water was available, some individuals resorted to thawing outside snow for drinking water.

Recommendations

The Emergency Management Performance Grant (EMPG) program provides grant funding to assist state and local government in obtaining resources for emergency management activities, including strengthening a state or community's emergency management program.

The water problem and the health issue in the city of Flint is a terrible situation for everyone involved. Every day, we expect clean and safe water to come from our taps. Steps have been taken by state and local official to ensure citizens have safe and clean water at their homes, including obtaining water from a reputable source and providing filters to remove the lead.

To date, federal, state and local government and many nonprofit organization have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, all stakeholders are working together to bring Flint back to a state of normalcy with a timely recovery.

The city of Flint is not unique to this type of problem. All across Michigan, infrastructure is aging and many communities have older water mains and service lines. Within the last two years, the state of Michigan has encountered several emergency cases where citizens were unable to count on drinking water in their homes, creating widespread health and safety issues.

To help better problem-solve this emerging emergency situation, as well as craft an after action report from the city of Flint's water crisis, Gov. Rick Snyder has appointed the Flint Water Task Force.

Using the Flint case as an example, this task force will assist with recommendations for response and recovery plans in the event of a water emergency or disaster, strengthening the state of Michigan's emergency management capabilities, including recommending:

- Forming a whole community approach to water-related emergencies and disasters, including emergency management, health and nonprofit agencies, and businesses.
- Additions to include state and local emergency plans for a water-related health emergencies and disasters.
- Required training for water-related emergencies and disasters.
- Exercises that engage the whole community during a water-related emergency or disaster.

As a part of that effort, the task force will have a public information officer position. This position will be funded by EMPG dollars and tasked with the following:

- Development and coordinating of overall strategic messaging
- Serve as media contact and spokesperson

- Assist in the writing and distribution of documents such as reports and press releases
- Attend meetings, conferences and interviews
- Coordinate media information distribution
- Media Training as needed
- Editorial Board meeting coordination
- Assist with Community Forums
- Develop and maintain media contact information
- Press conference preparation and implementation

Per funding of this position with EMPG dollars, the person staffed in this position will have to report on actions taken quarterly to protect the life and health and safety of Michigan citizens. As a condition of receiving grant dollars, conditions will have to be included within the contract to ensure EMPG-eligible activities are taking place.

To all Recipients:

Transmitted herewith is the Support Emergency Operations Plan for the City of Flint in support to the Genesee County Emergency Action Guidelines (EAG). The plan provides a framework for the City of Flint to use in performing emergency functions before, during, and after a natural disaster, technological incident or a hostile attack.

The policies contained herein do not discriminate on the basis of race, color, national origin, religion, sex, age, disability or political beliefs.

This plan was adopted by Flint City under Resolution No._____
Dated_____. It supersedes all previous plans.

Karen Weaver 12-11-15

Signature of Chief Executive Official (Mayor) Date

Dr. Karen Weaver

CITY OF FLINT, MICHIGAN

INTRODUCTION TO THE PLAN

I. Purpose

The City of Flint has elected to be incorporated into the Genesee County Emergency Management Program. By becoming part of the county emergency management program, the City of Flint and Genesee County have certain responsibilities to each other. This Support Emergency Operations Plan has been developed to identify the responsibilities between the City of Flint and Genesee County in regards to pre-disaster emergency management activities. It also provides for City of Flint government agencies to respond to various types of emergencies or disasters that affect the community. This support plan is to be used in concurrence with the Genesee County Emergency Action Guideline, as it is a supporting document. The support plan will be maintained in accordance with the most current standards of the Genesee County Emergency Action Guidelines. Review of this support plan shall be accomplished concurrently with the county plan.

II. Scope

This plan is a flexible document in which changes from the content of the plan may occur due to unique nature of emergencies. Each agency that has a supported role in this plan or its elements has developed Standard Operating Procedures (SOP) which provides systematic instructions for accomplishing assigned functions. In addition, to support emergency preparedness and response efforts, the local government also conducts other activities such as personnel training, participating in exercises, encouraging chronic disease prevention techniques; educate the public on awareness activities, and use of appropriate land use planning decisions for mitigation and prevention purposes as well. Through this plan, the City of Flint continues to implement the National Incident Management System, participating in efforts to provide an effective and efficient incident management operation.

III. Plan Maintenance and Implementation

The plan has been developed together with local community, and county officials to ensure consistency within the county emergency management program documents. The plan is required to be approved by the City of Flint's Chief Executive Official every four years, or whenever the CEO changes and is to be forwarded to the County Emergency Management Office. Upon approval, it will be implemented, tested through exercises in concurrence with County officials, and review/updated to maintain currentness with the Genesee County Emergency Action Guidelines.

This plan has been provided to all municipal agencies, elected officials, the county emergency management office and the MSP/EMHSD district coordinator.

IV. Emergency Management Program Oversight

The City of Flint has appointed the Chief of Fire to serve as the city's emergency management liaision responsible for working with the County Emergency Management Coordinator in matters pertaining to emergency management for the municipality. Pursuant the requirements in P.A. 390, of 1976, as amended, Section 19, Genesee County has adopted a resolution that incorporates the City of Flint into its emergency management program, necessary for diaster assistance.

CITY OF FLINT, MICHIGAN

BASIC INFORMATION

I. Community Profile

The City of Flint is situated in the center of Genesee County. At 33.42 square miles, it is the county's largest city. According to the United States Census Bureau, Flint's estimated population is 99,763.

Flint has an average number of people identified as individuals with special/functional needs for a city of its size. Many of these individuals reside in congregate care centers, but others reside in non-group homes where help is provided as needed or on-call.

According to the Genesee County Hazard Mitigation Plan, the three situations the community is most vulnerable to is: inclement weather (e.g. thunderstorms, hail, lightning and severe wind storms, snow, tornadoes), structure fires and hazardous material incidents. All of these incidents can happen anywhere within the community, but hazardous material incidents are more likely to occur on the major expressways and highways. I-475, I-69, M-21 & M-54 all pass through Flint while I-75/US 23 is very close to its western border. More information regarding hazard vulnerability can be found in the County's Hazard Mitigation Plan/Analysis.

Within the community, there are 19 sites that contain extremely hazardous materials. Pursuant to SARA Title III, off-site emergency response plans have been developed by the LEPC to prepare the fire department(s) to respond to the specific hazardous materials on the sites. In addition, the owners of the site(s) have reported the types of hazardous material that is housed on-site, as required by the Emergency Planning and Community Right-To-Know Act.

II. Emergency Management Authority

Pursuant to P.A. 390 of 1976, as amended, the municipal CEO may declare a local state of emergency for the City of Flint. Also, Sections 1-801and 3-306 of the Flint City Charter describe procedures regarding emergency rules and ordinances. Upon a declaration, PA 390 also authorizes the CEO to issue directives, such as restrictions to travel on local roads. The local declaration activates this emergency plan as well as the emergency operations center to conduct activities to ensure the safety of people, property, and the environment.

Since the City of Flint has been a recipient of federal preparedness assistance, a resolution has been adopted by the local government for establishing the National Incident Management System as the standard for incident management for all-hazards. Through the adoption, the City continues to implement the concepts of the NIMS through training, planning, and exercising activities.

III. Response Resources

The City of Flint maintains fulltime departments of both Police and Fire. They are responsible for providing public safety and welfare to the community. Each department is comprised of qualified emergency personnel, and maintains equipment capable of responding to emergencies. A list of resources that the departments use for emergency situations can be requested through the municipal emergency management liaison. Under certain circumstances, if the incident requires additional resources beyond the capability of the City of Flint, the CEO may enact mutual aid. This is a familiar practice within both departments.

IV. Emegency Management Organization

The City of Flint emergency management organization consists of a number of departments responsible for conducting activities in response to emergencies within the community. These departments have been assigned to specific emergency functions for which the municipality has identified necessary in order to provide an effective response to secure the safety of people, property, and the environment. Each agency is responsible for implementing pre-disaster activities to help prevent and/or prepare for various hazards that the community is vulnerable to such as: chronic diseases, flooding, hazardous material spills, inclement weather, tornadoes, and public disturbance to name a few; a more profound list can be found in the County's Hazard Mitigation Plan/Analysis. Prevention and preparedness activities include: awareness training, exercising, hygienic practices to prevent spreading of infectious diseases, stockpiling equipment, and educating people on how to care for themselves during an emergency.

The CEO serves as the incident manager for municipal coordination. At his/her side includes the Finance Director and the Emergency Management Liaison (EML). The EML's duties include planning, operations, and logistics.

The table lists the functions, assigned agencies, primary point of contact of municipal EOC representatives.

Function	Agency	Primary Contact
Direction and Control	City Hall	Dr. Karen Weaver, Mayor
	City Hall	City Administrator Natasha L. Henderson
Fire Services	Fire Department	Fire Chief David Cox Jr.
Law Enforcement	Police Department	Police Chief James Tolbert
Warning & Communications	Genesee County 911 (GCCD)	Dave Ackley

Damage Assessment	Assesments	Assessor William E. Fowler
Public Works	DPW - Utilities -Transportation	Kay Muhammad
Emergency Medical Services	Fire Department	Fire Chief David Cox Jr.
Human Services	Fire Department	Emergency Management Liaison Fire Chief David Cox Jr.
Finance	Finance Department	Dawn Steele

Line of Succession

The following is a list of the 2nd and 3rd alternates for each agency/function identified in the plan to maintain the emergency tasks assigned.

Agency	2nd Alternate	3rd Alternate
City Hall	City Administrator	Finance Director
Fire Department	Safety/Training Officer	On Duty District Commander
Police Department	Captain Collin Birnie	Captain Leigh Golden
Genesee County 911 (GCCD)	911 Supervisor Tabit	On Duty Shift Supervisor
Public Information Official	Sean Kammer	Maxine Murray
Assesments	Deputy Assesor Jacquetta Overton	Support Supervisor Tracy Weiss
DPW - Utilities Department - Transportation Dept.	Kay Muhammad	Rob Bincsik Betty Wideman
Emergency Medical Services	On Duty District Commander	On Duty Ranking Officer
Finance Department	Dawn Steele	Patrick Jones

CITY OF FLINT, MICHIGAN
GENERAL EMERGENCY MANAGEMENT GUIDELINES

The following guidelines are general to the municipality, all agencies, and individuals who have a role in responding to an emergency within the community and coordinated by the City of Flint. Being that emergency planning is a work in progress guidelines are continuously reviewed and modified due to the situation and complexity of incidents.

a) Report to the local emergency operations center when activated for scheduled exercises or disasters, or delegate another individual to staff the EOC and implement the plan.

b) Implement mutual aid agreements or contracts with other organizations to supplement local resources that have been exhausted.

c) Ensure compliance with this plan and the County Emergency Plan, and any pertinent procedures and documents issued, which impact the provision of emergency services in the municipality.

d) Train department emergency personnel in emergency management functions and NIMS/ICS concepts.

e) Assists in the development, review and maintenance of the plan and of the County EOP.

f) Develop and maintain standard operating procedures for specific functions or actions identified in the plan.

g) Maintain a list of resources available by the departments/agencies.

h) Protect records and other resources deemed essential for continuing government functions and each agency's emergency operations in accordance to procedures and policies.

i) Establish mutual aid agreements and/or contracts with other jurisdictions/entities to supplement municipal resources.

j) Establish a system of coordination, such as the incident command system, within the EOC. Field operations, however, are required to use the incident command system.

k) Participate in the review and update of this emergency operations plan, in accordance to a schedule identified by the municipal emergency management liaison and the county emergency management coordinator.

l) Adapt and provide printed emergency management materials and verbal messages to those who are vision impaired, non-English speaking, or deaf/hard of hearing.

m) Conduct pre-disaster public awareness activities including education classes, self-care guidelines, communications plans, and protocols.

n) Make recommendations to the CEO regarding protective actions.

o) Record and log significant events throughout the duration of the emergency, as well as the decisions made by the incident commander and municipal CEO.

p) Continuously conduct emergency planning activities as it is a work-in-progress, periodically being reviewed and updated.

q) Understand your department's collective bargaining agreement as it pertains to emergencies (e.g. employee callbacks, pay rate changes.

CITY OF FLINT

EMERGENCY RESPONSE PROCEDURES

The following are procedures that the City of Flint conducts and coordinates with the county in response to a local state of emergency.

a) Information about a potential emergency should be directed to the Emergency Management Liaison (EML).

b) Assure that the municipal emergency response agencies, elected officials, and the county emergency management coordinator are notified of the situation.

c) Municipal agencies assess the nature and scope of the emergency or disaster.

d) If the situation can be handled locally, do so, using the following sequenced guidelines.

   a. The EML advises the CEO and coordinates all emergency response actions.

   b. The CEO declares a local state of emergency and notifies the county emergency management coordinator of this action.

   c. A local state of emergency declaration is forwarded to the county office.

   d. The emergency management liaison activates the emergency operations center (EOC). The EOC is located within Flint Fire Station #1 located at 310 E. Fifth St. If this location is unavailable an alternate locations is at the Genesee County Sheriff's Department.

   e. The EOC shall establish an incident tracking system such as the FBI's *Virtual Command Center.*

   f. Emergency Operations Center representatives are notified, through Genesee County 911, by the municipal Emergency Management Liaison to report to the EOC.

   g. The EML directs departments/agencies to respond to the emergency situation in accordance to each agency's functional guidelines indicated in the attachments to this plan. These departments/agencies shall report out their progress to the EOC on the hour.

   h. The CEO issues directives as to travel restrictions on local roads and recommends protective actions from the commanding agency. Protective action recommendations will be based on weather forecasting and if the incident complexity increases due to inability to respond rapidly and with a "ready" supply of resources to mitigate the incident.

   i. Notify the public officials, as well as the public, of the situation, through the Public Information Official, and take appropriate actions.

   j. Keep the county emergency management coordinator informed of the situation and actions taken.

e) If municipal resources become exhausted or if special resources are needed, request county assistance through the county emergency management coordinator.

f) If assistance is requested, the county emergency management coordinator assesses the situation and makes recommendations on the type/level of assistance. The County will also take the following steps:

1. Activate the County Emergency Operations Center
2. Activate the County Emergency Operations Plan/Emergency Action Guidelines
3. Respond with county resources as requested
4. Activate mutual aid agreements
5. Coordinate county resources with municipal resources
6. Notify Michigan State Police/ Emergency Management and Homeland Security (MSP/EMHSD) District Coordinator.
7. Develop a jurisdiction situation report and a damage and injury assessment report via and submit to the MSP/EMHSD.
8. Assist the municipality with prioritizing and allocating resources.

g) If county resources are exhausted, the county makes a request to the Governor to declare a state of emergency or state of disaster in accordance with procedures set forth in PA 390, as amended. The county shall not request state assistance or a declaration of a state of disaster or a state of emergency unless requested to do so by the CEO of City of Flint if the situation occurs solely within the confines of the municipality.

h) If state assistance is requested, the MSP/EMHSD District Coordinator, in conjunction with the county emergency management coordinator and municipal emergency management liaison, assess the disaster or emergency situation and recommends the necessary resources that are required for its prevention, mitigation, or relief efforts.

i) After completing the assessment the MSP/EMHSD District Coordinator immediately notifies the State Director of Emergency Management and Homeland Security of the situation.

j) The State Director of Emergency Management and Homeland Security notifies the Governor and makes recommendations.

k) If state assistance is granted, procedures are followed in accordance to the Michigan Emergency Management Plan and the County Emergency Operations Plan.

ADDENDA

CITY OF FLINT

EMERGENCY ACTION GUIDELINES

The following attachments provide guidelines for each function that has been assigned to the agencies in response to an emergency or disaster situation.

Attachment A: Direction and Control
Attachment B: Fire Services
Attachment C: Law Enforcement
Attachment D: Warning and Communications
Attachment E: Public Information
Attachment F: Damage Assessment
Attachment G: Public Works
Attachment H: Emergency Medical Services
Attachment I: Human Services

Each agency assigned is responsible for maintaing the guidelines, as well as approving any changes to the guidelines or changes to the official responsible for implementation.

ATTACHMENT A

DIRECTION AND CONTROL

The Chief Executive Official, with support from the Emergency Management Liaison, is responsible for directing and controlling emergency management operations. The following guidelines represent a checklist of actions that the CEO and liaison must consider for providing an effective response to an emergency or disaster situation.

a) Declare a local state of emergency or disaster and notify the county emergency management office.

b) Issue orders and directives, i.e., travel restrictions, and recommend protective actions to be taken by the general public.

c) Activates and maintains the local emergency operations center.

d) Provide for continuity of operations.

e) Generate and disseminate information to the public via Public Information Official.

f) Seek federal post-disaster funds, as available, as well as pre-disaster assistance.

g) Maintain record of activity regarding decisions on emergency actions.

h) Review and evaluate assessment data.

i) Maintain liaison with state and federal officials.

j) Coordinate with County officials in response and recovery efforts.

k) Coordinate and conduct information sharing activities to identify potential and enacted WMD or terrorism activities, and mobilize and direct resources in response to such incidents.

l) Prepares and maintains an emergency plan for the municipality subject to the direction of the elected officials; reviews and updates as required.

m) Develops and maintains a trained staff and current emergency response checklists appropriate for the emergency needs and resources of the community.

n) Coordinate with State and federal officials in collecting and sharing terrorism related information.

The executive official(s) has reviewed and approves the assigned guidelines. These will be maintained in accordance to the most current standards of the county's emergency plan.

ATTACHMENT B

FIRE SERVICES

The Fire Department, is responsible for fire service actitivites. The following guidelines represent a checklist of actions that department officials must consider for providing an effective response to an emergency or disaster situation. In addition, the Chief of Fire, or his designee, is to serve as the Citys Emergency Management Liason.

a) Provide command level representatives to the EOC and Unified Incident Command Post, when activated.

b) Coordinates fire, and search and rescue services with appropriate personnel at the County Emergency Management Agency; including assistance to regional specialty teams such as, but not limited to, the Regional Response Team, MUSAR, and the Bomb Squad.

c) Coordinates with County EMC and the State of Michigan in the decontamination and monitoring of affected citizens and emergency workers after exposure to CBRNE hazards.

d) Assists with emergency alerting and notification of threatened population.

e) Assists with evacuation of affected citizens, especially those who are institutionalized, immobilized or injured.

f) Provides resources for fire services response and rescue operations.

g) Assists in salvage operations and debris clearance.

h) Advises elected officials about fire and rescue activities.

i) Conduct safety analysis of the emergency , inform and recommend corrections to the CEO.

j) Respond to hazardous materials spills in accordance to the procedures in Appendix 1.

k) Assist in search and rescue operations.

l) Assist in searching for bombs and/or explosive devices in connection with WMD events.

a) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

Chief of Fire, David Cox Jr., has reviewed and approves the assigned guidelines. These will be maintained in accordance to the most current standards of the county's emergency plan.

APPENDIX 1:

FIRE SERVICES

HAZMAT RESPONSE GUIDELINES

The Fire Department is responsible for the response to hazardous materials spills. However, through a Memorandum of Understanding, the Genesee County Hazmat Team, will respond and assume a supportive role. In the event Genesee County's team is unavailable, a mutual aid request can be made of Oakland County's Hazmat Team or Region 3 Regional Response Team Network. Private companies are an option as well. Until a Hazmat team responds, the Fire Department's response will be acted in accordance to the following procedures.

a) Assume incident command upon arrival at the scene.

b) Establish scene security or coordinate with other available agencies to establish scene security.

c) Monitor and evaluate environmental health risks or hazards from hazardous materials releases.

d) Inspect possible sources of contamination.

e) Provide technical assistance and liaison with other appropriate agencies or organizations for the remediation of hazardous waste releases and other contamination sources.

f) Disseminate information to the Emergency Operations Center Public Information Officer on hazardous material releases issues.

g) Makes protective action recommendations based on severity and complexity of incident type.

h) Ensure PPE is fit tested to responders.

i) Prior to proceding with cleanup, analyze and evaluate the contamination and safety factors of the spill by a certified Safety Officer/technician.

j) Decontaminate equipment and gear.

Chief of Fire, David Cox Jr., has reviewed and approves the assigned guidelines. These will be maintained in accordance to the most current standards of the county's emergency plan.

PUBLIC INFORMATION:

CITY COUNCIL

Flint City Council members will play a crucial role in disseminating information to their constituents. Invariably, they will be inundated with calls during an emergency. The following guidelines represent a checklist of actions that the Public Information Official should consider in order to provide an effective communication plan with Council members.

a) In conjunction with City Council, develop procedure for the initial notification of an emergency. This should include a specific Council member and his/her contact information, as well as second and third alternate Council members. This Councilperson shall then notify all other Council members.

b) Provide written status reports to the Council. This should be done as often as necessary in order to keep the Council updated on the current status of the incident.

c) Establish an avenue of communication, to the EOC, that allows Council members to provide information and/or ask questions that have been presented to them by their constituents.

d) Relay instructions/orders for the public, originating out of the EOC, to the Council so they can, in turn, relay them to citizens. This information should be presented to the Council in written form.

The Public Information Official, Sean Kammer, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

PUBLIC WORKS

The **Department of Public Works (DPW)** is responsible for maintaining, preserving and/or restoring the Citys public services. The following guidelines represent a checklist of actions that department officials must consider for providing an effective response to an emergency or disaster situation.

a) Assess resources that are available at the time of the incident.

b) If necessary, coordinate activities designed to control the flow of flood water, including sandbagging, emergency diking, and pumping operations.

c) Coordinate travel restrictions/road closures within the municipality.

d) Identify evacuation routes.

e) Provide emergency generators and lighting.

f) Maintain transportation routes and assist with traffic control.

g) Assist with access control.

h) Assist with urban search and rescue activities, i.e., persons trapped in damaged buildings or under heavy debris/objects.

i) Assist private utilities with the shutdown and restoration of gas and electric services.

j) Assist with transportation of essential goods, i.e., food, medical supplies.

k) As necessary, establish a staging area for public works.

l) Report damage information to the Damage Assessment Team.

m) If necessary, assist with damage surveys for the federal public assistance grant program.

n) If the county Emergency Operations Center is activated, establish and maintain contact with the person representing public works.

o) Notify Law Enforcement of the location(s) of disabled vehicles.

p) Inspect critical infrastructure and other public utilities for safety. This should be done in conjunction with the City's Building Safety Department.

q) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

r) Assist the Fire Department in response efforts to hazmat incidents.

Public Works Director, Kay Muhammad, has reviewed and approves the assigned responsibilities. These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

HUMAN SERVICES

The Emergency Management Liaison, or his designee, will serve as the Human Services Liaison and will be responsible for human services activities. The liaison will coordinate and/or keep informed human services activities occuring within the city, with Genesee County Departments of Human Services (GCDHS). The following points represent a checklist of actions that the liaison must consider for providing an effective response to an emergency or disaster situation.

a) Coordinate all human services activities through the County Emergency Manager.

b) Coordinate the provision of transportation for evacuation. Mass Transportation Authority (MTA) will be a resource for this task.

c) Open and manage shelters in the municipality. The American Red Cross (ARC) will be a resource for this task.

d) Set up canteen to feed emergency workers in the municipality. ARC will be a resource for this task.

e) Provide food and clothing to municipality workers and victims of disaster residing in the municipality.

f) Assist the county and the City PIO, with establishing a Rumor Control Center.

g) Arrange for provision of Crisis Counseling or Critical Incident Stress Debriefing (CISD) for both victims and identified disaster workers.

h) If the County Emergency Operations Center is activated, establish and maintain contact with the person representing Human Services. If the county Emergency Operations Center is not activated, establish and maintain contact with the county Human Services Official directly at the county Department of Human Services.

i) Coordinate with ARC and other pertinent organizations for the distribution of emergency clothing for disaster victims.

j) Coordinate efforts to provide transportation for disaster victims. Consider local school buses or MTA.

k) Coordinate animal and pet control. Genesee County Animal Control will be a resource for this task.

l) Implementation of a family reunification system. ARC will be a resource for this task.

m) Maintain a daily log of expenditures for possible reimbursement from state or federal agencies.

These responsibilities will be maintained in accordance to the most current standards of the county's emergency plan.

Michigan Public Health Code - Summary of Authority and Actions

	Authority/Action	Law[1]	Comments
1.	Imminent Danger Order	§ 2251 or § 2451	• Issued by State Health Director or Local Health Officer • Requires determination of "imminent danger", i.e. a condition or practice exists which could reasonably be expected to cause death, disease, or serious physical harm immediately or before the imminence of the danger can be eliminated through enforcement procedures otherwise provided • May require immediate action to avoid, correct, or remove imminent danger • If Director determines that conditions anywhere in state constitute a menace to the public health, Director may take full charge of the administration of applicable state and local health laws, rules, regulations, and ordinances • Petition filed in circuit court for an order to compel compliance
	Imminent Danger Notification to Schedule a *Controlled* Substance	§ 2251(4)	• Issued by State Health Director to notify State Board of Pharmacy and Director of Licensing and Regulatory Affairs to remove the imminent danger. • This is an imminent danger to the health and lives of individuals in this state that can be prevented or controlled by the promulgation of an emergency rule under section 48(2) of the administrative procedures act of 1969,1969 PA 306, MCL 24.248, to schedule a substance or reschedule a substance as a controlled substance as provided in part 72. • The notification shall include a description of the substance to be scheduled or rescheduled and the grounds for the State Health Director's determination. • The State Health Director may provide copies of police, hospital, and laboratory reports and other information deemed appropriate to the Board of Pharmacy and Director of Licensing and Regulatory Affairs..
2.	Emergency Order to Control Epidemic	§ 2253 or § 2453	• Issued by State Health Director or Local Health Officer • May prohibit the gathering of people for any purpose and may establish procedures to be followed during the epidemic • Unlike Warning Notice (described below) may be issued to a class of persons • May be used to direct mass immunization (§ 9203) • Petition filed in circuit court for an order to compel compliance
3.	Order to Abate a Nuisance	§ 2455	• Issued by State Health Director or Local Health Officer against owner of property • If property owner does not comply, may remove nuisance and charge owner • May seek warrant from court for assistance from law enforcement to remove nuisance
4.	Inspection or Investigation Authority	§ 2221(2)(d) § 2241(1) § 2433(2)(c) § 2446 Rule 173(9)	• State and local health departments are authorized to inspect or investigate: – A suspected outbreak or exposure – Any matter, thing, premises, place, person, record, vehicle, incident, or event • State and local health investigators to be provided with medical and epidemiological pertaining to individuals who have, are suspected of having, or may have been exposed to a disease or condition of public health significance
5.	Inspection or Investigative Warrant	§§ 2241-2247 § 2446	• Application for warrant may be filed by State or Local Health Department • Issued by Magistrate based on facts stated in affidavit • May authorize property to be seized • May direct law enforcement to assist health department in inspection or investigation

[1] Refers to section of Public Health Code, MCL 333.1101 *et seq.* or communicable disease rules, Michigan Administrative Code, R 325.171 *et seq.*, promulgated under the Code (§§ 2226(d), 2435(d), 5111).

	Authority/Action	Law[1]	Comments
6.	Criminal Prosecution	§ 2261 or § 2443	• A person who violates a rule or order of the State or Local Health Officer is guilty of a misdemeanor punishable by imprisonment for not more than 6 months, or a fine of not more than $200, or both • Individual may be arrested if violation occurs in the presence of a police officer, or police officer has reasonable cause to believe individual has violated rule or order (MCL 764.15(1))
7.	Injunction	§ 2255 or § 2465	• State Health Director or Local Health Director may maintain action • May seek court order to restrain, prevent, or correct: – A violation of a law, rule or order that health department has duty to enforce – An activity or condition that health department believes adversely affects the public health
8.	Warning Notice (for involuntary detention and treatment of individuals)	§ 2453(2) §§ 5201 - 5205	• Shall be issued by state health department representative or Local Health Officer upon a determination that individual: – Is or is reasonably believed to be a carrier of a specific infectious agent or serious communicable disease or infection – Has demonstrated inability or unwillingness to act in a manner that does not put others at risk of exposure • Must be in writing (may be verbal in urgent circumstances, followed by a written notice within 3 days) • Must be specific and individual, cannot be issued to a class of persons • Must require individual to cooperate with health department in efforts to control spread of disease • May require individual to participate in education, counseling, or treatment programs, and to undergo medical tests to verify carrier status • Must inform individual that if individual fails to comply with Warning Notice, health department shall seek court order
9.	Court Order for Detaining, Transporting, Testing, or Treating Carrier of Infectious Disease	§§ 5205 - 5207	• If individual fails or refused to comply with Warning Notice (see discussion above), health department must petition Circuit Court (Family Division) for order requiring testing, treatment, education, counseling, commitment, isolation, etc., as appropriate – Individual has right to evidentiary hearing – Health department must prove allegations by clear and convincing evidence – Individual has right to appeal and review by Court of Appeals within 30 days – Before committing individual to a facility, court must consider recommendation of a commitment panel, and commitment order must be reviewed periodically • In an emergency, health department may go straight to court (without issuing Warning Notice). Upon filing of affidavit by health department, court may order that individual be taken into custody and transported to an appropriate emergency care or treatment facility for observation, examination, testing diagnosis, treatment, or temporary detention – Court must have reasonable cause to believe that individual is a carrier and health threat to others – Emergency order may be issued *ex parte* – Hearing on temporary detainment order must be held within 72 hours (excluding weekends and holidays) • Individual who is subject of either emergency proceedings or petition on a Warning Notice has right to counsel at all stages of proceedings. Indigent individual is entitled to appointed counsel

Legal Interventions for Environmental Hazards and Other Public Health Threats
Michigan's Public Health Code

This document is intended to assist local health officers and their attorneys draft orders to protect the public from environmental hazards by identifying the elements for these orders. Michigan's Public Health Code authorizes state and local public health officers to protect the public against environmental and other hazards by issuing imminent danger orders or orders to eliminate nuisances, unsanitary conditions and sources of illness. Though the details of the law that it apply only in Michigan, the legal provisions addressed in this document likely have similar counterparts in all other states. Lawyers in other states may have developed, or could develop, comparable guidance relating to legal interventions in their states. You may wish to talk with your attorney, or visit the State Public Health Lawyer Directory to find contact information for a public health attorney in your state.

Order must address the following elements
• List facts, as health officer understands them.
• What is the condition or practice that exists?
• Explain why this could reasonably be expected to cause death, disease or serious physical harm.
• Explain why/how the danger is imminent (i.e. could cause harm EITHER immediately AND/OR before danger can be eliminated through other/nonemergency enforcement.
• What corrective action is needed?
• Who is to make this corrective action?
• Briefly state what happens if the individual does not comply with order.

MCL 333.2451. Order to Protect Against any Imminent Danger

(1) Upon a determination that an imminent danger to the health of individuals exists in the area served by the local health department, the local health officer immediately shall inform the individuals affected by the imminent danger and issue an order that shall be delivered to a person authorized to avoid, correct or remove the imminent danger or be posted at or near the immediate danger. The order shall inform the findings of the local health department and require immediate action necessary to avoid, correct or remove the imminent danger. The order may specify action to be taken or prohibit the presence of individuals in locations or under conditions where the imminent danger exists, except individuals whose presence is necessary to avoid, correct, or remove the imminent danger.

(2) Upon the failure of a person to comply promptly with an order issued under this section, the local health department may petition a circuit or district court having jurisdiction to restrain a condition or practice which the local health officer determines creates the imminent danger or to require action to avoid, correct or remove the imminent danger.

(3) As used in this section:

(a) "Imminent danger" means a condition or practice which could reasonably be expected to cause death, disease or serious physical harm immediately or before the imminence of the danger can be eliminated through enforcement procedures otherwise provided.

(b) "Person" means a person as defined in section 1106 or a governmental entity.

Order must address the following elements
• List facts, as health officer understands them.
• Describe the building or condition of concern.
• Identify the health law(s) that this building or condition violates AND/OR explain why the health officer reasonably believes the building or condition to be a nuisance, unsanitary condition or cause of illness.
• What corrective action is needed?
• Identify the owner or occupant who is to make this corrective action.
• Briefly state what happens if owner or occupant does not comply with order.

MCL 333.2455. Order to Eliminate a Nuisance, Unsanitary Condition or Cause of Illness

(1) A local health department or the [state] department may issue an order to avoid, correct or remove, at the owner's expense, a building or condition which violates health laws or which the local health officer or director reasonably believes to be a nuisance, unsanitary condition or cause of illness.

(2) If the owner or occupant does not comply with the order, the local health department or department may cause the violation, nuisance, unsanitary condition or cause of illness to be removed and may rank a warrant for this purpose. The owner of the premises shall pay the expenses incurred.

(3) If the owner of the premises refuses or is unable to pay expenses incurred, the sums paid shall be assessed against the property and shall be collected and trimmed in the same manner as taxes assessed under the general laws of this state. An occupant or other person who caused or permitted the violation, nuisance, unsanitary condition or cause of illness to exist is liable to the owner of the premises for the amount paid by the owner or assessed against the property which amounts shall be recoverable in an action.

(4) A court, upon a finding that a violation or a nuisance or a hazardous to the public health, may order the removal, abatement or destruction of the violation or nuisance at the expense of the defendant, under the direction of the local health department where the violation or nuisance is found. The form of the warrant in the sheriff or other law enforcement officer may be varied accordingly.

(5) This section does not affect powers otherwise granted to local governments.

Drafting Orders to Eliminate an Environmental Hazard

Legal authority	• Describe/cite the law that authorizes the health department to take this action
Relevant facts	• WHAT is doing WHAT that is creating or is threatening to create an environmental hazard • WHERE is the threat occurring (location of threat, address or description where no address) • WHEN is the threat occurring (now, imminent future date, repeated, continuing) and • WHY do the persons who you are naming in the order (representable for the threat) and for eliminating it (e.g. owners, occupant, engaging in certain activity)
Explain how facts support determination that this is a threat to public health	• HOW does condition or activity threaten the public health? (what is it) • A threshold of a specific level to prove the violation) • Under the circumstances, is reasonably to public health because it does or is reasonably believed to (cause a specified harm [or the greatest number harmed] or both)
Action required	• What must be done to avoid or eliminate the hazard • Who must do it
Consequences	• What happens if the responsible person does not take the required action to avoid or remove the hazard
Right to review	• If a right is formal or informal review has been established, state how this right can be exercised
Signature and title	• Individual who has legal authority to issue the order

Public Health Emergency Declaration for People Using the Flint City Water Supply with the Flint River as the Source

The County is issuing an Emergency Advisory recommending that people not drink the water coming from the City of Flint using the Flint River as the water source unless:

It has been tested to assure it does not contain elevated levels of lead.

It is being filtered through a National Sanitation Foundation (NSF) approved filter certified to remove lead that meets ANSI standard 53.

Findings reported in the Detroit Free Press September 30, 2015 indicate that Governor Snyder has publically acknowledged that Flint's water supply "appears" to have problems. Snyder has conceded that "it appears that (water) lead levels could be higher or have increased," and that there are "probably things that weren't fully understood when the switch was made." This is in direct contrast to previous reports from the State that downplayed the severity of the situation and conflicted with local data released by researchers at Hurley Medical Center.

Young children are most vulnerable to leads effects, because prior to age six, their brain and central nervous system are still forming and easily susceptible to damage. For an adult to suffer significant health effects, exposure to lead would have to be sustained and more intense. Most adults who are affected by lead have been exposed in an occupational setting, such as working as a house painter or in a battery recycling plant.

Pregnant women are at special risk because the lead they absorb crosses the placenta and enters the fetus.

It's important to remember that there is no known safe level of lead in a human body, Experts now use a reference level of 5 micrograms per deciliter to identify children with blood lead levels that are much higher than most children's levels. This new level is based on the U.S. population of children ages 1-5 years who are in the highest 2.5% of children when tested for lead in their blood.

Lead in water can contribute to a child's blood lead level. The Michigan Department of Environmental Quality, who regulates municipal water supplies, has assured us that the water leaving the Flint Water Plant meets all Federal and State requirements. The City of Flint has a documented problem with lead in its drinking water due to service and household lines that may contain lead or lead solder which can leach lead because of the corrosivity of the water since changing to the Flint River as the source supply. Generally, those who are most vulnerable

to leads health effects from exposure to unfiltered tap water are the very youngest children. For this reason, if you are not sure about the lead content in your tap water, it's best to either use a filter that has been found to be effective for reducing or eliminating lead, or to use bottled water instead. Water filters should be National Sanitation Foundation (NSF) certified to remove lead and meet ANSI standard 53. If these options are not available to you, then it's best to let the water run for at least five minutes before using it for either drinking or cooking purposes. Always use cold water instead of hot water for drinking and cooking.

It's especially important to avoid using untested or unfiltered tap water for mixing infant formula unless you can assure your water is lead free.

When leaded gasoline was in widespread use in this country, the lead came out the tail pipe and was deposited in yards near the roads. That lead may still be in those yards. In addition, lead paint continues to be a major source of childhood lead poisoning and can be found in homes built before 1978 when lead paint was banned in the U.S. and may be a hazard inside and outside the home especially where paint is worn or flaking.

There are many other potential sources of lead exposure, including:

- "Home remedies" and cosmetics imported from other countries
- Tamarind or chili-based candies from Mexico
- Stained glass windows
- Fishing sinkers
- Firing ranges
- Old, deteriorated mini-blinds
- Bean pots and painted ceramics
- Crystal decanters
- Lead crystal glassware

Since no safe level has been identified it is in everyone's interest to reduce exposure to lead as much as possible. Recommendations on ways to reduce lead exposure can be found on the Genesee County Health Department website www.gchd.us and Center for Disease Control and Prevention website: http://www.cdc.gov/nceh/lead/tips.htm .

Recent data provided by Hurley researchers has indicated a significant increase in blood lead levels in children after the switch to Flint River water. The County Health Officer has requested that MDHHS provide specific data to support their claim that state data is more comprehensive and does not show a significant increase. To date the state has failed to provide the requested data by the September 30, 2015 deadline in our previous request to the state.

MEDIA MONITORING REPORT

07/24/2015

Issues:

- No issues to report.

Summary:

- John Russell Houser, 59, the man police identified Friday as the shooter who killed two people at a movie theater, was described as "kind of a drifter" who had been living out of a motel.
- Pilots fighting wildfires in California are encountering a mission-stopping obstacle: drones.
- Mass shootings as defined by the FBI happen about every two weeks in America. For nearly a decade, USA Today has been tracking these incidents on a website that paints a grim picture.
- Ten years after Hurricane Katrina exposed the widespread neglect of children in U.S. emergency planning, most recommendations of the national commission created to address those gaps remain unfulfilled, a Save the Children report shows.
- As crews work to restore power to parts of Troy, the city says a number of municipal facilities will be closed for a second day on Friday.
- With August recess and the end of the fiscal year looming, congressional leaders say they are focused on cyber security. They are focused on the private sector as they work to collaborate on legislation, which would bolster information sharing between the government and corporations.
- Last week's shooting in Chattanooga that claimed five lives has some senators questioning policies that, if reversed, may have prevented the tragedy.
- The Environmental Protection Agency may penalize Enbridge Inc. with the stiffest fine ever imposed under the Clean Water Act for an oil pipeline disaster, based on an InsideClimate News review of EPA enforcement data covering the past 15 years.
- A Washington Post columnist examines National Weather Service radar shortfalls.
- Jack Lessenberry, Michigan Radio and Toledo Blade commentator, writes that it's concerning that Enbridge wasn't transparent to the Michigan Pipeline Task Force.
- National Weather Service Forecasts: Nice weather today, showers possible this weekend.
- TV/Radio: Trooper recruit school graduation on Friday.

Analysis:

- Media coverage is neutral.
- Coverage continues about the Lafayette, La., theater shooting.
- Hobbyist UAS pilots are disrupting wildfire firefighting missions in California. Will continue to monitor.
- Save the Children has issued its annual report about children and disasters. Michigan only meets one of four federal recommendations. This topic gains media interest each year during National Preparedness Month. Will continue to monitor and proactively plan for inquires.

LOUISIANA THEATER SHOOTING

Police ID Louisiana theater shooter who killed 2, wounded 9 others

RNN, July 24, 2015

LAFAYETTE, LA (RNN) - John Russell Houser, the man police identified Friday as the shooter who killed two people at a movie theater, was described as "kind of a drifter" who had been living out of a motel.

Chief Jim Craft with the Lafayette Police Department said Houser, 59, had previously lived in Phenix City, AL, but had been in Lafayette since early July. He used a .40-caliber handgun and had parked his blue 1995 Lincoln Continental outside the theater Thursday before the shooting.

"It is apparent that he was intent on shooting and then escaping," Craft said. "What happened is the quick law enforcement actions forced him back into the theater, at which time he shot himself.

Police: Gunman kills two, wounds seven in Louisiana theater before killing himself

Reuters, July 24, 2015

A lone gunman opened fire inside a crowded movie theater in Lafayette, Louisiana, on Thursday evening, killing two people and wounding seven before taking his own life, police said.

Gunfire erupted during a 7 p.m. CDT (0000 GMT) showing of the film "Trainwreck". Two people died in the hail of bullets before the 58-year-old suspect killed himself with a handgun as officers rushed to the scene, Lafayette Police Chief Jim Craft said.

The shootings took place almost three years to the day after 12 people were killed at a cinema in Aurora, Colorado, and follows several mass shootings in the United States in recent weeks.

Gunman in La. theater kills 2, then himself

USA Today, July 24, 2015

A gunman described as white and middle aged stood up during a packed screening of the movie "Trainwreck" Thursday evening in Lafayette, La., and opened fire, killing two people and injuring at least nine others before killing himself as police moved in, authorities said.

The victims range in age from their late teens to their 60s, Lafayette Police Chief Jim Craft said.

Authorities know the identity of the 58-year-old alleged gunman, but were not yet releasing it, said Sgt. Brooks David of the Louisiana State Police. The man did have a criminal record, but it was "pretty old," said Craft.

"The information we have at this time indicates that he was by himself, sat by himself and the first two people he shot were sitting right in front of him," Craft said.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

In the heat of the moment, drones are getting in the way of firefighters

NPR, July 24, 2015

Soon after the Lake Fire started last month, it threatened hundreds of homes. Fire officials in Southern California's San Bernardino National Forest, where the wildfire raged, responded quickly by sending helicopters — and more than a thousand firefighters — to combat the blaze on the ground.

Mike Eaton was one of the pilots called upon to help fight the fire. On the evening of June 24, he recalls, they noticed a drone. The aerial attack was immediately called off, out of fear of a midair collision; the three air tankers attacking the Lake Fire were parked the rest of the day. And the fire grew as a result.

Mass shootings in America by the numbers

NPR, July 24, 2015

Mass shootings as defined by the FBI happen about every two weeks in America. For nearly a decade, USA Today has been tracking these incidents on a website that paints a grim picture.

Save the Children Report Finds U.S. Children Still at Risk 10 Years After Hurricane Katrina

Save the Children Press Release, July 14, 2015

Washington, D.C. (July 14, 2015) — Ten years after Hurricane Katrina exposed the widespread neglect of children in U.S. emergency planning, most recommendations of the national commission created to address those gaps remain unfulfilled, a new Save the Children report shows.

Nearly four in five of the recommendations issued by the National Commission on Children and Disasters in its 2010 final report have not been fully met, according to the new national disaster report card, titled: "Still at Risk: U.S. Children 10 Years After Hurricane Katrina."

New report: Disaster planning still not meeting children's needs decade after Hurricane Katrina

Fierce Homeland Security, July 23, 2015

A new Save the Children report found that nearly 80 percent of federal recommendations – issued in 2010, five years after Hurricane Katrina – aimed at better protecting children during and after disasters still have not been fully met.

Of the 81 recommendations in the National Commission on Children and Disasters report, Save the Children found that only 17 have been fully met with 44 still in progress and 20 yet to be addressed. The child advocacy group said its report, which was released July 14, is the first formal review of the federal recommendations since they were issued five years ago.

"In an era when disasters are growing in frequency and impact, these findings indicate that much work remains to be done – both by Congress and the executive branch – to ensure children are protected when crisis strikes," according to the group. "A decade after the nation's Katrina wake-up call, America's children remain far more vulnerable to disaster than they need be."

Man vows to shoot police with sniper rifle after making bomb threat in Detroit

MLive, July 23, 2015

DETROIT, MI – State police and other law enforcement responded to frightening bomb threat in Detroit Wednesday night.

According to state police, the caller said he planted a bomb at the Michigan National Guard Armory on Eight Mile near Ryan in Detroit.

The man also said he had a sniper rifle and planned to kill anyone responding to the call.

Despite the threat, members of the FBI Joint Terrorist Task Force, state police Bomb Squad and Wayne State University Police Department responded. They used K-9s to sweep the area and discovered no explosives in the area.

The call came in about 6:45 p.m. and the scene was cleared about 9 p.m.

No suspects have been identified nor arrests made.

Some Troy municipal facilities to remain closed Friday as DTE works to restore power

WXYZ-TV 7, July 24, 2015

TROY, Mich. (WXYZ) - As crews work to restore power to parts of Troy, the city says a number of municipal facilities will be closed for a second day on Friday.

The closures will apply to Troy City Hall, the Troy Library, the Troy Community Center, Troy Family Aquatic Center and the 52-4 District Court. The Troy Police Department, Troy Fire Department and Troy Department of Public Works will remain open.

At last check, about 3,700 DTE Energy customers are still without power in the Troy and Clawson area.

CONGRESS/LEGISLATURE

Cyber leadership void in Congress

The Hill, July 23, 2015

With August recess and the end of the fiscal year looming, congressional leaders say they are focused on cyber security. They are focused on the private sector as they work to collaborate on legislation, which would bolster information sharing between the government and corporations. They are focused on the executive branch as they review the results of the White House's 30-day "cybersecurity sprint." But to truly address our cybersecurity vulnerabilities Congress must turn its focus within.

Consider three recent cybersecurity issues and Congress' response. As the government has disclosed, the cyber-attack on the Office of Personnel Management ("OPM") compromised the personal information of over 21 million federal employees, contractors, and legislative leaders. Congress is now running a read and react playbook, scrambling to get movement on any cyber security bill. The most

viable bill appears to be the cybersecurity Information Sharing Act ("CSIA"), which would bolster information sharing between the government and the private sector through liability protection. A good policy to implement however, it remains unclear what—if anything—the CSIA would do to prevent another cyber-attack on the federal government. Furthermore, the CSIA is at best a piecemeal fix at a time when comprehensive reform is desperately needed.

Senators pushing to eliminate 'gun free zones' in light of Chattanooga tragedy

WJRT-TV 12, July 24, 2015

WASHINGTON, D.C. (WJRT) - (07/23/15) - Last week's shooting in Chattanooga that claimed five lives has some senators questioning policies that, if reversed, may have prevented the tragedy.

Military recruiting centers are "gun free zones", but last week's Chattanooga attack has some lawmakers pushing to eliminate the restrictions. The five servicemen killed were trained to use firearms, but prohibited from doing so at the time of the attack.

Senator Jerry Moran (R-KS) has introduced the 'Safeguarding Service Members' Second Amendment Rights Act', which would repeal bans on military personnel carrying firearms on Armed Forces military installations and Department of Defense sites.

Senator Steve Daines (R-MT) finds it imperative that these vulnerable service members be able to protect themselves.

"I think it's morally wrong to not allow our men and women, who can defend themselves if they're given the proper tools to do that," Daines said. "And that's why I believe they should be able to carry a firearm at a recruitment center."

ENVIRONMENT

Documentary searches for hope in nuclear waste

Great Lakes Echo, July 24, 2015

Hope isn't a word most people associate with high-level radioactive nuclear waste.

But an upcoming documentary on its storage in Ontario takes an optimistic perspective on a depressing subject. It's called Nuclear Hope.

"Hope can have a very positive meaning – we hope for a better future, we hope for a better life, all of those things," said the independent film's co-director, Collin Scheyen. "Hope can also be misguided. Without the right knowledge behind it, hope can be very shortsighted.

"Hope is a perfect word to use toward nuclear energy."

Enbridge Expects $40 Million Fine, EPA's Stiffest Ever for a Pipeline Spill

InsideClimate News, July 22, 2015

The Environmental Protection Agency may penalize Enbridge Inc. with the stiffest fine ever imposed under the Clean Water Act for an oil pipeline disaster, based on an InsideClimate News review of EPA enforcement data covering the past 15 years.

Enbridge, a Canadian pipeline operator, expects a $40 million penalty for spilling 1 million gallons of tar sands oil into Michigan's Kalamazoo River five years ago, according to a filing with the Securities and Exchange Commission. Under federal law, the EPA could levy $100 million or more, depending on whether the agency finds that the pipeline rupture resulted from negligence, and other factors. Enbridge, Canada's largest transporter of crude oil, is worth an estimated $30 billion.

Enbridge Oil Spill: Five Years Later, Michigan Residents Struggle To Move On

International Business Times, July 24, 2015

On the Kalamazoo River this weekend, Michigan residents will kayak down the sparkling waters and cast their lines for smallmouth bass. The relaxing summer day will bear little resemblance to July 25, 2010, when a ruptured pipeline spewed a million gallons of crude oil into a nearby creek.

Five years and billions of cleanup dollars after the worst inland oil spill in U.S. history, the river is largely revitalized. Resuscitated wetlands hug the river, while three new boat launches and man-made rapids draw paddlers, fishers and weekenders.

"We're looking forward to promoting it as a destination, instead of it being a liability," said Brad Wurfel, a spokesman for the Michigan Department of Environmental Quality, the agency leading the pipeline response for the state. "We're proud of the cleanup effort here."

How a Chinese Company Slipped on Canada's Oil Sands

Wall Street Journal, July 22, 12015

Weeks after the state-controlled oil company bought Nexen for $15 billion, its executives were in Calgary with a blunt message for the Canadian company, which had struggled for years to extract crude from the oil sands in the Alberta wilderness. Cnooc Chief Executive Li Fanrong told staffers Nexen provided just 2% of Cnooc's profits, say attendees, warning that "2% is not enough."

Two years later, Cnooc is still trying to fix Nexen, its troubles compounded by low crude prices. And now Cnooc must explain an oil spill: This month, a pipeline Nexen installed last year ruptured, spilling nearly 31,500 barrels of a mixture of crude oil, wastewater and sand in northern Alberta.

Nexen's chief executive, Fang Zhi, on Wednesday stood by the oil-spill site near the hamlet of Anzac. "It is very disappointing that this has happened," he said, the scent of petroleum wafting. "I therefore personally apologize."

OPINION

Commentary: U.S. radars have come a long way, but gaps in coverage remain a big risk

The Washington Post, July 22, 2015

What do you do when you hear a rumble of thunder? Storm chasers would dart out the door, camera in-hand, but most people — including those not in the weather business — would check the radar to see what storm is lurking around the corner. We load our apps and click links to see nearby storms without giving the technology behind it a second thought. Radar is a supreme convenience if you want to know whether you need an umbrella for the commute, but it also serves as vital, life-saving technology to the millions of people threatened by severe weather every year.

We're fortunate to have a robust network of Doppler radars in the U.S., but that spaced-out array is slowly aging and prone to failures at inopportune times. We desperately need to invest in expanding our network of weather radars before its flaws become a serious issue.

Commentary: Save Great Lakes from farm pollution the Michigan way

Detroit Free Press, July 21, 2015

Michigan farmers are among the hardest-working individuals we represent in the U.S. House. They are also the original environmentalists, because no one takes better care of the Earth than someone who makes a living from it.

Healthy and sustainable land, water and air are a necessary prerequisite for a successful farm. And a successful future for their children and grandchildren.

Farmers across Michigan have long led the way in conservation practices. Over the past several years, their efforts have been boosted by the Michigan Agricultural Environmental Assurance Program (MAEAP).

MAEAP is proven to help farmers voluntarily develop sound environmental practices aimed at limiting the impact of excess runoff from fertilizers and pesticides, protecting our water, our soil and air. The program provides farmers with official environmental certification accompanied by financial assistance.

It's time to take the Michigan success story on the road.

Commentary: Secrecy of Straits of Mackinac pipeline's condition fuels concerns

Toledo Blade, July 24, 2015

CHARLEVOIX, Mich. — There may not be a more important natural resource than the Great Lakes. They hold 84 percent of all the fresh water in North America, and are crucial for fishing, boating, and transportation.

Nobody doubts that a major oil spill could be devastating. But every day, 540,000 barrels of oil and liquefied natural gas are pumped through a 4½-mile pipeline at the bottom of the Straits of Mackinac, between Michigan's two peninsulas. The straits connect lakes Michigan and Huron.

The pipeline is old; it has been there since 1953. The condition of the pipeline, known as Line 5, is not widely known. Enbridge Energy Partners, the Canadian-based firm that owns the pipeline, says it is safe. But it won't release reports on the pipeline's condition.

Michigan officials were able to get only a small amount of data from Enbridge. This month, a Michigan Petroleum Pipeline Task Force released a report on pipeline safety that complained about this lack of openness.

"While Enbridge has listed the numbers and types of pipeline inspections that it or its contractors have performed," the report said, "it has not fully disclosed the actual results of most of the inspections or the limitations of the test methods used."

That, the report noted, makes it hard to assess the company's claim that everything is fine. And given Enbridge's track record, there is reason to worry.

FEMA

FEMA Federal Emergency Management Agency

19 hrs ·

"I've listened to many people with disabilities who have been impacted by disasters. After Hurricane Sandy, for example, I heard from people with disabilities who were without power for days and even weeks. Some of them relied on social media for help – connecting with neighbors, friends or family members online for solutions. Others had a harder time. What I've learned from this experience is that everyone must be prepared to be their own 'emergency manager.'" A great overview of emergency preparedness tips for people with disabilities from Marcie Roth, the director of FEMA's Office of Disability Integration and Coordination:

Everyone Must Be Prepared For Emergencies | FEMA.gov
The importance of preparing ourselves for disasters is universal. Emergencies can happen anywhere - at home or at work - and everyone must take action to prepare for emergencies in case something unexpected happens.

Joint Information Center
2015-10 Flint Water
11 a.m. Thursday, January 7
Operational Period: 8 a.m. to 5 p.m.

KEY EVENTS:

- 9 a.m. Gov. Rick Snyder meeting with Flint Mayor Karen Weaver in Lansing.
- 1 p.m. Media Round Table in Lansing with Flint media.

Messages:

- The State of Michigan Joint Information Center is operational. For more facts about Flint water, go to www.michigan.gov/flintwater.

Command Staff

- Oversee and manage state of Michigan public information duties due to emergency declaration.
- Establish a meet and greet with city and county PIOs to schedule an in-person meet-and-greet and update.

Information Gathering

- Create media monitoring reports about the disaster as needed.
- Craft talking points about the ongoing disaster, including a better description of the emergency declaration process.
- Craft social media posts about state efforts underway during the disaster recovery process.
- Create graphics for social media efforts.
- Create messaging for state employees who may be living and working in Flint.
- Create high-level talking points for external partners.

Information Dissemination

- Answer phones and manage media inquiries in regards to the Flint Water situation.
- Monitor and engage in social conversation about the ongoing disaster.
- Establish a GovDelivery account; post link of website to sign up.
- Finalize details, media invite list and host a media roundtable.

External Affairs

- Identify state legislators in the affected area.
- Plan a conference call or meeting between command staff and affected state legislators and congressional Jan. 8, 2015.

Administrative

- Fill staffing for the next operational period.

Logistics

- Fix email accounts.
- Establish a location with Genesee County and the city of Flint for a Unified Joint Information Center by the end of the week.
- Establish a conference call line for the media roundtable.

Joint Information Center
2015-10 Flint Water
11 a.m. Friday, January 8
Operational Period: 8 a.m. to 5 p.m.

KEY EVENTS:

- No media events scheduled.

Messages:

- The State of Michigan Joint Information Center is operational. For more facts about Flint water, go to www.michigan.gov/flintwater.

Command Staff

- Oversee and manage state of Michigan public information duties due to emergency declaration.
- Establish a meet and greet with city and county PIOs.
- Begin transition to the State Joint Information Center in the city of Flint.
- Place a task request in MI CIMS for admin at the Flint JIC Location

Information Gathering

- Create media monitoring reports about the disaster as needed.
- Create public information materials for community outreach relief efforts.
- Create talking points about filters and bottled water distribution efforts in Flint.

Information Dissemination

- Answer phones and manage media inquiries in regards to the Flint Water situation.
- Monitor and engage in social conversation about the ongoing disaster.
- Establish a GovDelivery account; post link of website to sign up.
- Upload YouTube video from the Jan. 7, 2015, media roundtable.
- Work with Michigan Association of Broadcasters PSAs about Flint water.

External Affairs

- Manage a conference call between Capt. Chris Kelenske and Dr. Eden Wells between affected state legislators at 2 p.m. Jan. 8.

Administrative

- Fill staffing for the next operational period.
- Create a list of all PIOs who need access to the Flint State Joint Information Center.

Logistics

- Fix email accounts and logins on laptops.
- Establish a location with Genesee County and the city of Flint for a Unified Joint Information Center by the end of the week.

December 2015

Frequently Asked Questions

Flint Water Assistance Provided

Taking Action on Flint Water

- On October 2, 2015, Gov. Rick Snyder announced a comprehensive action plan created with state, federal and city leaders to address concerns about drinking water.

- The action plan focuses on increasing water testing, offering additional precautions for families with lead plumbing in their homes, and providing long-term solutions to address the city's water infrastructure challenges. The plan was created at Snyder's direction by the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (DHHS), the U.S. Environmental Protection Agency, and the city of Flint.

- The city and the state also are working together to gather more data to ensure the water that leaves the treatment plant as well as the water that arrives in Flint homes is safe for all residents. The plan includes:

    - Testing in Flint public schools immediately to ensure that drinking water is safe, with testing also available at no cost to any other school in Flint.
    - Offering free water testing to Flint residents to assure their drinking water is safe.
    - Providing free water filters to residents.
    - Expanding health exposure testing of individual homes.
    - Accelerating corrosion controls in the Flint drinking water system.
    - Accelerating water system improvements to address replacing lead service lines.
    - Expediting the completion of the Karegnondi Water Authority pipeline.
    - Expanding a Safe Drinking Water Technical Advisory Committee to ensure the best technology, practices and science are being followed by adding an expert from the Environmental Protection Agency's Office of Research and Development to the group.
    - Naming Dr. Eden Wells, chief medical executive for the Michigan Department of Health and Human Services, as the Flint drinking water public health adviser.
    - Boosting a comprehensive lead education program to make sure residents have detailed information about how to protect themselves and their homes.
    - Residents can have their water tested by calling 810-787-6537 and pressing 1, or emailing flintwater@cityofflint.com. The DEQ is covering the cost of this testing.

Departments of Health and Human Services and Environmental Quality Assistance

- Snyder said state and local authorities have carried out steps outlined on Oct. 2 in a comprehensive action plan, including continued testing, the use of faucet filters and providing residents with accurate information about steps to eliminate lead exposure. The Michigan Departments of Environmental Quality and Health and Human Services committed an additional $3.5 million for water filters, free lead testing through the state laboratory for Flint water customers, and hiring additional staff to conduct health exposure monitoring for lead in drinking water.

Public Act 143 of 2015

- On October 15, 2015, Gov. Rick Snyder signed bipartisan legislation that directed funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority Pipeline is completed.

- The bill authorizes $6 million to move the city back to Detroit's water system until the new pipeline is finished.

- In addition to the $6 million, the following has also been provided by the Michigan State Legislature:

    - $300,000 to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for children, including testing, investigations, and case management for those with elevated blood levels; and
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - The City of Flint city government will provide $2 million toward reconnecting the water supply and the Charles Stewart Mott Foundation has committed $4 million.

Dec. 18, 2015

Talking Points

Flint Water

NOT INTENDED TO BE DISSEMINATED
TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness. This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water lines. Local health experts found that children experienced elevated lead levels in their blood during the switch to processing Flint River water.
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency."
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- In addition to the $6 million appropriated to reconnect Flint to the Detroit Water and Sewer System, the following has also been provided:
    - $300,000 to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for children, including testing, investigations, and case management for those with elevated blood levels; and
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - **NOTE:** To reconnect the city of Flint to Detroit water, the city provided $2 million, the Charles Stewart Mott Foundation committed $4 million and the state of Michigan provided $6 million.
    - **OVERALL TOTAL:** State: $9.35 million; Local/private nonprofit: $6 million
- Dr. Karen Weaver, the new Flint Mayor, revealed her 100-day plan on Dec. 1, 2015. She is calling for a federal disaster declaration so the community can pursue federal assistance to help Flint residents during this crisis. She is working with state legislators and Congressman Dan Kildee.

- Dr. Marc Edwards, the Virginia Tech professor who has been studying Flint water issues, was recently in Flint talking about his findings. Edwards said recent samples of the water show dramatic drops in lead levels (after the switch back to Detroit water), but some homes are still showing very high levels. He said the water is still not safe to drink, adding that it may still take months to get below the safe federal standard.

- On Dec. 14, Flint Mayor Karen Weaver declared a "local state of emergency" and called for a Genesee County to declare a "local state of emergency" to support her declaration.

- On Jan. 4, 2016, Genesee County Board Chairman Jamie Curtis declared a local state of emergency due to the health and safety issues with the drinking water in the city of Flint.

- On Jan. 5, 2015, Gov. Rick Snyder declared a state of emergency due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. By declaring a state of emergency, Snyder has made available all state resources in cooperation with local response and recovery operations. The declaration authorizes the Michigan State Police's Emergency Management and Homeland Security Division to coordinate state efforts.

Current Situation

The drinking water crisis that continues to affect the city of Flint is an emergency in every sense of the word. Every day, we depend on safe and clean drinking water from our taps. Flint residents cannot depend on their water unless safeguards are in place. Working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, we will find both short-term and long-term solutions to ensure the health and safety of Flint residents.

- To date, federal, state and local government and many private nonprofit organizations have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, everyone is working together to bring Flint back to a state of normalcy. But remember: Normalcy won't happen overnight.

- The city's recovery will depend on a whole community approach, including all layers of government and outside experts. Everyone must work together for to help Flint residents.

- The staff of the MSP/EMHSD

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. A local declaration is a mechanism to cope with an emergency or disaster. It's a red flag, notifying everyone that there's a problem within the community.

- A local declaration typically complements the activation of a county's or a municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint **exhausts** its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator are designated as the officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources from the state of Michigan. Resources include contracts, equipment and personnel.

- All requests are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- If a request is approved, the Governor will declare a "state of emergency" or "state of disaster."

What state resources are available under a Governor's declaration?

- The Governor may provide state resources, like contracts, equipment and personnel, to support and assist during the emergency or disaster.

- For the situation in Flint, state resources have been already deployed outside of a disaster declaration. For example, the Michigan State Legislature provided more than $9.35 million to lessen the threat of a catastrophe by reconnecting the city water to the Detroit Water and Sewer System. This total also includes funding for lead testing, case management for children with elevated blood levels, and filters.

What is a Presidential declaration?

- When a state **exhausts** its resources during an emergency or disaster, a Governor may request assistance through the Stafford Act. Requests are submitted to the President through the Federal Emergency Management Agency's Region V Office in Chicago.

- FEMA reviews all requests and provides a recommendation to the President. Ultimately, the President decides whether to make an emergency or major disaster declaration.

Is a Presidential disaster declaration possible?

- A Presidential declaration is not easy to pursue during emergencies or disasters. A case has to be made to prove the incident is outside the scope of both local and state

response and recovery efforts.

- A **Presidential emergency declaration** provides supplemental aide during an incident. Federal law outlines an emergency where federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect public health and safety, or to lessen or avert the threat of a catastrophe. There is a potential $5,000,000 cap in federal assistance.

- A **Presidential major disaster declaration** provides long-term recovery resources after an emergency or disaster. Federal law and regulations define a major disaster as being any natural catastrophe, any fire, flood or explosion.

    - In 2014, Wisconsin Gov. Scott Walker requested a federal major disaster declaration due to a deep freeze that damaged millions of dollars in public infrastructure. The declaration was denied. His appeal was also denied.

        - The disaster declaration was denied based on the determination that federal assistance under the federal law (Stafford Act) was not necessary or appropriate under the circumstances.

        - Federal law and regulations outline a major disaster as being any natural catastrophe, any fire, flood or explosion.

    - On Jan. 10, 2014, President Obama declared an emergency existed in West Virginia after chemicals were spilled into the Elk River and affecting the water supply close to 300,000 residents.

        - An emergency declaration provides relief efforts that have the purpose of alleviating the hardship and suffering caused by the emergency on the local population, or to lessen or avert the threat of a catastrophe.

        - West Virginia later tried to obtain a presidential major disaster declaration, but was denied.

Are water service lines eligible for disaster assistance?

- Water service lines are those water lines that go from the water main to the house. Different communities have defined this differently. If a water service line is the responsibility of the homeowner and on private property, then he or she is responsible for replacing it.

- Private property lead water services lines are not considered eligible expenses under the Michigan Emergency Management Act and Stafford Act.

Joint Information Center Task List

Date: Jan. 8, 2016

Operational Period: 8 a.m. to 5 p.m.

Time: Noon

Task	Assigned To
1. Establish a meet and greet with city and county PIOs.	Ron Leix
2. Transition to new Flint Joint Information Center.	Logistics
3. Create a media monitoring report about the disaster.	Sierra Medrano
4. Email state agency PIOs about JIC being operational.	Dave Murray
5. Gather information about water distribution sites, water filter, and blood-level testing.	Jen Eisner
6. Gather information about water testing.	Karen
7. Create a handout for citizens on available resources.	Jen Eisner/Trevor Hawks
8. Create a handout or one-page briefing about available resources and what the state is doing for external stakeholders, legislative and congressional delegations.	Jen Eisner
9. Create a social media package and distribute to PIOs.	Dave Murray
10. Finish www.michigan.gov/flintwater website to include YouTube videos, graphics and information.	John Estill
11. Create a social media plan for MSP/EMHSD account.	Sierra Medrano
12. Manage a legislative conference call at 2 p.m. with Dr. Eden Wells and Capt. Chris Kelenske	Nicole Lisabeth
13. Reach out to 2-1-1 to have an immediate prompt for water inquires and update information.	Ron Leix
14. Work with the Michigan Associated of Broadcasters on PSA about Flint water. --Drafted needing approvals	Angela Minicuci
15. Create a single set of talking points for the operational period.	Unassigned
16. Staff the SEOC JIC Liaison position in the SEOC.	Jane

JIC – To Do List for Jan 9

- Talking points for legislative/congressional delegation- NEED APPROVAL ASAP
- News release- distribution sites
    - Verify hours of operation
- Media advisory for onsite media interviews
    - Saturday- Harvey? Lt. Kaiser?
- Flint AmeriCorps inquiry- who should receive FYI type info?
- One-page handout- drafted, need approval
- Plan for 2 p.m. community event
- Update website- handout, news release, etc.
    - Call John to determine who can update site
    - Review content
    - YouTube videos?
- Scam messaging- go fund me accounts- County Prosecutor issuing info
- PSA- drafted, review, approval
- 211 issues- DHHS SEOC EM?
- Monitor SEOC PIO email account
- JIC email accounts
- GovDelivery news release topic
    - Add PIO emails to receive JIC materials
- Door hanger- Design, DTMB print
- Updated talking points
- JIC staffing for Monday and a SEOC JIC Liaison (PIO)
    - Determine staffing/role needs
        - Graphics, web, social, legislative, Harvey daily briefings, faith-based, etc.
        - Assign JIC positions to staff
        - Contact PIOs
            - Heather Throne available
        - Assign each member of the JIC a specific task, per the org chart
    - Document with Flint JIC details- address, room, parking, food, hours of operations, phone?
- Issue with lack of media briefing room at Flint JIC
- MI-CIMS
    - Identify positions for PIOs to assign tasks
    - Determine process for accounts for new PIOs at Flint JIC
- Communications plan
    - Monday
    - Next week
    - Long-term

Frequently Asked Questions

Flint Water Situation and Declaration Process

What is a local state of emergency?

- The chief executive official of a community, like a mayor or county board chair, can declare a "local state of emergency" during an emergency or disaster. A local declaration enables a community to activate its emergency operations plans and administer local aid and assistance. Directives may be issued too.

- A local emergency declaration is not an automatic call for state or federal assistance. A local declaration is a mechanism to cope with an emergency or disaster.

- A local declaration typically complements the activation of a county's or a municipality's emergency operations center and public information operations.

Why does Flint depend on Genesee County for emergency declarations?

- The city of Flint has opted to be incorporated into the Genesee County Emergency Management program. The city has an emergency support plan that complements Genesee County's emergency operations plan.

- When the city of Flint **exhausts** its resources during an incident, they may call upon Genesee County for resources. It's a mutual agreement where both help each other out when it's needed most.

- The city of Flint's Fire Chief and Genesee County's Emergency Management Coordinator are designated as the officials to manage an emergency situation.

What is a Governor's declaration?

- When a designated Michigan Emergency Management Act program **exhausts** its resources during an emergency or disaster, they may request specific resources from the state of Michigan. Resources include contracts, equipment and personnel.

- All requests for a governor's declaration are submitted to the Michigan State Police, Emergency Management and Homeland Security Division, which reviews the request and provides a recommendation to the Governor's Office. The Governor may approve or deny the request.

- The Governor can declare a "state of disaster" or "state of emergency" that makes available all state resources in cooperation with local response and recovery operations.

What state resources are available under a Governor's declaration?

- The Governor may provide state resources, like contracts, equipment, and personnel, to support and assist during the emergency or disaster.

- For the situation in Flint, state resources were deployed even before the disaster declaration. For example, the Michigan Legislature provided $9.35 million to lessen the threat of a catastrophe by reconnecting the city water to the Detroit Water and Sewer System. Funding was also provided for lead testing, case management for children with elevated blood levels, and water filters.

What is a Presidential declaration?

- When a state **exhausts** its resources during an emergency or disaster, a Governor may request assistance through the Stafford Act. Requests from Michigan are submitted to the President through the Federal Emergency Management Agency's Region V Office in Chicago.

- FEMA reviews all requests and provides a recommendation to the President. Ultimately, the President decides whether to make an emergency or major disaster declaration.

Is a Presidential declaration possible for the Flint water situation?

- A Presidential declaration requires a state to prove the incident is beyond the capabilities and resources of both local and state response and recovery efforts.

- A **Presidential major disaster declaration** provides long-term recovery resources after an emergency or disaster. Federal law and regulations define a major disaster as being any natural catastrophe, any fire, flood or explosion.

- A **Presidential emergency declaration** provides supplemental aide during an incident. Federal law outlines an emergency where federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect public health and safety, or to lessen or avert the threat of a catastrophe. Up to $5 million in assistance is available. Amounts over that dollar figure require notification to Congress.

Will the Governor request a Presidential Declaration under the Stafford Act?

- All options are being examined for assistance, such as through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action. The Stafford Act is one mechanism to obtain assistance.

Talking Points

Flint Water Emergency Response

State of Emergency Declaration

- On Jan. 5, Gov. Rick Snyder declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

- By declaring a state of emergency, Snyder has made available all state resources in cooperation with local response and recovery operations.

- The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts.

- In addition to the emergency declaration, Snyder activated the State Emergency Operations Center to coordinate state departments, the state's response, resources, and relief and recovery activities.

- The SEOC is the emergency operations center for the state of Michigan. Located in Lansing, the center is overseen by the MSP/EMHSD and coordinates response and recovery efforts by state agencies and local government. The SEOC is staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

- On Jan. 6, the Joint Information Center was opened to lead the state's messaging and information response in coordination with the local Emergency Operations Center, Genesee County, and the City of Flint.

- The state of Michigan is working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, to find both short-term and long-term solutions to ensure the health and safety of Flint residents.

Background

- In response to elevated lead levels found in drinking water in the city of Flint, the state of Michigan is collaborating with local government, and water and health experts to protect the health of residents.

- On Oct. 2, 2015, Gov. Snyder released a comprehensive action plan to address elevated blood lead levels and lead rates in drinking water in the city of Flint. This plan included the following action steps:
    - Test Flint public schools drinking water, with testing also available at no cost to any other school in Flint.
    - Offer free water testing to Flint residents.
    - Provide free water filters to residents.
    - Expanded health exposure testing of individual homes.
    - Accelerate corrosion controls in the Flint drinking water system.
    - Accelerate water system improvements to address replacing lead service lines.
    - Expedite the completion of the Karegnondi Water Authority pipeline.
    - Expand a Safe Drinking Water Technical Advisory Committee.
    - Named Dr. Eden Wells, chief medical executive for the Michigan Department of Health and Human Services, as the Flint drinking water public health adviser.
    - Boosted a comprehensive lead education program to make sure residents have detailed information about how to protect themselves and their homes.

- On Oct. 16, 2015, the city of Flint reconnected with the Great Lakes Water Authority as the source of the city's drinking water until the Karegnondi Water Authority pipeline is completed.

- On Oct. 21, 2015, Gov. Snyder announced the creation of the independent Flint Water Advisory Task Force charged with reviewing actions regarding water use and testing in Flint and offer recommendations for future guidelines to protect the health and safety of all state residents.

- The city of Flint declared a local emergency on Dec. 14, 2015, and partially opened their Emergency Operations Center.

- On Jan. 4, Genesee County declared a "local state of emergency," which activated local emergency response and recovery plans, and requested a governor's emergency declaration.

Next Steps

- As a result of the state of emergency declaration and the activation of the State Emergency Operations Center, the Joint Information Center will be coordinating the state's public information response and collaborating with the local Emergency Operations Center.

- Going forward, to better coordinate the health and safety of the residents of Flint and to ensure they are aware of and have access to the resources available within their community, the State Emergency Operations Center will serve as a central point of coordination between the local and state response efforts.

Talking Points – Capt. Kelenske
Media roundtable, January 7, 2016

The SEOC was activated on Tuesday, January 5 to work in close coordination with the local Emergency Operations Center to streamline communications, coordinate response efforts, and ensure the efficient use of resources for this emergency.

The process of local EOC and SEOC coordination is a tried and true system for handling large-scale emergencies.

We know this incident is about people. We want to make clear how seriously we are taking this matter.

Right now, we are bringing all state resources to bare to protect public health and safety.

As part of this emergency, local and state agencies are sharing information using the Michigan Critical Incident Management System, known as MI-CIMS, which is an online system to share timely and accurate information.

Damage assessment at the local level is underway, but right now we need more information before determining if a Stafford Act or other federal request will be made.

We don't want to limit the potential remedies we are and will be seeking. We are keeping our options open, but right now, the focus is really on utilizing the resources available to us as the state.

A lot of great efforts are already underway by many local agencies; public, private, non-profit, etc., but we need to marshal all these efforts and ensure they are coordinated to maximize our effectiveness.

Right now the bulk of our actions are about identifying specifically where the needs are, where the gaps in recovery are, and ensuring we are coordinating closely with the city and county on any actions. This will allow us to target our actions and ensure we are not duplicating efforts.

One of the most important messages and priorities for us is making sure residents are aware of the resources and measures currently available to them. The one-stop shop for all these resources is www.michigan.gov/FlintWater.

These resources include water filters, water pitchers, and free household lead testing. One of our immediate objectives is to make sure every household in Flint has a water filter. When used properly water filters remove 99% of lead in water.

At this point, we're only days into this emergency so there's a lot we don't know yet. We're working as fast as we can to identify what is being done already and what still needs to be done.

One of our major priorities is GIS mapping; we're also working to get a handle on how bottled water is being distributed. Our Third District Emergency Manager has been engaged with local officials for the last couple of months. I have deployed additional MSP personnel to the county EOC to help with coordination there.

I want to stress that this entire operation is about making sure Flint residents receive the resources and information they need, and we're 100% committed to doing what needs to be done.

If asked:

Our focus is on finding solutions. Others are looking into previous actions, but our job is to help residents today.

I'm aware you had the opportunity today to ask the Governor some of these questions, again, this operation is focused on moving forward and finding solutions, and I'm not the appropriate person to speak to past actions.

Will the Governor request a Presidential Declaration under the Stafford Act?
Because infrastructure issues are unlikely to be declared disasters through the Stafford Act, other options must be examined for assistance, like through the U.S. Department of Housing and Urban Development (Community Development Block Grants), the Center for Disease Control and Prevention, the Environmental Protection Agency, or legislative action.

Talking Points - Flint Water Emergency Response

January 9, 2016

Key Points

- One of the most important messages and priorities for us is making sure residents are aware of the resources and measures currently available to them. The one-stop shop for all these resources is www.michigan.gov/FlintWater.
- State agencies, through the State Emergency Operations Center, are working in close coordination with the local Emergency Operations Center to streamline communications, coordinate response efforts, and ensure the efficient use of resources for this emergency.
- We know this incident is about people and we want to make clear how seriously we are taking this matter.
- We are bringing all state resources to bear to protect public health and safety, including deploying personnel to the local Emergency Operations Center to assist with GIS mapping and overall coordination issues.
- Right now, the bulk of the state's actions are about identifying specifically where the needs are, where the gaps in recovery are, and ensuring we are coordinating closely with the city and county on any actions. This will allow us to target our actions and ensure we are not duplicating efforts.

Water Resource Sites:

- Flint Fire Station

  716 W. Pierson Road, Flint, MI 48505
- Flint Fire Station

  1525 Martin Luther King Blvd., Flint, MI 48503
- Flint Fire Station

  310 E. 5th St., Flint, MI 48502
- Flint Fire Station

  3402 Western Road, Flint, MI 48506
- Flint Fire Station

  202 E. Atherton, Flint, MI 48507

Water Filter Distribution Centers:

- Michigan Department of Health and Human Services office

  125 E. Union St., Flint, MI 48502
- Michigan Department of Health and Human Services office

  4809 Clio Road, Flint, MI 48504
- Genesee County Community Action Resource Department office

2727 Lippincott, Flint, MI 48507

- Genesee County Community Action Resource Department office

  601 N. Saginaw, Flint, MI 48502

- Flint City Hall

  1101 S. Saginaw St., Flint, MI 48502

Water Testing

- Pick up a kit at City Hall, the Flint Water Treatment Plant, or your nearest fire station.
- Follow instructions to collect a sample.
- Return your sample to City Hall or the Flint Water Treatment Plant

Blood Lead Testing

- The state is recommending that all children younger than six years of age have their blood lead levels tested.
- The best place to have children tested is though their primary care provider's office. We encourage all families to contact their doctor if they have questions.
- Children can be tested on a walk-in basis at the Genesee County Health Department at the Burton location: 3373 Saginaw St, Flint, MI 48503

Using Tap Water

- Use filtered water for:
  - Drinking, cooking, washing fruits and vegetables
  - Brushing kids' teeth
  - Pets' water bowls
- Use unfiltered water for:
  - Cleaning
  - Bathing

Nutrition

- Some foods will help keep lead from being stored in a child's body. These are foods with a lot of calcium, iron and vitamin C. These foods include:
  - Calcium Rich Foods
    - Milk
    - Cheese
    - Yogurt

        - Tofu
        - Spinach
    - Iron Rich Foods
        - Beans
        - Lean meats like fish and chicken
        - Whole grain cereals
        - Peanut butter
    - Foods with Vitamin C
        - Oranges
        - Orange juice
        - Grapefruits
        - Tomatoes
        - Green peppers

State of Emergency Declaration

- On Jan. 5, Gov. Rick Snyder declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

- By declaring a state of emergency, Snyder has made available all state resources in cooperation with local response and recovery operations.

- The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts.

- In addition to the emergency declaration, Snyder activated the State Emergency Operations Center to coordinate state departments, the state's response, resources, and relief and recovery activities.

- The SEOC is the emergency operations center for the state of Michigan. Located in Lansing, the center is overseen by the MSP/EMHSD and coordinates response and recovery efforts by state agencies and local government. The SEOC is staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

- On Jan. 6, the Joint Information Center was opened to lead the state's messaging and information response in coordination with the local Emergency Operations Center, Genesee County, and the City of Flint.

- The state of Michigan is working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, to find both short-term and long-term solutions to ensure the health and safety of Flint residents.

Background

- In response to elevated lead levels found in drinking water in the city of Flint, the state of Michigan is collaborating with local government, and water and health experts to protect the health of residents.

- On Oct. 2, 2015, Gov. Snyder released a comprehensive action plan to address elevated blood lead levels and lead rates in drinking water in the city of Flint. This plan included the following action steps:

    - Test Flint public schools drinking water, with testing also available at no cost to any other school in Flint.
    - Offer free water testing to Flint residents.
    - Provide free water filters to residents.
    - Expanded health exposure testing of individual homes.
    - Accelerate corrosion controls in the Flint drinking water system.
    - Accelerate water system improvements to address replacing lead service lines.
    - Expedite the completion of the Karegnondi Water Authority pipeline.
    - Expand a Safe Drinking Water Technical Advisory Committee.
    - Named Dr. Eden Wells, chief medical executive for the Michigan Department of Health and Human Services, as the Flint drinking water public health adviser.
    - Boosted a comprehensive lead education program to make sure residents have detailed information about how to protect themselves and their homes.

- On Oct. 16, 2015, the city of Flint reconnected with the Great Lakes Water Authority as the source of the city's drinking water until the Karegnondi Water Authority pipeline is completed.

- The city of Flint declared a local emergency on Dec. 14, 2015, and partially opened their Emergency Operations Center.

- On Jan. 4, Genesee County declared a "local state of emergency," which activated local emergency response and recovery plans, and requested a governor's emergency declaration.

Facebook:

State of Michigan Joint Information Center is open to handle public information for #FlintWater. Updates and information available at www.mi.gov/flintwater.

Resources and information about #FlintWater can be found at www.mi.gov/flintwater.

Use City of Flint water? Call 211 to find out where you can pick up a free water filter. #FlintWater

Live in Flint? Get your water tested for lead – it's free. Call 810-787-6537.

Did you know that filters can remove up to 99% of lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it. Be sure to change the filter cartridge often. Run only cold water through the filter. Learn more at www.mi.gov/flintwater.

Use filtered tap water for:
- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:
- Washing your hands
- Washing dishes
- Wiping down countertops

To learn more, visit www.mi.gov/flintwater.

Use filtered tap water for:
- Brushing kids' teeth

You can use unfiltered tap water for:
- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool). Learn more at www.mi.gov/FlintWater.

Learn how to properly install a water filter at https://www.youtube.com/watch?v=plsOvmH 0&sns=em. #FlintWater

Buildings built before 1978 could have lead paint in them. Use wet paper towels to clean up paint chips and dust in these buildings.

State PIOs:

Thank you for responding with your availability to work in the Joint Information Center (JIC).

Please refer to the attached staffing schedule for shifts and assignments. Please note that JIC staffing needs and hours of operation are subject to change and you will be notified should this occur.

The JIC is operational each day from 9 a.m. to 5 p.m., unless otherwise noted on the schedule. All shifts would report to the JIC no later than 8:30 a.m. for a morning staff briefing and should expect to work to at least 5 p.m. PIOs working in the JIC are encouraged to bring their own laptops.

Daily staffing includes the following positions:

- Governor's Representative
- JIC PIO Leader
- Department of Environmental Quality PIO
- Department of Health and Human Services PIO
- Information Gathering Leader
- Information Dissemination Leader
- Media Hotline Operator
- Writer
- Administrative Support

The JIC is located at:

State of Michigan Office Building
125 E. Union St.
Flint, MI 48502
https://goo.gl/maps/HuiQQc31JkB2

When you arrive at the State of Michigan Office Building, please park in the visitor parking garage across the street from the main entrance. Take the elevator to the fifth floor and use your State of Michigan ID to enter the work area. (The door to the left of the elevator.)

Attire is business casual. Any questions or concerns should be directed to Ms. Nicole Lisabeth at or Mr. Ron Leix at

A hotel has been reserved for those who will be working in the JIC. Please let the JIC team know if need to book a room.

Thank you again for your assistance.

The Joint Information Center Team

State PIOs:

In response to the Flint water situation, Gov. Rick Snyder has activated the Joint Information Center (JIC) to address all related public information activities on behalf of the state. If your agency is involved with the Flint water event, or is receiving related media calls, please coordinate your efforts with the JIC. To ensure a coordinated response, we ask that all media calls, requests for interviews, and posting to state agency websites and social media accounts related to Flint water are directed to, and/or coordinated with the JIC.

Members of the media should be directed to call the JIC hotline at 888-EMD-TODAY (888-363-8632). State agency PIOs who need to speak directly with JIC staff should call the non-published number XXXXXXX or email JICManager@michigan.gov.

As the JIC is staffed by state agency PIOs, your participation in the JIC is greatly appreciated. To assist with the developing staff schedules, please send an email with your availability to work in the JIC for the next week to JICLogistics@michigan.gov. The majority of shifts are scheduled for XXXXX days at a time from 8 a.m. to 5 p.m. each day. You will be notified by email if you are scheduled to work.

Questions can also be directed to XXXXXXXX.

Thank you for your assistance.

Sincerely,

XXXXXXXXX

TAKING ACTION ON FLINT WATER

December 2015

Frequently Asked Questions

Flint Water Assistance Provided

Taking Action on Flint Water

- On October 2, 2015, Gov. Rick Snyder announced a comprehensive action plan created with state, federal and city leaders to address concerns about drinking water.

- The action plan focuses on increasing water testing, offering additional precautions for families with lead plumbing in their homes, and providing long-term solutions to address the city's water infrastructure challenges. The plan was created at Snyder's direction by the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (DHHS), the U.S. Environmental Protection Agency, and the city of Flint.

- The city and the state also are working together to gather more data to ensure the water that leaves the treatment plant as well as the water that arrives in Flint homes is safe for all residents. The plan includes:

    - Testing in Flint public schools immediately to ensure that drinking water is safe, with testing also available at no cost to any other school in Flint.
    - Offering free water testing to Flint residents to assure their drinking water is safe.
    - Providing free water filters to residents.
    - Expanding health exposure testing of individual homes.
    - Accelerating corrosion controls in the Flint drinking water system.
    - Accelerating water system improvements to address replacing lead service lines.
    - Expediting the completion of the Karegnondi Water Authority pipeline.
    - Expanding a Safe Drinking Water Technical Advisory Committee to ensure the best technology, practices and science are being followed by adding an expert from the Environmental Protection Agency's Office of Research and Development to the group.
    - Naming Dr. Eden Wells, chief medical executive for the Michigan Department of Health and Human Services, as the Flint drinking water public health adviser.
    - Boosting a comprehensive lead education program to make sure residents have detailed information about how to protect themselves and their homes.
    - Residents can have their water tested by calling 810-787-6537 and pressing 1, or emailing flintwater@cityofflint.com. The DEQ is covering the cost of this testing.

Departments of Health and Human Services and Environmental Quality Assistance

- Snyder said state and local authorities have carried out steps outlined on Oct. 2 in a comprehensive action plan, including continued testing, the use of faucet filters and providing residents with accurate information about steps to eliminate lead exposure. The Michigan Departments of Environmental Quality and Health and Human Services committed an additional $3.5 million for water filters, free lead testing through the state laboratory for Flint water customers, and hiring additional staff to conduct health exposure monitoring for lead in drinking water.

Public Act 143 of 2015

- On October 15, 2015, Gov. Rick Snyder signed bipartisan legislation that directed funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority Pipeline is completed.

- The bill authorizes $6 million to move the city back to Detroit's water system until the new pipeline is finished.

- In addition to the $6 million, the following has also been provided by the Michigan State Legislature:

    - $300,000 to the Department of Environmental Quality's drinking water and environmental health service;
    - $1 million to provide for DEQ to test drinking water samples;
    - $1 million to enable the Department of Health and Human Services to purchase and distribute water filters to Flint residents;
    - $850,000 will aid in follow-up services for children, including testing, investigations, and case management for those with elevated blood levels; and
    - $200,000 will fund state plumbing inspections for schools and health facilities.
    - The City of Flint city government will provide $2 million toward reconnecting the water supply and the Charles Stewart Mott Foundation has committed $4 million.

Situation Report

January 14, 2016

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 11 p.m. on Jan. 13. On Jan. 14, the JIC opened at 8 a.m. and anticipates operating until 9 p.m.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs and Michigan State Police. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Issued a media advisory at 8 a.m. about the Michigan National Guard Mobilization media event that occurred at 1 p.m. in Saginaw. Twelve news outlets attended.
- Updated ongoing talking points about Flint water situation.
- Monitored news media for misinformation and found none.
- Started drafting a news release in anticipation of the request for a presidential declaration.
- Michigan Association of Broadcasters disseminated radio public service announcements to stations.
- Established a staffing schedule through the week and continued arranging staffing into next week. The JIC will be open this weekend and on the Martin Luther King Jr. Day holiday.
- Continued to update www.michigan.gov/flintwater to add new content and make enhancements to the site. Design improvements will continue tomorrow.
- Reviewed and approved MDARD food establishment fact sheet. Documents from MDE, MSHDA, and MDHHS have been reviewed and are pending edits.
- Drafted state employee volunteer solicitation email.

Situation Report

January 15, 2016

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 10 p.m. on Jan. 14. On Jan. 15, the JIC opened at 8 a.m. and anticipates operating until at least 7 p.m.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished:

- Updated ongoing talking points about Flint water situation.
- Answered more than 10 media inquiries about topics ranging from the Governor's Flint visit to background information on the water response teams.
- Planned a 2 p.m. legislative and congressional conference call, including developing talking points.
- Monitored news media for misinformation and found none. Also monitored social media.
- Started drafting a news release about water response teams and items distributed to date.
- Continued establishing a staffing schedule through the week and into next week. The JIC will be open this weekend and on the Martin Luther King Jr. Day holiday.
- Continued to update www.michigan.gov/flintwater to add new content and make enhancements to the site.
- Created a GovDelivery account for dissemination of JIC news releases and began writing procedures.
- Continued pagination, editing and final approvals of "Lead in Flint Water" MDHHS fact sheet.

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472. Paperwork Reduction Project (1660-0009). NOTE: Do not send your completed form to this address.

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kolensko Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide
☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds
☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm
☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

Lansing for a meeting and we were wondering if it might be possible to swing by and get some video of the SEOC. Do you think that might be possible?
Thu, Jan 7, 10:48 AM
Sent a media advisory to the newsroom. Media round table at 1 pm. SEOC tour afterward.
Delivered
Roger that thank you and see you then .

Are you going to be able to work at the JIC in Flint this week?
Me or Heather?
Are other agencies helping as well?
Either. I'm working on a schedule.
I can put available for certain days, etc.
Heather likely can. What

Heather likely can. What days are you looking at?
Checking her availablity.
Thx
Heather can be available Tuesday or Thursday or Friday.
You?
Not sure I can this week.

If I had to, maybe tues. would be there around 10 and have to leave by 4. Heather is closer.
Are other agencies helping as well?
She was going to be the MDARD rep.
Works! Thanks!
Don't forget, I recruited two people from DNR too.

Yep. I'll be reaching out.
And, what's the best email to get docs approved? Jamie and I want to send an all staff email so they have info for field staff to help direct any resource questions.
Send them to JICManager@michigan.gov

Where's the parking ramp?
A little lost.
Off Harrison.
Park on the roof. Or go to Level 4 and park in front of a yellow cone in the middle.
By churchills right now. Roads sucked out of Lansing. All black ice.
Yep. They were bad bad bad.

What level is the top of the parking garage?

5 or we say the roof because that's easy to identify.

Cool. Thanks!

I may be able to have someone help do social and media monitoring on Friday if you need. Please advise.

May also be able to help with that next week one or two days. Checking.

Nicole Lisabeth

That would be great if you have someone available. Sierra is doing

Subject:	SEOC Update 2/16/16 - Flint Water - Limited Distribution
Attachments:	2015-10-01 City of Flint Water Contamination-Shortage SitRep 42 2016-02-....pdf

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Obtain decision briefing on long term distribution plan.
- Obtain further information on sentinel team data.
- Obtain information on rash occurances.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
    - No concerns from the call.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.

- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
  - Should include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Chris

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM
- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, they now know they will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute *commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of* PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.

- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

   * There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).

- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.

- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street).
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data *shows filters have not been provided and/or visits not made.*
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.

- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.

- *SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs* programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.

    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Chris

Flint Joint Information Center Daily Update

February 16, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 16.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Natural Resources. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from commodity distribution trends at the Water Response Sites to inquiries about volunteering in the city of Flint.
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint. News release was placed on hold.
- Continued routing public information materials for approval, including fact sheets on recycling, testing your water, and keeping Flint kids safe. Additional translated news releases were received and routed.
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.
- Received, vetted and uploaded American Sign Language messaging and requested it to be posted on www.michigan.gov/flintwater. A news release has been drafted about translated documents. The intention is to issue the news release once the ASL messaging is placed on the website.

Planned Activities

Wednesday, Feb. 17

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – Adult Lead Exposure

Thursday, Feb. 18

- HHS Secretary scheduled to visit Flint on Feb. 18
- Community Partners Meeting at 3 p.m. at Food Bank of Eastern Michigan (Weekly Meeting)

Friday, Feb. 19

- News Release – Genesee County and Baker College partnering to test blood-levels in pets
- Rev. Jesse Jackson is participating in a march in Flint on Feb. 19

Saturday, Feb. 20

- No planned products or events.

Saturday, Feb. 21

- No planned products or events.

Monday, Feb. 22

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

Looking Beyond

- NBC25 Town Hall on February 29
- Community Partners Meeting at 3 p.m. Thursdays at Food Bank of Eastern Michigan
- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

Issued News Releases (February)

State of Michigan Joint Information Center

- JIC037 – Feb. 12 – Boil Water Advisory Lifted by City of Flint
- JIC036 – Feb. 12 – National Guard soldier distributing water saves Flint resident's life
- JIC035– Feb. 10 – Flint residents reminded of boil water advisory
- JIC034 – Feb. 10 – State Launches New Streamlined Services for Residents
- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources
- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint

- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

Governor's Office

- GOV – Feb. 16 – Gov. Rick Snyder: Process under way to locate and replace lead water pipes in Flint
- GOV – Feb. 14 – Gov. Rick Snyder seeks federal waiver to expand Medicaid services in Flint to people under age 21, pregnant women
- GOV – Feb. 12 – Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis
- GOV – Feb. 12 – Gov. Rick Snyder requests opportunity to testify before federal oversight committee
- GOV – Feb. 10 – Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water
- GOV – Feb. 10 – Snyder's budget proposal provides strong investments for one Michigan moving forward
- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

Flint Water Daily Update
Updated Feb. 16

Current Issues Talking Points

Process under way to replace lead water pipes in Flint

- Work has begun in Flint to locate and replace high-risk, high-priority lead service lines in Flint.
- State and local leaders are working together on this project to maximize efficiency and protect the health and safety of Flint residents.
    - Flint-based engineering firm Rowe Professional Services will update recent analyses of water pipes and help with replacement.
    - Retired National Guard General Brig. Michael McDaniel is helping coordinate efforts between the Lansing Board of Water and Light, local, state and federal agencies, and additional stakeholders.
- A supplemental budget request approved last month includes money for utilities and can be used to support the survey work required to identify high-priority replacement areas.
- An additional $25 million was included in the Governor's FY 2017 budget recommendation last week which can also be used to assist in water infrastructure replacement projects.

Governor seeks waiver to expand Medicaid services to Flint residents under 21, pregnant women

- On Sunday, the Governor submitted a request to the federal Government to expand Medicaid for those up to age 21 and pregnant women.
- Approval of the request would expand Medicaid and Children's Health Insurance Programs to an additional 15,000 residents served by the City of Flint water system.
- Under the expansion case workers would be designated to help people with:
    - Coordinating primary care physicians and behavioral health providers, Medicaid health plans and others to ensure access to all necessary health services;
    - Providing nutrition support;
    - Improving access to educational and social supports and services that may be available in the community to assist them with their individual needs.
- To date the federal Government has provided only $5 million aid to Flint residents while the State of Michigan has allocated $37.3 million and the Governor proposed an additional $195 million as part of his formal FY 2017 budget recommendation.

Governor releases department emails regarding Flint Water

- Friday, the Governor posted emails and corresponding documents related to Flint water that had been made available previously to requesting entities from state departments.
- By making these documents easily accessible, everyone can review them and take from them what they need. Transparency and collaboration are key to helping the city move forward.
- The documents include materials from the Michigan departments of Environmental Quality, Health and Human Services, Treasury, Department of Technology, Management and Budget, and Agriculture and Rural Development.
- Press release and documents here.

Governor requests opportunity to testify before congressional committee

- The Governor has asked the Chairman of the U.S. House Committee on Oversight and Government Reform for the opportunity to testify regarding the water crisis.
- The Governor hopes to clarify the ways in which local, state and federal governments jointly failed the people of Flint.
- He also hopes to explain the steps Michigan has taken and continues to take to prevent this type of crisis from happening again as well as share ongoing efforts to support Flint families both short and long-term.
- Attending this hearing will be an opportunity to examine health and safety protections in place, assess infrastructure needs, and avoid this type of crisis again.
- The chairman has accepted the governor's request but a hearing date has not been set.

Subject: 2-1-1 Update Flint Water Response for Tuesday, February 16, 2016
Attachments: 2016-02-16 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, February 16, 2016

GENERAL INFORMATION:

- **Invitation to visit the Central Michigan 2-1-1 Center: Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.**

- **US Surgeon General Vice Admiral Vivek Murthy is in Flint this week to meet with officials and community members. MLIVE reports there will be a meeting tonight (2/16) at 6 pm at Mount Carmel Baptist Church, 1619 W. Pierson Road at to talk to residents. The session will include education on the effects of lead on the body and there will be an opportunity for residents to ask questions.**
  Full news story at:

http://www.mlive.com/news/flint/index.ssf/2016/02/us_surgeon_general_talks_flint.html#incart_river_index

- **There is an informational meeting on one of the class action lawsuits tonight, Tuesday, February 16, from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.**

CALL VOLUME:

Central Michigan 2-1-1 was able to handle entire volume of Flint calls today with support from management and supervisory staff during the few peaks of high call volume.

SPECIAL NEEDS/REQUESTS

- ☐ **A private donor organized the distribution of 200 FlowTec shower filters at Berston Field House. Demand was extremely high and all filters were taken within 15 minutes. The distribution spurred a large number of calls to 2-1-1 and affirmed the unmet demand for shower filters. At least one from a homebound resident asking to have a shower filter delivered. Callers are expressing tremendous frustration about not feeling safe to bathe, one caller said, *"You can't boil enough bottled water to take a hot bath."* As noted in past updates, Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand.**

RUMOR/SCAM CONTROL

- ☐ **Michigan 2-1-1 received a report that DHHS is looking at rehousing options for residents in housing that 'environmental investigators' HAVE deemed hazardous for human habitation. CAN A CONTACT AT DHHS INVESTIGATE AND REPORT BACK TO MICHIGAN 2-1-1 ON THE VERACITY OF THIS RUMOR?**
- ☐ **The Attorney General's Office is contacting organizations that are soliciting support for Flint, according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

☑ A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.
UPDATE: 2-1-1 has clarified that, while lead testing for children is free, clinics may ask for insurance information in order to bill the insurer for testing, but there should be no cost to the patient.

UNRESOLVED

☐ From 1/18/16: One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ From 1/26/26: There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. Are shower filter donations a request that can be coordinated through Good360 or another supplier?
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☑ From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information. Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that 2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.

☐ From 2/12/16: 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?

☐ From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. *Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.*

☐ From 12/15/16: Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?

Gov. Rick Snyder: Process under way to locate and replace lead water pipes in Flint

Flint-based engineering firm to track service lines, identify high-priority areas

FLINT, Mich. – Work on replacing high-risk lead service lines in Flint is under way as state and city leaders collaboratively focus on removing pipes in priority areas while analyzing the city's water pipe network to maximize efficiency, Gov. Rick Snyder said.

The state today came to an agreement with Rowe Professional Services, a Flint-based engineering firm, to update recent analysis of water pipes in the city and boost efforts to protect the health and safety of city residents.

"We're committed to the people of Flint, and the top priority is ensuring people have access to safe water," Snyder said. "We need to make sure people will be able to once again turn on the tap and be able to use what comes from it. We're immediately targeting high-risk, high-hazard homes to help those families. Together, we can focus on longer-term solutions."

Retired National Guard Brig. General Michael McDaniel is assisting in coordinating the efforts between the city of Flint, the Lansing Board of Water and Light, state and federal agencies and other stakeholders.

"Flint Mayor Karen Weaver wants this work to be completed as quickly as possible to protect Flint residents," McDaniel said. "We've been working in partnership to identify the areas that need to be addressed immediately and remove lead pipes, bringing peace of mind to Flint families and make

sure this never happens again."

Snyder said a supplemental budget request approved unanimously in the Legislature last month includes money for utilities and can be used to survey Flint's underground network of pipes. Ongoing water testing is revealing where there are high-risk, high-priority areas that should be addressed most quickly. Teams are moving with great urgency to locate where lead water pipes are located and focus on high-risk areas.

"We need to find out which of the city's pipes are made of lead and have lead soldering, and are the most critical to address immediately," he said. "We're hiring Flint residents and training them to assist with that process, working together to make the community safer."

A supplemental budget request to the Legislature includes $25 million that can be used for water infrastructure. Snyder said other resources can potentially be tapped for additional funds to replace pipes.

The $25 million was included in a $195 million package of immediate and long-term support for Flint and its families that Snyder unveiled as part of Wednesday's budget presentation, focusing on health, education and infrastructure.

The budget request includes money for other infrastructure needs, including water testing, inspecting and replacing fixtures in schools and daycare facilities, prioritizing infrastructure repairs and staying connected with Detroit water.

Also included is money for food and nutritional programs, health-related programs and funds to bring relief to residents who had been paying for water they could not use.

Subject: Great Lakes Homeland Security Assistance

Shanon,

EMHSD has requested me to take over leadership of the homeland security conference planning due to the SEOC continued activation and their move. They are really late in the beginning planning stages and we are in desperate need of additional assistance outside of EMHSD since their staff are all tied up with the Flint Water Crisis.

I am reaching out to seek additional help from within MSP and have enlisted Lori Higgins help so far and would I am seeking your approval to utilize Sierra (or Nicole) due to Ron Leix working in Flint pretty much permanently right now. I know she is pretty busy, as we all are, but what I will need her assistance on, shouldn't take much time and most of it can be done at her desk. Nicole handled this when she worked at EMHSD so she could fill you in more on what is needed, but we need someone to draft the VIP invites, Governor's invite, proof printed materials, prepare language for the website etc. It's only until Ron can be freed up to come back.

Please let me know if you approve or need any further information.

Thank you very much,
Cindy

Based on these trends, does the JIC plan to reassess the current distribution model?

Possibly move distribution out of the fire stations and into churches or other venues?

On Tue, Feb 16, 2016 at 2:50 PM, JICNews <JICNews@michigan.gov<mailto:JICNews@michigan.gov>> wrote:
Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Subject: A news media question

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

GOV's ACTIVITIES

Teletown hall
Snyder to Flint: Pick up the phone. It's your governor (Freep)
Fears over eating produce from gardens in Flint fed by suspect water. The plight of children who drank city water but now live elsewhere. A lack of information about how to survive when lead-tainted water still flows from taps. Those were the revelations that Gov. Rick Snyder said he gleaned Thursday from talking to Flint residents by phone during a virtual town hall about the city's drinking water crisis.

Food bank visit
Snyder visits Flint food bank; Grand Rapids group helping coordinate health care efforts (WZZM)
A Grand Rapids organization says it will donate a quarter of a million dollars to help coordinate health care for people affected by the Flint water crisis. This comes as Governor Rick Snyder returns to that city.

Congressional hearing
Gov. Snyder, Darnell Earley to testify before Congress on Flint water crisis (WXYZ)
Michigan Gov. Rick Snyder will testify in front of Congress about his knowledge of the Flint water crisis. This comes after Snyder requested an opportunity to testify on Friday.

Michigan Gov. Rick Snyder to testify before House Committee about Flint (MSNBC)
Michigan Governor Rick Snyder will appear before the House Oversight Committee to answer questions about his handling of the water crisis in Flint, in which the city's residents were exposed to lead poisoning.

House oversight panel calls Snyder, EPA chief to testify on Flint (AP)
A House committee chairman will summon Michigan Gov. Rick Snyder and the head of the EPA to testify about the water crisis in Flint. Snyder and Environmental Protection Agency chief Gina McCarthy have been invited to appear before the House Oversight Committee. Republican chairman Jason Chaffetz of Utah said he appreciates Snyder's willingness to appear and looks forward to McCarthy's testimony.

Michigan governor, EPA chief to testify on Flint (The Hill)
The House Oversight Committee will hear testimony from Michigan Gov. Rick Snyder (R) and EPA Administrator Gina McCarthy during an upcoming hearing on the water crisis in Flint, Mich. The hearing — which has yet to be scheduled — will likely focus on top officials' roles in precipitating and responding to the crisis in Flint, where corroded water pipes have caused increased lead levels in drinking water.

Snyder to testify before Congress (WWMT)
Governor Rick Snyder will join other key players in the Flint water crisis is testifying before the U.S. House Committee on Oversight and Government Reform. Governor Snyder called the chairman of the committee to ask if he could testify. He says he wants to explain how the government failed the people of Flint and lay out improvements he's recommending to make sure a crisis like this doesn't happen again.

Gov. Snyder asks to testify before Congress on Flint water crisis (Michigan Radio)
Governor Snyder says he now wants to testify before congress to "explain mistakes made by water quality experts that led to the current crisis, and detail the emergency response in place to help residents recover," according to a statement released Friday.

Snyder to testify before Congress on Flint (Michigan Daily)
Gov. Rick Snyder (R) will testify before the U.S. House Committee on Oversight and Government Reform on his actions relating to the Flint water crisis.

Snyder's hearing plan: Push for lead pipeline removal (Detroit News)
Gov. Rick Snyder plans to push for a national discussion on removing lead water pipelines in aging American cities when he testifies before a congressional committee investigating Flint's water contamination crisis.

Flint water probe by Congress puts Snyder on witness list in March (Mlive)
The House Oversight and Government Reform Committee has added Gov. Rick Snyder to a roster of witness set to testify on the Flint water crisis.

Gov. Snyder says he will testify in Congressional Oversight Committee hearing on Flint (WKZO)
The first Congressional Oversight Committee hearing on Flint drew criticism because no one on the list of witnesses was in a key position of responsibility when critical decisions were made. That will not happen the second time around.

Michigan Gov. Rick Snyder to testify before Congress on Flint (CBS News)
Michigan Gov. Rick Snyder has agreed to testify before Congress on the Flint water crisis, the House Oversight and Government Reform Committee announced Friday. "We are committed to investigating the failures in Flint. We appreciate Governor Snyder's willingness to appear before the Committee and look forward to hearing from EPA Administrator McCarthy as well," Chairman Jason Chaffetz, R-Utah, said in a statement announcing the hearing.

Michigan: Snyder Will Testify on Poisoned Water (New York Times)
Gov. Rick Snyder will testify before a congressional committee on the water crisis in Flint, he said on Friday. In a statement, Mr. Snyder, left, said that he had asked Representative Jason Chaffetz of Utah, chairman of the House Oversight and Government Reform Committee, for the "opportunity" to speak about the lead contamination that occurred in the Flint water supply in 2014 and 2015.

Gov. Snyder to testify about Flint water crisis before House committee; releases more emails (Fox 17)
Gov. Rick Snyder will testify before the House Oversight Committee about the water crisis in Flint. He made the announcement today on Twitter that he offered to testify. Snyder also released thousands of pages of emails today.

Gov. Rick Snyder will testify in front of Congress over Flint water crisis (Examiner)
In an attempt to cut costs, Flint's water supply was transferred from Lake Huron to the Flint River. Since that time, faulty pipes have led to lead in the water which has poisoned the residents of the city. Upon further review, the water supply

from the Flint River was 20 times more corrosive than what was found in Lake Huron. Now with legal problems facing state and local officials, Snyder and others will be forced to explain themselves in front of Congress, as reported by The Hill on Feb. 12.

Flint water crisis: Gov. Snyder asks to testify before Congress (Mlive)
Gov. Rick Snyder says he wants to testify before Congress on the Flint water crisis. Snyder said in a news release and Twitter message today, Feb. 12, that he has asked the chairman of the U.S. House Committee on Oversight and Government Reform to testify "to explain how the local, state and federal governments combined to fail the people of Flint."

Gov. Snyder Requests Chance to Testify in Washington about Government's Role in Flint Water Crisis (MI 26 News)
In a statement on Friday Governor Snyder said he has volunteered to testify before the US Congress on how all levels of government failed the people of Flint. According to Snyder, the people of Flint have suffered due to failures at all levels of government and he hopes that what we learn from dealing with the current crisis in Flint can be used to avoid this type of crisis in the future.

Michigan governor, EPA administrator to testify on Flint (Politico)
Michigan Gov. Rick Snyder and EPA Administrator Gina McCarthy will testify on the drinking water crisis in Flint, Mich., the House Oversight and Government Reform Committee announced today.

Gov. Snyder offers to testify before Congress on Flint (Fox 2)
Governor Snyder is reversing course as he has offered to testify in front of the U.S. House Committee on Oversight and Government Reform, according to communications sent to FOX 2 from the governor's office.

Michigan governor, EPA to testify at House panel on Flint (Reuters)
Michigan Governor Rick Snyder will testify on the Flint drinking water crisis at a House of Representatives oversight panel next month, aides for the committee said on Friday.

Governor Snyder says he has asked to testify before Congress about Flint water (WDIV)
"Gov. Rick Snyder today said he asked the chairman of the U.S. House Committee on Oversight and Government Reform for the opportunity to testify to explain how the local, state and federal governments combined to fail the people of Flint and the improvements he is recommending at the federal level as well as in Michigan to ensure a water quality crisis of this nature does not happen again.

Snyder to testify before Congress on Flint crisis (Freep)
Michigan Gov. Rick Snyder will get the chance to testify before a congressional committee on the Flint water crisis, speaking at an as-yet-unscheduled hearing before the U.S. House Oversight and Government Reform Committee on what happened and the improvements he wants to recommend at the local, state and federal levels.

Gov. Snyder Asks To Testify About Flint Water Crisis (9&10 News)
Governor Rick Snyder wants to testify before a federal oversight committee about the Flint water crisis. Gov. Snyder asked the chairman of the U.S. House Committee on Oversight and Government Reform for the chance to testify. Snyder says he wants to explain how the local, state and federal governments failed the citizens of Flint.

Gov. Snyder asks to testify before Congress on Flint water crisis (Macomb Daily/Oakland Press)
Gov. Rick Snyder has asked to testify before Congress about the developments leading up to the water crisis in Flint, the governor's office announced Friday. Specifically, he offered to travel to Washington D.C. for a future hearing to "explain mistakes made by water quality experts that led to the current crisis and detail the emergency response in place to help residents recover."

Medicaid waiver request
Gov. Snyder requests expanded Medicaid services for Flint residents (WXYZ)

Michigan Gov. Rick Snyder is asking the federal government to expand Medicaid services to residents of Flint. According to a release issued on Sunday, Snyder wants Medicaid expansion for those up to age 21 and pregnant woman who are served from the Flint water system.

Gov. Snyder asks for expanded Medicaid for Flint (Detroit News)
Michigan Gov. Rick Snyder has asked that Medicaid benefits be expanded to include Flint residents up to 21 years old and pregnant women who have been receiving water from the city's troubled system. Sunday, Snyder sent a formal request to the Centers for Medicare and Medicaid Services seeking a waiver that could make new services available to 15,000 additional Flint residents.

Snyder seeks expanded health coverage, lead abatement in Flint water crisis (Mlive)
A federal waiver has been sought by Gov. Rick Snyder to address lead exposure in Flint, including the allowance of Medicaid and health insurance for children up to 21 years old and pregnant women. Snyder sent the letter serving as a formal request on Saturday, Feb. 13 to Victoria Wachino, director of the Center for Medicaid and Children's Health Insurance Program, or CHIP, Services, as a request for the waiver.

Snyder requests Medicaid coverage for Flint residents who are under 21, pregnant (WDIV)
Gov. Rick Snyder is asking the federal government to expand Medicaid coverage to people under 21 and pregnant women who have been exposed to Flint's lead-contaminated water. In a statement released Sunday, Snyder says about 15,000 more Flint residents would benefit if the government approves the request. The governor says the state would help by lining up doctors and behavioral health specialists and providing other services.

Snyder asks for more Medicaid support for Flint (Freep)
Michigan Gov. Rick Snyder announced Sunday that he has asked for expanded Medicaid support for about 15,000 Flint residents, especially for pregnant women and those under 21, in the wake of the city's water crisis.

Gov. Snyder seeks more Medicaid coverage for Flint residents (AP)
Gov. Rick Snyder is asking the federal government to expand Medicaid coverage to people under 21 and pregnant women who have been exposed to Flint's lead-contaminated water.

Gov. Snyder seeks to expand Medicaid for Flint (Fox 17)
Gov. Rick Snyder is requesting an expansion of Medicaid benefits to include anyone up to the age of 21, and pregnant women, who consumed Flint's lead-tainted water.

Snyder requests expansion of Medicaid over Flint water crisis (WWMT)
Governor Rick Snyder says he is seeking a federal waiver to expand Medicaid services for those up to the age of 21, as well as pregnant women in an attempt to get help for children, teens and young adults affected by the Flint water crisis.

Governor Snyder seeks more Medicaid coverage for Flint residents (WOOD Radio)
Gov. Rick Snyder is asking the federal government to expand Medicaid coverage to people under 21 and pregnant women who have been exposed to Flint's lead-contaminated water.

Email/document release
Flint water subject of thousands of pages newly released by Gov. Snyder (MLive)
Thousands of pages of emails, internal communications and other documents were released by Gov. Rick Snyder on Friday, Feb. 12.

Gov. Snyder releases 1000s of pages of documents on Flint water crisis (WLNS)
Governor Snyder's office today released emails and other documents from state departments regarding the ongoing Flint water crisis. The documents, all 21,403 pages worth, include material from the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development.

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis (UP Matters/TV 3)
Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

Read the state's newly released documents here (Michigan Radio)
Governor Snyder just released 21,403 pages of emails about the Flint water crisis. The emails include documents the The Detroit News already published Friday, in which the U.S. Environmental Protection Agency discussed the Genesee County Legionnaires' disease outbreak in late March 2015.

VIEW: Governor Snyder releases departmental emails related to Flint water crisis (WXYZ)
This morning, Governor Rick Snyder's office released departmental emails relating to the Flint water crisis. "By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward," Snyder said in a press release.

Budget Proposal
Michigan Gov. Rick Snyder has proposed privatizing the public mental health system by moving state funds to Medicaid HMOs (AP)
Michigan Gov. Rick Snyder has proposed privatizing the public mental health system by moving state funds to Medicaid HMOs.

Michigan would privatize mental health funding, services under Snyder's proposed budget (Crain's Detroit Business)
Gov. Rick Snyder's $54.9 billion fiscal 2017 budget calls for privatizing the $2.4 billion public mental health system by turning over state funding to Medicaid HMOs. In what is called "boilerplate" language at the end of Snyder's 408-page executive budget bill, Section 298 calls for carving in behavioral health benefits to the health plans by the end of fiscal 2017, which ends Sept. 30, 2017.

State lawmakers could ponder plan to burn DPS debt with tobacco revenue (Crain's Detroit Business)
A state senator said he is working on legislation that could use tobacco revenue as a funding source to tackle Detroit Public Schools' massive operating debt, similar to a budget proposal Gov. Rick Snyder introduced last week.

State firefighter cancer fund still has no money (WLNS)
It's been more than a year since Michigan lawmakers created a fund to help firefighters who develop cancer on the job. But the fund is having funding issues, as first reported by Michigan Radio. Being a firefighter is dangerous — but it's more than just the heat that can be a problem.

NMC project on Snyder's list (Traverse City Record Eagle)
Northwestern Michigan College's top campus improvement proposal moved one step closer fruition when the $14.4-million project appeared as part of Gov. Rick Snyder's most recent budget recommendation.

Snyder sets aside money for added troopers in Muskegon, Benton Harbor in budget proposal (WKZO)
Gov. Rick Snyder has set aside additional funding in his budget proposal for an increased Michigan State Police presence in Muskegon, Benton Harbor and other high-crime cities. Trooper count has already grown 13 percent under Snyder's watch.

Gov. Snyder seeks $61.2M increase in higher ed funding (State News)
Gov. Rick Snyder asked the Michigan Legislature to raise funding for higher education in the state by $61.2 million last week. According to the official higher education budget narrative for this proposed increase in state appropriations

Snyder plans for a 4.3 percent overall increase with "one-half of the increase in university operations funding is distributed across-the-board and one-half through the current performance formula."

Ann Arbor

Snyder faces hometown backlash over Flint water crisis (Freep)
Bitterly cold winds whip around Susan Fecteau as she reaches into a chalk-filled bucket, gets down on her hands and knees and writes a message to Gov. Rick Snyder on the sidewalk in front of his residential loft in the heart of downtown Ann Arbor.

Michigan Gov. Rick Snyder faces growing animosity in Ann Arbor (Mlive)
Before he ran for governor six years ago, long before he faced intense criticism over the Flint water crisis, Rick Snyder was a respected Ann Arbor businessman. The former president of computer-maker Gateway Inc., Snyder returned to the home of his alma matter in 1997 to start a successful career as a venture capitalist.

Flag honors

Gov. Snyder lowers flags to honor Supreme Court Justice Antonin Scalia (TV 7&4)
Gov. Rick Snyder has joined President Barack Obama's call for all U.S. flags to be lowered to half-staff in honor of Supreme Court Justice Antonin Scalia. Flags should be lowered Sunday, Feb. 14 through Scalia's day of interment.

Misc

Flint Crisis May Help Governor Ease GOP Doubt on Detroit Aid (AP)
Rick Snyder's standing as one of the GOP's most accomplished governors has taken a beating in the crisis over lead-contaminated water in Flint, Michigan. Democrats, especially those running for president, have pointed to his administration's mishandling of the city's switch to a cheaper water supply as an example of Republican cost-cutting run amok.

Gov. Snyder: Hillary Clinton's Claim That He 'Poisoned' Flint Residents to Save Money 'Not Accurate' (CNS News)
Michigan Gov. Rick Snyder said Thursday that Democratic presidential candidate Hillary Clinton's claim that he "poisoned" the people of Flint, Mich., to save money is "not accurate," urging that the focus should be on solving the issue, not on politics.

FLINT

Firm blames DEQ and Flint for lack of corrosion control (Freep)
The Houston engineering firm that was hired to get the Flint water treatment plant ready to treat water from the Flint River so residents could drink it denies responsibility for the disastrous decision not to use corrosion control chemicals in the treatment process.

Flint mayor: Police, fire chiefs out in restructuring (Freep)
Flint's police and fire chief are out – resigned or fired, depending on whom you ask.

Michigan officials knew of Legionnaires' outbreak long before warning (Reuters)
State government officials knew about an outbreak of Legionnaires' disease and its suspected link to contaminated water in impoverished Flint, Michigan, at least 10 months before a public announcement was made, documents released on Friday showed.

State's top doc worked part-time as Flint crisis erupted (Freep)
As Flint water problems slowly emerged as a public health calamity over the spring, summer and fall of last year, the top medical officer at the Michigan Department of Health and Human Services was continuing her course load as an associate professor and medical residency program director at the University of Michigan, working for the health department only part-time, both the university and health department have confirmed.

Regulators dismissed dissenters on Flint crisis (Detroit News)
Michigan regulators who failed to ensure proper corrosion control chemicals were added to Flint's drinking water spent six months dismissing evidence of their error and considered ways to muzzle the federal expert who first sounded alarms about it.

Flint water tests to track change in lead levels (Freep)
State officials will regularly test water from about 400 Flint addresses over the next eight weeks to see whether efforts to decrease toxic lead levels are working. They're hoping chemicals added to the tap-water supply will create a barrier inside the pipes, blocking lead from leaching into the water.

Flint Fire Department says corrosive water is damaging its trucks (AP)
lint's fire chief says he suspects corrosive water from the Flint River contributed to damaging his department's trucks. Chief David Cox Jr. says one truck was put into use a year-and-a-half ago but already has rust around an intake valve and rubber seals that were damaged.

Emails: State mum on Flint Legionnaires' warning (Detroit News)
At least six Environmental Protection Agency officials discussed in late March Genesee County's Legionnaires' disease outbreak and a suspected link to Flint's change in water sources — and were told the state would alert the public.

Snyder aides considered Flint water filters in March (Detroit News)
Top aides to Gov. Rick Snyder began exploring the use of faucet filters to address water complaints from Flint residents in early March, nearly six months before the governor's office quietly helped distribute 1,500 filters on Sept. 1, according to state emails obtained by The Detroit News.

DEQ official: Staffers earn raises for Flint work (Detroit News)
A top Michigan Department of Environmental Quality official joked with employees that they deserved a raise for handling citizen complaints about lead contamination of the Flint water supply.

NAACP calls for civil disobedience if plan to replace Flint's pipes isn't presented in 30 days (WXYZ)
The NAACP is issuing a powerful warning involving Flint's water crisis. When children were sickened by harmful lead water, the Governor pledged to fix it. But now, critics are raising the stakes.

DETROIT

Detroit Public Schools' teacher co-founds non-profit that helps tutor students (WXYZ)
When a Detroit Public Schools teacher co-founded a new non-profit to make sure kids get the help they need to succeed in school, she soon ran into one problem. So many parents saw her results and brought their kids to her for help, she had to put many on a waiting list.

DPS 'desperate' for state rescue, City Council told (The Detroit News)
A "desperate" Detroit Public Schools is running out of cash, is unable to borrow and urgently needs the state to approve legislation that will provide financial relief, a district official reiterated Monday.

Detroit's Elected School Board Works Behind the Scenes (WDET)
Detroit Public Schools is currently operated by a state-appointed emergency manager, but the district's elected school board members say they have been working in the background for years to do what's best for students and parents.

Secret recording may play role in demolition fraud case (Detroit Free Press)
An Oakland County judge is expected to rule as early as next week on whether to proceed with a case that accuses a vendor involved in Detroit's demolition program with fraud.

Flint crisis may help governor ease GOP doubt on Detroit aid (AP)

Rick Snyder's standing as one of the GOP's most accomplished governors has taken a beating in the crisis over lead-contaminated water in Flint, Michigan. Democrats, especially those running for president, have pointed to his administration's mishandling of the city's switch to a cheaper water supply as an example of Republican cost-cutting run amok.

Congressional hearing on Detroit, Flint emergency managers requested (Mlive)
Democrats on the U.S. House Judiciary Committee have called for a congressional hearing on Michigan's emergency manager law and its role in Flint's water crisis and the deterioration of Detroit Public Schools.

DEPARTMENTS

DNR
State's newest campground offers Lake Michigan views (Detroit Free Press)
A new campground with views of Lake Michigan opens this year at Wilderness State Park in Michigan's northern Lower Peninsula. The campground is scheduled to open to the public June 23 and the Michigan Department of Natural Resources says reservations are available.

Township leaders approve outdoor dining ordinance change (Daily Telegram)
An increase and expansion of eating establishments around Manitou Beach prompted Rollin Township officials to amend the municipality's outdoor dining ordinance to

Diverse trees, diverse products support Michigan's forestry Industry (Second Wave)
The basketball court displayed on your television screen, the chest of drawers in the corner of your room and the glossy magazine on your lap could have something in common — they may all be made in Michigan, from wood coming out of Michigan forests.

MDE
Michigan gets 'F' for tracking teachers (Lansing State Journal)
A name, a list of approved teaching subjects and verification of a teacher's license. That's all the information available on the Michigan Department of Education's credential verification website for parents who want to know the background of their child's teacher.

MDOT
I-94 pileup injures 4, dumps 2,500 gallons of motor oil (MLive)
A pileup on eastbound I-94 that involved 14 vehicles in Southwest Michigan injured four people and caused thousands of gallons of motor oil to spill.

MDHHS
Baby-boomer homebodies blamed for county's nursing home losing money (MLive)
Officials are blaming baby boomers who are living at home longer for difficulties filling a nursing home facility owned by Muskegon County. "The trend is, baby boomers are staying in their homes," Brookhaven Medical Care Facility Interim Administrator Lesa Vandermeer said at a recent meeting with the Muskegon County Board of Commissioners.

DHHS addresses food stamp cuts across state (Record Eagle)
Michigan Department of Health and Human Services officials are encouraging food stamp recipients across the state to make sure they're receiving proper benefit amounts by filing for a Home Heating Credit.

MPSC
Michigan utilities to exceed renewable energy production standard, report finds (Crain's Detroit Business)
After five years and millions of dollars of investments, Michigan's utilities have exceeded the 10 percent renewable energy production goal under the state's 2008 landmark energy law, the Michigan Public Service Commission said in its sixth annual report Friday.

MSHDA

City documents indicate lead, PCBs were never cleared from parts of Ypsilanti's Water Street (Mlive)
In October, the Michigan State Housing Development Authority sent a letter the city of Ypsilanti stating that high levels of contamination, including PCBs and metals like lead and arsenic, appear to remain on the 38-acre Water Street property.

MSP

Mich Tech prof developing drone to catch other drones (The Detroit News)
Interest in drones is soaring and experts predict their use will only skyrocket. But what happens when the unmanned aerial vehicles go rogue or enter restricted airspace?

Treasury

Beware of IRS scams in Michigan (WLNS)
The phone rings, and the person on the other line claims they're from the IRS, and they have some bad news. "That I owed money and I'd have to pay it immediately or I'd go to jail." Jean Lodge said, she received a call from a scammer demanding money, but little did they know she's worked for H & R Block for more than six years.

LEGISLATIVE

Michigan Senate committee hearing on state's academically failing schools (WXYZ)
A Michigan Senate committee is holding a hearing today to discuss the state's academically failing schools. The meeting could also recommend an overhaul of Detroit Public Schools.

House Democrats seek Judiciary hearing on Ems (Detroit News)
House Democrats are requesting that the Judiciary Committee hold a hearing to examine the role of emergency managers in financially distressed cities in Michigan such as Flint and Detroit.

Michigan lawmaker leads 'hate group,' civil rights group claims again (MLive)
A civil rights group based in Alabama is calling an organization led in Michigan by state Rep. Gary Glenn a "hate group" once again. The accusation targeting the American Family Association is part of a new report by the Southern Poverty Law Center.

State lawmakers could ponder plan to burn DPS debt with tobacco revenue (Crain's Detroit Business)
A state senator said he is working on legislation that could use tobacco revenue as a funding source to tackle Detroit Public Schools' massive operating debt, similar to a budget proposal Gov. Rick Snyder introduced last week.

Bill Would End Monopoly on New Auto Sales (Capitol Confidential)
People who wish to purchase a new car can do so only through an auto dealer, and not directly from the manufacturer. A new company could break that practice, but it will need help from the Legislature first.

12th state bill to modify fireworks use is introduced (Detroit Free Press)
Perhaps the 12th time will be the charm for a change in the state's policy on when and where people can shoot off fireworks. State Rep. John Chirkun, D-Roseville, introduced a bill — the 12th to be introduced in the past year — that would allow local governments to modify when people can use the bigger, stronger fireworks that were made legal in Michigan in 2011.

OPINION

Flint just one example of need to upgrade water supply (Detroit Free Press)
Flint is experiencing a disaster — and there isn't anything "natural" about the circumstances that have left the city's drinking water poisoned with lead.

Lead not only stressor kids in poor social situations face (Detroit Free Press)
There is, as there should be, an intense spotlight on the children of Flint, who are at risk of lead poisoning because of poor decisions made concerning the city's water supply. Now, the hard work of minimizing the impact of this exposure is under way. But it is the hope of pediatricians and others who work with young children that the catastrophe in Flint will now shine a bright light on the needs of all children, especially those who have to grow up in poverty and face many of the same stressors that Flint's children face, even before this man-made disaster.

Snyder's resignation would be no victory (Detroit Free Press)
With no end to Flint's water emergency in sight, a lot of Michiganders — most genuinely furious, some sensing political opportunity — are demanding Gov. Rick Snyder's recall or resignation for his role in the crisis.

Flint's problems didn't start with water (Detroit Free Press)
A third of the property in the city of Flint is vacant.

Editorial: Judge Rhodes adds heft to DPS debate (Detroit News)
Lawmakers still aren't showing much enthusiasm for the bills that would send millions of dollars to Detroit Public Schools and create a more stable foundation for the district's future. To get legislative support, Gov. Rick Snyder plans to tap retired U.S. bankruptcy judge Steven Rhodes to serve as interim emergency manager for Detroit schools.

Misuse of emergency management in Flint is a costly lesson (Detroit News)
In the Netflix drama "House of Cards," fictional President Frank Underwood re-directs $3 billion in funds from the Federal Emergency Management Agency to pay for a jobs program in Washington. He simply declares that unemployment is a "disaster" and snatches the cash set aside for actual emergencies.

Improving access to cancer drugs (Detroit News)
When it comes to fighting cancer, Michigan patients need to access a wide array of treatment options. Unfortunately, many therapies are currently unavailable to dangerously ill individuals across our state.

Editorial: Expand FOIA for full transparency (Detroit News)
The water crisis in Flint underscores again the need for more transparent and accountable government in Michigan, which starts with changing the state's Freedom of Information Act (FOIA) laws, among other improvements.

Finley: Snyder's style worked against him in Flint (Detroit News)
Rick Snyder says he doesn't do politics. But politics is becoming his undoing.

Amid water crisis, it's about working together for Flint (MLive)
Three weeks ago, President Obama asked me to head the federal response to the water crisis in Flint. Since then, I have spent time in the city talking with community members, government officials and technical experts about the situation.

For a free executive education, look no further than Flint (Bridge MI)
Embedded under the chaos in Flint are some deeply rooted managerial and structural issues that go a long way toward explaining why the debacle has mushroomed out of all proportion. Some lessons worthy of learning:

Subject: Detroit region dropped water warning network to save cash. Also, what Flint lost.

Before Flint, a Detroit-area water warning system was allowed to crumble

A state-of-the-art water contaminant warning system protected more than 4 million people in southeast Michigan. But a few years back, communities began to pull out of the network, to save money. After Flint, was that a mistake?

READ FULL STORY

What Flint lost

After more than a year of misinformation, Flint residents say they can no longer trust anything the government tells them. Paranoia? Or history?

READ FULL STORY

Empathy, action, truth: How crisis communications might save

Experts say the key to rebuilding trust is skilled crisis management,

but that's not happening in Flint, at least not yet.

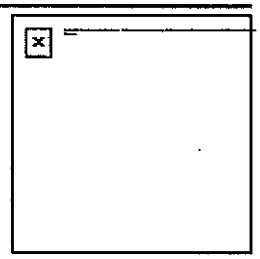
Commentary: State teacher of year: Who am I to judge Detroit teacher sick-outs?



The stark inequality between Michigan's rich and poor schools is the greatest obstacle to learning. Nowhere is that more true than in Detroit, where teacher sick-outs have put a spotlight on the terrible conditions in which children must learn.

Thanks Shanon. Last email I got from Lori Hinkley said we were to forward the documents, not copy them, on emails. I hope your correct that we can copy them....one less step...

Subject: RE: For Tuesday - Loose ends

It's pretty much every document (not just emails). There is a list of search terms, but it's likely easier just to do everything rather than try to perform all the various searches. For instance, one of the searches is the words "Flint" and "water" in the same document.

You'll be getting direction from the SEOC on how/where they want you to print. In addition to emails, it will also be copying all the approval forms in the box on the desk there.

I spent three hours in my office yesterday printing, and made it one-third of the way through my documents.

For now, we are going to print off documents through this Friday. After Friday, we need to copy the FOIA email account on all emails moving forward, but again, you'll get more direction from the SEOC on this.

Thanks Shanon.

Also, has there been a determination on the emails we are supposed to print out. Have you guys started that on your end in the JIC. I suppose I'll be doing quite a bit of that today....

Thanks
Kevin S.

Subject: For Tuesday - Loose ends

Matt/Ron/Kevin,

There are several emails in the MSP-SEOCPIO account that came in on Monday containing translated documents. Since we did not have a web person to post items, I left the emails in the account to be addressed on Tuesday. It appears two of the messages are the ASL videos we have been waiting for in order to send out the Translated Documents news release.

Trevor Hawks has asked for a non-PDF version of the recycling flyer that Angela created (available here - http://www.michigan.gov/documents/flintwater/SOM_FlintRecyclingInstructions_513838_7.pdf). There needs to be a change made to it, as well as a Spanish version made. Angela was copied on the emails, but has not yet responded. This may require follow-up to make sure it gets to Trevor. When updated, it needs to be updated on the web.

This afternoon I provided Captain Kelenske with talking points for Tuesday's congressional call. I expect there will also be someone from DEQ and DHHS on the call as there was last time, but you may need to remind our fellow PIOs.

We received a request today from Tom Weber to have a JIC representative attend the weekly Community Partners Meeting on Thursdays at 3 p.m. I have asked Sgt. Vega (confirmed) and F/Lt. Kaiser (hasn't responded yet) to attend. I also asked Ron to add this item as a standing items on our daily Look-Ahead.

Another item of discussion from this weekend is a possible news release on adult lead exposure. Angela suggested it based on some news stories we were seeing. The feds have also asked what we are doing on this topic. I recommend following up with Jen Eisner tomorrow.

Dan Shulman at FEMA sent a number of questions to us from Representative Kildee's office. I have compiled all the answers and had them approved through Tony Katarsky today, however, Captain Kelenske has asked to have legal review them as well. I sent them to him today, but have not heard back yet.

Lastly, I review a couple of very draft infographics put together by the UCG regarding how to read your water testing results. I noted there is value in a simple infographic, but I asked that they work to finalize them more and then send them back through the JIC for approval.

Please let me know if you have any questions.
Thanks,
Shanon

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	42
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/16/2016 08:00:00
SEOC Hours of Operation End:	02/16/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 16, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.

JIC:
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
- Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe.
- Additional translated news releases were received and routed.
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today: 5 teams in the field - Water Distribution – turned 211 information over to local EOC and Southern Baptist Teams.
- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.
- Total homes visited:
  - 24,879 (round 3 total)*
  - 1,023 (today).
- Water cases (liters calculated by multiplying # of cases x 12):
  - 178,116 liters or 14,843 cases (round 3 total)*
  - 8,076 liters or 673 cases (today).
- Replacement cartridges:
  - 6,331 (round 3 total)*
  - 609 (today).
- Faucet filters:
  - 7,792 (round 3 total)*
  - 90 (today).

*Totals updated due to changes in previous data.

Planning Section:
- Developed and approved Sit Rep #42.
- Updated burn rates and projection costs, per request.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section:
- Participated in Long Term Recovery planning meeting.
- Participated in Unified Coordination Group briefing.
- Facilitated Command/General Staff/SEOC briefing.
- Participated in Distribution Process meeting.
- Assisted in developing print plan for FOIA request.
- Assisted state agencies in handling requests from Governor's office, media, etc.
- Warehouse Numbers as of 1800:

City of Flint, Declaration of State of Emergency, 12/15/2015
Genesee County, Declaration of State of Emergency, 01/04/2016
Genesee County, Request for Governor's Emergency/Disaster Declaration, 01/04/2016

State Declaration
Declaration of Emergency for the City of Flint and the County of Genesee, 01/05/2016
State Declarations
Jurisdiction(s): Date/Time:

Federal Declarations
Jurisdiction: Date/Time:
Declaration of Emergency for Michigan Contaminated Water (EM-3375), 1/16/2016

Weather Conditions

Watches/Warnings

Upcoming Forecast
Forecast update for Flint, MI - 1200pm February 16

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 16.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Natural Resources. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Media hotline staff answered less than 10 emails and phone calls, ranging from commodity distribution trends at the Water Response Sites to inquiries about volunteering in the city of Flint.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

403 DEQ and 0 MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

MDE has a request from Planning to determine if any school days or instructional time has been lost due to the Flint water situation. We have reached out to GISD with a request for this information. MDE has received a request from the MEA Region Director for training of teachers of students impacted by Flint water situation.

MDE continues to work with MSD on faucet replacement and re-replacement with a new target date of 24 February for completion.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

Reviewed incident objectives to reflect Director's priorities for upcoming week.

Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.

Continued monitoring and mapping of school fixture upgrade/replacements.

Began planning for next phase of testing and data collections.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities.

LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies.

Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1612002016.

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN).

3. POC: Ssg Gazzeny, Darryl L. Cell: (. Email: armyinfantry31@yahoo.com.

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502.

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke has a meeting on 16FEB2016 with Calix Martinez in the city of Flint Plans and Marketing office to have signs designed and printed.

b. Soldiers are preparing for the unit change at the PODs.

1.) 1-125 IN conducting relief in place within next 24 hours.

8. PERSONNEL Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

Headlines:

Snyder: State health agency under review for Flint
The Detroit News, Feb. 16, 2016
Gov. Rick Snyder said Tuesday that his review of the Flint water crisis includes a look at the Department of Health and Human Services, where officials failed to alert the public when they first learned about an outbreak of deadly Legionnaires' disease.

Michigan judge removes himself from Flint lawsuit case
The Detroit news, Feb. 16, 2016
A Michigan judge who inserted himself into a pending civil lawsuit against the state of Michigan over lead contamination in Flint has now removed himself from the case after plaintiffs' attorneys complained.

NAACP warns state of action over Flint
The Detroit News, Feb. 16, 2016
The national branch of the NAACP on Monday promised an "intense" campaign of "direct action" against the state of Michigan if it doesn't replace Flint's lead pipes, do away with the emergency management law and investigate the controversial water switch to the Flint River.

Snyder: Feds 'failed to do a lot of things' on Flint
Detroit Free Press, Feb. 16, 2016

Flint water rates highest in country, study claims
MLive-Flint, Feb. 16, 2016
Flint residents dealing with discolored, lead-tainted water were paying the highest water rates in the nation, according to a new study.
A study released Tuesday, Feb. 16, by Washington, D.C.-based Food & Water Watch showed Flint residents were being charged the more for water than any other customers in the nation's 500 largest community water systems.

Water crisis brews deep distrust in all levels of government among Flint residents
MLive-Flint, Feb. 16, 2016
About a year ago, Victoria Marx lost her balance standing on a ladder while working at Home Depot. A couple of times. It was around that period that she noticed her right hand had started to quiver. Last summer, Marx, 60, was diagnosed with Parkinson's disease, a chronic movement disorder that can result from a mix of genetic and environmental factors. A few months later, Gov. Rick Snyder appeared on television to apologize to the people of Flint, confirming they were exposed to high levels of lead after the city began taking its drinking water from the Flint River in 2014.

"Civil disobedience" called for in Flint by president of NAACP
WEYI-TV 25, Feb. 15, 2016
The national head of the NAACP has called for possible "civil disobedience" in Flint in the next 30 days. NAACP President Cornell William Brooks spoke at the Christ Fellowship Missionary Baptist Church in Flint this afternoon.

Free lead testing being held all week in Flint
WEYI-TV 25, Feb. 16, 2016
Molina Healthcare and the Genesee County Health Department are holding events over the next couple of weeks with information about lead poisoning, as well as lead testing. All of the information and testing are free.

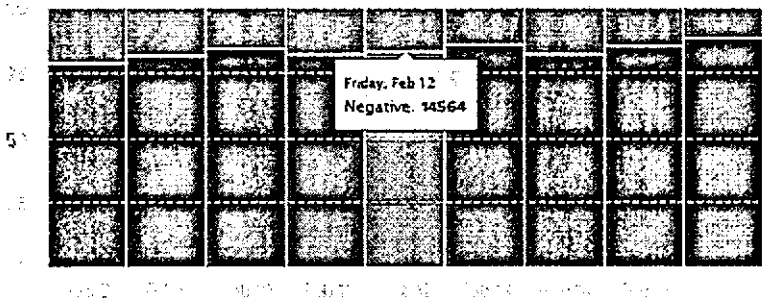
Sentiment Over Time



This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, February 16, 2016

GENERAL INFORMATION:

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.
- **US Surgeon General Vice Admiral Vivek Murthy is in Flint this week** to meet with officials and community members. MLIVE reports there will be a meeting tonight (2/16) at 6 pm at Mount Carmel Baptist Church, 1619 W. Pierson Road at to talk to residents. The session will include education on the effects of lead on the body and there will be an opportunity for residents to ask questions.

  Full news story at:
  http://www.mlive.com/news/flint/index.ssf/2016/02/us_surgeon_general_talks_flint.html#incart_river_index
- **There is an informational meeting on one of the class action lawsuits** tonight, Tuesday, February 16, from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.

CALL VOLUME:

Central Michigan 2-1-1 was able to handle entire volume of Flint calls today with support from management and supervisory staff during the few peaks of high call volume.

SPECIAL NEEDS/REQUESTS

☐ **A private donor organized the distribution of 200 FlowTec shower filters** at Berston Field House. Demand was extremely high and all filters were taken within 15 minutes. The distribution spurred a large number of calls to 2-1-1 and affirmed the unmet demand for shower filters. At least one from a homebound resident asking to have a shower filter delivered. Callers are expressing tremendous frustration about not feeling safe to bathe, one caller said, ***"You can't boil enough bottled water to take a hot bath."*** As noted in past updates, Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand.

RUMOR/SCAM CONTROL

☐ **Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' HAVE deemed hazardous for human habitation. **CAN A CONTACT AT DHHS INVESTIGATE AND REPORT BACK TO MICHIGAN 2-1-1 ON THE VERACITY OF THIS RUMOR?**

☐ **The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

☑ A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community

- ☐ **From 12/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 16, 2016
Release #: 39

Michigan Soldiers are fostering positive relations with the people of Flint

Flint, Mich.—Following Governor Snyder's activation of more than seventy Michigan National Guard Soldiers to help with the Flint water crisis, soldiers were happy to help out in any way they could.

"I volunteered because I'm from Detroit and, when I saw the news, I wished there was something I could do about it. A couple of days later my sergeant sent out a mass text asking who would want to volunteer to help the people of Flint. I called and said I would be more than happy to volunteer," said Spc. Garland W. Hill V, an Infantryman with the 125th Infantry Battalion, Alpha Company, of Detroit.

Hill is one of the many soldiers who are stationed at one of the five firehouses that are acting as resource distribution centers throughout the city of Flint. The centers pass out water, water filters and water testing kits. Before coming, he said he didn't know what he would be doing or what the experience would be like.

The community members have shown Hill and the other soldiers their thanks by bringing them food on a semi regular basis, offering hugs and constantly thanking them for being there to help. Hill said a lot of people just like seeing the soldiers and bring their kids along and the kids just love seeing 'the Army guys.'

This is the first state mission Hill has ever participated in, and he is finding it to be a very positive experience.

"I feel good that I can actually help somebody here at home," said Hill. "They're my neighbors, so we've got to help each other out, because if we don't do it who else will."

Not only are the Soldiers handing out water, they are also disseminating important information to citizens. They instruct the residents on how to install water filters onto their faucets, provide instructions on how to take a water sample for testing and direct them to other resources available.

NEWS (Click the link to read the full article)

GOV's ACTIVITIES

Teletown hall
Snyder to Flint: Pick up the phone. It's your governor (Freep)
Fears over eating produce from gardens in Flint fed by suspect water. The plight of children who drank city water but now live elsewhere. A lack of information about how to survive when lead-tainted water still flows from taps. Those were the revelations that Gov. Rick Snyder said he gleaned Thursday from talking to Flint residents by phone during a virtual town hall about the city's drinking water crisis.

Food bank visit
Snyder visits Flint food bank; Grand Rapids group helping coordinate health care efforts (WZZM)
A Grand Rapids organization says it will donate a quarter of a million dollars to help coordinate health care for people affected by the Flint water crisis. This comes as Governor Rick Snyder returns to that city.

Congressional hearing
Gov. Snyder, Darnell Earley to testify before Congress on Flint water crisis (WXYZ)
Michigan Gov. Rick Snyder will testify in front of Congress about his knowledge of the Flint water crisis. This comes after Snyder requested an opportunity to testify on Friday.

Michigan Gov. Rick Snyder to testify before House Committee about Flint (MSNBC)
Michigan Governor Rick Snyder will appear before the House Oversight Committee to answer questions about his handling of the water crisis in Flint, in which the city's residents were exposed to lead poisoning.

House oversight panel calls Snyder, EPA chief to testify on Flint (AP)
A House committee chairman will summon Michigan Gov. Rick Snyder and the head of the EPA to testify about the water crisis in Flint. Snyder and Environmental Protection Agency chief Gina McCarthy have been invited to appear before the House Oversight Committee. Republican chairman Jason Chaffetz of Utah said he appreciates Snyder's willingness to appear and looks forward to McCarthy's testimony.

Michigan governor, EPA chief to testify on Flint (The Hill)
The House Oversight Committee will hear testimony from Michigan Gov. Rick Snyder (R) and EPA Administrator Gina McCarthy during an upcoming hearing on the water crisis in Flint, Mich. The hearing — which has yet to be scheduled — will likely focus on top officials' roles in precipitating and responding to the crisis in Flint, where corroded water pipes have caused increased lead levels in drinking water.

Gov. Rick Snyder will testify in front of Congress over Flint water crisis (Examiner)
In an attempt to cut costs, Flint's water supply was transferred from Lake Huron to the Flint River. Since that time, faulty pipes have led to lead in the water which has poisoned the residents of the city. Upon further review, the water supply from the Flint River was 20 times more corrosive than what was found in Lake Huron. Now with legal problems facing state and local officials, Snyder and others will be forced to explain themselves in front of Congress, as reported by The Hill on Feb. 12.

Flint water crisis: Gov. Snyder asks to testify before Congress (Mlive)
Gov. Rick Snyder says he wants to testify before Congress on the Flint water crisis. Snyder said in a news release and Twitter message today, Feb. 12, that he has asked the chairman of the U.S. House Committee on Oversight and Government Reform to testify "to explain how the local, state and federal governments combined to fail the people of Flint."

Gov. Snyder Requests Chance to Testify in Washington about Government's Role in Flint Water Crisis (MI 26 News)
In a statement on Friday Governor Snyder said he has volunteered to testify before the US Congress on how all levels of government failed the people of Flint. According to Snyder, the people of Flint have suffered due to failures at all levels of government and he hopes that what we learn from dealing with the current crisis in Flint can be used to avoid this type of crisis in the future.

Michigan governor, EPA administrator to testify on Flint (Politico)
Michigan Gov. Rick Snyder and EPA Administrator Gina McCarthy will testify on the drinking water crisis in Flint, Mich., the House Oversight and Government Reform Committee announced today.

Gov. Snyder offers to testify before Congress on Flint (Fox 2)
Governor Snyder is reversing course as he has offered to testify in front of the U.S. House Committee on Oversight and Government Reform, according to communications sent to FOX 2 from the governor's office.

Michigan governor, EPA to testify at House panel on Flint (Reuters)
Michigan Governor Rick Snyder will testify on the Flint drinking water crisis at a House of Representatives oversight panel next month, aides for the committee said on Friday.

Governor Snyder says he has asked to testify before Congress about Flint water (WDIV)
"Gov. Rick Snyder today said he asked the chairman of the U.S. House Committee on Oversight and Government Reform for the opportunity to testify to explain how the local, state and federal governments combined to fail the people of Flint and the improvements he is recommending at the federal level as well as in Michigan to ensure a water quality crisis of this nature does not happen again.

Snyder to testify before Congress on Flint crisis (Freep)
Michigan Gov. Rick Snyder will get the chance to testify before a congressional committee on the Flint water crisis, speaking at an as-yet-unscheduled hearing before the U.S. House Oversight and Government Reform Committee on what happened and the improvements he wants to recommend at the local, state and federal levels.

Gov. Snyder Asks To Testify About Flint Water Crisis (9&10 News)
Governor Rick Snyder wants to testify before a federal oversight committee about the Flint water crisis.

Snyder requests expansion of Medicaid over Flint water crisis (WWMT)
Governor Rick Snyder says he is seeking a federal waiver to expand Medicaid services for those up to the age of 21, as well as pregnant women in an attempt to get help for children, teens and young adults affected by the Flint water crisis.

Governor Snyder seeks more Medicaid coverage for Flint residents (WOOD Radio)
Gov. Rick Snyder is asking the federal government to expand Medicaid coverage to people under 21 and pregnant women who have been exposed to Flint's lead-contaminated water.

Email/document release
Flint water subject of thousands of pages newly released by Gov. Snyder (MLive)
Thousands of pages of emails, internal communications and other documents were released by Gov. Rick Snyder on Friday, Feb. 12.

Gov. Snyder releases 1000s of pages of documents on Flint water crisis (WLNS)
Governor Snyder's office today released emails and other documents from state departments regarding the ongoing Flint water crisis. The documents, all 21,403 pages worth, include material from the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development.

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis (UP Matters/TV 3)
Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

Read the state's newly released documents here (Michigan Radio)
Governor Snyder just released 21,403 pages of emails about the Flint water crisis. The emails include documents the The Detroit News already published Friday, in which the U.S. Environmental Protection Agency discussed the Genesee County Legionnaires' disease outbreak in late March 2015.

VIEW: Governor Snyder releases departmental emails related to Flint water crisis (WXYZ)
This morning, Governor Rick Snyder's office released departmental emails relating to the Flint water crisis. "By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward," Snyder said in a press release.

Budget Proposal
Michigan Gov. Rick Snyder has proposed privatizing the public mental health system by moving state funds to Medicaid HMOs (AP)
Michigan Gov. Rick Snyder has proposed privatizing the public mental health system by moving state funds to Medicaid HMOs.

Michigan would privatize mental health funding, services under Snyder's proposed budget (Crain's Detroit Business)

honor of Supreme Court Justice Antonin Scalia. Flags should be lowered Sunday, Feb. 14 through Scalia's day of interment.

Misc

Flint Crisis May Help Governor Ease GOP Doubt on Detroit Aid (AP)
Rick Snyder's standing as one of the GOP's most accomplished governors has taken a beating in the crisis over lead-contaminated water in Flint, Michigan. Democrats, especially those running for president, have pointed to his administration's mishandling of the city's switch to a cheaper water supply as an example of Republican cost-cutting run amok.

Gov. Snyder: Hillary Clinton's Claim That He 'Poisoned' Flint Residents to Save Money 'Not Accurate' (CNS News)
Michigan Gov. Rick Snyder said Thursday that Democratic presidential candidate Hillary Clinton's claim that he "poisoned" the people of Flint, Mich., to save money is "not accurate," urging that the focus should be on solving the issue, not on politics.

FLINT

Firm blames DEQ and Flint for lack of corrosion control (Freep)
The Houston engineering firm that was hired to get the Flint water treatment plant ready to treat water from the Flint River so residents could drink it denies responsibility for the disastrous decision not to use corrosion control chemicals in the treatment process.

Flint mayor: Police, fire chiefs out in restructuring (Freep)
Flint's police and fire chief are out – resigned or fired, depending on whom you ask.

Michigan officials knew of Legionnaires' outbreak long before warning (Reuters)
State government officials knew about an outbreak of Legionnaires' disease and its suspected link to contaminated water in impoverished Flint, Michigan, at least 10 months before a public announcement was made, documents released on Friday showed.

State's top doc worked part-time as Flint crisis erupted (Freep)
As Flint water problems slowly emerged as a public health calamity over the spring, summer and fall of last year, the top medical officer at the Michigan Department of Health and Human Services was continuing her course load as an associate professor and medical residency program director at the University of Michigan, working for the health department only part-time, both the university and health department have confirmed.

Regulators dismissed dissenters on Flint crisis (Detroit News)
Michigan regulators who failed to ensure proper corrosion control chemicals were added to Flint's drinking water spent six months dismissing evidence of their error and considered ways to muzzle the federal expert who first sounded alarms about it.

Flint water tests to track change in lead levels (Freep)
State officials will regularly test water from about 400 Flint addresses over the next eight weeks to see whether efforts to decrease toxic lead levels are working. They're hoping chemicals added to the tap-water supply will create a barrier inside the pipes, blocking lead from leaching into the water.

Congressional hearing on Detroit, Flint emergency managers requested (Mlive)
Democrats on the U.S. House Judiciary Committee have called for a congressional hearing on Michigan's emergency manager law and its role in Flint's water crisis and the deterioration of Detroit Public Schools.

DEPARTMENTS

DNR
State's newest campground offers Lake Michigan views (Detroit Free Press)
A new campground with views of Lake Michigan opens this year at Wilderness State Park in Michigan's northern Lower Peninsula. The campground is scheduled to open to the public June 23 and the Michigan Department of Natural Resources says reservations are available.

Township leaders approve outdoor dining ordinance change (Daily Telegram)
An increase and expansion of eating establishments around Manitou Beach prompted Rollin Township officials to amend the municipality's outdoor dining ordinance to

Diverse trees, diverse products support Michigan's forestry Industry (Second Wave)
The basketball court displayed on your television screen, the chest of drawers in the corner of your room and the glossy magazine on your lap could have something in common — they may all be made in Michigan, from wood coming out of Michigan forests.

MDE
Michigan gets 'F' for tracking teachers (Lansing State Journal)
A name, a list of approved teaching subjects and verification of a teacher's license. That's all the information available on the Michigan Department of Education's credential verification website for parents who want to know the background of their child's teacher.

MDOT
I-94 pileup injures 4, dumps 2,500 gallons of motor oil (MLive)
A pileup on eastbound I-94 that involved 14 vehicles in Southwest Michigan injured four people and caused thousands of gallons of motor oil to spill.

MDHHS
Baby-boomer homebodies blamed for county's nursing home losing money (MLive)
Officials are blaming baby boomers who are living at home longer for difficulties filling a nursing home facility owned by Muskegon County. "The trend is, baby boomers are staying in their homes," Brookhaven Medical Care Facility Interim Administrator Lesa Vandermeer said at a recent meeting with the Muskegon County Board of Commissioners.

DHHS addresses food stamp cuts across state (Record Eagle)
Michigan Department of Health and Human Services officials are encouraging food stamp recipients across the state to make sure they're receiving proper benefit amounts by filing for a Home Heating Credit.

MPSC

12th state bill to modify fireworks use is introduced (Detroit Free Press)
Perhaps the 12th time will be the charm for a change in the state's policy on when and where people can shoot off fireworks. State Rep. John Chirkun, D-Roseville, introduced a bill — the 12th to be introduced in the past year — that would allow local governments to modify when people can use the bigger, stronger fireworks that were made legal in Michigan in 2011.

OPINION

Flint just one example of need to upgrade water supply (Detroit Free Press)
Flint is experiencing a disaster — and there isn't anything "natural" about the circumstances that have left the city's drinking water poisoned with lead.

Lead not only stressor kids in poor social situations face (Detroit Free Press)
There is, as there should be, an intense spotlight on the children of Flint, who are at risk of lead poisoning because of poor decisions made concerning the city's water supply. Now, the hard work of minimizing the impact of this exposure is under way. But it is the hope of pediatricians and others who work with young children that the catastrophe in Flint will now shine a bright light on the needs of all children, especially those who have to grow up in poverty and face many of the same stressors that Flint's children face, even before this man-made disaster.

Snyder's resignation would be no victory (Detroit Free Press)
With no end to Flint's water emergency in sight, a lot of Michiganders — most genuinely furious, some sensing political opportunity — are demanding Gov. Rick Snyder's recall or resignation for his role in the crisis.

Flint's problems didn't start with water (Detroit Free Press)
A third of the property in the city of Flint is vacant.

Editorial: Judge Rhodes adds heft to DPS debate (Detroit News)
Lawmakers still aren't showing much enthusiasm for the bills that would send millions of dollars to Detroit Public Schools and create a more stable foundation for the district's future. To get legislative support, Gov. Rick Snyder plans to tap retired U.S. bankruptcy judge Steven Rhodes to serve as interim emergency manager for Detroit schools.

Misuse of emergency management in Flint is a costly lesson (Detroit News)
In the Netflix drama "House of Cards," fictional President Frank Underwood re-directs $3 billion in funds from the Federal Emergency Management Agency to pay for a jobs program in Washington. He simply declares that unemployment is a "disaster" and snatches the cash set aside for actual emergencies.

Improving access to cancer drugs (Detroit News)
When it comes to fighting cancer, Michigan patients need to access a wide array of treatment options. Unfortunately, many therapies are currently unavailable to dangerously ill individuals across our state.

Editorial: Expand FOIA for full transparency (Detroit News)
The water crisis in Flint underscores again the need for more transparent and accountable government in Michigan, which starts with changing the state's Freedom of Information Act (FOIA) laws, among other improvements.

Attachments:	2015-10-01 City of Flint Water Contamination-Shortage SitRep 41 2016-02-....pdf; Flint Water Response Weekly Events 2-15-16.pdf; 20160215_Residents_Sampled_Results-Copper.pdf; 20160215_Residents_Sampled_Results-Lead.pdf

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM
- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.

- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, they now know they will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.

- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.

- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.

    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
  - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.

- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .

- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

- Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints

- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. *Sit Rep #30.*

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- *GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health* data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.

- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: 2-1-1 Update Flint Water Response for Monday, February 15, 2016
Attachments: 2016-02-15 MI211 Flint Water Daily Update.docx; Flint Water Website Info 2016-02-15.pdf

This is the daily 2-1-1 summary on the Flint Water Response for Monday, February 15, 2016

NOTE: Attached to today's summary is a copy of the PDF reference document 2-1-1 partners use for Flint Water calls. This document is updated daily, sometimes several times a day. 2-1-1 agents access this through a shared DropBox file that ensures all 2-1-1 staff have immediate access to the most current information.

GENERAL INFORMATION:

- **There will be an informational meeting one of the class action lawsuits** on Tuesday, February 16, 2016 from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.
- **United Way Worldwide announces details of Beyoncé's Formation World Tour benefitting Flint** with proceeds to support United Way of Genesee County's work to help the people of Flint dealing with the Flint Water Crisis. Fans will have an opportunity to donate to the Flint Water Fund after purchasing their tickets. Every $10 donated is an entry for an upgrade to the best house seats at each concert. US Tour tickets go on sale February 22nd.

CALL VOLUME:

Central Michigan 2-1- 1was closed today for the Presidents' Day holiday. SW Michigan 2-1-1 partner, which regularly handles after hours and weekend calls for Central Michigan, reported a few waves of calls that pushed wait times to approximately 10 minutes for short periods.

Call summary for the week of February 8-14

- 777 callers used the Flint Water prompt to reach a 2-1-1 agent.
- 1009 referrals were provided (1.3/caller) and there were 30 unmet needs recorded.
  - The majority of calls came from zip codes 48504 and 48505
  - The most common requests were for Drinking (Bottled) Water, Water Filters, and Tap Water Testing.
  - 17 calls were to donate or volunteer.

SPECIAL NEEDS/REQUESTS

- **American Sign Language interpretation may be available for Flint-area events** through a professor at Mott Community College. Email Tom Page at Michigan 2-1-1 for contact information: tpage@uwmich.org.

☐ **Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

RUMOR/SCAM CONTROL

- A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead

testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.

☐ Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.

Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

Subject: Monday, Feb. 15 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | MONDAY, FEBRUARY 15, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Help keep your kids safe

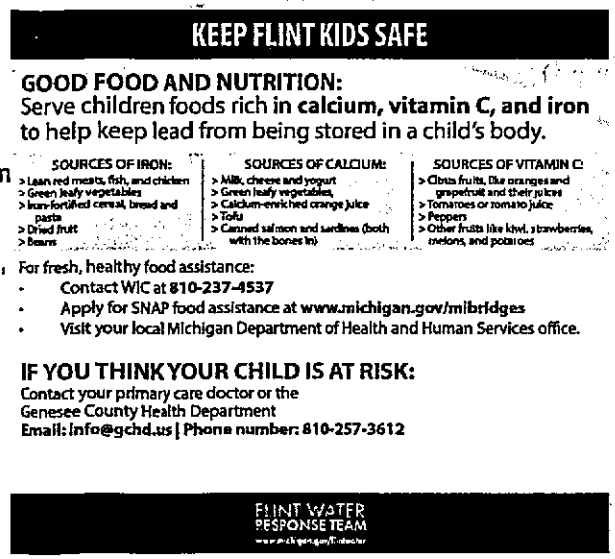
The foods we prepare and serve to our families can help limit the effects of our kids' exposure to lead.

You should serve children foods that are rich in calcium, vitamin C, and iron to help keep lead from being stored in a child's body.

For food assistance for low-income Flint residents, contact WIC at 810-237-4537. You can apply for SNAP food assistance at www.michigan.gov/mibridges.

If you think your child is at risk for lead exposure, please contact your primary care doctor or the Genesee County Health Department by dialing 810-257-3612.

Click here for more helpful tips.



Gov. Rick Snyder seeks federal waiver to expand Medicaid services in Flint to people under age 21 and pregnant woman

If this request is approved, it would mean an expansion of Medicaid and Children's Health Insurance Program services to about 15,000 more Flint residents.

Those eligible for coverage include anyone up to the age of 21 and pregnant women and their future children.

Additional information about water response efforts is available at www.michigan.gov/flintwater, by

calling United Way's 2-1-1 or visiting www.helpforflint.com.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 321,117 cases of bottled water
- 105,604 water filters
- 214,300 replacement cartridges
- 35,570 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

I received a call from a citizen who wants to learn more about copper levels detected in his water. The older gentleman asked what a "340" reading in his bathroom and a "420" reading in his kitchen means.

Who is handling these types of questions? I've attached the MI CIMS inquiry entry.

The Flint resident has been going round robin. He even called 2-1-1 and they didn't know who he should call.

Thanks,

Ron

Hi Ron,

I believe that residents with questions about their water testing results are supposed to call the City of Flint, but I'm copying in Mel for confirmation.

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.

- Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.

- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).

- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.

- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9

- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport

2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units

    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
    - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.

- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
    - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: Cloudy Water

Hi Shanon,
I noticed the following article talks about "cloudy" water.

http://www.freep.com/story/news/columnists/john-carlisle/2016/02/13/flint-family-poisoned-by-poverty-and-toxic-water/79423502/

The water in the Flint JIC kitchenette is like that too. It may be the phosphates being added to the water to coat the pipes.

http://www.wilx.com/home/headlines/Flint-to-Add-Phosphates-to-Water-to-Help-with--361508341.html

Thanks,

Ron

FOR IMMEDIATE RELEASE
Sunday, Feb. 14, 2016

Editor's note: See attached for official letter and waiver request.

Gov. Rick Snyder seeks federal waiver to expand Medicaid services in Flint to people under age 21, pregnant women

Request would ensure access to needed health services

LANSING, Mich. – Gov. Rick Snyder is seeking to expand Medicaid for those up to age 21 and pregnant women who have been served by the city of Flint's water system, and today submitted a request to the Centers for Medicare and Medicaid Services.

"Children, teens and young adults exposed to lead need more coverage to get testing and the treatment they need," Gov. Rick Snyder said. "Expanding these services and lead abatement efforts will mitigate the risks of lead exposure and result in better identifying any long-term health challenges, including behavioral issues."

Approval of the waiver request would mean an expansion of Medicaid and Children's

Health Insurance Program services to about 15,000 more Flint residents.

In his letter, Gov. Snyder said the state of Michigan would dedicate case managers to help individuals with:

- Coordinating primary care physicians and behavioral health providers, Medicaid health plans and others to ensure access to all necessary health services;
- Providing nutrition support;
- Improving access to educational and social supports and services that may be available in the community to assist them with their individual needs.

The program would meet the needs of Flint's children, in addition to many other forms of aid being provided by the state of Michigan, the city of Flint and others. Medicaid and CHIP now are primarily income-based aid programs.

Those eligible for coverage include anyone up to the age of 21 and are being served, or who were served, by Flint's water system between April 2014 and a future date when the water system is deemed safe. Pregnant women and their future children will also be made eligible. Coverage is available to all incomes. Individuals with income over 400 percent of the federal poverty level - which is $47,520 for one person or $97,200 for a family of four - will have the option to buy into the program for full Medicaid benefits.

The state of Michigan continues to coordinate response efforts in partnership with the all federal, state, and local levels of government and community organizations.

Additional information about water response efforts is available at www.michigan.gov/flintwater, by calling United Way's 2-1-1 or visiting www.helpforflint.com.

Subject: Sunday, Feb. 14 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | SUNDAY, FEBRUARY 14, 2016

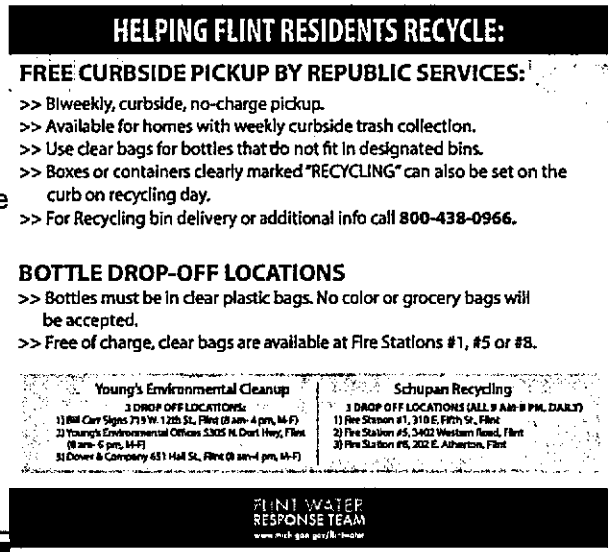
This daily update is being issued in order to provide the latest information regarding actions and available resources.

How to recycle your bottled water

Republic Services, the city's designated trash and recycle collector, picks up recyclables on a bi-weekly basis.

Call Republic Services at **800-438-0966** to get a blue curbside recycling bin delivered to your door. Residents with overflow recyclables can also place them in clear plastic bags or a box marked "Recycling.

Click here for more information about recycling in Flint, and please share this graphic on your social media accounts.



Consumer alert for Flint residents

TIPS FOR FLINT RESIDENTS

Unfortunately, scam artists see tragedies like the Flint water crisis as opportunities to take advantage of those in need. These scammers also look to exploit the sympathy of donors to steal donations or fraudulently to obtain consumers' sensitive financial information.

To avoid falling victim to con artists, click here to read a helpful list of tips.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3

Subject: Week in Review: 2015 Academic State Champs

Weekend Commentary

Bridge kicks off a series of commentary about commentary -- internet comments, to be precise. A Bridge Advisory Board member kicks things off with a call for more polite, less abusive, comments online. Disagree? Chime in. And a resident of Ypsilanti's historic district says a new package of bills in Lansing would gut existing historic districts, which have worked well and make Michigan cities unique. So why?

Internet comments are where too many bullies come to play. Isn't there a better way?

Historic districts give Michigan cities character, so no need to change law

Attachments:	GovernorReport 2016-02-13.pdf; 2015-10-01 City of Flint Water Contamination-Shortage SitRep 39 2016-02-....pdf

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.

2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.

- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.

- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street).
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.

- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.

- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.

- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD
4 personnel
- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field
3 teams with 3 personnel,
- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field
5 personnel
One MDEQ rep (Taylor) with EPA high lead team.
- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field
- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field
1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)
- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: Saturday, Feb. 13 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | SATURDAY, FEBRUARY 13, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Lt. Governor Calley: It's important for Flint residents to test their water

It is critically important that we have every single home in Flint tested. Each home is unique– each home has a unique service line, unique plumbing, and unique fixtures. We need the water testing information to ensure the family has safe drinking water.

To date, 8,952 homes have been tested.

82% of homes under 5 ppb

93% of homes under 15 ppb.

7% of homes over 15 ppb

You can pick up a water testing kit from one of the Flint fire stations, and then you can return your test to a Flint fire station. If you need assistance, please visit www.mi.gov/FlintWater or call United Way 2-1-1.

HOW TO TEST YOUR WATER:

1) Pick up a free water testing kit at Fire Stations #1, #3, #5, #6, #8
2) Use unfiltered water when testing
3) Follow testing kit instructions – tutorial video available at **www.mi.gov/FlintWater**
4) Return water sample to Fire Stations
5) Results are posted at **www.mi.gov/FlintWater** under "Testing Results" tab.

IF YOUR WATER TESTS SHOW RESULTS:

UNDER 15 PPB	OVER 15 PPB	OVER 150 PPB
You should **continue to use a filter** until the emergency declaration is lifted.	The **MDEQ will test your water** and check for the lead source The MDHHS will help you to minimize lead exposure.	**Drink bottled water.** Filters are certified for lead reduction up to only 150 ppb.

ALL RESIDENTS SHOULD CONTINUE USING FILTERS UNTIL THE WATER IS DEEMED SAFE TO DRINK.
***Pregnant and nursing women and young children** should drink only bottled water.*

FLINT WATER RESPONSE TEAM

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters

- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Subject: Parking Reminder

Good Morning,

Please remind staff parking in the Flint State parking ramp that parking is limited to the spaces marked "Flint Water". If they cannot find a marked space, they are to continue to the roof to park. Under no circumstances are they to take spaces below the roof that are not marked. We have paying customers that are being displaced and are getting frustrated. I have also reminded the Federal partners.

Thanks for your cooperation!

Subject:	SEOC Update 2/12/16 - Flint Water - Limited Distribution
Attachments:	2015-10-01 City of Flint Water Contamination-Shortage SitRep 38 2016-02-....pdf; 20160212_Residents_Sampled_Results-Copper.pdf; 20160212 _Residents_Sampled_Results-Lead.pdf; GovernorReport 2016-02-12.pdf

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.

- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.

- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street).
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.

- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.

- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- *Develop facts sheets based on high lead homes and other facts sheets, as needed.*
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.

- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.

- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

- Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.

- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: Friday, Feb. 12 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | FRIDAY, FEBRUARY 12, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Flint lifts boil water advisory

With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory today.

Affected residents no longer need to boil their filtered water because testing did not reveal any bacteria during or after the repair of the water main break.

Previously installed water filters are still safe to use since no bacteria was found, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents should still use filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and children under 6 years of age should continue to drink only bottled water.

Remember to flush your taps and clean your faucet's aerator

Residents and businesses should flush their water for between two to five minutes through all taps every day. This should be done first thing in the morning after the water system has been stagnant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet every week.

Governor Snyder answers questions from Flint residents

Governor Snyder answered Flint residents' questions about the water emergency during a tele-town hall yesterday afternoon. If you have a question, please visit www.mi.gov/FlintWater or call the Governor's office at 517-335-7858. **Click here to listen to the full telephone conversation.**

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd

Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Subject: 2-1-1 Update Flint Water Response for Friday, February 12, 2016
Attachments: 2016-02-12 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Friday, February 12, 2016

GENERAL INFORMATION:

- As a follow up reminder to yesterday's post about anecdotal reports concerning 2-1-1 response times and follow up with Flint residents, Michigan 2-1-1 takes caller concerns and any problems with the service very seriously. ***If you hear any complaints or concerns about 2-1-1, please ask the caller to provide the number used and the date of the call to tpage@uwmich.org, so we can research the incident and address any issues.***

- **WATER BOIL ALERT LIFTED**
  Per City of Flint and the SEOC the water main break is repaired and two tests for bacteria show safe results. Testing indicated no bacteria in the water during or after the repair of the water main break. The boil water advisory was a precaution because the loss of pressure in the water distribution system can make the system vulnerable to bacterial contamination.

  What to do after the water boil alert:
  - Residents do not need to boil their ***filtered*** water
  - Previously installed water filters are still safe to use, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed.
  - Residents are reminded to clean the aerator on every household faucet every week to remove any trapped lead particles
  - Residents should continue using filtered water for drinking, food preparation, brushing teeth and pets.
  - Unfiltered water may be used for bathing and cleaning, but not for washing fruit or vegetables.
  - Pregnant woman and children under 6 years of age should continue to drink only bottled water.

  Extra steps
  The U.S. Environmental Protection Agency and Michigan Department of Environmental Quality both encourage residents and businesses to ***flush their water for between two to five minutes through all taps every day.*** This will assist with flushing their individual pipes as well as rescaling the water system as a whole. This should be done first thing in the morning after the water system has been stagnant for several hours.

  To prolong the life of their filter, this ***daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.***

CALL VOLUME:
There was a noticeable increase in call volume, primarily related to the boil water alert. Call volume today was manageable with the additional capacity Michigan 2-1-1 partners put in place.

SPECIAL NEEDS/REQUESTS

General Observations on communications, outreach and awareness for Flint residents

This is personal commentary by Michigan 2-1-1 Director Tom Page.

Over the past month Michigan 2-1-1 partners have handled thousands of calls from Flint residents seeking up-to-date and trustworthy information. Different responders at the national, state and local levels have been generally helpful and responsive to requests by 2-1-1 for information and we are ready to respond to callers 24/7, but this needs to be aligned with the activities of other partners to reach the broadest possible audience with accurate and current information. When government and community agencies are engaging in outreach and awareness activities, please consider the following:

- Special needs populations:
  - Seniors need materials with larger print and high contrast. Flyers and brochures with small dark blue print on a light blue background are very difficult for many seniors to read. We've had complaints.
  - Visually impaired and blind residents need materials in braille and/or orally.
  - Deaf and hard of hearing residents need access to print materials and interactive services like chat, email, TDD/TTY, and American Sign Language video chat services to have their questions answered appropriately and confidentially.

- Many do not have smart phones or regular internet access. What does this mean:
  - Limited or no access to watch online videos like YouTube – for example "watch a video on how to install your water filter", isn't possible for many residents.
  - Limited or no access to information through web links. It's ok to use hyperlinks to direct people to additional information, but make certain that information is available through other means, like snail mail or hard copies at public locations like libraries, schools and community agencies.
- Traditional broadcast media like TV and radio need to regularly repeat essential information like this week's water boil alert to ensure the message is received.
- Text can actually be a pretty effective way to reach residents with the free Lifeline phones (aka Obamaphones), several of which offer free unlimited text messaging to residents with incomes below certain federal guidelines – but residents need to know how to sign up for text alerts and trust the source of texts to provide accurate information and to limit the number of texts sent.

☐ 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☑ **Water Boil alert information has been the #1 concern of 2-1-1 callers for the past 48 hours.** With the lifting of the boil alert, 2-1-1 is providing the information noted above in the General Information section.

☑ **Reports of possible caller confusion related to 2-1-1 phone prompts.**
RESOLUTION: 2-1-1 has tested and implemented revised language for the phone prompts relating to the Flint Water response.

- **Callers are contacting 2-1-1 to report their water test results.** 2-1-1 is letting callers know that this not necessary.

RUMOR/SCAM CONTROL

- No new rumors to reports
  - 2-1-1 continues to receive calls reporting a variety of rumors -- agents are providing the most accurate and up-to-date information available to answer questions and reassure callers.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home

improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

- **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.
- **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.

Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

Flint Joint Information Center Daily Update

February 12, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 12. The JIC was operational until 9:30 p.m. on Feb. 11.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Treasury. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered more than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the status of the water pipes in Flint.
- MDHHS Chief Medical Executive Dr. Eden Wells joined Senator Stabenow, Mayor Weaver, Dr. Hanna-Attisha to join the Children's Health Fund to deliver a mobile medical clinic that will provide medical care to children in Flint.
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs staffed the Flint Water Interagency Coordinating Committee for media. Two media outlets attempted to attend the meeting, but were advised about the live streaming service available at www.michigan.gov/snyderlive. The news media was unhappy about not being able to attend in person.
- Issued a news release about a National Guard soldier saving a Flint resident's life. National Guard Spec. Charles Colwell was made available for media interviews at Flint Fire Station No. 1. Interviews were conducted with WEYI-TV 25, WNEM-TV5 and WJRT-TV 12.
- Continued routing public information materials for approval, including fact sheets on breast feeding and lead poisoning, lead and children fact sheet by the Michigan Alliance for Families, Frequently Asked Questions fact sheet, and supporting children and families fact sheet.

- Drafted a news release about the boil water advisory being lifted. The JIC released the news release at 5 p.m. upon approvals and notification from partners.
- Held a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint. More 10 news media outlets attended, including local and regional members.
- Completed staffing for the next two weeks.

Planned Activities

Saturday, Feb. 13

- No planned products or events.

Sunday, Feb. 14

- No planned products or events.

Monday, Feb. 15

- News Release – Youth challenge academy (tentative)
- Surgeon General scheduled to visit Flint from Feb. 15-16

Tuesday, Feb. 16

- Congressional and Legislative conference call at 2:30 p.m.
- News Release – National Guard building relationships in the community
- Surgeon General scheduled to visit Flint from Feb. 15-16

Wednesday, Feb. 17

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

Thursday, Feb. 18

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- HHS Secretary scheduled to visit Flint on February 18

Friday, Feb. 19

- News Release – Genesee County and Baker College partnering to test blood-levels in pets
- Rev. Jesse Jackson is participating in a march in Flint on February 19

Saturday, Feb. 20

- No planned products or events.

Saturday, Feb. 21

- No planned products or events.

Monday, Feb. 22

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available

- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

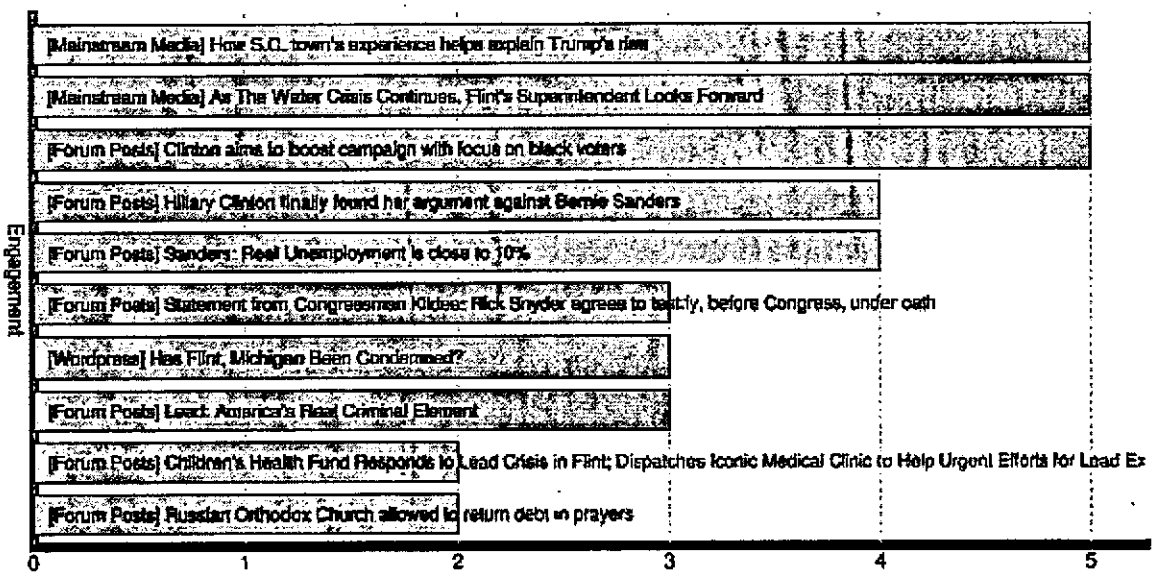
Daily Social Summary: Top Stories Flint Water from Radian6

This is an automatically generated daily report utilizing Radian6 showing two items: (1) Top 10 trending social and online news stories for the day and (2) social media content and news stories manually flagged by the JIC social media admin.

Contact Chad Wiebesick, Director of Social Median and Interactive Marketing at MEDC, wiebesickc@michigan.org if there are any questions.

Daily Top 10 Trending Stories

This is a collection of the Top 10 stories published online and/or shared on social media. The Radian6 tool monitors both the social web (Facebook, Twitter, blogs, forums, etc.) and also online mainstream news outlets (e.g. NewYorkTimes.com, WSJ.com, MLive.com etc).



Flagged Social Content and News Stories

This is a collection of social content, online trending stories, online videos and other items across the social web flagged by the JIC social media manager. These items were flagged because they were deemed significant or were noteworthy in some fashion. Keep in mind there are more than 1,000 tweets per hour around the Flint water emergency.

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 37

Boil Water Advisory Lifted by City of Flint

No Bacteria Identified

FLINT, Mich. – With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory today.

Affected residents no longer need to boil their filtered water because testing did not reveal any bacteria during or after the repair of the water main break. The boil water advisory was issued as a precautionary measure because the loss of pressure in the water distribution system can make the system vulnerable to bacterial contamination.

Previously installed water filters are still safe to use given the absence of bacteria, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents are reminded to continue use of filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and children under 6 years of age should continue to drink only bottled water.

The U.S. Environmental Protection Agency and Michigan Department of Environmental Quality both encourage residents and businesses to flush their water for between two to five minutes through all taps every day. This will assist with flushing their individual pipes as well as rescaling the water system as a whole. This should be done first thing in the morning after the water system has been stagnant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet every week.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Road.

Fire Station #6
716 West Pierson Road.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Road.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

Subject: Social media analysis: Flint Water Recycling Program

Nate – per your request, and as best as possible within the scope of the Radian6 capabilities, we attempted to answer the question, "What is the public opinion of Flint's recycling program?" I'm happy to be a future resource if needed.

Below is a report showing volume and sentiment over the last 30-days, monitoring 150 million news websites, blogs, discussion forums, social networks and online postings. The data can be used directionally, given the limitations of the tool.

- *The big uptick on January 28th is when the Flint Recycling Program was announced via a press conference and press release.*
- The public sentiment with the Flint Recycling Program is 27% positive (73% negative). To put that number in context, the sentiment for the Flint water emergency as a whole is 85% negative.
- Some of the popular topics around the Recycling Program include reference to Matt Flechter (Recycling and Composting Coordinator at MDEQ), the recycling hotline phone number, and mention of Young's Environmental Cleanup, Inc (who is assisting the recycling program).
- Below is a sample of verbatims from social media postings, from people that had both positive AND negative things to say about the Recycling Program:

1-800-LAW-FIRM

Subject: PIO updates: CHANGE of DAY for SmartMessage chat; FEMA PIO training; Flint JIC and BETP Guardian !

Importance: High

Good afternoon;
Here are several updates that I thought you would appreciate having:

1) **Starting in MARCH** -- We are changing our **SMART Message** Chat (15 min. for check-in/updates) to the **1st FRIDAY of the month at 9:00 a.m.** It appears that Wednesday mornings are pretty tough for many of you to participate so I am hoping that Friday's will improve the rate of participation. I know several of you have had changes in staff and are need to re-download the software (this is a LICENSED software that R2S has purchased) so my hope is that we'll get a much better participation next month. IF ANYONE NEEDS HELP with their log-ins or downloading etc. PLEASE LET ME or JAY TIMKO (copied) know before March 1st so Jay and I can help you get any issues worked out ahead of our chat.

2) There are some opportunities for TRAININGS that I want to make sure you are aware of:

a. **PIO Training – FEMA's Center for Domestic Preparedness** will host the Advanced PIO course again **April 24th-30th**. THIS IS AN EXCELLENT training - and the cost is typically covered by FEMA. You can get application instructions here https://cdp.dhs.gov/training/program/#uu

3) Below is the State's update on their JIC information on the Flint Water Crisis AND 4) Attached is today's GUARDIAN from BETP.

State Update – Flint Water Emergency

- **Public Info Page:** www.michigan.gov/flintwater
- **JIC Number:** 888-EMD-TODAY (888-363-8632)
- **JIC Email:** JICNews@michigan.gov
- **WEB EOC Incident Name:** 2015-10-1 City of Flint Water Contamination/Shortage

The Michigan Update

Norovirus: A New Circulating Strain

Jennifer Beggs and Tiffany Henderson, Bureau of Disease Control, Prevention, and Epidemiology

You have probably heard it around the office, "it's that time of year!" Noroviruses are a group of viruses that cause gastroenteritis and although transmitted year-round, norovirus activity is more common during the winter months. Norovirus is sometimes incorrectly referred to as the "stomach flu", but it is not related to the flu (influenza), which is a respiratory virus. Norovirus illness usually begins 12–48 hours after exposure and lasts 1-3 days. Symptoms can include nausea, vomiting, diarrhea, and abdominal cramps. A low-grade fever, chills, headache, muscle aches, and fatigue may also be present. Noroviruses spread easily from person-to-person and is the leading cause of gastroenteritis and foodborne illness in the United States. Read More>>

Multi-Agency Mass Casualty Full-scale Exercise Conducted in Region 2 North (R2N)

Rick Drummer, Region 2 North Regional Healthcare Coalition Coordinator

In October 2015 Region 2 North (R2N) healthcare coalition conducted a multi-agency mass casualty full-scale exercise at the General Motors (GM) Technical Center in Warren, MI. After reviewing multiple locations, this facility was selected at test the response to a large complex with many buildings and roads. The scenario was realistic to the site location, which allowed GM to exercise their agency's response to an incident prior to the arrival of outside support. Months of planning were needed to develop the exercise scenario and logistics to test the ability of pre-hospital and hospital agencies to respond to an explosion with multiple burn victims. This collaborative effort was made possible through the efforts of many community partners including: The Macomb County Medical Control Authority and the Mass Casualty Incident (MCI) planning team, the City of Warren Police, Fire, and Public Television, GM, the Macomb County Emergency Management and Public Health Departments, and the R2N Regional Medical Coordination Center, and R2N hospitals and pre-hospital partners.

Governor Asks To Testify Before Congress On Flint Water

Governor Rick Snyder today requested to testify before the U. S. House Oversight and Government Reform Committee on the Flint water crisis.

Up to now Democrats have been calling for Mr. Snyder to appear before Congress, but so far the committee has not called him.

Mr. Snyder said he has asked the committee chair, U.S. Rep. Jason Chaffetz (R-Utah), if he could testify before the committee, which has met once on the issue.

"The people of Flint have suffered because they were failed by all levels of government, and so it is understandable that there are questions at all levels of government," Mr. Snyder said in a statement. "In Michigan we are learning a great deal from this crisis and I am hopeful the federal government also will use this as an opportunity to examine health and safety protections in place, assess infrastructure needs, and avoid this type of crisis in the future."

A spokesperson for the committee could not immediately be reached.

The committee already was planning a second hearing for later this month to hear from former Flint Emergency Manager Darnell Earley, who did not attend the first hearing despite the committee asking that he appear.

Gongwer News Service will have more on this story in Friday's Michigan Report.

Gov. Rick Snyder requests opportunity to testify before federal oversight committee

Gov. Rick Snyder today said he asked the chairman of the U.S. House Committee on Oversight and Government Reform for the opportunity to testify to explain how the local, state and federal governments combined to fail the people of Flint and the improvements he is recommending at the federal level as well as in Michigan to ensure a water quality crisis of this nature does not happen again.

The governor called Congressman Jason Chaffetz (R-UT) on Thursday and offered to travel to Washington, D.C. for a future hearing to explain mistakes made by water quality experts that led to the current crisis and detail the emergency response in place to help residents recover.

"The people of Flint have suffered because they were failed by all levels of government, and so it is understandable that there are questions at all levels of government," Snyder said. "In Michigan we are learning a great deal from this crisis and I am hopeful the federal government also will use this as an opportunity to examine health and safety protections in place, assess infrastructure needs, and avoid this type of crisis in the future."

Snyder was not invited to the first Flint water hearing held Feb. 3 by the U.S. House Committee on Oversight and Government Reform. Keith Creagh, interim director of the Department of Environmental Quality, represented the state at the hearing of the full committee.

Snyder last fall appointed an independent task force to identify where specific failures occurred within state government. Their report is expected in the coming weeks. The state Office of the Auditor General also examined events leading to the water crisis, and released a report that can

be found here.

All –

I spoke with the Director and she has ok'd me requesting a Flint water media monitoring report. It's a daily pull and you can also get one of these monthly or bi-weekly, however you choose.

I'm happy to discuss further on how we can assist.

Jen

To: Hinkley, Lori (MSP)
Subject: RE: URGENT - Records Request

Lori,

I searched "Flint" and "water" separately in my email. I have 3,577 records as of 3:30 this afternoon. The search was for everything in my Outlook, so I'm not sure what start date we are looking for. There may be some duplicates, as some documents may have both words in them and the individual searches would produce the same email twice. Further, some are email chains, with 8+ emails for one email chain, and there are Gongwer and Public Affairs news headlines in this batch as well. Also, some have the words, but are not related to the water matter. Finally, some are related to the cyber-attacks, protests, and threats to the governor related to the water matter. Should these be included as well?

I can print them off, but we're talking about reams of paper. Would you rather have them digitally via thumb drive? I'm working in the JIC in Flint.

Thanks!

Matt

Subject: URGENT - Records Request
Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms.

Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Subject: FAQ - Document Request
Attachments: Mission Flint Questions.docx

Importance: High

Hi Bob and Jen,

I've heard from employees in the Flint state office building during the visit on Monday, as well as from Gretchen Michaels today, that it would be great if we had a running FAQ document that answers questions that residents have. It could be continually updated as new questions come in. I think that the Mission Flint FAQs we just answered are a great starting place. Could we take those and have one of the support people in the JIC get started on turning that into a document that we can post to the website and share with employees who interface with the public?

Once we have a draft together, we can go through an add more questions to it that we have answers to and perhaps update it 2-3 times per week with rumors?

Thank you,

Angela Minicuci

Hi Team,

Looping back around so you all had the final document of the questions you helped with. Thanks again for all your help as I know this was a tight time frame.

Laura

Infographic Information

1. Water Testing – step by step instructions for residents on what to do if your results are under 5, under 15, and over 15.
    a. Residents should continue to use water filters and bottled water unless contacted by a residential response team.

       The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner.

http://www.michigan.gov/flintwater/0,6092,7-345--376626--,00.html

Pregnant and nursing women and young children should drink only bottled water until you can be assured your lead level is below 150 ppb.
http://www.michigan.gov/flintwater/0,6092,7-345-75251_75315---,00.html

2. Recycling – There is a lot of confusion regarding who can sign up for recycling and where.
   a. Residents with weekly curbside trash collection can call Republic Services at 800-438-0966 to have a curbside recycling bin delivered to their curb. Republic Services provides bi-weekly curbside recycling at no additional cost to residents.

http://www.michigan.gov/documents/flintwater/SOM_FlintRecyclingInstructions_513838_7.pdf

3. Resources for children. What should people do if they think their child is at risk? What foods are healthy?
   a. If a resident has health concerns they should reach out to their primary care doctor or the Genesee County Health Department at 810.257.3612.
   b. **Calcium** keeps your bones strong and the lead out! Calcium-rich foods include:
      - Milk and milk products, like cheese and yogurt
      - Green leafy vegetables, such as spinach, kale, and collard greens
      - Calcium-enriched orange juice
      - Tofu
      - Canned salmon and sardines (both with the bones in)

      IRON keeps too much lead from getting into your body. Foods high in iron include:
      - Lean red meats, fish (tuna and salmon) and chicken
      - Green leafy vegetables, such as spinach, kale and collard greens
      - Iron-fortified cereal, bread and pasta
      - Dried fruit
      - Beans

      Vitamin C works with iron to keep too much lead from getting into your body. Good sources of vitamin C include:
      - Citrus fruits, like oranges and grapefruit and their juices
      - Tomatoes and tomato juice
      - Peppers
      - Other fruits like kiwi, strawberries, melons, and potatoes

OPINION

Jacques: Building a better school board in Detroit (Detroit News)
For Detroit Public Schools to have a shot at survival, Detroiters are going to have to step up.

Editorial: Clean Power Plan stay a hollow win (Detroit News)
The U.S. Supreme Court earlier this week delivered a blow to the Obama administration's Clean Power Plan, the behemoth regulatory proposal to fight climate change with ambitious clean energy mandates in every state. It's a monumental decision from the High Court, and signals several justices have serious problems with making law via regulation.

What others are saying: Scrutiny of Flint, water safety (Detroit News)
The Flint water crisis continues to draw comment from pundits and publications as diverse as ESPNand the Chronicle of Higher Education. A sampling from the past week:

Brining failing charter schools to heel (Detroit Free Press)
Gov. Rick Snyder and would-be education reformers in both parties talk ad nauseum about holding *all* Michigan's schools accountable. But charter schools, which now serve 145,000 K-12 students in Michigan and vacuum up more than $1 billion in taxpayer funds, remain maddeningly insulated from public scrutiny.

U.S., Rep Elijah cummings: What does accountability mean to Snyder? (Detroit Free Press)
During Gov. Rick Snyder's State of the State address last month, he said to the people of Flint: "I let you down. You deserve better. You deserve accountability. You deserve to know the buck stops here with me."

Where Snyder's budget succeeds and where it fails (Detroit Free Press)
Money for Flint, money for Detroit Public Schools.

Working people step up to help Flint, Detroit—and Lansing can join them (MLive)
As president of the Michigan AFL-CIO, I see arguments for why our state needs organized labor every day. I see them in the statistics that show stagnating wages and a dwindling middle class. And I see them in our young people, who worry they'll never have a job that allows them to retire with dignity.

INTERVIEW OPPORUNITY: Spec. Colwell will be available for interviews at Fire Station #1 located at 210 E. 5th St. from 1-4 p.m. on Friday, Feb. 12.

National Guard Soldier Distributing Water Saves Flint Resident's Life

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 36

FLINT, Mich. –While helping to hand out water to the citizens of Flint, a National Guard soldier helped save a Flint resident's life.

"This is why I joined the military, to help people," said Spec. Charles D. Colwell, a medic with the Headquarters Company of the 125th Infantry Battalion attached to Alpha Company from Detroit, Mich. He is one of 65 soldiers helping distribute water resources after Gov. Rick Snyder activated the National Guard to help with the Flint water emergency.

Because of his actions on Feb. 1, Spec. Colwell is being recommended for the Michigan Lifesaving Medal by his immediate supervisor.

While on duty at Fire Station #1 in downtown Flint, Pfc. Zacharry R. Burrell greeted the resident who was there to return recyclables. Noticing that she was short of breath and struggling for her inhaler, Burrell ascertained the resident was clearly having a medical condition and needed immediate assistance.

"She stood there for a minute and it kind of looked like she was looking for something in her bag and then she bent down and put her hands on her knees and began coughing uncontrollably and I saw she had an inhaler in her hand," said Burrell.

Burrell brought Spec. Colwell out to the woman, who immediately started assessing her condition. She had been walking with some women to the firehouse. They told Colwell the woman had used her inhaler twice and it was nearly empty. He determined she was also suffering from severe bronchitis, so he called 911.

It wasn't until the next day the other soldiers realized how much he had done when she came back to the firehouse to thank Colwell for saving her life.

Colwell who has been a medic with the Michigan National Guard for the last two years is also a trained emergency medical technician on the civilian side in the city of Detroit.

"I do this so much every day and everyone else is kind of blowing it up," explained a humble Colwell, who doesn't understand why the other soldiers he is working with thinks he deserves the Michigan Lifesaving Medal.

"I couldn't be more proud of him," said his squad leader, Sgt. Brandon M. Lewis. "That's why I put him in for the highest award that I could possibly recommend for him for doing that."

Colwell went beyond his normal duties while in Flint and his actions made what could have been a bad situation a positive one.

"If it wasn't for him, one of us might have misjudged the situation and just thought she was sick," said Lewis. "Not only did he immediately seek her out, but he did everything he could to make her comfortable and by the time the EMTs and paramedics got here he already had an assessment to hand over to them so they were a few steps ahead."

The 125th Infantry Battalion includes soldiers from different companies from around the state who have volunteered to assist the citizens of Flint during this time. They are stationed at water resource sites at the five fire stations, handing out water, water filters and water testing kits.

Thanks Karen. I'm playing middle man here. No doubt some of these must have fallen through the cracks.

I'd love it if you could keep on top of our posting of these, and maybe each Friday send along whatever we've missed. It's obviously more difficult to track the translated documents.

And yes, if you can get them in PDF form, that apparently is crucial. Thanks!

See below – I don't know if that helps or not.

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis

LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents.

"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."

NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.

LEGAL NOTICE

- The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
- Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
- The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external

party.

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
  - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).

- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- *Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.*
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- *Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.*

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- *Multiple Hispanic events are taking place in the community and will be attended by federal staff.*
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Chris

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.

- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
    - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).

- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
    - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.

- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Subject: Thursday, Feb. 11 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | THURSDAY, FEBRUARY 11, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Actions to take when the boil water advisory is over

To ensure water is safe for use, Flint residents should take these precautions after the city of Flint lifts the boil water advisory:

1) First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.

2) Second, residents should replace the cartridge in their water filter after a boil advisory. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter replacement instructions.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m at the sites listed below.

Click here for a list of FAQs about the boil water advisory.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
- 104,861 water filters
- 211,721 replacement cartridges
- 35,998 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Flint Joint Information Center Daily Update

February 11, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 11. The JIC was operational until 10 p.m. on Feb. 10.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality and Health and Human Services. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the city of Flint's boil water advisory.
- MDHHS Chief Medical Executive Dr. Eden Wells attended a Great Lakes Health Connect press conference, announcing the donation of $250,000 to connect various health care providers in the Flint area so they can easily share information about patients affected by lead exposure. Dr. Well was interviewed by the Associated Press and gave an update about children blood-level testing in Flint. Dr. Wells also conducted an interview with Michigan Radio about the boil water advisory in Flint.
- Created a morning and afternoon media monitoring report.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended Gov. Rick Snyder's media availability at the Food Bank of Eastern Michigan. More than 10 news media members were at the event, representing local and regional outlets.
- Drafted talking points for Capt. Chris Kelenske for a 2:30 p.m. TeleTown Hall meeting hosted by the Governor's Office.
- The National Guard PIO conducted on-camera interview with a media outlet at Flint Fire Station No. 6, updating the reporter about ongoing operations and community relations.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.
- Drafted a news release about a National Guard soldier saving a Flint resident's life. The JIC plans to issue the news release this afternoon.

- Drafted a media advisory about holding a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Drafted a follow-up news release to issue after the city of Flint's water warning is lifted.
- Continued working to have staffing for Feb. 16-26 by Thursday. Staffing has become difficult.
- Drafted and issued social media posts about ongoing Flint water emergency, including daily numbers and links to Oral Heath and Adult Lead Exposure fact sheets.

Planned Activities

Friday, Feb. 12

- News Release – City of Flint lifts water boil advisory
- News Release – National Guard solider distributing water saves Flint resident's life

Saturday, Feb. 13

- No planned products or events.

Saturday, Feb. 14

- No planned products or events.

Monday, Feb. 15

- No planned products or events.

Tuesday, Feb. 16

- Congressional and Legislative conference call at 2:30 p.m.
- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)

Wednesday, Feb. 17

- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

Monday, Feb. 22

- News Release – Flint Farmer's Market: Open for business, great nutrition available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

Issued News Releases (February)

State of Michigan Joint Information Center

- JIC034 – Feb. 10 – State Launches New Streamlined Services for Residents
- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources
- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint
- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

Governor's Office

- GOV – Feb. 10 – Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water

- GOV – Feb. 10 – Snyder's budget proposal provides strong investments for one Michigan moving forward
- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

Subject: 2-1-1 Update Flint Water Response for Wednesday, February 11, 2016
Attachments: 2016-02-11 MI211 Flint Water Daily Update.docx

Follow Up Flag: Follow up
Flag Status: Flagged

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, February 11, 2016

GENERAL INFORMATION:

- **Happy 2-1-1 Day!** February 11 (2/11) is celebrated around the country as a day to remind people that 2-1-1 is here to help. Last year Michigan 2-1-1 (www.mi211.org) handled over 450,000 calls and made 679,000 referrals for help. There were more than 500,000 searches for services using our online database. Please take a moment to like us at www.facebook.com/MI211.

- **Washington University features 2-1-1 Counts Flint Data:** "Although it's only been in the last few weeks that the Flint water crisis emerged on the national scene, ***2-1-1 Counts shows that calls about water problems in Flint were coming into the 2-1-1 as early as October 2015,***" said Matt Kreuter, the Eugene S. and Constance Kahn Family Professor at the Brown School and senior scientist at the university's Health Communication Research Laboratory, which developed 2-1-1 Counts.

  Read the article: https://source.wustl.edu/2016/02/2-1-1-counts-provides-snapshot-daily-needs-vulnerable-american-families/
  See 2-1-1 Counts data: http://mi211.211counts.org/

- **The White House Budget Office was contacted about Michigan 2-1-1** with anecdotal reports of slow answer times and follow up on requests. In response Michigan 2-1-1 reviewed internal reporting and data tracking that indicates callers choosing the Flint Water prompt are connecting with an agent in under three minutes.

  Michigan 2-1-1 takes caller concerns and any problems with the service very seriously. If you hear any complaints or concerns, please ask the caller to provide the number used and the date of the call to tpage@uwmich.org, so we can research the incident and address any issues.

- **UNTIL FURTHER NOTICE: A boil water advisory is in effect following water main breaks** reported yesterday next to Dort Highway and along Dupont Road. Officials are alerting residents to potential bacterial contamination and sediment in the water system. City of Flint provides these guidelines:
  - **FILTERED** water should be boiled for at least ONE MINUTE, then cooled before drinking.
  - **UNFILTERED** water should be used only after **FLUSHING THE SYSTEM** by running the faucet for **AT LEAST 7 MINUTES** before collecting any water to boil. Boil this water at least ONE MINUTE.
  - BOILED FILTERED or BOILED FLUSHED WATER or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food.
  - Trapped air and sediment must be flushed from the water lines. DO NOT FLUSH YOUR SYSTEM – the air and sediment may affect performance of water filters and the filter should be replaced.
  - **CUSTOMERS WILL BE ADVISED WHEN THE BAN IS LIFTED.**

Bacterial testing of the water is underway with results expected late today (February 11). A decision on whether to suspend the boil water notice will be made once the results are in.
More information can be found at www.cityofflint.com/2016/02/10/update-on-water-main-breakboil-water-advisory/

CALL VOLUME:
Flint water calls are stabilizing around 170 per day. For context, this is the equivalent of 3 additional full-time phone positions.

The average answer time for callers using the Flint Water phone prompt is 2.41 minutes (2 minutes 25 seconds). The average wait time for other 2-1-1 calls is 8.4 minutes (8 minutes 24 seconds).

The call back feature is widely used and is particularly popular during periods of high call volume with extended wait times. 23% of Flint Water callers choose this option and the average time to receive a call back is 28 minutes.

SPECIAL NEEDS/REQUESTS

☐ **Flint residents seeking information on Water Boil alert:** 2-1-1 is receiving many questions about the water advisory including area of the City affected, if the advisory was still in effect, if they could wash dishes and bath in the water. Callers are being referred to map and FAQ on the City of Flint web site (provided and checked in about the status of the advisory. Several residents expressed frustration for the prolonged advisory, wondering when it would be restored (which we couldn't answer - advised them to check the news). ***Some residents recommended this news be more prominent on TV and radio to inform those without Internet access.***
City of Flint: https://www.cityofflint.com/2016/02/10/update-on-water-main-breakboil-water-advisory/

☐ **SEOC reported three homebound Flint residents called claiming problems with water resource deliveries.** They reported calling 2-1-1, but not receiving the assistance they requested. Central Michigan 2-1-1 received several calls today – requested resources are not arriving in a timely manner. and weren't getting the information they needed delivery of water supplies. SEOC suggested the phone prompt could be confusing to some callers.
Action: 2-1-1 is reviewing the language of the Flint Water prompt to ensure it is clear and easy for residents to understand.

- **Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. *Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and* dentists. One suggestion to address this was providing the school-based fluoride treatments.

RUMOR/SCAM CONTROL

- **Community partners report Flint residents concerned about 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
Action: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

- Understanding Lead/Copper Test results: There are many different, sometimes conflicting, sources of information on what lead and copper levels are safe. Central Michigan 2-1-1 staff have reviewed reports and used our data review standards to evaluate different standards and recommendations. Lacking definitive information, the following is the standard guidance 2-1-1 agents are offering Flint residents at the present time. Health experts are asked to review and validate or correct this information.

Lead Testing & Results:

- What we know is there's not a safe lead level, though the filters provided are certified to remove lead up to 100 ppb. Ensure residents have a filter. If not refer them to filter sites or help getting a filter installed. http://www.nsf.org/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf
- Currently there is follow up for households with results of 150 ppb, then 100 ppb
- Sentinel site teams are SEPARATE process that will be tracking water testing samples on an ongoing basis (attached press release).
- It seems many callers want to know "what's next" after their testing. If it's below 100ppb – please reassure them to continue using their filter for now.
- Effects of lead and lead poisoning questions can be referred to the EPA – taxonomy term: Lead Information
- Additionally, there's information on how to fight lead with nutrition that you can direct residents to at www.michigan.gov/flintwater and click on Resident, Community Information and Reports

Copper Testing & Results:

- Some level of copper is safe, and the action level for copper test results is 1,300 ppb
- The Water Department says they haven't received any problems with that.
- *Any further questions, please direct them to the Water Department for now, 810-787-6537.*

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home *improvement stores, based on a google search.* ***Are shower filter donations*** **a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

Sentinel Site Teams to Discuss Process For Testing Water at Homes Across the City
402 Flint Households to Help Determine When City's Water Safe to Drink

FOR IMMEDIATE RELEASE
February 11, 2016

DATE:
Friday, Feb.12, 2016

TIME:
9 a.m.

WHERE:
Local Emergency Operations Center
Genesee County Administration Building
1101 Beach Street
Flint, MI 48502

WHO:
Sentinel site teams comprised of Michigan Department of Environmental Quality (DEQ) employees and licensed plumbers.

WHAT:
Yesterday, 10 sentinel site teams began visiting 402 identified Flint homes across the city to teach residents how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing. This in-depth level of data collection will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

To protect individuals' privacy, demonstrations will not be given at residences.

This is an opportunity for media to get photos and video of the information teams that will cover with homeowners.

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. **Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.**

Subject: ACTION: Flint JIC Staffing - Deadline: Noon on Thursday, Feb. 11

Fellow PIOs,

Thank you for your continued support of the Joint Information Center for the Flint water emergency. As operations enter the next phase of response, we are changing our staffing needs to scale back the number of PIOs needed each day.

Beginning Feb. 16, we will are requesting **TWO** non-lead agency PIOs each weekday to provide support for the media hotline and news email account, to assist with writing tasks and to help with media monitoring.

I ask that you please see the attached schedule for available spots and respond with staffing considerations by noon on Thursday, Feb. 11.

Hotel rooms can be provided upon request, if needed. Lunch and dinner will be served.

Thank you for your commitment to the Flint JIC.

Best regards,

Ron

Budget
Snyder budget tackles urgency of Flint water and DPS (Detroit Free Press)
Michigan faces two unique challenges — the Flint public health crisis and the financial meltdown at Detroit Public Schools — that require immediate attention in the 2016-17 state budget, Gov. Rick Snyder said in a presentation to lawmakers Wednesday.

Snyder focuses $195M on Flint's health, water needs (Detroit News)
Gov. Rick Snyder on Wednesday presented his proposal for $195.4 million in new aid to help deal with Flint's contaminated water problem in his state budget plan for next year.

Highlights of the Gov. Rick Snyder's 2016-2017 budget (Detroit Free Press)
Highlights of 2016-17 budget.

Snyder aims to restore ed funding to 2011 levels (Detroit Free Press)
Gov. Rick Snyder wants lawmakers to pump an additional $61.2 million into Michigan's public universities, an increase designed to restore funding levels to 2011, the year before he took office.

Gov. Rick Snyder proposes $195M for Flint water as protestors call for his removal (Mlive)
Gov. Rick Snyder entered the House Appropriations room in the state capitol through a throng of booing protesters to present his annual budget proposal on Wednesday.

Gov. Snyder proposes budget with $360 million for infrastructure improvements in Flint, statewide (AP)
Michigan Gov. Rick Snyder on Wednesday proposed spending hundreds of millions more dollars to address Flint's water crisis and to update infrastructure, including lead water pipes, in the city and across the state.

What to know about Snyder's budget proposal (AP)
Republican Gov. Rick Snyder on Wednesday proposed a $54.9 billion budget for the fiscal year set to begin in October, not including supplemental needs he detailed for the current fiscal year. The GOP-controlled Legislature will consider the legislation in the coming months and likely approve a plan in early June.

Michigan Governor includes $195 million for Flint in new budget (AP)
Michigan Gov. Rick Snyder on Wednesday proposed spending hundreds of millions more dollars to address Flint's water crisis from lead contamination and to update pipes there and across the state — a plan that lawmakers from both parties generally welcomed as moving in the right direction with the proper priorities.

Gov. Rick Snyder asks Michigan lawmakers for more aid for Flint (NYT)
Gov. Rick Snyder of Michigan asked state lawmakers on Wednesday to approve $195 million more in aid for Flint, where tainted water has caused health problems and prompted calls to rapidly fix the city's crumbling infrastructure. But the governor's request did not include funds to replace every lead service line in the city, as Flint's mayor has insisted is necessary.

Michigan governor plans $360M for Flint water crisis, infrastructure (Chicago Tribune)
Michigan Gov. Rick Snyder on Wednesday proposed spending hundreds of millions more dollars to address Flint's water crisis from lead contamination and to update pipes there and across the state — a plan that lawmakers from both parties generally welcomed as moving in the right direction with the proper priorities.

Snyder budget tackles urgencies: Flint water and DPS (LSJ)
Michigan faces two unique challenges — the Flint public health crisis and the financial meltdown at Detroit Public Schools — that require immediate attention in the 2016-17 state budget, Gov. Rick Snyder said in a presentation to lawmakers Wednesday.

Michigan governor seeks $300 million for Flint water, Detroit schools (Reuters)
Michigan Governor Rick Snyder asked state lawmakers on Wednesday to provide more than $300 million in his current and fiscal 2017 budget proposals to deal with the lead-tainted water crisis in Flint and to keep the Detroit Public Schools (DPS) from running out of cash as early as April.

Snyder budget plan focuses on help for Flint, DPS (Michigan Radio)
Governor Rick Snyder had to push past a throng of protesters as he prepared to present his budget plan for the coming fiscal year. Much of the plan focuses on crises that emerged last year, including the Flint water crisis.

7 Action News looks into how Gov. Snyder's plan for Detroit Public Schools impacts other districts (WXYZ)
Right now school leaders around the state are looking closely at Governor Rick Snyder's budget plan. They want to know, will the plan to help Detroit Public Schools mean they lose out on funding they need for their students?

Snyder's budget would boost K-12, per pupil funding by $150M (Mlive)
Gov. Rick Snyder's fiscal year 2017 budget would pump an additional $150 million into the state's K-12 foundation allowance, an increase that would boost district funding by $60 to $120 per pupil.

Snyder budget: Money for DPS fix could be heavy lift (Freep)
Gov. Rick Snyder said he grappled with two pressing challenges — the Flint public health crisis and the financial meltdown of Detroit Public Schools — as he worked on the $54.9-billion state budget he presented to lawmakers Wednesday.

Snyder plans to boost higher ed funding to 2011 levels (Detroit News)
Gov. Rick Snyder is planning to propose an additional $61.2 million of state funding for higher education, restoring it to 2011 levels, according to an official familiar with the plan.

Snyder focuses $195M on Flint's health, water needs (Detroit News)
Gov. Rick Snyder put more specifics and dollars behind aiding Flint Wednesday when he proposed $195.4 million in new aid for the city's contaminated water crisis as part of his state budget for the upcoming fiscal year.

State Budget Proposal Unveiled by Governor Snyder (9&10 News)
Governor Snyder unveiled his proposed budget this morning in Lansing, hoping to address several big issues facing our state. The Governor devoted a large amount of time talking about his plan to financially address the Flint water crisis and the troubled Detroit Public Schools.

Governor Snyder recommends a budget increase for K-12 grades (WLNS)
Governor Rick Snyder gave his 2016 budget proposal today, including a recommendation to increase the budget for K-12 to $1.2 billion more than the budget in 2011.

Northern Michigan Schools Hopeful After Snyder Education Budget Proposal (9&10 News)
A big topic on Governor Snyder's budget was education and proposed funding increases for K-12 and higher education. 9 & 10's Blayke Roznowski and photojournalist Erin Malone spoke with local schools about the importance of those budget boosts.

Snyder's budget: Can students & universities manage? (WLNS)
Governor Rick Snyder laid-out his plan for the 2017 fiscal year. It also calls for about 61 million more for the state's 15 public Universities and 7.5 million more for community colleges.

Governor rolls out state budget, $232 million proposal for Flint (WLNS)
As the governor laid out his budget plan today Wednesday protesters laid into him over the Flint water crisis.

Lansing says state budget isn't enough (WILX)
Governor Rick Snyder says his new budget is helping local governments. "Investing in our communities - constitutional revenue sharing, we're seeing a significant increase there of 3.9 percent," Governor Snyder said. "We're going to continue the traditional statutory revenue sharing."

Protestors Gather as Snyder Discusses Budget (9&10 News)
Throughout the governor's budget presentation you could hear protestors who were outside in the hallway. They started to file into the capitol before the governor's proposal was announced to ask for more help in addressing Flint's tainted water.

Protest goes on even after U-M cancels panel with Gov. Snyder and Kevyn Orr (Deadline Detroit)

Nearly 100 people gathered outside Hutchins Hall and marched to the Diag on Tuesday afternoon at the University of Michigan in Ann Arbor to protest the appearance of Gov. Rick Snyder and former Emergency Manager Kevyn Orr on a panel on Detroit's bankruptcy hosted by the law school, the Michigan Daily reports.

Assistance for Flint is top priority in new state budget (WEMU)
Governor Rick Snyder's budget proposal for the coming fiscal year pays a lot of attention to Flint's drinking water crisis and the state's infrastructure shortcomings.

Snyder recommends 4.3 percent increase in higher education funding (Michigan Daily)
After an initial 15 percent slash to higher education funding when he first entered office in 2011, Gov. Rick Snyder (R) announced he intends to return funding levels to pre-2011 levels in his 2017 - 2018 budget recommendation Wednesday.

Flint, water infrastructure dominates Snyder's 2016-2017 budget proposal (WIN 98.5)
The Flint Water Crisis and an overall urge to improve Michigan's water infrastructure dominated Gov. Rick Snyder's $54.9 billion budget proposal for the upcoming fiscal year.

MDE

Academic State Champs: How to make sense of your school's M-STEP scores (MLive)
We know that Michigan students struggled on the more rigorous M-STEP test, given for the first time last spring and tied to the implementation of the Common Core State Standards. What hasn't been shared, until now, is how well elementary and middle schools across Michigan performed on the standardized test compared with peer schools in the state.

Gains seen, but more work needed for charter authorizers (Detroit Free Press)
Charter school authorizers are making better decisions about the opening and closing of schools in Michigan, but it's not enough, according to a report out today that analyzes and grades the performance of charter authorizers.

MDOT

$57M federal grant could fund Michigan's second bus rapid transit system (MLive)
A $57 million grant from the U.S. Department of Transportation could largely pay for Michigan's second bus rapid transit system, a 13-mile route that will link downtown Grand Rapids with Grand Valley State University in Allendale.

MDOT announces $127 million project to reconstruct, add lanes to I-75 in Oakland County
The Michigan Department of Transportation announced a $127 million project to reconstruct more than three miles of I-75 in Bloomfield Township, Auburn Hills and Troy beginning this summer. Plans call for repairing pavement between South Boulevard and Coolidge Road and is part of a larger project to rebuild more than 17 miles of the expressway extending southward to Eight Mile Road.

MVAA

State veterans homes pursuing Medicare, Medicaid certification (UP Matters)
The Michigan Veterans Affairs Agency would receive $70 million to support the Michigan Veteran Health System under Gov. Rick Snyder's fiscal year 2017 budget recommendations, which were announced Wednesday.

Michigan Veteran Health System announces leadership team for state veterans homes (HollandSentinel.com)

Michigan Veteran Health System's CEO Leslie Shanlian recently announced that the organization had a full leadership team five months after its creation. Including Shanlian, the MVHS team is Scott Blakeney, Grand Rapids Home for Veterans COO; Eugenia Dumlao-Reedy, vice president of nursing services; Ryan Engle, vice president of business services; Steve Rolston, vice president of operations; Brad Slagle, D.J. Jacobetti Home for Veterans COO; and Dawne Velianoff, vice president of social services.

With changing job climate, employers need to break with tradition to find new hires (Crain's Detroit Business)
With the talent gap continuing to widen, second-stage businesses are going to have to come up with different tactics for finding talent.

LEGISLATIVE

Senate approves bill to ban liquor at fully nude bars (AP)
Michigan would strip state liquor licenses from bars offering fully nude entertainment under a bill passed by the state Senate on Wednesday.

Bill naming bridge for sailor killed in Afghanistan heads to governor's desk (MLive)
A bill that would name a Midland highway bridge after a U.S. Navy sailor killed in Afghanistan was passed this week by state lawmakers and is headed to the governor's desk to be signed into law.

OPINION

Editorial: Budget target dual crises (Detroit News)
Gov. Rick Snyder's 2017 budget proposal focuses heavily on two immediate challenges facing Michigan — the Flint water crisis and the looming insolvency of Detroit Public Schools. But if approved it would also invest heavily in the state's future.

Watson: Everyone has stake in Detroit's students (Detroit News)
The educational mess in Detroit impacts us all.

Jacobsen: New speed limits consider safety first (Detroit News)
The recent passage of the speed limits bill package out of the state House of Representatives Transportation and Infrastructure Committee has prompted some questions.

Same old sins seen in state e-mails on Flint crisis (Detroit Free Press)
Few new sins are revealed in the latest release of emails related to the Flint water crisis. But the fault lines through Gov. Rick Snyder's administration are delineated with sickeningly predictable clarity.

In Flint, life imitates art (Detroit Free Press)
The devastating water contamination in Flint calls to mind the acerbic play "Enemy of the People" by Henrik Ibsen, in which a doctor tries to warn the town that the new spa facilities, designed to attract tourists, were "nothing but a pest-house" because the water was noxious.

Flint crisis calls for more than breaking officials' information shield (MLive)
Elected officials should be accountable to the people of Michigan. However, the state laws meant to protect us from corruption and secrecy actually protect the guilty. At a time when trust in government is at an all-time low, it's time for action. We deserve to know what is happening behind closed doors.

Flint's crisis is Michigan's crisis (MLive)
Whether you're Gov. Rick Snyder or Hillary Clinton, Rachel Maddow or Jimmy Fallon, Madonna or Ziggy Ansah, it's all about Flint right now. The same is true for us here at the League. This man-made disaster has drawn the national

spotlight to Michigan for all the wrong reasons. Every day another story or scandal arises. But for me, the main question is: What do we do now?

Bill would rename U.S. 127 to honor fallen trooper
Lansing State Journal
By: Ken Palmer
2.9.16

A section of U.S. 127 near Leslie would be named for a long-fallen Michigan State Police trooper under a bill introduced today in the state Legislature.

Trooper Craig Scott, 28, was shot and killed during a traffic stop in southern Ingham County on Feb. 9, 1982. Tuesday is the 34th anniversary of his death.

"It's long past time that we honored Trooper Scott and his family for his sacrifice," said state Sen. Curtis Hertel Jr., D-Meridian Twp., the bill's sponsor.

Senate Bill 775 would designate U.S. 127 between Bellevue Road and the Jackson County line as the "Trooper Craig Scott Memorial Highway," Hertel said.

It was along that stretch where Scott had arrested a driver and was placing him in the patrol car when a passenger came up behind him and shot him three times with a .38-caliber revolver, according to the Michigan State Police Troopers Association. Despite his injuries, Scott returned fire as the suspects fled in the stolen Chevrolet Camaro.

The suspects drove into Leslie, robbed someone of an Oldsmobile Cutlass and were later arrested by the Ingham County Sheriff's Department, MSPTA said. Both had extensive criminal records and were sentenced to life in prison in Scott's death.

Hertel said he was a young child at the time of the incident and doesn't know Scott's family. He said he became aware of the upcoming anniversary last year and wrote the bill for introduction on that day.

"I've always had a tremendous amount of respect for those who serve on the front lines and give their lives in the line of duty," he said.

The bill will go to the Senate Transportation Committee.

State Police: Phone scammers take advantage of Flint water crisis
Up North Live
By: Michael Gordon
2.10.16

Phone scammers are now trying to use the ongoing Flint water crisis to their advantage, according to Michigan State Police.

WPBN/WGTU — During several phone calls to residents around Otsego County, scammers identified themselves as representatives of a local charity and asked for money to help purchase water for the City of Flint.

Police say the phone numbers that were used had foreign area codes and may have originated from outside the United States.

"But that doesn't necessarily mean that we have a paper trail," said Michigan State Police Trooper Corey Hebner. "A lot of times these numbers can be manipulated and made to throw us off the trail."

Residents are warned that a second part of the scam may occur if a person tries to call the scammers number back, which can trigger an automatic charge on their phone bill.

Police are asking that anyone who comes into contact with these scammers turn over any information they get regarding the callers gender and location.

SPECIAL REPORT: Kik App Popular With Teens & Predators
WILX
2.11.16

When your child opens up a social media app on their smart phones, who are they really chatting with?

There are new concerns over kids and the apps they use after the late January murder of thirteen year old Nicole Lovell in Virginia. She had started a relationship with an older man she met on Kik, 18-year old David Eisenhauer. The teen's friends warned her about using messaging apps like that to talk to older men.

Police say Eisenhauer and a fellow Virginia Tech student are charged in her abduction and murder. Police say Lovell's murder was pre-meditated.

It's a tragic end to a young life, an ending Michigan authorities want to prevent from happening to other teens. Detective Sergeant Dan Cook with Michigan State Police's Cyber Section says agents deal with Kik and apps like it regularly.

"They feel comfortable in discussing things that they normally would not be comfortable with discussing face-to-face," says Detective Sgt. Cook.

The app allows you to message other users if you know their user name. But, authorities say it's easy to find users, because usernames are often listed on other sites. You can list your Kik username on your other social media accounts.

"You can then instantly be connected to various other social media apps," says Cook, "But, the security settings are generally overlooked."

Kik has safety guidelines for parents online, the company also told me in a statement that "We continue to be diligent in working with relevant authorities and in educating the public about online safety matters...We provide Kik users with features that allow them to block and report any unwanted contact, including from strangers."

Whether it's Kik or any other social media app, Detective Sgt. Cook says open up your application store.

"Look at the top 20 apps that are on there," he says, "ask your kids if they are on them."

Then, educate yourself. Talk with your kids about having strong privacy settings, and turn off location services.

"They very well may be giving their exact location to their home,"

In a time when everyone is chatting online, taking precautions can go a long way.

Nicole Lovell's dad was aware about his daughter's online communications with older men, he claims in the interview with Dr. Phil that he just grounded her from all social media before she was murdered.

Her parents took away her phone before Christmas but gave it back.

Michigan State Police tell me it's also a good idea to check and see if your kids have multiple accounts on social media sites.

None of this attempt to vilify any social media apps, it's all about safety.

Ask a trooper — Why do state police vehicles have a single light atop them?
Petoskey News
2.9.16

Luke from Charlevoix asked, "Why does the state police have a single light on top of their cars instead of a light bar like everyone else?"

Carroll: Since the 1950s, Michigan State Police patrol cars have been adorned with a unique rotating red light on the roof. As the only state police department in the country to use this design, the single overhead red light is unmistakably identifiable to both Michigan residents and other law enforcement agencies. Many people often inquire about the "bubble" or "gumball" light and usually assume it is used today solely as tradition.

While the department is accustomed to this look, the benefits go beyond tradition. The single overhead light has been proven to enhance acceleration and performance. The nationally recognized Police Vehicle Evaluation, conducted by the MSP Precision Driving Unit, has found that vehicles with a full overhead light bar accelerate slower than vehicles with a single overhead light. Additionally, the reduced forward-facing surface area of the single light provides greater fuel savings when compared to the larger surface area of a light bar.

The MSP "bubble" light underwent a makeover to improve its energy efficiency. Working with Whelen Engineering, a Brighton, Mich.-based firm, a prototype using Light Emitting Diodes (LEDs) was developed. After nearly four years of research, development and testing, Whelen Engineering and the Precision Driving Unit produced a light kit that fits in the existing overhead light shell.

Thanks for asking, Luke.

Flint Water Daily Update
Updated Feb. 10

Current Issues Talking Points

Budget Proposal – Supporting Flint Families

- $195 million of the proposed budget will go toward helping Flint families by funding both short and long-term solutions to the water crisis.
    - $37 million to help ensure clean, safe drinking water. This funding will assist with water testing, inspection and replacement of fixtures in schools and daycare facilities, and help the city stay connected to the Detroit Water and Sewerage Department through the end of 2016.
    - $15 million to support food and nutrition funding for families and children. This funding will support school meal programs, mobile food banks and food inspections at food establishments in the county.

- $63 million for physical, social and educational well-being. This funding will support families with blood testing, early childhood development programs, educational support and home lead abatement.
- $50 million will be kept on reserve to address the future needs of Flint residents.
- The remaining $30 million pertains to the recent proposal to help the city of Flint assist residents with covering a portion of their water bill.
  - A typical Flint resident's billing statement includes charges for water and sewer.
  - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
  - Residents would still be responsible for the remaining balance of the water portion of a bill accounting for water used in ways that do not qualify as consumption.
  - Residents would be responsible for covering all sewer costs.
  - This $30 million has been approved in the Senate and awaits approval in the house before it goes to the Governor for his signature.

- If fully approved, the $195 million will be in addition to the previous $37.3 million in emergency funding already allocated to the city of Flint, totaling more than $230 million.
- An infographic detailing the above is available here.

Budget Proposal – Statewide Infrastructure

- In his FY 2017 Budget proposal presented today, the Governor called for the creation of a Michigan Infrastructure Fund to support statewide infrastructure needs.
- If approved, there will be a $165 million investment which will be allocated based on projects with the most immediate needs.
- In 2015, Michigan renewed a commitment to fix our roads and bridges, now it's time to focus on the rest of the state's infrastructure.
- Potential projects that could receive a portion of the $165 million include replacement of known high-risk lead and copper service lines, infrastructure upgrades while repairing roads or other utilities, and analysis of statewide infrastructure needs.
- An infographic detailing the above is available here.
- For a copy of the Governor's press release and additional materials visit www.michigan.gov/mibudget.

Subject: ACTION: Flint JIC Staffing - Deadline: Noon on Thursday, Feb. 11

Fellow PIOs,

Thank you for your continued support of the Joint Information Center for the Flint water emergency. As operations enter the next phase of response, we are changing our staffing needs to scale back the number of PIOs needed each day.

Beginning Feb. 16, we will are requesting **TWO** non-lead agency PIOs each weekday to provide support for the media hotline and news email account, to assist with writing tasks and to help with media monitoring.

I ask that you please see the attached schedule for available spots and respond with staffing considerations by noon on Thursday, Feb. 11.

Hotel rooms can be provided upon request, if needed. Lunch and dinner will be served.

Thank you for your commitment to the Flint JIC.

Best regards,

Ron

Residents Reminded of Boil Water Advisory
Water Filter Cartridges Should be Replaced After Advisory is Lifted
Free water filters, cartridges, bottled water, testing kits available at resource sites

FOR IMMEDIATE RELEASE
February 10, 2016
Release #: 35

FLINT, Mich. Flint residents are reminded to boil their water due to the drinking water warning issued by the city of Flint on Feb. 9. Until further notice, boiled filtered water or bottled water should be used for drinking, brushing teeth, washing dishes, preparing food and for pets.

The boil water advisory was issued in response to a water main break on Tuesday that caused a loss of pressure in the water distribution system. Whenever a water system loses pressure for a significant length of time, bacteria contamination can result. As a precautionary measure, residents are advised to boil their water to kill bacteria and other organisms in the water.

Once the City of Flint lifts the advisory, affected residents should be prepared to take a few precautions to ensure their water is safe for use.

First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.

Second, residents should replace the cartridge in their water filter after a boil advisory. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter manufacturer replacement instructions.

For other tips, see the attachment, "Boil Water FAQs."

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.

- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.

- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.

- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.

- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
  - 80 Complexes
  - 4170 Units
  - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.

- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY -- LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.

- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

To: Leix, Ron (MSP)
Subject: Wednesday, Feb. 10 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | WEDNESDAY, FEBRUARY 10, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

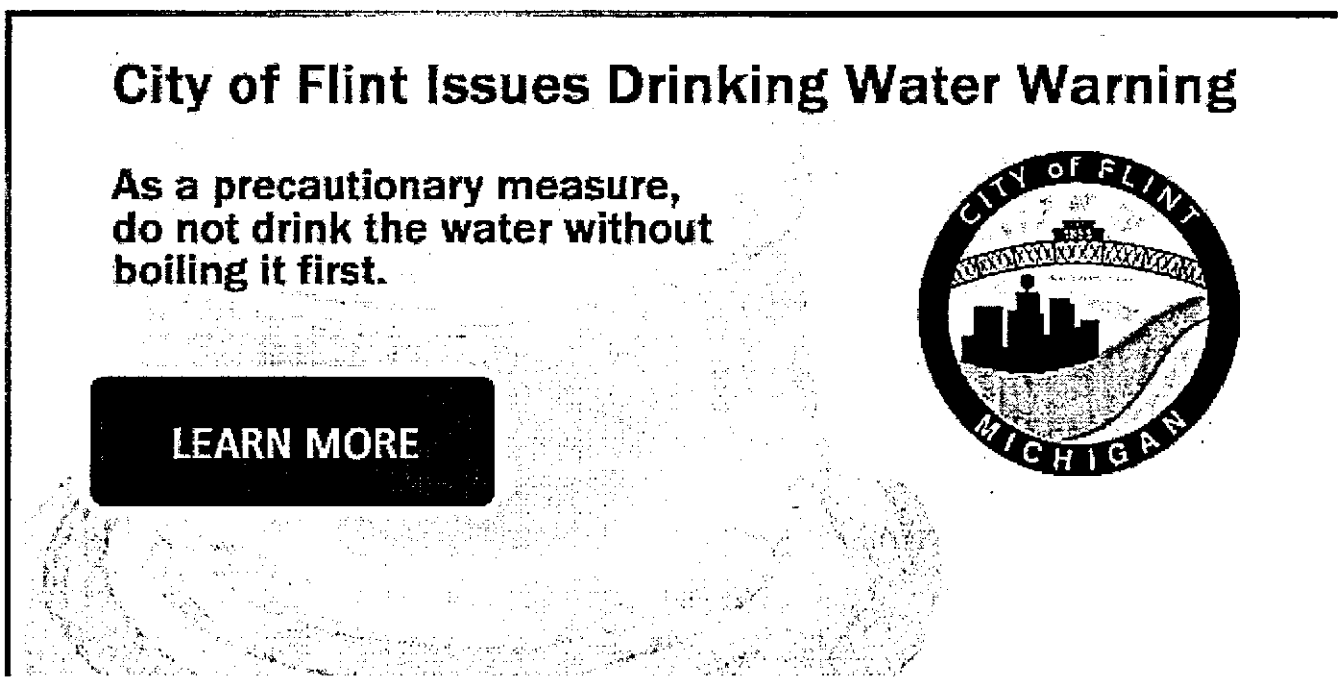
Governor Snyder's budget recommends an additional $195M for Flint families

Today, the Governor in his budget proposed an additional $195 million for Flint families to be used to help provide safe drinking water, good food and nutrition, and physical health, social well-being, and educational intervention.

These additional resources– combined with previous investments– increase total funding for Flint to more than $230 million.

Click here to learn more about the Governor's recommended additional funding.

Please be aware: Flint issued a boil water advisory



Due to a water main break, the city of Flint issued a boil water advisory. Flint residents should boil filtered water. Click here to learn more.

State launches new streamlined services for residents

A new process of addressing homes that test high for lead or copper in their water will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at www.michigan.gov/flintwater
- Test results greater than 150 ppb are emailed to MDHHS
- All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
- **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
  - Health and wellness information
  - Off-site blood test referral
  - Assists with transportation support for appointments, as necessary
  - Provides additional bottled water, filters and water sample kits
- **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
  - Water testing and sampling information
  - Water sample collection
  - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator clean out, filter check)
  - Provides additional bottled water, filters and water sample kits

---

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 299,273 cases of bottled water
- 104,500 water filters
- 211,255 replacement cartridges
- 35,756 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Flint Water Daily Update
Updated Feb. 10

Current Issues Talking Points

Budget Proposal – Supporting Flint Families

- $195 million of the proposed budget will go toward helping Flint families by funding both short and long-term solutions to the water crisis.
  - $37 million to help ensure clean, safe drinking water. This funding will assist with water testing, inspection and replacement of fixtures in schools and daycare facilities, and help the city stay connected to the Detroit Water and Sewerage Department through the end of 2016.
  - $15 million to support food and nutrition funding for families and children. This funding will support school meal programs, mobile food banks and food inspections at food establishments in the county.
  - $63 million for physical, social and educational well-being. This funding will support families with blood testing, early childhood development programs, educational support and home lead abatement.
  - $50 million will be kept on reserve to address the future needs of Flint residents.

- The remaining $30 million pertains to the recent proposal to help the city of Flint assist residents with covering a portion of their water bill.
    - A typical Flint resident's billing statement includes charges for water and sewer.
    - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
    - Residents would still be responsible for the remaining balance of the water portion of a bill accounting for water used in ways that do not qualify as consumption.
    - Residents would be responsible for covering all sewer costs.
    - This $30 million has been approved in the Senate and awaits approval in the house before it goes to the Governor for his signature.
- If fully approved, the $195 million will be in addition to the previous $37.3 million in emergency funding already allocated to the city of Flint, totaling more than $230 million.
- An infographic detailing the above is available here.

Budget Proposal – Statewide Infrastructure

- In his FY 2017 Budget proposal presented today, the Governor called for the creation of a Michigan Infrastructure Fund to support statewide infrastructure needs.
- If approved, there will be a $165 million investment which will be allocated based on projects with the most immediate needs.
- In 2015, Michigan renewed a commitment to fix our roads and bridges, now it's time to focus on the rest of the state's infrastructure.
- Potential projects that could receive a portion of the $165 million include replacement of known high-risk lead and copper service lines, infrastructure upgrades while repairing roads or other utilities, and analysis of statewide infrastructure needs.
- An infographic detailing the above is available here.
- For a copy of the Governor's press release and additional materials visit www.michigan.gov/mibudget.

Subject: 2-1-1 Update Flint Water Response for Wednesday, February 10, 2016
Attachments: 2016-02-10 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 10, 2016

GENERAL INFORMATION:

- **Michigan Association of United Ways and Michigan 2-1-1 Legislative Action Day** was celebrated today at the Capital. Representatives from 20 United Ways and 2-1-1s from across Michigan met in the Speaker's Library for a briefing on key issues, including a a powerful presentation by United Way of Genesee County CEO Jamie Gaskin on United Way/2-1-1 coordination for Flint.

- **See (near) real-time mapping of 2-1-1's Flint referrals.** Michigan 2-1-1 worked with our partner at Washington University in St. Louis to update the http://mi211.211counts.org/ site to show Flint-specific data. 211 Counts tracks and maps 2-1-1 referrals in over 70 categories and sub-categories. The data is searchable across Michigan by zip code, other geographic and political boundaries, and date. The referral data is updated every night and is current within the past 24 hours. View Flint-specific referrals in six different sub-categories by clicking on the "Disaster" link in the in the 'Top Request' area in the upper left area of the home page. The Flint data will then appear inn the upper right section of the page. Click the Display button to switch between percentages and a hard count of the different referrals.

- **UNTIL FURTHER NOTICE: A boil water advisory is in effect following water main breaks** reported yesterday next to Dort Highway and along Dupont Road. Officials are alerting residents to potential bacterial contamination and sediment in the water system. City of Flint provides these guidelines:
    - **FILTERED** water should be boiled for at least ONE MINUTE, then cooled before drinking.
    - **UNFILTERED** water should be used only after **FLUSHING THE SYSTEM** by running the faucet for **AT LEAST 7 MINUTES** before collecting any water to boil. Boil this water at least ONE MINUTE.
    - BOILED FILTERED or BOILED FLUSHED WATER or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food.
    - Trapped air and sediment must be flushed from the water lines. DO NOT FLUSH YOUR SYSTEM – the air and sediment may affect performance of water filters and the filter should be replaced.
    - **CUSTOMERS WILL BE ADVISED WHEN THE BAN IS LIFTED.**

  More information including a map of affected areas can be found at https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

CALL VOLUME:

Daily call volume to 2-1-1 for Flint water needs remains manageable overall demand on the system returns to normal levels and special services and support for Flint residents becomes integrated into the standard 2-1-1 workflow.

For the one month anniversary of the state actively promoting 2-1-1 as a primary contact for the Flint Water Response, Jennie Pollak, Central Michigan 2-1-1 Manager, has prepared a detailed breakdown of call data for the past month. Her one-page summary is included as the last page of today's update.

SPECIAL NEEDS/REQUESTS

☑ **From 2/9/16: Flint residents seek help understanding water test kits and results.** The types of assistance requested by Flint residents continue to evolve. As water test kits are distributed, 2-1-1 is receiving calls for assistance understanding how to fill out MDEQ's "REQUEST FOR WATER ANALYSIS" form. **Can MDEQ create an annotated version of the form to post at** www.michigan.gov/flintwater **to provide guidance for residents and 2-1-1 agents assisting residents to complete the form correctly?**
RESOLUTION: The Flint Water website Media Center has a video 'How to properly test your water'. (http://www.michigan.gov/flintwater/0,6092,7-345-75251_75414---,00.html). This short video also goes over the Request for Water Analysis form.

☑ As water test results are posted online and mailed to residents, 2-1-1 is receiving questions about how to read and interpret results. **Is there a resource at MDEQ, Flint Water Department, and/or DHHS that can answer residents test result questions?**
RESOLUTION: The DEQ Environmental Assistance Center can answer questions at 1-800-662-9278.

RUMOR/SCAM CONTROL

- No new rumors to reports
    - 2-1-1 continues to receive calls reporting a variety of rumors -- agents are providing the most accurate and up-to-date information available to answer questions and reassure callers.

UNRESOLVED

Another big thank you to Angela Minicuci at DHHS for tracking down information and resources to address unresolved issues.

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☑ **From 2/8/16: Residents are asking for help understanding lead testing results.** Results are beginning to arrive at what will happen next. **Can the SEOC provide guidance on the follow up process for households that have received their test results, particularly if the results indicate high lead levels.**
RESOLUTION: If residents have questions about their water test results, they can call the Genesee County Health Department at 810-257-3603. The SEOC is also looking into creating a guide for residents about how to read their water results. Should one be developed, it will be shared with 2-1-1 and other partners.

☑ **From 2/8/16: Residents have asked for the water test results link to be prominently featured on the Flint Water Site.** The link for residents to check water results on the www.michigan.gov/flintwater web has changed several times in the past week making it difficult for 2-1-1 staff to direct residents appropriately to locate their test results on the state web site.
RESOLUTION: There is now a link in the main navigation menu in the middle of the www.michigan.gov/flintwater page that says 'Testing Results'. Blood, residential, and school testing results can all clearly be found there as of late 2/9/2016.

Flint Joint Information Center Daily Update

February 10, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 10. The JIC was operational until 8:30 p.m. on Feb. 9.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, and Health and Human Services. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about why schools in Flint were not tested for lead until Oct. 2015.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended the Governor's proposed FY2017 budget and media roundtable in Lansing.
- Continued updating and revising internal talking points to better reflect ongoing information.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.
- Issued a press release about the state of Michigan launching new streamlined services for residents, with new testing sites to help confirm water quality.
- Drafted a press release about the next steps to take after the city of Flint issued a water warning on Feb. 9.
- Continued working to have staffing for Feb. 16-26 by Thursday.
- Began planning for a video shoot and news release about the Flint Farmer's Market being open for business.

- Drafted and issued social media posts about ongoing Flint water emergency, including topics such as the U.S. Small Business Administration's Flint Business Recovery Center and the American Red Cross and United Way playing a crucial role coordinating volunteer effort.

Planned Activities

Thursday, Feb. 11

- Governor's TeleTown Hall at 2:30 p.m.
- News Release – National Guard lifesaving incident at Water Resource Site

Friday, Feb. 12

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – National Guard Solders building relationships in the community

Saturday, Feb. 13

- No planned products or events.

Saturday, Feb. 14

- No planned products or events.

Monday, Feb. 15

- No planned products or events.

Tuesday, Feb. 16

- Congressional and Legislative conference call at 2:30 p.m.

Wednesday, Feb. 17

- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

Monday, Feb. 22

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

Issued News Releases (February)

State of Michigan Joint Information Center

- JIC034 – Feb. 10 – State Launches New Streamlined Services for Residents

- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources

- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint
- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

Governor's Office

- GOV – Feb. 10 – Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water
- GOV – Feb. 10 – Snyder's budget proposal provides strong investments for one Michigan moving forward
- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

> **Subject: SEOC Update 2/9/16 - Flint Water - Limited Distribution**
>
> **Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency**
>
> Mission focus for the day:
> - Ensure adequate quantities of supplies to support operations.
> - Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
> - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
> - Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
> - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
> - Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
> - Includes filter replacement strategies.
> - Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.

- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.

- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.

2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD
9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD
4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field
3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field
5 personnel
One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field
1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.

- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
    - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.

- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
    - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.

- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.

- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water

402 households to help determine when city's water is safe to drink

FLINT, Mich. – Gov. Rick Snyder is thanking 402 households from across Flint who will provide water test data to help determine when the city's water is safe to drink.

The "sentinel sites" will be visited by teams made up of Michigan Departments of Environmental Quality employees and licensed plumbers. They'll teach homeowners how to test their water in a scientifically accurate manner and submit samples on a regular basis for the state to test.

"I want to thank the homeowners participating in this sentinel site program," said Gov. Rick Snyder. "Their diligence in taking scientific samples from their home's water system is crucial in helping us decide the right time to declare when Flint neighborhoods have safe drinking water."

Also launching today is a more streamlined system of addressing homes that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services coordinated by the Michigan Department of Health and Human Services.

"We want to provide the quickest response possible when we see that a home's water tests high for lead or copper," Snyder said. "We've provided outreach in Flint since October and continue to improve our processes for getting residents the help they need. Streamlined coordination of services between the DHHS, DEQ, Genesee County Health Department and the Flint Local 370 Plumbers Union is yet another step in that direction."

Homes with higher lead levels will receive health and wellness information, blood test referrals, transportation to appointments if necessary and additional bottled water, filters and water sample kits. The homes will also be inspected for possible sources of lead in the water.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater, by calling United Way 211 or visiting www.helpforflint.com.

Snyder's budget proposal provides strong investments for one Michigan moving forward

Key investments for Flint water crisis, statewide infrastructure, and Detroit Public Schools

LANSING, Mich. — Gov. Rick Snyder presented his proposed fiscal year 2017 budget today, a total budget that is up just 0.8 percent from last year, calling for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

By investing in the specific needs for Flint and Detroit, setting aside funding for statewide infrastructure needs and the rising cost of prescription drugs, while staying committed to the core statewide priorities of education, talent and economic development, health and human services, and public safety, today's announcement provides the right plan for moving Michigan forward.

A new supplemental budget request for the current fiscal year was introduced, which includes $30 million for relief of Flint water bill payments currently being acted upon by the Legislature.

The supplemental request also includes $25 million for infrastructure needs specific to Flint and

another $165 million to be set aside for statewide infrastructure needs in a newly created Michigan Infrastructure Fund. The $165 million in statewide infrastructure funding represents the first step toward a longer term solution for the state's needs and will be used to make strategic improvements based on recommendations from the Commission on 21st Century Infrastructure.

The overall budget recommendation totals $54.9 billion, an increase of 0.8 percent or $438 million over last year, and includes $10.2 billion in general fund dollars. The general fund is up 1.5 percent from last year which translates to $145 million.

Budget recommendations to aid Flint and Detroit Public Schools include:

Funding for Flint Water Crisis

- An additional investment of over $195 million spread out across several state agencies to continue the support needed for the children and residents of Flint. These funds will be used to address various needs, including safe drinking water; food and nutrition; physical health; social well-being; and educational intervention. When combined with previously enacted supplemental funding in fiscal year 2016, total funding for Flint comes to more than $230 million.

Funding for Detroit Public Schools

- An investment of $72 million a year, for 10 years, from Michigan's tobacco settlement proceeds to offset the Detroit Public Schools' repayment of a debt load expected to accumulate to $515 million by this summer. The $720 million generated from this plan will provide for $200 million needed for the startup and transition costs to create the new district.
- The fiscal year 2016 supplemental includes $50 million to ensure Detroit schools remain solvent through the rest of this school year while the governor's longer term solution is considered by the Legislature. General fund dollars will used for this funding to ensure the school aid fund is held harmless.

The proposed fiscal year 2017 budget is a balanced approach focused on Michigan's continued growth and future prosperity. The governor today also offered a 2018 projected budget, continuing his practice of ensuring that Michigan maintains a long-range planning focus with an emphasis on fiscal responsibility.

With a growing economy and unemployment at its lowest rate in more than 15 years, Michigan's future economic forecast remains bright. With more than 440,000 new private sector jobs since December 2010 and rising personal incomes for families across Michigan, the state is well positioned to continue its comeback.

"I'm committed to providing critical investments needed for the Flint water crisis and Detroit Public Schools while maintaining the long-term focus on the key priorities of education, job creation, health and human services, public safety and fiscal responsibility. Coupled with fiscal year 2016 investments, this recommendation brings total funding for the Flint water crisis to more than $230 million. The plan provides new investments in both K-12 education as well as higher education and continues the emphasis on developing our talent and connecting that talent to jobs," Snyder said. "From day one we have remained committed to our vision and reinvention strategy and it is paying off. This budget recommendation is the next step in the remarkable growth of our state and I look

forward to working on it with our partners in the Legislature."

State Budget Director John Roberts joined Snyder in outlining the budget recommendation to a joint session of House and Senate appropriations committees.

"As budget director, I am proud of this budget because we addressed the challenges we have in Flint and Detroit while remaining committed to our core budget principles and managing the taxpayer dollar wisely," Roberts said. "This is a credit positive plan that keeps us on a good growth curve."

Lt. Governor Brian Calley was in Flint during the budget presentation to meet with stakeholders about the budget recommendation and how it will directly benefit the residents of the city.

Snyder's recommended budget will now be reviewed and acted upon by the Legislature in the coming months with the target of having the budget signed in early June.

Additional highlights of the recommended budget include:

Preparing Our Children for the Future

- An additional $150 million for the K-12 foundation allowance, bringing total K-12 appropriations to $12.1 billion, a $1.4 billion funding increase from fiscal year 2011. The increase in the foundation allowance equates to an additional $60 to $120 per pupil.
- An additional $61.2 million or 4.3 percent for the operations of Michigan's 15 public universities and an additional $7.5 million or 2.4 percent for community college operations. The recommendation calls for universities to limit tuition increases to 4.8 percent or less in order to receive the funding increase. This investment restores aggregate university funding to fiscal year 2011 levels.
- An increase of $15 million for career and technical education middle college and equipment program
- An investment of $2.1 million to encourage students toward studying the fields of science, technology, engineering and mathematics.
- An investment of $9 million for water testing in schools.
- An investment of $5 million for school consolidation grants.

Putting People First

- Funding of $91.5 million to treat nearly 7,000 patients living with hepatitis C and $43.7 million to treat approximately 320 children with cystic fibrosis is built into the Department of Health and Human Services' (DHHS) base budget. The state Pharmacy and Therapeutics Committee recently recommended that new specialty medications to treat these conditions be approved for Medicaid patients.
- An investment of $30 million to include a specialty medications prescription reserve in the DHHS budget to address additional specialty medications in the pipeline.
- An investment of $3.4 billion in federal funds for the Healthy Michigan Plan to continue expanded Medicaid coverage for more than 600,000 Michigan residents.
- Another $25.6 million in funding to fully expand the Healthy Kids Dental program to

cover all eligible children across the state in all 83 counties, growing the number of children who will receive good dental care to approximately 826,800. When the governor took office, the program covered 285,000 children in 61 counties.

- An investment of $7.6 million for a new patient unit at the Center for Forensic Psychiatry.
- An investment of $22.3 million to fully implement the state's automated child welfare information system.
- Increased funding of $6.1 million to enhance and expand the clothing allowance from $140 to $200 a year for children in the Family Independence Program. The clothing allowance will cover all children in the program, adding nearly 25,000 children.

Job Creation

- A total of $115.5 million to grow Michigan's economy through business attraction and community revitalization efforts.
- An investment of $2 million for the Community Ventures - Challenge Grant, which will provide matching grants to expand service and further program integration in Detroit, Flint and Saginaw to help the structurally unemployed pursue career opportunities and maintain employment.
- A $10 million increase to the skilled trades training program, bringing total funding to $35.6 million to match employers talent needs with skilled workers for in-demand jobs.

Infrastructure/Technology

- A total of $533.3 million in new dedicated transportation revenue, including $189.2 million for the state trunkline fund, $283 million for local road agencies and $61.4 million for rail and public transit, for maintenance and improvement of transportation infrastructure across the state.
- A total of $57.5 million in new federal funds from the Fixing America's Surface Transportation (FAST) Act, to be used for local road agency, state trunk line, and transit projects.
- A total of $132.8 million in new technology investments, including additional funding for cybersecurity to protect critical data from growing threats and added investment for the Information Technology Investment Fund for technology improvements to better serve residents and improve government efficiency.

Protecting the Public

- An additional $9.5 million to run a trooper recruit school with the goal of producing another 85 graduates that will further the enlisted strength within the Michigan State Police.
- A total of $1.5 million to expand the Secure Cities effort to the communities of Benton Harbor, Hamtramck, Harper Woods, Highland Park, Inkster and Muskegon Heights. The program has already produced impressive results by reducing violent crime in Detroit, Flint, Pontiac and Saginaw.
- An investment of $8.5 million to run an academy to train and graduate 350 new corrections officers for prisons across the state.

- A total of $500,000 to help prevent sexual assaults on college campuses through the higher education sexual assault prevention and education initiative.
- Funding of $2.2 million to enhance the capacity to combat the increasing growth of digital crime.
- An investment of $4 million to support safe and secure learning environments for students.
- An investment of close to $1 million for the purchase of new ballistic vests to keep probation and parole agents safe while on field duty.

Stronger Communities

- Eligible counties will receive a combination of revenue sharing payments and incentive-based payments, provided they meet required transparency provisions, totaling $215.2 million, which is the maximum funding allowed under statute to 78 eligible counties, up from 76 counties in the current fiscal year.
- A 3.9 percent increase in constitutional revenue sharing payments for cities, villages, and townships for a total of $781.5 million, based on estimated sales tax collections.
- As an incentive to combine government operations, all local units may apply for grant assistance to help defray expenses related to consolidation of services or programs, with a recommendation of $11 million for this competitive grant assistance program.

Focusing on Long-term Liabilities

- Fiscal year 2016 deposits to the Budget Stabilization ("Rainy Day") Fund will bring the projected total balance to $611 million which equates to a $609 million increase since the governor first took office, when the rainy day fund was at a mere $2.2 million.
- Funding for the school employee retirement system is recommended at $1 billion for K-12 schools, which equates to over $660 per K-12 student. This investment provides fiscal relief to schools for retirement obligations and helps ensure retirement promises made to employees can be kept. The governor's commitment to solving the state's pension and retiree health care obligations is strong. Reforms made to the school employee retirement system and the state employee retirement system have reduced the state's long-term debt by more than $20 billion.
- A $730,000 increase and a total of $5.9 million in ongoing funds is recommended within higher education to provide for costs above a proposed rate cap for seven participating universities in the Michigan Public School Employees Retirement System (MPSERS). Community colleges receive a recommended $3.7 million increase and $74.9 million total in ongoing funds, to provide for costs above the rate cap for MPSERS.

The state's new fiscal year begins Oct. 1.

State Launches New Streamlined Services for Residents
New Testing Sites Help Confirm Water Quality

FOR IMMEDIATE RELEASE
February 10, 2016
Release #: 34

FLINT, Mich. – This week the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (MDHHS) initiated new initiatives to engage residents in a more in-depth level of data collection that will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

Starting today, 10 Sentinel Site teams consisting of representatives from the DEQ, along with licensed plumbers, will begin to visit 402 identified residential sites across the city to teach homeowners how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing.

Geographically dispersed across all nine wards, these sites will be established for ongoing lead and copper monitoring and will be resampled periodically to help determine when the drinking water advisory may be discontinued. This testing regimen calls for resampling every two weeks for an additional four, two-week cycle.

"These Sentinel Sites are an important step in helping us achieve a higher level of data analytics on the quality of the water," said Keith Creagh, Director of the DEQ. "The data collected will help us determine when and where corrosion control treatment has been effective."

Also launching today is a more streamlined system of addressing residences that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

"As soon as we see that a household's water level tests high for lead or copper, this new automatic protocol kicks in, beginning a series of measures to get people the health-related services they need faster," said Dr. Eden Wells, chief medical executive with the MDHHS. "While many of these residents have had outreach from county and state agencies since last fall, this new system creates a timeline and multi-agency organizational structure so that services can be provided in a more cohesive manner."

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at www.michigan.gov/flintwater
- Test results greater than 150 ppb are emailed to MDHHS
- All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
- **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
    - Health and wellness information
    - Off-site blood test referral
    - Assists with transportation support for appointments, as necessary
    - Provides additional bottled water, filters and water sample kits
- **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
    - Water testing and sampling information
    - Water sample collection
    - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator cleanout, filter check)
    - Provides additional bottled water, filters and water sample kits

Unlike lead, there is a safe level of copper. Everyone comes into contact with it every day and copper is essential for good health, but for homes with elevated copper levels, individuals are being instructed to use bottled water for drinking and cooking.

People's bodies require copper for normal functioning, and at different amounts depending on age, and whether a women is pregnant or breastfeeding. Ingesting high levels of copper can cause nausea, vomiting and diarrhea.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater, by calling United Way 211 or visiting www.helpforflint.com.

Subject: NEWS UPDATE--Snyder's Budget Focus On Flint, Detroit Schools As He Outlines Plan

GONGWER Michigan
The Capitol Record Since 1906

Wednesday, February 10, 2016, 11:09 AM

Snyder's Budget Focus On Flint, Detroit Schools As He Outlines Plan

With his proposed $54. 9 billion 2016-17 budget, titled "We Are One Michigan," Governor Rick Snyder identified fixing the Flint water crisis and Detroit Public Schools as the top priorities for the spending plan as he unveiled the budget to the Legislature.

"The lens is centered" on the "critical challenges" of Flint and the Detroit schools, Mr. Snyder said in introducing his sixth proposed budget.

Beyond those immediate crises, however, Mr. Snyder's budget reflects an overall optimistic tone, expecting continued economic growth for Michigan.

The $54.9 billion budget comprises $10.2 billion in General Funds and $12.5 billion in School Aid Funds. The largest single share of the budget, some 45 percent, is centered on health and human services, with another 30 percent focused on all forms of education.

In terms of helping Flint, Mr. Snyder's budget calls for $195 million, spent across several agencies, which had already been reported. But he also told lawmakers the state will operate on the assumption that all Flint children have been exposed to high lead levels, which will mean ongoing observation over the years.

In helping Detroit schools, Mr. Snyder's budget reiterates his earlier plan to assist the district in paying off its debt, creating a new district to operate the schools and having a commission appoint a manager for public schools within the city.

In terms of other proposals, Mr. Snyder's budget estimates another $533.3 million in dedicated funds for transportation revenue.

Mr. Snyder also calls for increasing the clothing allowance for children on public assistance, both in terms of raising the maximum from the current $140 to $200, and to cover all children in the Family Independence Program, a total increase of $6.1 million.

Subject: Budget Presentation

For the last five years, Gov. Snyder has delivered a balanced budget months ahead of schedule. This year will be no different, but the budgeting process to this point has been unlike previous years.

We are amidst a crisis in one of our state's communities and while many steps have been taken already, the road ahead is long for those who have been affected. The time to act is now, and the new budget recommendation accurately reflects both immediate and long-term needs.

The governor is asking today for $195 million in new funding that will bring total investment for Flint's water crisis to $232 million. Attached is an infographic that explains how the $195 million will be spent.

An additional $165 million will aid in statewide infrastructure prioritization, with local projects as the focus.

Under the Governor's recommendation, Detroit Public Schools will have an investment of $72 million per year for 10 years from Michigan's tobacco settlement proceeds. The situation for students in Detroit is dire. It is critical and it is urgent that the Legislature work to turn around the failing system that is currently in place.

There are many other highlights to be proud of in this budget. Some areas being made whole, such as Healthy Kids Dental and higher education, have been a priority of the Governor for years.

- Overall budget growth for FY17 is 0.8 percent, up $438 million from last year. Total spending is $54.9 billion, with 75 percent of that funding health, education and human services statewide.
- Healthy Kids Dental will cover all 83 counties in Michigan, with a total of 826,000 kids receiving oral care. In 2011, 61 counties were covered with a total of 285,000 kids.
- Higher Ed funding will be fully restored, with a 4.3 percent increase for universities and a 2.4 percent increase for community colleges.
- MSP's trooper recruit school will graduate 85 new troopers. Number of troopers hired since Dec. 2010 will make up 48 percent of TOTAL troopers.
- Recommendations of the Michigan Prescription Drug and Opioid Abuse Task Force will be implemented.
- Secure Cities Partnership will be expanded to Muskegon Heights, Inkster, Hamtramck, Harper Woods, Highland Park and Benton Harbor.

All of us who work for the governor know that even with the challenges before us, our state's future is brighter for all. These are opportunities to address issues that affect the quality of life, and we will see them through.

Attached is the press release and infographics with additional information.

Please join in watching the presentation at www.michigan.gov/snyderlive and join the conversation on social media using #mibudget. Additional information will be available just prior to the budget presentation at www.michigan.gov/mibudget.

Thank you for your continued service and commitment to the people of Michigan.

Lt. Covey,,,Good morning,

I checked with Lt. Roach, and she will know Thursday regarding what her relief schedule will look like for this weekend. I informed her I am available and will wait for her call. Michelle K. and I did an overlap yesterday at the UCG. I also informed her I am available to provide her relief as well. I will keep you in the loop.

I will continue to participate in the Con Calls so I can stay current.

I will head back to west Michigan today.

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

GOVERNOR'S ACTIVITIES

Budget

Snyder aims to restore higher ed funding to 2011 levels (Detroit Free Press)
Gov. Rick Snyder wants lawmakers to pump an additional $61.2 million into Michigan's public universities, an increase designed to restore funding levels to 2011, the year before he took office. The increase amounts to a 4.3% raise.

Governor Snyder to reveal budget proposal (WLNS)
Governor Rick Snyder will address the media ahead of his $54.9 billion budget recommendation to lawmakers. In addition to suggesting more funding for Flint, he'll also propose to increase operations funding for Michigan's 15 public universities by 4.3 percent.

Michigan governor plans $360M for Flint, infrastructure (AP)
Michigan Gov. Rick Snyder is set to propose spending hundreds of millions more to address Flint's water crisis and to update infrastructure, including lead water pipes, in the city and across the state.

$195M for Flint water crisis, $26M for kids' dental in Michigan Gov. Rick Snyder's budget (Mlive)
The fiscal year 2017 budget Gov. Rick Snyder proposes on Wednesday will include $195 million to address the Flint water crisis and $25.6 million to expand Healthy Kids Dental, MLive has learned.

Snyder's recommended $61M boost to higher education would restore 2011 funding levels (Mlive)
Gov. Rick Snyder is proposing a 4.3 percent funding boost for Michigan's public universities, a move that would restore state support for higher education to levels not seen since Snyder took office.

Michigan governor says to request another $195 million for Flint water (Reuters)
Michigan Governor Rick Snyder on Wednesday will ask the state legislature for another $195 million to restore safe drinking water in Flint and help residents affected by lead-contaminated water, a spokesman confirmed on Tuesday.

Governor Snyder's budget presentation expected to include money, policies for Detroit Public Schools (WXYZ)
Governor Rick Snyder is expected to make a big announcement impacting Detroit Public Schools. It will happen as he

presents his budget recommendations for next year. He is expected to suggest that the state designate more than $70 million to help DPS.

Governor Snyder, More Flint Aid (WILX)
Governor Rick Snyder is expected to ask state lawmakers to approve another two hundred million dollars for Flint's water crisis. That's according to the Detroit Free Press.

Gov. Snyder plans university funding above when he took office (AP)
Gov. Rick Snyder is proposing that Michigan's 15 public universities get 4.3 percent more in state operations funding in the next fiscal year. The higher education budget Snyder will unveil on Wednesday includes nearly $1.6 billion, according to his office. If approved by lawmakers, it would bring the overall university budget above the level it was when Snyder took office in 2011, when he and lawmakers cut funding by 15 percent to address a deficit.

Snyder plans to boost higher ed funding to 2011 levels (Detroit News)
Gov. Rick Snyder is planning to propose an additional $61.2 million of state funding for higher education, restoring it to 2011 levels, according to an official familiar with the plan.

Will Snyder's $195M plan kick start more aid for Flint? (Detroit News)
Gov. Rick Snyder is expected Wednesday to propose a $195 million plan for new state aid to address Flint's lead-contaminated water, but it may not help break a congressional logjam on federal aid for the city.

Watch live: Gov. Rick Snyder presents his budget for fiscal year 2017 (Mlive)
Be the first to know what Gov. Rick Snyder proposes for the fiscal year 2017 budget by tuning in yourself at 11 a.m. Wednesday. The governor presents his budget vision to a joint meeting of the House Appropriations Committee and Senate Appropriations Committee at 11 a.m. Wednesday morning. A livestream will be up here.

Snyder plans $195M in new aid for Flint in budget plan (Detroit News)
Gov. Rick Snyder is expected Wednesday to propose $195 million in new aid to help deal with Flint's contaminated water problem when he presents his proposed state budget for next year.

Snyder to seek $72M in '17 budget for DPS rescue (Detroit News)
Gov. Rick Snyder will ask for $72 million in his 2017 budget as part of a 10-year plan to pay down the debt of Detroit Public Schools and restructure the state's largest school district, which could run out of money this spring, according to a source familiar with the spending plan.

Snyder to propose $195M more for Flint water crisis (Freep)
Gov. Rick Snyder on Wednesday is expected to request an additional $195 million to bring back safe drinking water to Flint and treat its impacted residents after highly corrosive water drawn from the Flint River leached lead throughout the city's drinking water system, according to a person familiar with the budget.

Recall effort
Why Michigan Democrats aren't clamoring to kick Gov. Rick Snyder out of office (The Washington Post)
Until recently, the calls for Michigan Gov. Rick Snyder (R) to resign over the Flint water crisis have been relegated to grassroots protesters and political outsiders like Democratic presidential candidate Bernie Sanders. But now it's going mainstream, thanks to a push by some Michigan Democrats and a recently approved effort to recall Snyder — albeit over an issue that has nothing to do with Flint.

Recalling Gov. Rick Snyder is harder than ever under 2012 law he signed (Mlive)
On Dec. 27, 2012 Gov. Rick Snyder signed bills changing the state's recall rules. Three years later, those rules are throwing up new hurdles in an effort to recall him. An effort to recall Gov. Rick Snyder got off the ground at a Board of State Canvassers meeting on Thursday. The man who submitted the language, Benjamin Lazarus, says he knows it's going to be difficult.

Protests

Gov. Rick Snyder not welcome here, say protesters on U-M campus (Mlive)

With the Flint water crisis ongoing, organizers at the University of Michigan Law School indefinitely postponed an event that was to take place Tuesday featuring Gov. Rick Snyder and Kevyn Orr, Detroit's former emergency manager.

Anger fills Diag in protest calling for Snyder's resignation (Michigan Daily)

Nearly 100 protesters gathered outside Hutchins Hall and marched to the Diag on Tuesday afternoon, calling to recall Gov. Rick Snyder (R) in light of the Flint water crisis. The protesters marched across campus shouting multiple chants including "Flint Lives Matter" and "Black Lives Matter."

Emails

Skubick: AG Schuette wants Gov. Snyder's Flint e-mails from 2006 – present (WLNS)

The lead contamination of the Flint water supply has spawned both a federal and state investigation and the state investigators want to cast a wide net to get their hands on all, not some, but all of the internal communications in the governor's office and the state bureaucracy perhaps as far back as 2006.

LT. GOVERNOR'S ACTIVITIES

Lt. Gov. Brian Calley: Reforms essential to help all Michigan children reach their full potential (UP Matters/TV 3)

By addressing the needs of students who need more intensive support, the state can become a national leader in ensuring all children can lead successful lives, Lt. Gov. Brian Calley said today. Calley, chair of the state's Special Education Reform Task Force, presented the group's findings and recommendations during Tuesday's meeting of the State Board of Education.

Calley pushes special education reforms (Freep)

Michigan schools should break down the walls between general education and special education, creating systems in which extra help for students who need it is intensified as their needs increase.

FLINT

Flint Counsel Says Manslaughter Charge Harshest Possible (AP)

Flint's water crisis, after a switch in the source allowed dangerous levels of lead and potentially caused deadly cases of Legionnaires' disease, could result in criminal charges as serious as involuntary manslaughter, a top investigator said Tuesday.

Flint Water Crisis: Dogs Getting Lead Poisoning, Too (NBC News)

Two dogs in the Flint area have tested positive for lead poisoning, and officials are reminding pet owners that their animals shouldn't drink unfiltered tap water until it's deemed safe. The Michigan Department of Agriculture and Rural Development said they had no reports of lead toxicity in household pets in the last five years until Flint's water was contaminated — sickening an unknown number of children.

Atty. Fieger: $100-million Flint Legionnaire's outbreak lawsuit "might go higher" (WKAR)

Last week, Southfield-based attorney Geoffrey Fieger filed a $100-million lawsuit against the state of Michigan and McClaren Flint Hospital, alleging that more could have been done to prevent the spread of Legionella pneumonia last year during the water crisis in Flint.

Funding still needed for new $55M plan to replace lead service lines (MLIVE)

A two-phase, $55 million plan to begin replacement of thousands of lead service lines at Flint homes still needs money to move forward. Flint Mayor Karen Weaver announced the Fast Start lead service line replacement program during a

Tuesday morning press conference at Flint City Hall, joined by retired National Guard Brigadier General Michael C.H. McDaniel.

Flint mayor hopes to begin pipe replacement next month (Detroit Free Press)
Flint Mayor Karen Weaver outlined Tuesday an estimated $55-million public works project expected to begin within a month to remove Flint's lead-contaminated pipes from the water distribution system. First priority will be given to high-risk households with pregnant women and children, Weaver said at a news conference at City Hall.

Officials work to inform blind about Flint water crisis (AP)
Officials are working to ensure blind residents of Flint have access to all needed information and resources related to the city's crisis with lead-tainted water. Staff with the state's Bureau of Services for Blind Persons contacted its nearly 40 clients living in Flint by home visit or phone. As part of the effort, officials offered assistance in obtaining bottled water, filters, replacement filter cartridges and water testing kits.

Virginia Tech scientist talks 'Flint water crisis' with WMU students, staff (Fox 17)
It's a crisis in Flint that's escalated for years, lead in the water. When it comes to the problems in Flint, a team from Virginia Tech is credited with helping bring the lead in the water 'to light'.

State defends Legionnaires' response in Flint crisis (Freep)
State health officials today defended their response to the Legionnaires' disease outbreak in Flint, discounting concerns that infighting hurt public health.

City of Flint issues boil water advisory following water line breaks (Mlive)
The city of Flint has issued a boil water advisory due to a drop in pressure in the city's water supply. The are included in the advisory runs from West and East Carpenter Roads down to Flushing Road and Robert T. Longway to West Clio Road to North Center Road.

Flint issues boil-water alert (Detroit News)
A new issue emerged in the long-running Flint water crisis when a water main break prompted the city to issue a boil-water alert Tuesday evening. After a drop in the city's water pressure, "bacterial contamination may have occurred," the advisory read. The area affected included a large swath between Clio and North Center roads.

DETROIT

Walk-ins at some Detroit Public Schools (WJBK)
Teachers and community members held a Day of Action at several Detroit schools Tuesday. Members of the Detroit Federation of Teachers, those in the community and families of students staged a "walk-in" to get a firsthand look at the school conditions Detroit Public School teachers have been protesting for weeks.

Protesting Detroit teachers: It's more than just the rodents (MLive)
The emergency manager is resigning. A lawsuit is pending in federal court. The state legislature is considering moves to pay off Detroit Public Schools' massive debt. And the district is moving around $300,000 in its budget to help address poor building conditions.

Detroit Public Schools students protest outside school before classes (WXYZ)
The Detroit Federation of Teachers called Tuesday a day of action.

Detroit casinos' revenue declines in January (Crain's)

The Detroit casinos' aggregate revenue fell by 1.8 percent to $109 million in January, compared with the same month of 2015, according to figures released Tuesday by the Michigan Gaming Control Board.

Report chronicles steep rise, fall of DPS (Michigan Radio)
What happened to Detroit Public Schools? How did Michigan's largest school system go from boom in the 1840s – packing students into makeshift classrooms in storefronts, churches, and houses because it couldn't keep up with demand – to bust? In the last 15 years DPS has closed almost 200 schools, and now teeters on the brink of collapse.

DEPARTMENTS

MDEQ to host public meeting on church oil drilling (C&G News)
Residents with questions on a proposed oil well at Word of Faith International Christian Center are invited to partake in a public meeting at 6 p.m. Feb. 17 in the Southfield High School auditorium, 24675 Lahser Road.

DHHS
State, Genesee talked river, illness link in '14 (Detroit News)
State and Genesee County health officials discussed the potential link between a rise in cases of Legionnaires' disease and Flint's switch to a new water source as early as October 2014 — 15 months before Gov. Rick Snyder went public about the spike in Legionnaires' cases.

Michigan officials confirm first child flu death of season (9&10 News)
Health officials in suburban Detroit say a child who died of influenza is the state's first pediatric flu death of the season.

Oakland Co. child dies of flu related illness (Detroit News)
The first pediatric death in Michigan from influenza this flu season has been reported, health officials said Tuesday.

DNR
Melting ice, snow prompt U.P. snowmobile trail closure (Detroit News)
Officials have temporarily closed a $2^1/_2$-mile segment of a popular snowmobile trail in Michigan's Upper Peninsula because of flooding caused by melting ice and snow.

GCB
Detroit casinos' revenue declines in January (Crain's Detroit Business)
The Detroit casinos' aggregate revenue fell by 1.8 percent to $109 million in January, compared with the same month of 2015, according to figures released Tuesday by the Michigan Gaming Control Board.

MDOT
Bill would rename U.S. 127 to honor fallen trooper (Lansing State Journal)
A section of U.S. 127 near Leslie would be named for a long-fallen Michigan State Police trooper under a bill introduced today in the state Legislature.

LEGISLATIVE

Planning director against proposed legislative change on historic districts (Alpena News)
A Michigan House and Michigan Senate bill could cause sweeping changes in how historic districts are handled in Michigan cities.

Michigan treasurer calls for quick action on Detroit school bills (Reuters)
Michigan Treasurer Nick Khouri urged state lawmakers on Tuesday to move quickly on legislation to restructure the financially ailing Detroit Public Schools (DPS) before the district runs out of money.

Does bill ban sodomy? No, it protects animals (Freep)
Despite a flurry of social media to the contrary, no, the Michigan Senate did not pass a bill that criminalizes gay sex.

OPINION

Our Editorial: Biz leaders aim to keep forward progress (Detroit News)
One of the potential casualties of the ongoing Flint water crisis is the state's rapidly improving image as a good place to live and do business. So it's welcome news that Michigan's business leaders are pushing aggressively ahead with policy initiatives to make this a Top 10 state.

Editorial: Lowering Detroit taxes will increase revenue (Detroit News)
Mayor Mike Duggan and the city of Detroit will continue this year to slash property tax assessments for large swaths of homes between 5 and 15 percent, although bustling areas like Midtown and downtown will see a slight increase.

Editorial: Prove transparency with FOIA (LSJ)
Gov. Rick Snyder is employed by Michigan taxpayers. So are our legislators. Yet they continue to scoff at the notion of being accountable to the very people who elect them. Yes, they are accountable come election time, but what about all the important work being done – or not being done – in the interim?

Howes: Disrespect, disruption fears drag on automakers (Detroit News)
Detroit's automakers are learning a painful lesson: record profits and record U.S. sales aren't enough to earn the kind of respect that pays the bills.

Second thoughts on the Flint water debacle (Bridge MI)
The story of poisoned water in Flint has grown and metastasized until it threatens to suck all the oxygen out of the room.

Detroit classrooms are not overcrowded (MI Capitol Connect)
The Detroit Public Schools teacher sickouts have received national media attention for the poor conditions in which teachers say they must work. However, the claims of overcrowding in the classrooms appear to be baseless, according to class size information received from the school district under a Freedom of Information Act request.

Same old sins seen in state emails on Flint crisis (Detroit Free Press)
Few new sins are revealed in the latest release of emails related to the Flint water crisis. But the fault lines through Gov. Rick Snyder's administration are delineated with sickeningly predictable clarity.

Leave Michigan's historic districts alone (Detroit Free Press)
"A modest, targeted little bill" -- that's how Rep. Chris Afendoulis, a Republican from suburban Grand Rapids, describes an effort to eliminate historic district status for neighborhoods statewide.

Flint Water Daily Update
Updated Feb. 10

Current Issues Talking Points

Legionnaires Disease

- Recent comments in the media are inconsistent with the collaboration that has taken place between the Michigan Department of Health and Human Services and the Genesee County Health Department.
- MDHHS takes legionella concerns seriously and has released some of its earliest email conversations between its epidemiologists and the Genesee County Health Department regarding legionella cases.
- The MDHHS partnership with the Genesee County Health Department is central to providing Flint residents with the health resources they need to overcome obstacles in both the short and long terms. They have worked side by side to deliver health services, exchange data and ideas, and to be there for the Flint community.
- In the fall of 2014, the Michigan Department of Health and Human Services was aware of an increase in Legionnaires' disease cases in Genesee County and it was determined that additional support from the state was needed. The state stepped in to offer that support. Within a month, state epidemiologists were actively conducting interviews with cases and medical record reviews to make sure that Flint residents had the joint resources of local and state experts.
- MDHSS is continues to be engaged with environmental health officials on the local and national levels to proactively address the potential for future Legionnaires disease cases.

Budget Proposal today, Feb. 10

- The Governor will give the formal FY 2017-18 budget presentation today, Feb. 10 at 11 a.m.
- As part of the budget proposal, the Governor will outline long-term funding efforts to aide in Flint's recovery.
- To date, the state has allocated $37.3 million in emergency funding for Flint.
    - The Governor also proposed and the Senate has approved an additional $30 million the city could use to help relieve Flint residents of a portion of their water bill.
- The budget presentation is available via livestream at www.michigan.gov/snyderlive.
    - To limit the negative impact on state network speeds, DTMB advises employees to reserve a conference room and watch the presentation in teams rather than individually at their desks.

Flint Mayor calls for immediate replacement of Flint pipes

- In an announcement yesterday, Flint Mayor Karen Weaver called for immediate replacement of Flint's water infrastructure.
- Immediately removing pipes could potentially add to the infrastructure problem and result in higher costs for the city.
- Both Senate Minority Leader Jim Ananich and Virginia Tech water treatment expert Marc Edwards advise first mapping the city's pipes to determine the location of lead infrastructure.
- Edwards also says the state is taking the correct actions to make Flint's water safe again. Adding phosphate to the water to coat the pipes is a necessary first step toward ensuring safe drinking water for Flint residents.
    - Flint's damaged pipes spark debate on fix (Detroit Free Press)
    - Prof. Marc Edwards discusses pipes in Flint (video)
- The Governor continues to work with Edwards and the Flint Water Interagency Coordinating Committee to identify and implement a successful long-term solution for Flint families.

Hotel rooms can be provided upon request, if needed. Lunch and dinner will be served.

Thank you for your commitment to the Flint JIC.

Best regards,

Ron

Bernie Sanders won decisively in the New Hampshire primary, as did Donald J. Trump. Todd Heisler/The New York Times

Your Wednesday Briefing

By ADEEL HASSAN

Good morning.

Here's what you need to know:

• Decisive wins in New Hampshire.

Donald J. Trump and Bernie Sanders dominated the Republican and Democratic primaries on Tuesday, winning almost every town. Their victories are a rebuke to the political establishment and signal a long fight for the presidential nominations.

The race among the candidates aligned with the Republican Party establishment remains muddled.

We have the full results, along with some takeaways from the vote, and video of the candidates' remarks.

South Carolina's primary and Nevada's caucuses begin on Feb. 20. Here is the full calendar of the contests.

• On Capitol Hill.

The mayor of Flint, Mich., is among those attending a House hearing held by Democrats today on protecting children. Michigan's governor won't be there.

State investigators say that their inquiry into the contamination of Flint's tap water could bring charges ranging from involuntary manslaughter to official misconduct.

• Back to the beginning.

President Obama travels to Springfield, Ill., where he announced his run for president nine years ago, to address the Illinois General Assembly today about growing partisanship in the U.S. He said last month that was a regret of his presidency.

He's also expected to speak about the $4 trillion budget proposal he sent to Congress on Tuesday. It includes a detailed agenda to ease workers' anxieties.

• A setback for President Obama.

on coal-fired power plants. It's a sign the rules might be overturned after further review.

The court had never before granted a request to stop a regulation before review by a federal appeals court.

• **A first for ISIS.**

Islamic State extremists have, for the first time, claimed responsibility for an attack in Syria's capital, a car bomb that killed several people and wounded dozens.

Syrian opposition groups say they can sense U.S. support fading, and the European Union says that 10,000 child refugees who entered Europe are missing.

BUSINESS

• **Janet L. Yellen**, the Fed chairwoman, will speak publicly for the first time in almost two months when she testifies today before the House Financial Services Committee.

Investors will be analyzing her message because of concerns about turmoil in financial markets and weakness in the global economy.

• **Twitter** will report fourth-quarter earnings today. It's a chance for its chief executive, Jack Dorsey, to show he can reset the ailing company.

• **Falling oil prices** have some companies fighting for survival.

• **Japan's stock market** dropped an additional 2 percent today, as worries about the health of global banks and economic growth grows.

Here are snapshots of the U.S. and world markets.

NOTEWORTHY

• **Ash Wednesday.**

Pope Francis will say Mass today at St. Peter's Basilica in the Vatican for the start of Lent.

On Tuesday, Hampton Court Palace near London, where King Henry VIII broke off ties with the Vatican in 1530 so that he could divorce his first wife and marry his mistress, held its first Roman Catholic service in more than 450 years.

• **Winter heat wave.**

February temperature records are being set in Southern California, with readings in the upper 80s and 90s.

• Defying stereotypes.

Sophina DeJesus of the U.C.L.A. gymnastics team has been performing hip-hop dance step during her floor exercises, and a video of her moves has gone viral.

Ibtihaj Muhammad, a fencer, is expected to be the first American Olympian to compete while wearing a hijab.

• In case you missed it ...

One of our reporters accompanied 10 Central Americans as they made a desperate trek through Mexico to get to the U.S. The article also appears on The Times en Español, our new website for a Spanish-speaking audience.

The wildly popular messaging app Kik — used mostly by teenagers — is worryinging law enforcement agencies because it has been linked to a growing number of abuse cases.

• What's on TV.

A new Spike Lee documentary looks at Michael Jackson's rise to fame (8:15 p.m. Eastern, Showtime).

Bernie Sanders appears on the "Late Show With Stephen Colbert." (11:30 p.m. Eastern, CBS).

And YouTube Originals releases its first films today, but they're not free.

• Dog-themed paintings.

The Doyle Dogs in Art Auction takes place today in New York.

• Neighboring music legends.

Beginning today, you can visit Jimi Hendrix's London home, and the home of the classical composer Handel.

• What to cook.

A recipe for cod cakes is our pick for tonight.

BACK STORY

Kennedy's assassination, and when the album was released on this day in 1964, it appeared as though Mr. Dylan was an oracle.

The lyrics to the title track included:

There's a battle outside and it is ragin'

It'll soon shake your windows and rattle your walls

For the times they are a-changin'

The album, Mr. Dylan's third, quickly became an anthem of both the civil rights and anti-Vietnam War movements.

It contained some of the songs that helped establish him as a defining voice of his time, like "The Lonesome Death of Hattie Carroll," about the fatal caning of a black barmaid by a wealthy young white man.

Mr. Dylan grew up as Robert Allen Zimmerman in Minnesota, listening to Appalachian ballads, blues, gospel and pop. He took the last name Dylan — after the poet Dylan Thomas — before moving to Greenwich Village in New York in 1961.

His socially conscious approach was echoed by rock 'n' roll bands in the 1960s and, decades later, in rap music.

Five years ago, Mr. Dylan performed where he may never have imagined: Vietnam.

Subject: 2-1-1 Update Flint Water Response for Tuesday, February 9, 2016
Attachments: 2016-02-09 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, February 9, 2016

GENERAL INFORMATION:

- **Water main break was reported** next to Dort Highway and another along Dupont Road, leading to localized flooding and loss of water service for affected residences. Repairs are expected to take most of the day (Tuesday) and other Flint residents may experience low water pressure. When service is restored residents may experience discolored water due to sediment in the system being disturbed. The city issued a statement that, "While water is still safe to use, running the water from the tap for a few minutes should clear the line of any discoloration or odor." http://www.mlive.com/news/flint/index.ssf/2016/02/water_line_breaks_disrupts_ser.html#incart_river_home

- **A lead pipe removal plan** was announced by Flint Mayor Karen Weaver. It provides $55 million to replace residential lead pipes in the city. The initiative will be led by retired Brigadier General Michael McDaniels. http://www.detroitnews.com/story/news/michigan/flint-water-crisis/2016/02/09/flint-mayor-announces-lead-pipe-removal-plan/80052634/

- **Governor's office releases video on coordinated Flint Response** – the video features 2-1-1 and Team Rubicon assisting with home delivery of water resources to Flint residents. https://www.youtube.com/watch?v=PupJw3vztRQ&feature=youtu.be

CORRECTION:

This coming weekend's furlough is for Genesee County, not City of Flint employees: Genesee County employees will be out on furlough from Friday February 12 through Monday February 15, returning to work on Tuesday.

CALL VOLUME:

Jennie Pollak, Central Michigan 2-1-1 Manager is preparing a detailed breakdown of call data for the past month. February 9, 2016 marks one month that the State of Michigan has actively promoted 2-1-1 as a primary contact for the Flint Water Response. During that period 2-1-1 has provided nearly 11,000 referrals to Flint residents – slightly more than 1 in 5 of all service requests processed by 2-1-1 in the past month. *Look in tomorrow's update for the full report.*

SPECIAL NEEDS/REQUESTS

☑ **The Bureau of Services for Blind Persons** (BSBP) is working to ensure Flint's blind community has access to all information and resources related to the Flint water emergency. Information is available in braille by contacting the bureau. Flint residents who are blind or visually impaired and need further assistance or information should contact Sue Luzenski at the BSBP at Luzenskis@michigan.gov<mailto:Luzenskis@michigan.gov> or 517-335-4265.

☐ **Flint residents seek help understanding water test kits and results.** The types of assistance requested by Flint residents continue to evolve. As water test kits are distributed, 2-1-1 is receiving calls for assistance understanding how to fill out MDEQ's "REQUEST FOR WATER ANALYSIS" form. **Can MDEQ create an annotated version of the**

form to post at www.michigan.gov/flintwater to provide guidance for residents and 2-1-1 agents assisting residents to complete the form correctly?

- ☐ As water test results are posted online and mailed to residents, 2-1-1 is receiving questions about how to read and interpret results. **Is there a resource at MDEQ, Flint Water Department, and/or DHHS that can answer residents test result questions?**

RUMOR/SCAM CONTROL

- No new rumors to reports
  - 2-1-1 continues to receive calls reporting a variety of rumors -- agents are providing the most accurate and up-to-date information available to answer questions and reassure callers.

UNRESOLVED

- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
- ☐ **From 2/8/16: Residents are asking for help understanding lead testing results.** Results are beginning to arrive at what will happen next. **Can the SEOC provide guidance on the follow up process for households that have received their test results, particularly if the results indicate high lead levels.**
- ☐ **From 2/8/16: Residents have asked for the water test results link to be prominently featured on the Flint Water Site.** The link for residents to check water results on the www.michigan.gov/flintwater web has changed several times in the past week making it difficult for 2-1-1 staff to direct residents appropriately to locate their test results on the state web site.

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - *Obtain additional information from the City of Flint for Declaration of Emergency appeal.*
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.

- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.

- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- *Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA,* any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.

- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. ***Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)***
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.

- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Flint Joint Information Center Daily Update

February 9, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 9. The JIC was operational until 9 p.m. on Feb. 8.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, Health and Human Services, and Natural Resources. The Genesee County Sheriff's Office was also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from inquiries about state costs incurred due to the Flint water emergency to testing dogs for lead toxicity. Media inquiries have continued to decline.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Issued a news release about the role of the American Red Cross and United Way in coordinating volunteers.
- Issue a news release about the state's outreach to blind residents to help ensure access to information and resources.
- Shared the updated resource guides for water donations and recycling with 211.
- Continued updating and revising internal and general talking points to better reflect ongoing information.
- Continued routing public information materials for approval, including a newsletter article from the Michigan Department of Corrections and a Lead Toxicity fact sheet from MDARD.
- Continued discussions on drafting a news release to announce high-lead and copper teams that are beginning operations this week.
- Continued to post information on the www.michigan.gov/flintwater website, especially facts sheets and fliers in Spanish, Arabic, Mandarin Chinese and other languages.

- Held a 2:30 p.m. legislative and congressional conference call involving updates from key state agencies to talk about ongoing operations and activities.
- Revised staffing needs for next two-week period to reduce number of PIOs needed. Working to have staffing for Feb. 16 – 26 by Thursday.

Planned Activities

Wednesday, Feb. 10

- Governor's FY17 Budget announcement and media roundtable in Lansing
- News Release – Teams visit homes with high lead and copper levels (under development)
- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)

Thursday, Feb. 11

- Governor's TeleTown Hall at 2:30 p.m.
- News Release – Blood-Level Testing Available for Veterans and Their Families (tentative, pending coordination MVAA)
- News Release – National Guard lifesaving incident at Water Resource Site

Friday, Feb. 12

- News Release – National Guard Solders building relationships in the community

Saturday, Feb. 13

- No planned products or events.

Saturday, Feb. 14

- No planned products or events.

Monday, Feb. 15

- No planned products or events.

Tuesday, Feb. 16

- Congressional and Legislative conference call at 2:30 p.m.

Issued News Releases (February)

State of Michigan Joint Information Center

- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources

- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint

- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

Governor's Office

- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

Subject: STATEMENT: Oil Chem Statement -

Statement is as follows:

Michigan DEQ and the City of Flint Water Pollution Control are conducting an investigation into Oil Chem for receiving and discharging Liquid Industrial Waste from its facility. Oil Chem is a permitted facility within the FWPC system and its discharge to FWPC is regulated under the company's National Pollutant Discharge Elimination System permit. The investigation has been ongoing since October 2015. The state is investigating whether the company took in amounts of waste in excess of those it is permitted, and potentially discharged excess waste into the sewer system. Preliminary investigations indicate that the chemicals did not flow into the Flint water system and that any potential discharge – which would have occurred approximately five miles downstream from the intake for the Flint water treatment plant – is not related to the contamination of Flint Water with lead.

Subject: Oil Chem Statement - Please review and edit

Michigan DEQ and the Flint Waste Water Treatment Plant (FWWTP) are conducting an investigation into Oil Chem for the receiving and discharging of Liquid Industrial Waste from their facility. Oil Chem is a permitted facility within the FWWTP system and its discharge to FWWTP is regulated under their National Pollutant Discharge Elimination System

permit. The investigation has been ongoing since October 2015. The state is looking to see if the company took in excess amounts of waste than permitted and potentially discharged into the sewer system. Preliminary investigations indicate that the chemicals have not accessed the Flint water system and is not affiliated with the Flint Water Lead contamination issue.

Subject: ACTION: Flint JIC Staffing - Deadline: Noon on Thursday, Feb. 11
Attachments: Staffing - 2016.02.09 - ABV.docx

Fellow PIOs,

Thank you for your continued support of the Joint Information Center for the Flint water emergency. As operations enter the next phase of response, we are changing our staffing needs to scale back the number of PIOs needed each day.

Beginning Feb. 16, we will are requesting **TWO** non-lead agency PIOs each weekday to provide support for the media hotline and news email account, to assist with writing tasks and to help with media monitoring.

I ask that you please see the attached schedule for available spots and respond with staffing considerations by noon on Thursday, Feb. 11.

Hotel rooms can be provided upon request, if needed. Lunch and dinner will be served.

Thank you for your commitment to the Flint JIC.

Best regards,

Ron

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	41
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/15/2016 08:00:00
SEOC Hours of Operation End:	02/15/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 15, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.

JIC:
- Drafted talking points for Captain Kelenske for tomorrow's Congressional/Legislative briefing.
- Drafted responses to multiple questions received from the staff of a Congressional member; answers pending review.
- Identified a PIO to attend weekly community partners meeting (held each Thursday at 3 p.m.).
- Reviewed and updated ICS204 form.

Recovery Branch:
o Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings and Tactics Meeting.
o Updated ICS 204 form for the tactics meeting.
o Provided information on apartment complex data to Governors representatives.
o Team priority for today: 6 teams in the field - One team finished 83 addresses assigned for today and continued water distribution and Rapid Response.
o Team priority scheduled tomorrow: water distribution and supplies requested.
o 5 American Red Cross Teams scheduled for Tuesday, February 16, 2016.

o Total homes visited:
❑ 25,007 (round 3 total).
❑ 792 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
❑ 171,744 liters or 13,738 cases (round 3 total).
❑ 6,888 liters or 574 cases (today).
o Replacement cartridges:
❑ 5,722 (round 3 total).
❑ 238 (today).
o Faucet filters:
❑ 7,883 (round 3 total).
❑ 62 (today).

Planning Section:
- Developed and approved IAP #10.
- Developed and approved Sit Rep # 41.
- Attended tactics meeting to update branch chief 204s.
- Participated in State Agency and planning briefing for SEOC.
- Fielded questions from section chiefs and Local EOC.

Operations Section:
- Met with State agency EMCs to determine progress with their current IAP objectives.
- Participated in the Unified Coordination Group briefing.
- Facilitated the State Agency briefing conference calls.
- Participated in both Distribution Process meetings, and Tactics meeting.
- 61 volunteers were active across the operation today.

- Warehouse Numbers as of 1800:

❑ Water (liters):
• 776,215 liters or 64,684 cases.
❑ Filters (faucet):
• 47,132.
❑ Replacement cartridges:
• 403,486.
❑ Test Kits (prepped):
• 37,194.

• PODs (Number as of 1700 2/15):
❑ Water (cases):
• 36,312 liters or 3,026 cases.
❑ Filters (faucet):
• 71.
❑ Replacement Cartridges:
• 272.
❑ Test kits:
• 105.

Finance Section:
• Created a list of tactics for the ICS 204 for the upcoming operational period.
• Received Flint Child Health & Development Fund as a possible donation lead to research.
• Reviewed EMHSD time accounting for correct SEOC expense and activity coding. Made adjustments and corrections as necessary.

GIS Branch Updates:
• Produced updated maps for water sampling test results.
• Produced map of water sampling test results above action level.
• Parcel pairing of distribution data.
• Daily JIC map produced and sent to JIC.
• Validated/Geocoded water sampling test results data.
• Provided list of addresses contacted/filter status/water test kit status to Logistics to fulfill request from county EM.

DTMB:
• Procured supplies for Clio Rd. and Pierson Rd. warehouses.
• DTMB Smart Device Support Team provided assistance on an iPad issue.

DHHS-CH (weekly):
• The CHECC remains activated at a Level 2, and continue to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.
• The CHECC met with senior MDHHS leadership, UCG representatives and team members that have been supporting GCHD Case Management efforts today to continue planning efforts for lead testing and case management activities going forward.

DEQ:
• Deployed four sentinel water sampling teams to collect first round of samples. Test bottles with directions provided to residents for second sample to commence in two weeks.
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.

Unified Coordination Group (UCG):
• Developed Situation Report
• CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:
• In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
• 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
• Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
• Introducing local staff to EOC positions and processes.
• Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are inoffensive is received.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.

2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

Tasks accomplished:
- Created a media monitoring report to identify news stories requiring correction; found none.
- Drafted talking points for Captain Kelenske for tomorrow's Congressional/Legislative briefing.

- Drafted responses to multiple questions received from the staff of a Congressional member; answers pending review.
- Identified a PIO to attend weekly Community Partners Meeting (held each Thursday at 3 p.m.).
- Reviewed and updated ICS204 form.

Agriculture and Rural Development (MDARD)

MDARD has no activities to report for 2/15/16.

American Red Cross (ARC)

The American Red Cross deployed 6 teams on Monday, 2/15/16: 2 rapid response teams in partnership with AmeriCorps NCCC, 2 mobile teams assigned to clear the remaining addresses without a documented contact, and 2 teams delivering water in impacted neighborhoods.

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

33 new event-based volunteers were processed through the VRC. 33 event-based volunteers were active on projects today. The VRC worked on assembly of water bottle recycling kits. More than 20 boxes were filled with recycling kits today.

Civil Rights (MDCR)

No additional update reported. Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Provided recommendations on outreach/engagement for public health. Updated Activity log to encompass 21 January media coverage of metro-Detroit community engagement (water and donations drive) for Flint community.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

The CHECC met with senior MDHHS leadership, UCG representatives and team members that have been supporting GCHD Case Management efforts today to continue planning efforts for lead testing and case management activities going forward. Tomorrow discussions will continue with GCHD regarding the request for additional federal support for GCHD case management.

Corrections (MDOC)

MDOC began the process of turning over warehouse 2 operations to the 7th Day Adventist volunteer organization.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

244 DEQ and 15 MDARD test kits were delivered from Flint to Lansing today.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Deployed four Sentinel water sampling teams to collect first round of samples. Test bottles with directions provided to residents for second sample to commence in two weeks.

- Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

- Reviewed incident objectives to reflect Director's priorities for upcoming week.

- Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.

Human Services (MDHS)

As of 2/11/16, CSA reports 99% of current caregivers, who are caring for children under care and supervision of MDHHS, have submitted a water sample to approved water testing facilities.

211 reporting only 21 calls on 2/14/16 related to Flint water crisis.

MCSC reporting that DM was slow over the weekend. Will be catching up on data entry this week.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

LARA continuing efforts to plan and schedule faucet replacements for Flint schools. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1513002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: Ssg Gazzeny, Darryl L. Cell: (5 Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

This is the daily 2-1-1 summary on the Flint Water Response for Monday, February 15, 2016

GENERAL INFORMATION:

- **There will be an informational meeting one of the class action lawsuits** on Tuesday, February 16, 2016 from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.
- **United Way Worldwide announces details of Beyoncé's Formation World Tour benefitting Flint** with proceeds to support United Way of Genesee County's work to help the people of Flint dealing with the Flint Water Crisis. Fans will have an opportunity to donate to the Flint Water Fund after purchasing their tickets. Every $10 donated is an entry for an upgrade to the best house seats at each concert. US Tour tickets go on sale February 22nd.

CALL VOLUME:

Central Michigan 2-1- 1was closed today for the Presidents' Day holiday. SW Michigan 2-1-1 partner, which regularly handles after hours and weekend calls for Central Michigan, reported a few waves of calls that pushed wait times to approximately 10 minutes for short periods.

Call summary for the week of February 8-14

- 777 callers used the Flint Water prompt to reach a 2-1-1 agent.
- 1009 referrals were provided (1.3/caller) and there were 30 unmet needs recorded.
  - The majority of calls came from zip codes 48504 and 48505
  - The most common requests were for Drinking (Bottled) Water, Water Filters, and Tap Water Testing.
  - 17 calls were to donate or volunteer.

SPECIAL NEEDS/REQUESTS

☐ **American Sign Language interpretation may be available for Flint-area events** through a professor at Mott Community College. Email Tom Page at Michigan 2-1-1 for contact information: tpage@uwmich.org.

☐ **Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

RUMOR/SCAM CONTROL

- A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.

☐ Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these

efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097

- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether *this food is safe to consume*?**

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	39
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/13/2016 08:00:00
SEOC Hours of Operation End:	02/13/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 13, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.

JIC:
- JIC (Shanon Banner) was on call this weekend.
- On Monday (State holiday), she will be in the SEOC in the morning, and working from her office in the afternoon.
- JIC will be back up on Tuesday.

Recovery Branch:
- Attended Local brief, SEOC State Agency briefing meetings, Distribution Process meetings.
- Team priority visited today: Water distribution and rapid response.
- Team priority scheduled tomorrow: Visit the 83 addresses of City of Flint residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.
- 8 American Red Cross Teams scheduled for Sunday, February 14, 2016.

o Total homes visited:
- 23,169 (round 3 total).
- 788 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 154,644liters or 12,887 cases (round 3 total).
- 5,292 liters or 441 cases (today).

o Replacement cartridges:
- 5,173 (round 3 total).
- 305 (today).

o Faucet filters:
- 7,752 (round 3 total).
- 96 (today).

Planning Section:
- Published Sit Rep #39.
- Submitted daily Governor's report with research and clarifications.
- Participated in daily calls and meetings with UCG, state agencies and distribution process.
- Updated the Flint Water Timeline.

Operations Section:
- Attended 0830 UCG briefing conference call in SEOC.
- Conducted 0930 and 1600 State Agency Briefings.
- Attended 1030 and 1830 Distribution Process meetings.
- Responded to questions from Representative Kildee's office.
- Directed question on POD hours from the UCG to the State Director.
- Filed accident report of state EMC falling in SEOC to MSP Operations (Safety Officer), EMHSD command, and DTMB facilities.
- Discussion ensued about National Guard mission which has a current end date of Feb 16 (Tuesday).
- Warehouse Numbers as of 1800:

- Water (liters):
- 734,755 liters or 61,230 cases.
- Filters (faucet):
- 47,132.
- Replacement cartridges:

• 375,514.
❑ Test Kits (prepped):
• 28,823.
• PODs (Number as of 1700 2/12):
❑ Water (cases):
• 32,544 liters or 2,712 cases.
❑ Filters (faucet):
• 85.
❑ Replacement Cartridges:
• 317.
❑ Test kits:
• 88.

Finance Section:
• Update Spending Plan.
• Reviewing Agency Expenditures for inclusion as Category B eligible costs.
• Begin updates to cost reports for upcoming week submittal.

GIS Branch Updates:
• Meeting with ARC about lists for Red Cross missions.
• MSHDA/HUD Homes.
• Water Pressure Contours Map.
• Water Results Test.
• Filter points.
• Daily update Maps.

DTMB:
• Addressing parking issues at the Flint State Office Building parking ramp.
• Procured first aid kits for warehouses.
• Providing rights to DEQ SharePoint site.

DHHS-CH (weekly):
• The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.
• MDHHS continues planning efforts in support of lead blood level testing for children age 6 and under.

DEQ:
• Deployed Sentinel water sampling collection crews and continued data collection and monitoring.
• Continued assembling data for EPA Emergency Administrative Order and second EPA request.
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
• Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.

Unified Coordination Group (UCG):
• There is a public meeting at noon today that EPA staff will attend on "When is this over?".
• New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
• MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:
• Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
• Approximately 210 households have agreed to be sentinel monitoring points for long-term water testing as of 02/13/2016.
• Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
• Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
• Planning for transition from state agency support personnel to local personal in EOC.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 12. The JIC was operational until 9:30 p.m. on Feb. 11.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Treasury. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Media hotline staff answered more than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the status of the water pipes in Flint.
• MDHHS Chief Medical Executive Dr. Eden Wells joined Senator Stabenow, Mayor Weaver, Dr. Hanna-Attisha to join the Children's Health Fund to deliver a mobile medical clinic that will provide medical care to children in Flint.
• Created a media monitoring report and looked for misinformation.
• Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
• Key state agency PIOs staffed the Flint Water Interagency Coordinating Committee for media. Two media outlets attempted to

attend the meeting, but were advised about the LiveStreaming service available at www.michigan.gov/snyderlive. The news media was unhappy about not being able to attend in person.
• Issued a news release about a National Guard soldier saving a Flint resident's life. National Guard Spec. Charles Colwell was made available for media interviews at Flint Fire Station No. 1. Interviews were conducted with WEYI-TV 25, WNEM-TV5 and WJRT-TV 12.
• Continued routing public information materials for approval, including fact sheets on breast feeding and lead poisoning, lead and children fact sheet by the Michigan Alliance for Families, Frequently Asked Questions fact sheet, and supporting children and families fact sheet.
• Drafted a news release about the boil water advisory being lifted. The JIC intends to issue the news release upon approvals and official notification from partners.
• Held a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint. More 10 news media outlets attended, including local and regional members.
• Completed staffing for the next two weeks.

Agriculture and Rural Development (MDARD)

MDARD's activities for 2/12/2016 included the following:
We have addressed the resource request from Genesee County regarding blood testing for pets. MDARD will cover the costs of the MSU Diagnostic Center's tests for lead in blood and the sample form and index code have been provided. However, the other portion of the request, to test for copper, is per the State Veterinarian not best done through a blood test and an alternative has been suggested for those pet owners concerned about copper exposure.

American Red Cross (ARC)

The American Red Cross deployed 6 teams on Saturday, 2/13/16: 4 rapid response teams in partnership with AmeriCorps NCCC and 2 mobile teams.

The Volunteer Reception Center is operating today from 9am to 5pm. The plan is for the VRC to operate on the same schedule tomorrow.

Approximately 8,400 water test kits were assembled by VRC volunteers today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Advised senior leadership of forthcoming FOIA process request. Engaged in constituent outreach regarding request for informational documents.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Additional addresses of medically dependent individuals in the 48502 zip code were provided to GIS to be added to the medically dependent map and to be reviewed to make sure these addresses have been touched by the water and filter distribution strategy.

Corrections (MDOC)

Warehouse 2 is fully functioning and has been receiving loose, non-pallet water donations.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

2 hand pallet jacks arrived at the warehouse today from ALTA Equipment.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

LARA plumbing supplies were delivered to the warehouse today. LARA employees were on-site to inventory.

122 test kits were delivered from Flint to Lansing today. 122 were residential. No MDARD.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

• Deployed Sentinel water sampling collection crews and continued data collection and monitoring.

• Continued assembling data for EPA Emergency Administrative Order and second EPA request.

• Reviewed incident objectives to reflect Director's priorities for upcoming week.

• Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.

□ Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 233 of 402 homes were visited (changed 234 to 233 homes visited at 7:15pm).

Human Services (MDHS)

Participated in the SEOC Distribution Process Meetings at 10:30 and 18:30. No new action items.

Continue to review activities to provide support and assistance to assigned Human Services branch.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

LARA continuing efforts to plan and schedule faucet replacements for Flint schools. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1313002016.

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN).

3. POC: 1LT Roland, John G. Cell: Email: john.g.roland2.mil@mail.mil.

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502.

5. SITUATION OVERVIEW: 1-125 IN has 62 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 62 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, is actively seeking approval from Dana and/or Kim at the purchasing office for laminating.

b. A press conference was held at the EOC in regards to the DEQ sentinel teams and the data that has been collected within homes.

8. PERSONNEL: 62 Soldiers are currently assigned to the POD operations. 58 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Water boil advisory will be lifted.

10. LOGISTICS: In support of TF Flint

a. Schupon has placed an order for more instruction cards attached to recycle bags.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone.
C: 800 MHz radios issued to PODs and WRTs.
E: Runner.

12. NARRATIVE: N/A.

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit. When the incoming OIC has been selected, I would like to establish communications with them in regards to the aforementioned items before they report to Flint.
• OUT (last 24 hours)
Bottled water-5034 Water (Gallons)-43 Lead Testing Kits-131
Pitcher (23 cup)-0 Brita Faucet Filter-52 Brita Replacement Cartridge-153
Pur Filter-117 Pur Replacement Filter-407

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:

Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

Addressing parking issues at the Flint State Office Building parking ramp.
Procured first aid kits for warehouses.
Providing rights to DEQ SharePoint site.

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Data layers were compiled from various sources and are not to be construed as a "legal description"

Author: msp-seocgis@michigan.gov, (A111)
Created: 02:56 PM, 14 Feb 16

This is the daily 2-1-1 summary on the Flint Water Response for Friday, February 12, 2016

GENERAL INFORMATION:

- As a follow up reminder to yesterday's post about anecdotal reports concerning 2-1-1 response times and follow up with Flint residents, Michigan 2-1-1 takes caller concerns and any problems with the service very seriously. ***If you hear any complaints or concerns about 2-1-1, please ask the caller to provide the number used and the date of the call to tpage@uwmich.org, so we can research the incident and address any issues.***

- **WATER BOIL ALERT LIFTED**
  Per City of Flint and the SEOC the water main break is repaired and two tests for bacteria show safe results. Testing indicated no bacteria in the water during or after the repair of the water main break. The boil water advisory was a precaution because the loss of pressure in the water distribution system can make the system vulnerable to bacterial contamination.

  What to do after the water boil alert:
  - Residents do not need to boil their ***filtered*** water
  - Previously installed water filters are still safe to use, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed.
  - Residents are reminded to clean the aerator on every household faucet every week to remove any trapped lead particles
  - Residents should continue using filtered water for drinking, food preparation, brushing teeth and pets.
  - Unfiltered water may be used for bathing and cleaning, but not for washing fruit or vegetables.
  - Pregnant woman and children under 6 years of age should continue to drink only bottled water.

  Extra steps
  The U.S. Environmental Protection Agency and Michigan Department of Environmental Quality both encourage residents and businesses to ***flush their water for between two to five minutes through all taps every day.*** This will assist with flushing their individual pipes as well as rescaling the water system as a whole. This should be done first thing in the morning after the water system has been stagnant for several hours.

  To prolong the life of their filter, this ***daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.***

CALL VOLUME:

There was a noticeable increase in call volume, primarily related to the boil water alert. Call volume today was manageable with the additional capacity Michigan 2-1-1 partners put in place.

SPECIAL NEEDS/REQUESTS

General Observations on communications, outreach and awareness for Flint residents
This is personal commentary by Michigan 2-1-1 Director Tom Page.
Over the past month Michigan 2-1-1 partners have handled thousands of calls from Flint residents seeking up-to-date and trustworthy information. Different responders at the national, state and local levels have been generally helpful and responsive to requests by 2-1-1 for information and we are ready

to respond to callers 24/7, but this needs to be aligned with the activities of other partners to reach the broadest possible audience with accurate and current information. When government and community agencies are engaging in outreach and awareness activities, please consider the following:

- Special needs populations:
  - Seniors need materials with larger print and high contrast. Flyers and brochures with small dark blue print on a light blue background are very difficult for many seniors to read. We've had complaints.
  - Visually impaired and blind residents need materials in braille and/or orally.
  - Deaf and hard of hearing residents need access to print materials and interactive services like chat, email, TDD/TTY, and American Sign Language video chat services to have their questions answered appropriately and confidentially.

- Many do not have smart phones or regular internet access. What does this mean:
  - Limited or no access to watch online videos like YouTube – for example "watch a video on how to install your water filter", isn't possible for many residents.
  - Limited or no access to information through web links. It's ok to use hyperlinks to direct people to additional information, but make certain that information is available through other means, like snail mail or hard copies at public locations like libraries, schools and community agencies.
- Traditional broadcast media like TV and radio need to regularly repeat essential information like this week's water boil alert to ensure the message is received.
- Text can actually be a pretty effective way to reach residents with the free Lifeline phones (aka Obamaphones), several of which offer free unlimited text messaging to residents with incomes below certain federal guidelines – but residents need to know how to sign up for text alerts and trust the source of texts to provide accurate information and to limit the number of texts sent.

☐ 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☑ **Water Boil alert information has been the #1 concern of 2-1-1 callers for the past 48 hours.** With the lifting of the boil alert, 2-1-1 is providing the information noted above in the General Information section.

☑ **Reports of possible caller confusion related to 2-1-1 phone prompts.**
RESOLUTION: 2-1-1 has tested and implemented revised language for the phone prompts relating to the Flint Water response.

- **Callers are contacting 2-1-1 to report their water test results.** 2-1-1 is letting callers know that this not necessary.

RUMOR/SCAM CONTROL

- No new rumors to reports
  - 2-1-1 continues to receive calls reporting a variety of rumors – agents are providing the most accurate and up-to-date information available to answer questions and reassure callers.

UNRESOLVED

- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

  1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

- **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.
- **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

- ☐ **From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
  Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

Flint Water Media Monitoring Report
Feb. 12, 2016
[Afternoon]

Topics:

- Snyder releases departmental emails related to Flint water crisis
- Boil water alert
- Legionnaire's Disease
- Snyder virtual town hall
- Flint water impact on real estate market

Social Media:

  - Dogs test positive for lead
  - UAW donation
- Key hashtags: #FlintWater, #FlintWaterCrisis, #Flint, #Justice4Flint, #Dontdrinkthewater #waterforflint

Misreports:

- None at this time.

Headlines

Governor Snyder releases departmental emails related to Flint water crisis
"This morning, Governor Rick Snyder's office released departmental emails relating to the Flint water crisis…The emails include correspondence from the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development."
http://www.wxyz.com/news/view-governor-snyder-releases-departmental-emails-related-to-flint-water-crisis

Boil water advisory adds to confusion over how to make Flint tap water safe to drink
"If you live in Flint, it can be really hard to figure out what you should and should not do with your tap water. The messages from officials, scientists and non-profit groups sometimes conflict with one another and they've changed over time. This week, an unfortunate turn of events has made an already confusing situation even worse.
http://michiganradio.org/post/boil-water-advisory-adds-confusion-over-how-make-flint-tap-water-safe-drink#stream/0

On verge of Flint Legionnaires' alert, state stayed mum
At least six Environmental Protection Agency officials discussed in late March Genesee County's Legionnaires' disease outbreak and a suspected link to Flint's change in water sources – and were told the state would alert the public. No pronouncements about the outbreak were made then. Two months later, a Michigan health official's email to the Centers for Disease Control and Prevention declared "the outbreak is over." The disease would kill four more people in the summer and fall and would not be brought to the public's attention until the next year.

Snyder to Flint: Pick up the phone. It's your governor
Fears over eating produce from gardens in Flint fed by suspect water. The plight of children who drank city water but now live elsewhere. A lack of information about how to survive when lead-tainted water still flows from taps. Those were the revelations that Gov. Rick Snyder said he gleaned Thursday from talking to Flint residents by phone during a virtual town hall about the city's drinking water crisis.

http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/02/11/snyder-flint-pick-up-phone-s-your-governor/80237222/

Flint water impacts real estate market
The trickling effects of the Flint water crisis may be filtering into the housing market. Agents are now arming themselves with pamphlets directing questions about lead in the water to local experts and performing water tests, which weren't conducted prior to the water crisis.

Flint Joint Information Center Daily Update

February 12, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 12. The JIC was operational until 9:30 p.m. on Feb. 11.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Treasury. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered more than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the status of the water pipes in Flint.
- MDHHS Chief Medical Executive Dr. Eden Wells joined Senator Stabenow, Mayor Weaver, Dr. Hanna-Attisha to join the Children's Health Fund to deliver a mobile medical clinic that will provide medical care to children in Flint.
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs staffed the Flint Water Interagency Coordinating Committee for media. Two media outlets attempted to attend the meeting, but were advised about the live streaming service available at www.michigan.gov/snyderlive. The news media was unhappy about not being able to attend in person.
- Issued a news release about a National Guard soldier saving a Flint resident's life. National Guard Spec. Charles Colwell was made available for media interviews at Flint Fire Station No. 1. Interviews were conducted with WEYI-TV 25, WNEM-TV5 and WJRT-TV 12.
- Continued routing public information materials for approval, including fact sheets on breast feeding and lead poisoning, lead and children fact sheet by the Michigan Alliance for Families, Frequently Asked Questions fact sheet, and supporting children and families fact sheet.
- Drafted a news release about the boil water advisory being lifted. The JIC released the news release at 5 p.m. upon approvals and notification from partners.
- Held a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint. More 10 news media outlets attended, including local and regional members.
- Completed staffing for the next two weeks.

Planned Activities

Saturday, Feb. 13

- No planned products or events.

Sunday, Feb. 14

- No planned products or events.

Monday, Feb. 15

- News Release – Youth challenge academy (tentative)
- Surgeon General scheduled to visit Flint from Feb. 15-16

Tuesday, Feb. 16

- Congressional and Legislative conference call at 2:30 p.m.
- News Release – National Guard building relationships in the community
- Surgeon General scheduled to visit Flint from Feb. 15-16

Wednesday, Feb. 17

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

Thursday, Feb. 18

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- HHS Secretary scheduled to visit Flint on February 18

Friday, Feb. 19

- News Release – Genesee County and Baker College partnering to test blood-levels in pets
- Rev. Jesse Jackson is participating in a march in Flint on February 19

Saturday, Feb. 20

- No planned products or events.

Saturday, Feb. 21

- No planned products or events.

Monday, Feb. 22

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

Looking Beyond

- NBC25 Town Hall on February 29

Issued News Releases (February)

State of Michigan Joint Information Center

Community Outreach Q&A

1. The filters say 99% effective on the box. What about the 1% and how can I be sure?

NSF International, the public health and safety organization that tests and certifies residential drinking water filtration systems, has confirmed that the three water filters being distributed by officials in Flint, Michigan are currently certified by NSF International for lead reduction.

Specifically, Brita Faucet Filtration System, model number SAFF-100 (in white, black or chrome), the PUR Faucet Mount, model number FM-3700B, and the ZeroWater® 23-Cup Dispenser, model number ZD-018, are certified for lead reduction in accordance with NSF/ANSI 53 – Drinking Water Treatment Unit Standard for Health Effects.

Individuals wishing to verify that a specific filter is NSF certified can do so via the NSF website. Here are the links to verify each certification: Brita Faucet Filter System SAFF-100, PUR Faucet Water Filter System and the ZeroWater® 23-Cup Dispenser.

Consumers can contact NSF International at info@nsf.org or +1 800.673.8010 for any additional questions.

2. Why are we not being given whole house filters? Filtering the water as it comes into the house would solve lots of problems.

Whole House Filters are currently being discussed by all organizations involved.

3. Why does EPA take 20 samples from different areas of a house and the State takes only one or a few?

The EPA and MDEQ have different testing protocols. When conducted properly, both protocols are effective. Both organizations do multiple types of water (lead, copper, chlorine) tests and compare testing data to see if any areas of a site raise issues of concern. If they do, DEQ and EPA return for follow up testing and mitigation. The water testing process continues to be a collaboration between both organizations and the city.

As a reminder, to get your water tested, pick up a free water test kit at one of the water resource sites at Flint's five fire stations. Follow the instructions and drop it off at the same location. Your results are available on the Michigan.gov/flintwater web site under "Keeping Lead out."

4. Is lead the only thing scientists are testing for?

Water is being tested for a number of elements including lead, copper and chlorine. Additional environmental factors are also being monitored to establish a baseline for testing.

5. I am concerned about BPA (leaching of plastic from bottled water). Who is ensuring that the bottled water is safe?

The FDA has a responsibility to ensure bottled water is safe. The FDA acknowledges the interest that many consumers have in the safe use of Bisphenol A (BPA) in food packaging. FDA has performed extensive research and reviewed hundreds of studies about BPA's safety. We reassure consumers that current approved uses of BPA in food containers and packaging are safe. Additional research is underway to enhance our understanding of BPA. FDA will take these studies into account as it continues to ensure the safe use of BPA in food packaging. Here, FDA experts answer some key questions about the agency's research on and regulation of BPA.

What is BPA?

This resin code on a plastic container indicates that BPA may have been used in its manufacture.

BPA is a chemical component present in polycarbonate plastic used in the manufacture of certain beverage containers and most food can liners. BPA-based plastic bottles are clear and tough. In cans, BPA-based liners form a barrier between the food and the can surface that prevents corrosion of the can and migration of metal into the food. People are exposed to low levels of BPA because very small amounts may migrate from the food packaging into foods or beverages.

How does FDA regulate BPA?

The agency regulates all food packaging materials from which components can reasonably be expected to migrate into a food. These materials, including BPA, are subject to approval by FDA as indirect food additives or food contact substances, which are not intentionally added but may be found in the foods because of their proximity. There must be sufficient scientific information to demonstrate that the use of these materials is safe.

How does FDA evaluate the safety of food contact substances?

FDA's safety evaluations focus on three factors. These include the cumulative exposure to food contact substances that migrate into foods and beverages, the nature of the packaging components, and the safe levels of exposure.

Is BPA safe?

Yes. Based on FDA's ongoing safety review of scientific evidence, the available information continues to support the safety of BPA for the currently approved uses in food containers and packaging. People are exposed to low levels of BPA because, like many packaging components, very small amounts of BPA may migrate from the food packaging into foods or beverages. Studies pursued by

FDA's National Center for Toxicological Research (NCTR) have shown no effects of BPA from low-dose exposure.

Why is there such interest in BPA?

Some exploratory scientific studies have appeared in the public literature that have raised questions about the safety of ingesting the low levels of BPA that can migrate into food from food contact materials. To address these questions the National Toxicology Program, partnering with FDA's NCTR, is carrying out in-depth studies to answer key questions and clarify uncertainties about BPA.

http://www.fda.gov/Food/ResourcesForYou/Consumers/ucm046894.htm

6. Could we get Shower Head Filters distributed given the problems experienced with rashes and skin irritation?

Any resident with concerns about a rash should contact their primary care doctor immediately. If you do not have a primary doctor we encourage you to call 2-1-1 to learn about resources that may be available to assist you in finding resources to gain access to health care. The state is aware of concerns related to skin issues, but at this time there is no known scientific link connecting rashes to the change in water source. The Michigan Department of Health and Human Services (MDHHS) is currently recommending that bath time be used for bathing only, after which children should be taken out of the bath. Children should be supervised at all times while bathing and caution should be used to ensure that children do not drink the water. Any resident with concerns about a rash should contact their primary care doctor immediately.

7. When will we know if the improperly treated river water contributed to the spike in legionella?

The Michigan Department of Health and Human Services is still investigating the link between the river water and Legionella Disease. They need a scientific link from a case of confirmed Legionella to the environment. MDHHS is currently working with the Center for Disease Control (CDC) and local Health Department.

8. Should we use bottled water (vs. tap or filtered) in our humidifiers?

Residents should use bottled water in their humidifiers.

9. How soon can we get nurses into schools? We only have one nurse in the entire public school system.

The January 2016 supplemental provided funding for child and adolescent health centers in Flint schools. MDHHS is collaborating with MDE to expand this program. The supplemental funding will allow for additional nurses to be in schools in the coming months. The full, comprehensive plan that's being developed should be fully operational by the start of the next school year.

10. Who is focused on landlord obligations to make things safe for their tenants? If water bill credits are being offered to landlords, shouldn't the tenant who has been paying the water bill included with their rent receive the benefit?

Currently the Michigan State Housing Development Authority (MSHDA) is working with MSHDA funded rental properties, HUD funded Housing Choice Voucher Program participants, and landlords to ensure residents have access to bottled water, water filters, and replacement cartridges. MSHDA Staff has personally delivered resources and assisted with the initial installation of the water filters. They then looped back around to ensure replacement cartridges were received and tenants knew how to replace the original.

Additionally non regulated landlord tenant dwellings should adhere to lease agreements. All residents may visit a water resource site for supplies.

Regarding water bill payment, input from residents is being collected in an effort to establish an effective credit process that works best for those in an apartment or community housing situation.

11. We have been told not to run hot water through the filters which means even washing dishes is a chore requiring heating up water.

You may use unfiltered water to wash your dishes, this should allow residents to shift their filter aside and use hot water to clean dishes.

12. In the past boil alerts were due to under or over chlorination. Is the water properly chlorinated now and how do we know?

The recent boil water advisory issued for parts of Flint was due to a water main break unrelated to the water crisis. Past boil water advisories were due to bacteria in the water. Chlorination helps to control bacteria in the water. MDEQ is testing chlorination in the water throughout the city, right now chlorination levels meet safe drinking water act standards.

Residents are advised to follow any boil alerts that may go out until a notice goes out removing the boil alert.

13. Is canned water bad for us?

No, any container used to store water must meet FDA safety regulations. Some companies produce water in cans instead of bottles. FDA has established specific regulations for bottled water in Title 21 of the *Code of Federal Regulations* (21 *CFR)*...
Bottled water no matter the container type must meet FDA regulations.
http://www.fda.gov/Food/FoodborneIllnessContaminants/BuyStoreServeSafeFood/ucm077079.htm

https://www.accessdata.fda.gov/scripts/cdrh/cfdocs/cfcfr/CFRSearch.cfm?fr=165.110&SearchTerm=bottled%20water

http://www.epa.gov/sites/production/files/2015-11/documents/2005_09_14_faq_fs_healthseries_bottledwater.pdf pages 8-9

14. Are all the faucets being changed out in schools? When will that be finished and when will we be told whether that fixed the problem?

The Michigan Department of Licensing and Regulatory Affairs (LARA) has begun the process of replacing all water fixtures in Schools. Freeman elementary school in Flint is near completion.

Under Governor Snyder's emergency declaration and as part of the State of Michigan's effort to ensure safe drinking water throughout the city of Flint, LARA has begun an initiative to replace all water fixtures in Flint facilities that serve vulnerable populations. These facilities include every public, parochial, and charter school; child care center; nursing home; adult foster care center; surgical center; and dialysis center currently on the Flint Water System. There are an estimated 200 total facilities.

A LARA official will visit first the facility to create an inventory of the building's water fixtures, including faucets, drinking fountains and associated parts. The department will then schedule a time to replace all water fixtures in the facility free of charge. The goal is for all facilities to be completed by April 1, 2016. Certain fixture availability may delay the replacement of specific fixtures within a building.

Following a facility's fixture replacement, DEQ will test each water site and post the results.

15. The city's contractor for recycling (Republic) makes it too difficult for residents to sign up and get their bins/bags. Can you fix that?

Residents with weekly curbside trash collection can call Republic Services at 800-438-0966 to have a curbside recycling bin delivered to their curb. Republic Services provides bi-weekly curbside recycling at no additional cost to residents.
http://www.michigan.gov/documents/flintwater/Flint_Recycling_Information_Handout_512267_7.pdf?20160128111458

16. MSU appears to be the only entity working on nutrition outreach and getting fresh produce to convenience stores. We need to ramp up our efforts in this regard and take charge.

A list of grocery stores have been identified by inspectors in Flint. The list has been forwarded on to MDHHS. Mapping has been provided by MDHHS. Received two other resources for GIS mapping, Rick Sadler, MSU, and Greg Rybarczyk, Ph.D. Associate Professor, Department of Earth and Resource Science, University of Michigan-Flint. Follow up meeting today at 12:30 with MDARD. MDHHS, MDE and other partners from MSU Ext. UDIM and Nutrition Network.

MSU Ext is rooted in Flint, http://msue.anr.msu.edu/county/info/genesee Michigan State University's College of Human Medicine in downtown Flint. MDARD working with multiple SOM and non-government partners on nutrition and food safety.

Friday, January 29 the Governor signed into law Public Act 3 of 2016, a portion of which provides funding to connect Flint residents with improved nutrition for students, children and infants through WIC and in-school nutrition programs.

Additionally the Governor proposed a $15 Million allotment for food and nutrition in his FY 2017 formal budget recommendation. If approved by the Legislature, school lunch and breakfast programs, summer meal programs for children and mobile food banks would receive additional resources. The funding would also support food inspections at licenses food establishments through the Genesee County Food Safety Division.

The January Supplemental included more than one million in nutrition distribution funding, $100,000 of which has already gone to the Food Bank Council of Michigan to operationalize.

17. You said nutrition doesn't remove lead from the body but iron, calcium and Vitamin C can reduce/halt the absorption of new lead. Are there vitamins I should be taking?

Vitamins should not be taken as a replacement for eating healthy foods. Residents should not take supplements before consulting your primary care provider.

Calcium iron and vitamin C may help keep lead out of the body. Foods with these nutrients are recommended. Use of supplements should be discussed with your physician. People require different amounts of these nutrients depending on age and gender. There are tolerable upper intake level for most vitamins and minerals. A Tolerable Upper Intake level is the highest level of daily nutrient intake that is likely to pose no risk of adverse health effects in the general population.

Iron and calcium supplements should not be taken at the same time since calcium can decrease Iron absorption. For a list of foods with these nutrients check the links below.
http://www.michigan.gov/flintwater/0,6092,7-345-75251_75372---,00.html
http://www.michigan.gov/documents/deq/LeadInWaterInfoSheetV2a_511710_7.pdf
English[PDF - 128 KB](http://www.cdc.gov/nceh/lead/tools/5things.pdf)
en Español[PDF - 186 KB](http://www.cdc.gov/nceh/lead/tools/5thingsspanish.pdf)
Iron deficiency can increase lead absorption. Talk with your physician on the amount or iron that is needed and the correct form of iron to take.

18. What parts of the body does lead poisoning impact. I have heard that it goes to the bones, the brain, and gastrointestinal but is removed by kidneys and excreted in urine. Is this right?

According to the Centers for Disease Control
http://www.atsdr.cdc.gov/csem/csem.asp?csem=7&po=9 Agency for Toxic Substances and Disease Registry

The absorption and biologic fate of lead once it enters the human body depend on a variety of factors including nutritional status, health, and age.

Adults typically absorb up to 20 percent of ingested lead.

Most inhaled lead in the lower respiratory tract is absorbed.

Most of the lead that enters the body is excreted in urine or through biliary clearance (ultimately, in the feces).

The chemical form of lead, or lead compounds, entering the body is also a factor for the absorption and biologic fate of lead.

Inorganic lead, the most common form of lead, is not metabolized in the liver.

Nearly all organic lead that is ingested is absorbed.

Organic lead compounds (far rarer today after EPA's ban on gasoline additives containing lead) are metabolized in the liver.

Absorbed lead that is not excreted is exchanged primarily among three compartments

1. Blood
2. Mineralizing tissues (bones and teeth), which typically contain the vast majority of the lead body burden

3. Soft tissue (liver, kidneys, lungs, brain, spleen, muscles, and heart)

19. Abandoned buildings are set on fire and lead paint in walls can become smoke with lead that gets breathed in. Are our kids at risk when there is a fire in the neighborhood?

Lead in addition to other chemicals may be present in smoke from a fire. The Michigan Department of Health and Human Services recommend no one, especially children, directly inhale smoke.

20. What about my pets? Will the state animal response team get involved?

Lead toxicity in animals is reportable to the Michigan Department of Agriculture and Rural Development (MDARD). MDARD is taking calls from veterinarians who have patients that are suspect for lead toxicity. MDARD is paying for the blood test for these animals if the samples come in through a licensed vet (only dogs so far). We have allocated $5,000 for this effort. MDARD is working with a number of partners including Michigan State University College of Veterinary Medicine, ASPCA, Genesee County Humane Society, Genesee County Animal Control, and others to look at the potential for additional lead testing in Flint. MDARD and MSU CVM have developed educational material for the public and for veterinarians. These materials are available on the Flint water website in English and Spanish.

21. We have scammers in our neighborhood offering to do testing in order to gain access, steal, or offer fake services. What is being done about the scammers?

If someone is witness to or suspects criminal activity please dial 9-1-1 or the non-emergency number for Genesee County.

Additionally, the Michigan Attorney General Bill Schuette issued a warning about two common scams involving charitable giving and home and business repairs. Residents should ask to see the ID of anyone attempting to enter their home or business. It is completely appropriate to call the governmental authority or company they claim to represent. Check the company's complaint history by calling the Attorney General's Consumer Protection Division (toll free) at 1-877-765-8388.

22. There is not enough information translated in Spanish, Arabic or Chinese. When will this change?

The Joint Information Center is working as fast as the translators are able to have materials translated into Spanish, Arabic, Chinese, and American Sign Language. As soon as new materials come out, they are sent to a translator, and posted to Michigan.gov/flintwater under the Alternative Language Resources: Español - 中文 – العـــربي tab

23. What are you doing about people who have left Flint but were exposed to potential lead poisoning? Are you contacting them or giving them a way to contact you?

Anyone who lived in Flint after April 2014 and who has concerns should contact their primary care doctor or call 2-1-1. Additionally, we are notifying caregivers of children who are or were under the State's care from April 2014- January 2016

Community Outreach Q&A

1. The filters say 99% effective on the box. What about the 1% and how can I be sure?

NSF International, the public health and safety organization that tests and certifies residential drinking water filtration systems, has confirmed that the three water filters being distributed by officials in Flint, Michigan are currently certified by NSF International for lead reduction.

Specifically, Brita Faucet Filtration System, model number SAFF-100 (in white, black or chrome), the PUR Faucet Mount, model number FM-3700B, and the ZeroWater® 23-Cup Dispenser, model number ZD-018, are certified for lead reduction in accordance with NSF/ANSI 53 – Drinking Water Treatment Unit Standard for Health Effects.

Individuals wishing to verify that a specific filter is NSF certified can do so via the NSF website. Here are the links to verify each certification: Brita Faucet Filter System SAFF-100, PUR Faucet Water Filter System and the ZeroWater® 23-Cup Dispenser.

Consumers can contact NSF International at info@nsf.org or +1 800.673.8010 for any additional questions.

2. Why are we not being given whole house filters? Filtering the water as it comes into the house would solve lots of problems.

Whole House Filters are currently being discussed by all organizations involved.

3. Why does EPA take 20 samples from different areas of a house and the State takes only one or a few?

The EPA and MDEQ have different testing protocols. When conducted properly, both protocols are effective. Iron deficiency can increase lead absorption. Talk with your physician on the amount or iron that is needed and the correct form of iron to take.

18. What parts of the body does lead poisoning impact. I have heard that it goes to the bones, the brain, and gastrointestinal but is removed by kidneys and excreted in urine. Is this right?

According to the Centers for Disease Control http://www.atsdr.cdc.gov/csem/csem.asp?csem=7&po=9 Agency for Toxic Substances and Disease Registry

The absorption and biologic fate of lead once it enters the human body depend on a variety of factors including nutritional status, health, and age.

Adults typically absorb up to 20 percent of ingested lead.

Most inhaled lead in the lower respiratory tract is absorbed.

Most of the lead that enters the body is excreted in urine or through biliary clearance (ultimately, in the feces).

The chemical form of lead, or lead compounds, entering the body is also a factor for the absorption and biologic fate of lead.

Inorganic lead, the most common form of lead, is not metabolized in the liver.

Nearly all organic lead that is ingested is absorbed.

Organic lead compounds (far rarer today after EPA's ban on gasoline additives containing lead) are metabolized in the liver.

Absorbed lead that is not excreted is exchanged primarily among three compartments

1. Blood
2. Mineralizing tissues (bones and teeth), which typically contain the vast majority of the lead body burden

3. Soft tissue (liver, kidneys, lungs, brain, spleen, muscles, and heart)

19. Abandoned buildings are set on fire and lead paint in walls can become smoke with lead that gets breathed in. Are our kids at risk when there is a fire in the neighborhood?

Lead in addition to other chemicals may be present in smoke from a fire. The Michigan Department of Health and Human Services recommend no one, especially children, directly inhale smoke.

20. What about my pets? Will the state animal response team get involved?

Lead toxicity in animals is reportable to the Michigan Department of Agriculture and Rural Development (MDARD). MDARD is taking calls from veterinarians who have patients that are suspect for lead toxicity. MDARD is paying for the blood test for these animals if the samples come in through a licensed vet (only dogs so far). We have allocated $5,000 for this effort. MDARD is working with a number of partners including Michigan State University College of Veterinary Medicine, ASPCA, Genesee County Humane Society, Genesee County Animal Control, and others to look at the potential for additional lead testing in Flint. MDARD and MSU CVM have developed educational material for the public and for veterinarians. These materials are available on the Flint water website in English and Spanish.

21. We have scammers in our neighborhood offering to do testing in order to gain access, steal, or offer fake services. What is being done about the scammers?

If someone is witness to or suspects criminal activity please dial 9-1-1 or the non-emergency number for Genesee County.

Additionally, the Michigan Attorney General Bill Schuette issued a warning about two common scams involving charitable giving and home and business repairs. Residents should ask to see the ID of anyone attempting to enter their home or business. It is completely appropriate to call the governmental authority or company they claim to represent. Check the company's complaint history by calling the Attorney General's Consumer Protection Division (toll free) at 1-877-765-8388.

22. There is not enough information translated in Spanish, Arabic or Chinese. When will this change?

The Joint Information Center is working as fast as the translators are able to have materials translated into Spanish, Arabic, Chinese, and American Sign Language. As soon as new materials come out, they are sent to a translator, and posted to Michigan.gov/flintwater under the Alternative Language Resources: Español - 中文 – العـــربي tab

23. What are you doing about people who have left Flint but were exposed to potential lead poisoning? Are you contacting them or giving them a way to contact you?

Anyone who lived in Flint after April 2014 and who has concerns should contact their primary care doctor or call 2-1-1. Additionally, we are notifying caregivers of children who are or were under the State's care from April 2014- January 2016

SEOC Report for February 12, 2016

Full Days Since Emergency Declaration: 38

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- Per the local EOC following water transmission line break on 02/09/2016, Boiled Water Advisory will most likely be lifted between 1200 and 1500 on 02/12/2016. City of Flint will coordinate with JIC for messaging.
- SEOC staff is working to comply with FOIA request.

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 37

Boil Water Advisory Lifted by City of Flint

No Bacteria Identified

FLINT, Mich. – With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory at noon today.

Affected residents no longer need to boil their filtered water or use bottled water because testing did not reveal any bacteria during or after the repair of the water main break. The boil water advisory was issued as a precautionary measure because the loss of pressure in the water distribution system can make the system vulnerable to bacterial contamination.

Previously installed water filters are still safe to use given the absence of bacteria, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents are reminded to continue use of filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and children under six year of age should continue to only drink bottled water.

The U.S. Environmental Protection Agency and Michigan Department of Environmental Quality both encourage residents and businesses to flush their water for between two to five minutes through all taps every day to assist with flushing their individual pipes as well as rescaling the water system as a whole. This should be done first thing in the morning after the water system has been dormant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet at least every two weeks.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

MORE

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

New system looks at best practices for veteran care (ABC 10)
A fledgling system created to help improve long–term healthcare for Michigan's veterans is moving forward.

State veterans homes pursuing Medicare, Medicaid certification (UPMatters.com)
The Michigan Veterans Affairs Agency would receive $70 million to support the Michigan Veteran Health System under Gov. Rick Snyder's fiscal year 2017 budget recommendations, which were announced Wednesday.

Snyder budget recommendations include pilot program for local veterans home (UpperMichigansSource.com)
Governor Snyder released his 2017 budget recommendations on Wednesday. It allocates $1.9 million to create a pilot program at the D.J. Jacobetti Home for Veterans. Though the official budget isn't passed until early June, the funding is expected to pass.

MDEQ
Attorney general removed as counsel for MDEQ staffers (Detroit News)
A judge has removed the Michigan Attorney General's Office as legal counsel for current and former employees of the Michigan Department of Environmental Quality who are being sued by Flint residents over contaminated drinking water.

DEQ official: Staffers earn raises for Flint work (Detroit News)
A top Michigan Department of Environmental Quality official joked with employees that they deserved a raise for handling citizen complaints about lead contamination of the Flint water supply.

MSHDA
An investment in affordable housing is an investment in Michigan's children (Michigan Radio)
All over Michigan, there are cities and towns that suffer from a lack of affordable housing. The demand keeps growing, but the supply just isn't there.

DNR
Michigan Department of Natural Resources issues ice safety reminders
Mild winter weather led the Michigan Department of Natural Resources to remind ice anglers and snowmobilers that while lake-top activity is enjoyable, no ice can be considered safe ice.

LEGISLATIVE
In wake of Flint water crisis, House passes drinking water safety bill (CBS news)
In response to the crisis in Flint, Michigan, where the tap water is contaminated with lead, the House of Representatives on Wednesday passed the Safe Drinking Water Act Improved Compliance Awareness Act.

Lawmakers must decide to keep Michigan healthy (Michigan Radio)
If you are single, and want to meet someone, you probably don't want to go to the bar with a copy of the governor's budget request and say, "Hey, there's some really interesting stuff in here." That probably wouldn't even work in Lansing.

State Sen. Tonya Schuitmaker introduces overdose-reversal drug bill (Holland Sentinel)
State Sen. Tonya Schuitmaker, R-Lawton, recently introduced legislation that would increase a pharmacy's ability to dispense Naloxone, a medication used to reverse the side effects of an opioid overdose.

Bills would halt Michigan fracking, require chemical cocktail disclosure (mLive)
House Democrats want Michigan to dump high-volume hydraulic fracturing, or fracking, a controversial oil and gas extraction practice that some lawmakers want to temporarily halt until updated regulations are passed in the wake of a failed petition drive last year to place a statewide ban on the 2016 ballot.

Michigan Senate approves bill to ban liquor at fully nude bars (South Bend Tribune)
Michigan would strip state liquor licenses from bars offering fully nude entertainment under a bill passed by the state Senate this week.

State Sen. Smith may step down, serve 10 months in plea deal (Arab American News)
State Sen. Virgil Smith (D-Detroit) may resign his post and go to jail for 10 months as a part of a guilty plea in connection to shooting at his ex-wife last year.

U.S. Senate talks on Flint aid bill remain deadlocked (Detroit News)
Senate Democrats remain deadlocked with Republicans Thursday on reaching an assistance package for Flint a week after blocking a vote to advance the bipartisan energy bill over the issue.

Midland congressman grills EPA administrator on Flint water crisis (mLive)
The U.S. congressman who represents much of central and northern Michigan took a hard line with federal officials during a congressional hearing regarding the crisis over Flint's water supply.

Senate Majority Floor Leader honors 37 Vietnam veterans (The Oakland Press)
Knights of Columbus Council 8500 hosted a recent Lapel Pinning Ceremony at Holy Spirit Parish in Highland where more than 37 Vietnam veterans received lapel pins from State Senate Majority Floor Leader Mike Kowall, R-White Lake.

OPINION
Jacques: Building a better school board in Detroit (Detroit News)
For Detroit Public Schools to have a shot at survival, Detroiters are going to have to step up.

Editorial: Clean Power Plan stay a hollow win (Detroit News)
The U.S. Supreme Court earlier this week delivered a blow to the Obama administration's Clean Power Plan, the behemoth regulatory proposal to fight climate change with ambitious clean energy mandates in every state. It's a monumental decision from the High Court, and signals several justices have serious problems with making law via regulation.

What others are saying: Scrutiny of Flint, water safety (Detroit News)
The Flint water crisis continues to draw comment from pundits and publications as diverse as ESPNand the Chronicle of Higher Education. A sampling from the past week:

Brining failing charter schools to heel (Detroit Free Press)
Gov. Rick Snyder and would-be education reformers in both parties talk ad nauseum about holding *all* Michigan's schools accountable. But charter schools, which now serve 145,000 K-12 students in Michigan and vacuum up more than $1 billion in taxpayer funds, remain maddeningly insulated from public scrutiny.

U.S., Rep Elijah cummings: What does accountability mean to Snyder? (Detroit Free Press)
During Gov. Rick Snyder's State of the State address last month, he said to the people of Flint: "I let you down. You deserve better. You deserve accountability. You deserve to know the buck stops here with me."

Where Snyder's budget succeeds and where it fails (Detroit Free Press)
Money for Flint, money for Detroit Public Schools.

Working people step up to help Flint, Detroit—and Lansing can join them (MLive)
As president of the Michigan AFL-CIO, I see arguments for why our state needs organized labor every day. I see them in the statistics that show stagnating wages and a dwindling middle class. And I see them in our young people, who worry they'll never have a job that allows them to retire with dignity.

#####

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	40
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/14/2016 08:00:00
SEOC Hours of Operation End:	02/14/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 14, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Facilitated distribution team calls.
- Still working on getting the supplies and equipment needed for the second warehouse
- Working with Flint Public Schools, donations management and Walmart to find a location for their donated water.

JIC:
- Added Recycling information to the carousel on www.michigan.gov/flintwater.
- Added a link on www.michigan.gov/flintwater to the Attorney General's Consumer Advisory about scams targeting Flint residents.
- Tweeted a reminder about scams from EMHSD twitter account.
- Requested field PIO to arrange media interviews on Tuesday with local reporters regarding scams.
- Requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Recovery Branch:
o Attended Local Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
o Reviewed and commented on ICS 204 Forms Obj. 1 and 6 in preparation of meeting tomorrow.
o Team Priority Visited Today: Visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
o Team Priority Scheduled Tomorrow: Continue Water Distribution and Rapid Response.
o 5 American Red Cross Teams scheduled for Monday, February 15, 2016.

o Total homes visited:
- 24,215 (round 3 total).
- 1,046 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 164,856 liters or 13,738 cases (round 3 total).
- 10,212 liters or 851 cases (today).

o Replacement cartridges:
- 5,484 (round 3 total).
- 319 (today).

o Faucet filters:
- 7,821 (round 3 total).
- 69 (today).

Planning Section:
- Published Sit Rep #40.
- Submitted daily Governor's report.
- Participated in daily calls and meetings with UCG, state agencies and distribution process.
- Updated position procedures.
- Situation Unit continued work on appeal letter.
- Started updating IAP information for planning day tomorrow.

Operations Section:
- Met with State agency EMCs to determine progress with their current IAP objectives.
- Participated in the Unified Coordination Group briefing.
- Facilitated the State Agency briefing conference calls.
- Participated in the Distribution Process meeting.

- Warehouse Numbers as of 1800:

- Water (liters):
  - 677,953 liters or 61,230 cases.
- Filters (faucet):
  - 47,132.
- Replacement cartridges:
  - 375,514.
- Test Kits (prepped):
  - 28,674.

- PODs (Number as of 1700 2/14):
  - Water (cases):
    - 25,854 liters or 2,132 cases.
  - Filters (faucet):
    - 80.
  - Replacement Cartridges:
    - 181.
  - Test kits:
    - 50.

Finance Section:
- Created Category B Cost Assessment spreadsheet for appeal.
- Entered potential Category B Costs in spreadsheet.
- Work on updating the spending plan.

GIS Branch Updates:
- EM Power Map created & cross referenced if they were visited.
- Created individual area maps containing homes that are still not contacted.
- Water sampling map with test results for Lead & Copper with data from 12/13
- Validated field team location.
- Parcel pairing.
- Daily JIC map.

DTMB:
- Continue to provide DTMB management with daily updates and resource requests received.
- Providing Polycom phone to DEQ ECC.
- Modifying parking access to Flint ramp per SEOC request.

DHHS-CH (weekly):
- The CHECC remains activated at a Level 2, and continue to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.
- GIS provided MDHHS with the map and follow up of additional addresses of medically dependent individuals in the 48502 zip code as requested yesterday.
- The CHECC has been in contact with the GCHD EPC and they are discussing the potential need for additional nurse case manager support from federal partners. The current federally supplied nurse case managers will be leaving Flint this week.

DEQ:
- Deployed Sentinel water sampling collection crews and continued data collection and monitoring.
- Continued assembling data for EPA Emergency Administrative Order and second EPA request.
- Reviewed incident objectives to reflect Director's priorities for upcoming week.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 249 of 402 homes were visited.

Unified Coordination Group (UCG):
One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting info graphics to make the website less confusing.

Local EOC:
- Sentinel outreach campaign statistics:
  - 402 homes were initially contacted for the program.
  - 241 households have agreed to be sentinel monitoring points for long-term water testing.
  - Identified 10 lead service lines.
  - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Injuries:
- MDEQ worker fell in the driveway of a residence during work as part of the MDEQ sentinel monitoring program task force. No injury reported and incident was documented on an ICS 214.
- Non-Incident related: One person from the EPA was admitted to the hospital.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)
12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.

10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Joint Information Center / Public Information Officer

Tasks accomplished:
- Added Recycling information to the carousel on www.michigan.gov/flintwater
- Added a link on www.michigan.gov/flintwater to the Attorney General's Consumer Advisory about scams targeting Flint residents
- Tweeted a reminder about scams from EMHSD twitter account
- Requested field PIO to arrange media interviews on Tuesday with local reporters regarding scams
- Requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today

Agriculture and Rural Development (MDARD)

MDARD has no activities to report for 2/14/16.

American Red Cross (ARC)

The American Red Cross deployed 5 teams on Sunday, 2/14/16: 2 rapid response teams in partnership with AmeriCorps NCCC and 3 mobile teams.

The Volunteer Reception Center is operating today from 9am to 5pm, and the plan is for those hours to continue daily, Monday through Sunday.

101 new event-based volunteers were processed through the VRC. This total is comprised of 42 individuals and 59 people from four groups, the Environmental Council, Hilary for Michigan, Flint Derby and ELGA (a credit union). All 101 participated in today's relief efforts.

The VRC is finished with water test kit assembly for the time being. Consequently, it is focusing on putting together water bottle recycling kits. 44 boxes were filled with recycling kits today.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

GIS provided MDHHS with the map and follow up of additional addresses of medically dependent individuals in the 48502 zip code as requested yesterday. Information was provided to the Operations Chief. It does not appear that additional follow up will be required.

The CHECC has been in contact with the GCHD EPC and they are discussing the potential need for additional nurse case manager support from federal partners. The current federally supplied nurse case managers will be leaving Flint this week. A decision is anticipated in the next couple of days.

Corrections (MDOC)

Warehouse 2 is fully functioning and has been receiving loose, non-pallet water donations.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

67 test kits were delivered from Flint to Lansing today. 67 were residential. No MDARD.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Deployed Sentinel water sampling collection crews and continued data collection and monitoring.
- Continued assembling data for EPA Emergency Administrative Order and second EPA request.
- Reviewed incident objectives to reflect Director's priorities for upcoming week.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 249 of 402 homes were visited.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

LARA continuing efforts to plan and schedule faucet replacements for Flint schools. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1413002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: 1LT Roland, John G. Cell 7 Email: john.g.roland2.mil@mail.mil

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 62 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 62 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, is actively seeking approval from Dana and/or Kim at the purchasing office for laminating.

b. Soldiers are preparing for the unit change at the PODs.

1.) 1-125 IN will be replaced within the next 72 hours.

8. PERSONNEL: 62 Soldiers are currently assigned to the POD operations. 56 Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Water boil advisory has been lifted.

10. LOGISTICS: In support of TF Flint

a. Schupon has placed an order for more instruction cards attached to recycle bags.

b. Recycling trailers will need to be emptied this week. Working with POD NCOICs IOT determine an estimated time for a trailer exchange.

11. *COMMUNICATIONS: No communications issues at this time.*

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. *COMMANDER'S EVALUATION:*
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit. When the incoming OIC has been selected, I would like to establish communications with them in regards to the aforementioned items before they report to Flint.
• OUT (last 24 hours)
Bottled water-2435 Water (Gallons)-3369 Lead Testing Kits-96
Pitcher (23 cup)-0 Brita Faucet Filter-16 Brita Replacement Cartridge-71
Pur Filter-87 Pur Replacement Filter-230

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make *referrals to the Genesee Co. EOC for water and filter follow-up.*

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact Info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

Providing Polycom phone to DEQ ECC

Modifying parking access to Flint ramp per SEOC request

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.
